## Rubber Workers LABOR IN U.S. MUST PREPARE **Demand Sliding** Scale Pay Bonus

#### **Policy Committee Asks 30c Hourly Increase** Plus Automatic Raises for Rising Living Cost

**House Witch Hunt** The 200-man Wage Policy Committee of the CIO United Rubber Workers, meeting in Cleveland on Feb. 8, voted to **Committee Drafts** demand a sliding scale cost-of-living bonus, in addition to a

basic wage increase of 30 cents+ an hour, from the rubber corporations in forthcoming negotia-

This is the second CIO international union to incorporate in its wage demands a provision for automatic pay increases, above the basic scale, for any rises in the cost of living after the contract is The CIO Packinghouse Workers presented a similar demand to the "Big Four" packers, Armour, Swift, Wilson and Cudahy, along with a 29-cent an hour basic wage increase demand.

The Rubber Workers demand for a 30-cent basic wage raise is similar to that of the CIO United Auto Workers. It would include 25 cents for a general pay increase, plus five cents for a health and welfare fund. The present average wage in the rubber industry is \$1.35 an

There was little debate in the URW Wage Policy Committee on the cost-of-living bonus. The rubber workers have learned their lesson after seeing two fixed wage increases in as many years wiped out by price increases. The sliding scale cost - of - living bonus was adopted as the only immediate and realistic method of protecting real wages from further inflationary at-

### Labor Candidates Fear Sweeps Country As Farm Prices Fall With Record Speed

By Art Preis

"Is this it?" was the fearful question that ment of a slate of labor candi- flashed through every worker's mind last week as press headquarters screamed of tumbling com-CIO Council at its regular meeting modity prices and stock market jitters. Is this the beginning of the bust that must inevitably follow ment of candidates directly from the the collapse of the inflationary boom?

It is a grim irony that under capitalism our anxiety outweighs our hope at the prospect that skyrocketing make any advances in politics, it prices may now be on the way down. For the profit system must quit endorsing businessmen swings us continuously between insecurity and want. Either and phoney liberals and endorse inflated prices to rob us of our purchasing power during "prosperity," or a fall in prices that heralds mass unemployment,

No one-least of all the capitalist soothsayers-can say with certainty whether the drop in commodity prices will continue, or whether the government will succeed in temporarily holding them up by huge subsidies, purchases and other means of artificial respiration. We do not cil action. This was followed by an yet know whether we are hearing another subterranean rumble-a announcement to the public press warning-or whether the earth will rock and open under our feet

What we can be sure of is the instability and anarchy of American economy and the need for the American workers to be prepared for The Council went on record to the worst. We may be receiving only the most urgent warning to date. support John H. Wyant of the But this may well be IT—the beginning of the bust: American labor

#### Previous Warning Signs

There have been previous warning signs—the stock market break in September, 1946, and the cotton market crash shortly thereafter. In opposition to the above labor Government measures succeeded then in shoring up the cracking walls

> This time the cracks appear broader and deeper. The price structure has been raised to shakier heights. The foundation has been riddled by the speculator-termites. A slight breeze might topple the works. That fear gave a tone of near-panic to press headlines when grain prices fell farther between Feb. 4 and 6 than during any three-day

> In the wake of this violent break in grain prices, followed all along the line by other farm commodities, there came a reaction in the stock exchange. That barometer of the hopes and fears of the ruling capitalist circles started to sink at once, warning of an economic storm in the offing. If the stock market prices did not break as sharply as commodity market prices, that is because securities prices had never regained mucl of the ground lost in the summer of 1946.

> When plummeting grain prices were temporarily braked over the week-end, livestock prices started to toboggan, falling in one day, Feb. 9 to a 16-month low. The next day all commodity market prices, including such products as cotton and rubber resumed their plunge. Prices of securities in the New York Stock Exchange felt the worst slump in eight

> Business journals and financial columns have cited the immediate factors that started the skid in commodity prices. Crops in Europe are better; Australia, Argentina and Russia are exporting more wheat. It is the bitterest jest of all that U.S. capitalism is getting jittery because there is a little more food available for the hungry of Europe and Asia. These factors are described and analyzed in John G. Wright's article

#### Elements of Capitalist Crisis

But more deep-going and explosive elements underlie the instability of American capitalist economy—the classic elements of capitalist crisis: The widening gap between the wealth of the few and the poverty of the many; the inability of the workers to buy back what they produce; the growing glut of goods that cannot be sold profitably either at home or to the ruined peoples abroad. "Supply pipelines have been rapidly filling up." wails the Feb. 5 Journal of Commerce.

