Dear Dave,

With great sadness we learned that you could not attend our congress. We do not understand very well the reasons why a friend of ours like you was prevented from coming to such an extraordinary event.

We could only read your letter to our congress and we did so.

We have sent you a complete collection of the documents of the Congress with comrade Manuel, of the leadership of the Mexican PRT. Let us know if they have arrived.

We received the material that you sent us recently. We have again raised, in pretty strong terms, the question of the publication of the document [or documents--the original is unclear--Translator] on Cuba with the United Secretariat. We trust that this issue will be definitively resolved in the next meeting of the United Secretariat, at the beginning of November. If this is not the case, we will have to undertake a whole campaign within the Fourth in defense of our rights.

Tender revolutionary greetings,
s/Sara
