Dear Comrades,

This is in reply to your letter to the United Secretariat of 8/3/79 concerning the actions of the "Liga Comunista" in the recent general elections in Spain.

The Bureau will of course give complete support to the LCR's decision to break off all relations with the LC, and you can quote this in your communications to the LC if you think it useful. Furthermore, the LCR, as the Spanish section of the Fourth International, is the only organization in Spain with any right to claim to be part of the Fourth International.

When you propose "Es necesario el pronunciamiento mas rápido posible del buró del SU...", do you have in mind a public statement that could be given to the press? If so, could you draft such a statement and read it to us over the telephone, since you would know what approach would be most effective?

Comradely greetings,

*Susan*