Average real take-home pay per week for American factory worker fell from \$35.33 in January, 1945, to \$29.58 in December, 1947. Factory inventories have reached an all-time peak of nearly 28 million dollars Savings have fallen to 5.6% of national income, a dangerously low level Business failures have tripled over a year ago. Industrial production has been declining since November. On Feb. 6, the U.S. Census Bureau reported unemployment on the rise, up 400,000 in January alone. Retail sales are down in many cities. Credit and loans have swollen to top heavy dimensions.

Despite the drop in commodity market prices, workers must n think that retail prices will necessarily fall sharply at once. Here an there retail grocery chains have cut prices slightly on the most inflated items. But only a drastic over-all slash in retail prices can restore the buying power of wages of even a year ago. Moreover, clothing, indus-

trial products and rents are still going up. Labor therefore faces a two-fold task: 1. To press more stremions than ever for higher wages and for assured protection from possible fur ther inflation—the sliding scale cost-of-living bonus; 2. To demand the 30-hour week at 40 hours pay, and unemployment insurance equal t

The handwriting on the wall is clear. The crisis may be forestalled a while; on the other hand, it may be under way right now. To delay protective measures may be ruinous. We repeat: LABOR MUST PREPARE NOW.

## Wallace's Program and the Fight Against Monopoly

Reactionary epochs like ours not only disintegrate and weaken the working class and its vanguard but also lower the deneral ideological level of the movement and throw political thinking back to stages long since passed through. In these conditions the task of the vanguard is above all not to let itself be carried along by the backward flow: it must swim against the current. If an unfavorable relation of forces prevents it from holding the positions that it has won, it must at least retain its ideological positions, because in them is expressed the dearly paid experience of the past."

#### Let the Membership Decide!

33 narrow-minded and willful men are trying to ram a disastrous pro-Truman political line down the throats of the 6 million working men and women of the CIO.

By a vote of 33 to 11, these members of the CIO Executive Board voted to commit this great host of labor to a political company union policy, without so much as bothering to consult the membership on their wishes in the matter.

Now, to add insult to injury, it is given out that Murray is going to kick out all officers on his staff and all elected officers of the state and city CIO bodies who decide to campaign for Wallace. (Under this ruling it's OK, of course, to campaign for strikebreaker Truman).

Murray is following here a notorious precedent. Twelve years ago, William Green and the mossbacks of the AFL Executive Council issued a similar decree. They ordered the expulsion of all officers of city and state AFL bodies who decided to support the Committee for Industrial Organization—and thus paved the way for the present split of the trade union movement.

The Stalinists, who are the immediate victims of Murray's brazen order, are the very same people who voted to grant Murray political party and run labor's independent these autocratic powers at the November, candidates.

1946, CIO Convention.

No wonder. They pursue the same undemocratic METHODS. They are trying to by-pass the trade union movement and foist Wallace on the rank and file, without giving the membership the opportunity to express itself on this most important of all questions confronting labor in 1948.

Isn't it right that the rank and file who have to do the campaigning and voting, be given a chance to have their say? Isn't it fitting and proper that the men and women who are paying in their dollar bills to the PAC, should decide what the PAC policy is to be in 1948? Isn't it a disgrace that the PAC has not yet seen fit to call a convention to democratically vote on national policy?

It is high time for the ranks to break through the machinations of the bureaucrats and insist on their democratic rights. IT IS HIGH TIME THAT A NATIONAL CON-VENTION OF THE PAC BE CALLED. In this way the CIO membership can determine whether to support the Murray policy of backing strikebreaker Truman, or to join with the Stalinist adventure of boosting Wallace—or as The Militant advocates, to break with capitalist politics and set up labor's own

#### The Voracious War Machine

How much more of the American people's money and resources do the rulers of this country propose to drain off for the war machine and their conspiracy to bolster up tyrants and would-be dictators abroad? Is there no limit at all to this policy of unrestrained extortion?

