Dear Comrades,

As I am sure you will agree, the events and decisions of the most recent plenum of the IEC were highly significant. In my opinion, if they are loyally implemented by all sides, this will mark the beginning of the reversal of a centrifugal trend which has plagued the International for several years now. As you know, I was able to attend that meeting as an observer, and supported the positions put forth by the majority tendency. I believe it would be beneficial for the party to read a report on that meeting by a member of the SWP's observing delegation who supported the views of the majority. I am therefore inquiring whether you would make it possible for a report on the IEC written by myself to be circulated to the party as a whole through the internal information bulletin.

Comradely,

John Barzman

Dear Comrade Barzman,

In response to your letter of February 26, 1976, we suggest that you write a report on the IEC meeting for the Internal Information Bulletin. This confirms the message I gave to Joel Britton over the phone on Feb. 28 asking you to prepare such a report.

In order to get it in the Bulletin we should receive it by March 10.

Comradely,

Doug Jenness
