Austrian Fascism and the ParisMeet

C. I. Impotence Veils Itself with Parliamentary Cretinism

not only a negation of Leninism, We can see this anew at the present time in the question of the part of the Austrian workers, on the sad results of their previous words: from the methods of Bolworks. If the legal Austrian C. P., possessing its own press, showed itself to be unable in the least to offer any resistance whatsoever to in Basle by the Stalinist bureauthe purely police repressions of cracy, which seems specially de-Austrian Bonapartism, how will it oppose the attacks of the Fascist ers from drawing the necessary bands? However, the Moscow Pravda sees in the very suppression the article from Pravda referred of the Austrian section of the C. to above, in its issue No. 17 as a I., which took place unresisted, a "victory", or, at least, the immediate introduction to victory. "The Anti-Fascist movement in Austria is growing every day" (!)—writes Pravda of May 28th. "Despite the sabotage of the leaders of the Austrial Social Democracy broad preparations are being made in all countries for the European Anti-Fascist Congress" (our emphasis.— L. T.). In precisely the same manner the Anti-Fascist movement "grew every day in Germany" only to disappear suddenly on the 5th of March, no one knows where. These people not only have learned nothing but they always cut their optimism in the same patterns. They are not revolutionists, but priests who repeat this or that formula, made up of consoling lies, at the bedside of the dying.

However, precisely in what is the anti-Fascist movement manifested? And why does it pass over the proscription of the Austrian C. P. in this movement "which is growing every day", with other more important tasks: the preparation of the Barbusse Congress in Paris. This is an example of parliamentary cretinism which should open the eyes of the most backward workers! It is wrong to think that a parliament is necessary for parliamentary cretinism; in general shaded rostrums are sufficient, forums removed from the arena of struggle from which false speeches can be made, barren formulas paraded, and twenty-four hour "alliances" concluded with journalists, pacifists, outraged radicals, tenors, and secution of the class-conscious the NSBO was able, after long, pa-

ON TROTSKY'S RETURN TO THE S. U.—RUMOR AND FACT

Some two months ago rumors were circulated according to which comrade Trotsky was to become reconciled with Stalin and return to the Soviet Union. No member of the Left Opposition took these rumors seriously. Stalinism is fighting against the Left Opposition more sharply today than ever. Rakovsky has been deported to the ice desert of Yakutsk, the Stalfnist press is prop-full of slanders and pogrom incitement against the Opposition, at the Paris Congress our comrades were physically attacked and finally ejected with the aid of the French police.

In addition to all this, Trotsky had refuted this senseless rumor and the denial appeared some time ago in the world press. But only now T. A. S. S., (official Stalinist press agency) comes along and reports:

"The Voss Gazette (Berlin) of June 8 and various other papers report that the Soviet Union has permitted Trotsky's return to Russia, the Voss Gazette making reference to Trotsky's representations to Turkish press representatives. T. A. S. S. is in a position to declare that Trotsky's representations do not base themly flow from an adventurous desire to misguide the readers. Trotsky was long ago banished as a counter-revolutionist, on the basis of a law put in force on February 20, 1932. The latter is and will remain in force."

Trotsky explained to an American press representative that if the further existence of the Soviet Union should be threatened by any danger, then he will be at its disposal with all his forces. So will the whole Left Opposition, if need be, even against the will

Federation of Jobless in Ohio Dear Comrades:

The main accomplishment of the Mahoning Valley Workers United Front Conference was the endorsement of the Federation of Unemployed Workers League's of Amerca and the calling of another conference on July 16 for the purpose of organizing a local federation. This proposal, which was made by Newby of the Left Opposition, was accepted unanimously by the conference of 65 delegates who represented 30 organizations with approximatly 5,000 supporters. The ocal federation will, of course, be affiliated with the national federation; it will probably be called The Federation of Unemployed Workers Organizations of Mahoning and Crumbull Counties.

Because the conference failed to rally the support of any of the A. F. of L. locals and was therefore composed of representatives of C. P.-influenced fraternal, defense and unemployed organizations, on the one hand, and sections of the Ohio Unemployed Leagues and various labor groups on the other, it was decided to limit the conference, for the most part, to the problems of the unemployed. The lack of time also made such a limitation advisable. But it was agreed that the broader problems of the working class should be brought forward for action in the newly formed federaion. However, the usual resolutions in regard to social and unemployment insurance, immediate reief, evictions, endorsement of relief march, struggles to free Mooney and the Scottsboro Boys, etc., were adopted. The conference also hopes to make an attempt to influence the state and national conventions called by the Ohio Unemployed League.