First we were told about the Marshall Plan, which is allegedly going to "reconstruct Europe" at a cost of 6.8 billion dollars for the first 15 months. Then we were confronted with the demand for 1.4 billions for "government and relief" in occupied areas; 133 millions for the Philippines; and 750 millions for China, Greece, Turkey, Japan, Korea and Trieste. Now we are told that is not enough and another one-quarter billion is asked for the corrupt dictator of China. Total: 9-1/3 BILLIONS, not counting direct appropriations for the armed forces, atomic bomb, etc.

And that's not all by a long shot. That doesn't take into consideration the demand voiced by Truman's Air Policy Commission, since the publication of his 40 billion dollar budget, for an air force expansion program starting at 11/2 billions a year and rising pro-

Nor does that figure allow for the real cost of the proposed peacetime conscription program. Truman said it would cost 2 billion dollars a year when it got going full swing. But now the CIO's Economic Outlook shows that " a figure of 3 billion dollars would be a conservative estimate" of the annual cost of this Prussian-like program. And Hanson W. Baldwin estimates that it would run between 3 and 5 billions a year.

It's time to call a halt! Soaring prices, burdensome taxes, restricted production of peacetime goods are only one side of it. The other side is even more horrible in its implications—a third world war waged with atomic bombs and bacteriological weapons that can wipe out most of the world's popu-

The only way to put an end to this mad spree is through independent labor political action to end the rule of the capitalist twoparty system. Permanent war and militarization will be the consequence if the workers fail to reject the false counsel of the union bureaucrats and launch a party of their

### \$3 Billion Kick-back Racket

Anyone who still doesn't believe we have a government of, by and for Big Business should study carefully the list of tax-rebate recipients announced by the U.S. Treasury Department on Feb. 8.

The Treasury handed out nearly three billion dollars (\$2,887,735,904) in tax repayments during the fiscal year of 1947. This huge sum, nearly equal to total corporate profits in 1939, went mainly to big corporations, the lion's share to the 100 largest industrial monopolies in the U.S.

The biggest single kick-back went to U. S. Steel Corp., Morgan-controlled trust. Big Steal - beg pardon, Steel - raked in net profits of only \$126,704,272 in 1947, twice its 1946 grab. So the philanthropic government helped U. S. Steel out with a tax refund

of \$63,580,904. Next in line at the Treasury trough was

the Mellon-owned Westinghouse Electric Corp., with a refund of \$57,398,182. The New York Central got a "relief" check of \$41,995,-929. General Motors found \$36,293,611 in the Treasury's cracker-jack box. Secretary of Commerce Harriman's Union Pacific dunked \$11,959,849 out of the gravy bowl.

This three billion dollar tax kick-back is just the dessert to the solid meal of 171/2 billions in net profits the corporations loaded into their paunches in 1947—and that's nearly twice what they swallowed in 1946 and four times the repast they put away in 1939.

There's been a lot of back-and-forth talk between Democrats and Republicans in Washington about cutting the little fellow's taxes. The capitalists aren't waiting for cuts -they're getting back billions of the taxes

masses of Negro people carry on often goes unnoticed in our daily press. Since the big riot of 1943 the people of Harlem have not relaxed their efforts to wring equality from the merchants of 125th Street. So great was the tension that the Mayor's Committee on Interracial Unity had to intervene and produce a hastily written report and recommendations to both merchants and people.

The recommendation shows how deep and genuine is the popular movement: Prices must be disted clearly on all merchandise; the two-price policy must be eliminated; prices and quality must corre-

Very significant are two others. Customers must be treated with courtesy and employes must be promoted on the basis of qualification and experience. Harlem has

fought and won the battle that Negroes must be employed in stores that cater mainly to Negroes. Now they see that mere hiring of Negroes is not enough. They must be able

Here is a battle for democracy that does not cease, that wins a partial victory, only to find that the struggle becomes broader and deeper. This same struggle is pursued in scores of Negro communities all over the country. Tremendous stores of revolutionary energy, experience and organization are being unobtrusively accumulated. One day we shall see it unloosed in full force on a

The labor movement will do well to realize the importance of these movements, which are of far greater significance than many of the more publicized legal battles.

Commence of the Commence of th

# Eyewitness Describes How Masses Began Revolution In Indo-China

By Lucien

This article -- the first in a series of four - was written by an Indo-Chinese comrade who personally played a leading role in the Indo-Chinese revolution. This is the first direct testimony reaching us on the revolutionary uprising in Indo-China and the activity of the Trotskyist movement, which, despite the terrible blows it has sustained from imperialist and Stalinist reaction, continues to live and to struggle in the vanguard of the Indo-Chinese-revolution-Ed.

On Aug. 16, 1945, at 9 o'clock in the morning, the news of the definitive defeat of Japanese imperialism was announced throughout all the countries of Indo-China. Next day the Japanese general staff resigned its civil administration of the native peoples. According to the terms of its declaration, Japanese imperialism turned over all power to the legal governments of the various countries which made up former French Indo-China; Viet-Nam, Cambodia and Laos. These peoples, the same declaration added, were independent from then on, with the right to self-determination.

Several hours after this news was given to the people of Viet-Nam, from north to south, from city to country, from factory to street from one family to another, there portions that it could have overof all ages, without distinction of political opinions, flocked to the streets in turbulent waves; they of blood for the complete liberation of their country.

The workers of the Banco quarter of the city of Saigon, the first to start moving, set up the first out into the streets with guns stolen rooms. from the Japanese and hidden for many months. Others had pistols ing their weapons, they formed into ists. armed detachments of fifty, a hunrevolutionary hymn in chorus, then power of the people!"

# Treaty with Britain

when I do illustrations? Oh, it's not merely that I For quite a while I had been don't pick the subject I'd like to paint, like when I watching the man on the camp came out here to paint these furnaces with the molten stool over where the steel plant metal pouring out of them. This is too slow, too perfence comes around near Number fect. One, and after the cast when I had brought up the heat I walked any other factory worker. You know how we work it? Suppose I'm doing one for a love story and I want a over to the fence.

"You work in there?" the man fellow and girl on a couch, kissing. I get a couch and asked, pointing a thin paint brush a couple of models. We get the right pose and snap in the direction of the smouldering ladles. a picture of them. Then I put the picture in a pro-

"I'd like to, for a while. I'd get some real pictures just like a child with tracing paper. It's faster that

out of that place."

I grinned. "You'd get a lot more than that." I as I do, maybe better. And I wanted to be a great swabbed my face and neck with a soggy blue ban- artist!"

I peered through the woven wire fence at the can- "Couldn't you do it your own way and maybe turn out vas set up in front of the man. There was Number a little less?" One, golden iron dashing out of the third spout into the ladle. The stoves were very black against the smiled wearily. blue-green sky, and the orange glow fanned out above the furnace. He had caught the cast perfectly, even that foolish question that's answered even before it's to the dark little figures of the gang up on the bright asked. "Why don't you quit and do the kind of work

"That's great," I said. "You caught it just right." He seemed genuinely pleased. "I haven't had in the furnace gang answer. "When you're a married much chance to paint since my vacation last year," man with kids and you've got a job, you don't just

"What do you do for a living?" I asked.

He grinned. "Paint," he said. "I don't get it."

A shadow of reluctance, of distaste crossed the school with new ideas for turning out the work man's face. It was easy to see that there was just faster, and you've got to keep up with them . . . one vacation a year with just so many days to it, and he didn't go on vacation for the sake of talking about running his turret lathe. I thought of office workers his jeb. But he told me anyway.

"I work for a magazine syndicate," he said. "I'm the plant, driven with nerve-cracking speed. Maybe an illustrator.' the workers need Socialism most, I was thinking, but they're not the only ones that need it! "Well, that's painting, isn't it?"

The Negro Struggle -

### Jim Crow and "National Defense"

– By Albert Parker –

just as it was of the Roosevelt administration during the last war. profits out of the toil of the working people. They feel so strongly about it

that Royall, while grudgingly granting the New Jersey National Guard permission to enlist members on a non-segregated basis "for the present," in effect warned the other 47 states that they would be denied funds and equipment for their National Guards if they tried to do the same. You the see how vital this question is to the brass hats who, while howling for more military appropriations and peacetime conscription, are willing to disrupt and paralyze a section of their armed forces reserves rather than permit any interferece with the reign of Jim

This question is equally vital to the Negro people and the organized labor movement. To understand how vital, just stop and ask yourself: What kind of "national defense" is it that requires the degrading separation of white and Negro troops? What is actuof the color of their skins?

spout beautiful phrases, but their hands wield the basis.