Lay Basis for Real AN OPEN LETTER TO THE

To the District Comm., Dist. 2, C. P. U. S. A.

On Wednesday, June 28, an open-air meeting of the N.Y. Branch of the Communist League of America (Opposition), at Pitkin and Bristol Streets was broken up by members of the party and the Y. C. L.

Breaking up street meetings of opponent working class organizations is not a working class or Communist practice. It has been condemned by every responsible working class organization. It has been condemned by the Communist International and the Communist Party of the U.S. It can result only in discrediting the people and the movement which practice it. Such tactics will repel workers who are moving towards Communism. Moreover it plays into the hands of the police who are looking for pretexts to break up workers' open-air meetings.

We call upon all party and Y. C. L. members and all workers generally to put a stop to this anti-working class practice. We call upon the District Committee of the C. P. to take the necessary steps to see that the members of the party and Y. C. L. conduct themselves as workers and Communists at workers meetings.

When he goes on to add, "Restoration of world trade is an important partner, both in the means and in the result", he shows clearly that this internal mobilization and concentration of control is directed toward domination of world markets by greater power in international struggle, not by international agreement.

Millinery Strike Progress Right Wing Excludes Left at Strike Conference of

Boston, Mass.—On June 26th, the Socialist Party of Boston called a "united front conference" to help the Jewish bakers who have been out on strike for the last three months. The call was sent to all Right wing organizations; it was also in the press. However, Left wing organizations sent their delegates as well.

The conference was called to order by Arkin, the manager of the Boston Forward, who made a speech explaining the purpose of the conference. Then he proceeded to elect a credentials committee. This started a protest from the floor. Someone declared that it was proper to turn the conference over to the delegates, who would themselves elect a chairman and all the conference committees. Arkin agreed to this, but he insisted upon appointing a credentials committee firs, in order to see who were the responsibility for the new shop legally scated delegates so that they can elect a legal chairman. His reason for this procedure was obvious; he was preparing to oust the Left wing delegates. More protests from the floor saying that Arkin himself had not been legally elected to the chair.

Only Right Wing Seated But Arkin insisted upon remain-

ing chairman and made a suggestion to appoint a credentials committee. Many of the delegates who did not understand Arkin's reason for wanting to appoint rather than elect a credentials committee, voted for his suggestion and it was carried by a slim majority. Arkin proceeded to appoint his men with such rapidity that it was clear that his machine was well-oiled. The credentials committee went out to check up. It did not take them long for they knew in advance whom to seat. In the meantime, Arkin called

upon one of the bakers' committee to talk. The bakers made a strong appeal to everyone to help in the strike and to save the union. Criticism can be levelled against the bakers' union, which allowed the strike to drag out so long without themselves calling a conference for help. I won't go into details on this matter now. When he ended his speech, the credentials com mittee reprted; recmmending that all the Right wing organizations be seated, leaving out the Left wing. It said that there was another section to the report which would be given later, after all the conference committee's had been elected. Again protests from all parts of the hall, demanding the full report of the credentials committee. Schlossberg, a delegate from the Workmen's Circle and a sympathizer of the Left Opposition, asked for the floor to say a few words and to delegates. Protest was of no avail; a chairman was elected.

Browder Criticises John Reed - - for **Trotskyism**

We quote from one of Browder's masterpieces appearing in the April Communist' page 361. Browder told the John Reed Club to read "Ten Days that Shook the World" and comrade X criticized his speech. (Our emphasis-W. M. K.)

"But I want to reject the criticism made by comrade X. He declared the Russian workers did not need any John Reed. I think the Russian workers did need John Reed. Lenin thought so. Lenin was delighted to have John Reed in the revolution and sometimes, after the ending of the civil war, comrade Lenin went out of his way to cause to be printed in Russian John Reed's book, and more, he wrote a special introduction for this Russian edition, in which he recommended it to the workers of did not do that for many booksby comrade Lenin.