Jim Crow segregation of Negro soldiers is "in whip of "white supremacy" even in the armed forces. the interest of national defense." That's what Secre- When they talk about "national defense," they are tary of the Army Royall said last week, and he wasn't not talking about democratic practices, which they speaking for himself alone. That violate a thousand times each day. They are talking is the view of all the brass hats about defense of the capitalist system—of profits to and of both capitalist parties and be coined out of the exploitation of labor at home and of the Truman administration, abroad. What they want to defend is the "Ameri-

## NEW TAX BILL **FAVORS THE RICH**

sentatives, or enough to override a veto, has passed the Knutson tax bill, and the measure is now before the Senate.

This bill represents a big grab for those with the largest incomes. At a time when Big Business is making more profits than ever before, this bill would hand out additional billions to the upper-income brackets. It's strictly "relief for the greedy."

workers will also get some reductions under the bill. But their benefits the WFT/U in all but name. This will be peanuts, even though they are hardest hit by inflation and need

See how this bill favors the rich and continues to soak the poor: Look at the figures showing how much the bill would add to the takehome pay of tax-payers at both ends of the income scale:

3.3%. But a married couple with the same number of children and an income of \$100,000 would gain \$18,077 a year, or a boost of 48%. The chart printed below gives a full picture of the projected tax

of \$2,400 would take home an additional \$76 a year, or an increase of

steal. It also emphasizes the need for a bill placing the tax burden on those who are most able to pay.

Tax the rich, not the poor! Give tax relief to those who need it, not to those already wallowing in profits and luxury! Repeal the payroll tax! Abolish all taxes on incomes under \$5,000 a year!

Here is the setup under the Knutson tax bill:

#### MARRIED COUPLE WITH TWO CHILDREN

Net Income	Take-Home Pay Under Present Law	Take-Home Pay Under New Bill	Increase In Take- Home Pay	% Increase In Take- Home Pay	
\$ 2,000	\$ 2,000	\$ 2,000	\$ 0	0.0

## Issue of Marshall Plan Used to Split WFTU

A scheme calculated to split the world labor movement on the issue of the imperialist Marshall Plan was perfected last ern states which have requested week in London by represen-

tatives of the CIO and the countries. Last month they held a partment regulations requiring, "in British Trades Union Congress.

inist-dominated sections of the tion of Labor as a rival to the Stal-World Federation of Trades Unions inist-controlled Latin - American ulations, he said "will be continued (WFTU), the CIO and British TUC | Labor Confederation. The AFL has | leaders are going ahead with prep- also been invited to the conference except for the New Jersey Guard, arations for a conference of unions in Belgium.

INTERNATIONAL BLOC

Their aim is to consolidate an international bloc of labor groups in support of the pro-imperialist Western Bloc being organized by the U.S. State Department and the British Foreign Office, A split in the WCTU would be welcomed by the U.S. State Department.

An ultimatum was sent last month by the TUC leaders to the WFTU secretariat in Paris demanding a meeting of the WFTU Executive Bureau to discuss the Marshall Plan. Failure to call this meeting led to a sharp blast from Arthur Deakin, chief British representative.

CALL FOR SPLIT

Deakin's attack was the signal for the right-wing Belgian trade union leaders to issue a call for the Marshall Plan trade union conference next month in Belgium. Such a con-The supporters of the bill are spreading a lot of ballyhoo that the ference would constitute a split in split would extend not only along national lines, but might tear apart existing unions within countries. Such a split has already taken place in the French Confederation of Labor. For example, a married couple with two children and an income

The AFL leaders are going ahead with similar State Department-inspired plans. The AFL chiefs have

concentrated on the Lutin American Royall called attention to War De-

The threatened split in the WFTU comes three years after it was set up with the blessings of both the Kremlin and Washington. Its purpose was to line up world labor in the Allied imperialist war camp. Now it is being divided into proimperialist and pro-Stalinist camps in both cases against the interest of the workers.

#### A Stalinist Nomination For Vice President Stalinist Clyde F. Ganaway,

CIO National Maritime Union port agent in Mobile, Alabama, spoke on Wallace-for-President at his local meeting. The NMU Pilot, Feb. 6, reports: "Gov. James (Big Jim) Folsom has announced he will seek the nomination for the presidency at the Democratic convention, Bro. Ganaway pointed out, saving that Folsom and Wallace would make a good ticket in November." A Feb. 7 Associated Press dis-

patch on the Conference of Southern Governors reports: "Gov. Folsom of Alabama advocated support of 'favorite son' candidates rledged to uphold traditions of 'white supremacy' in the Democratic Convention."

the demand for unsegregated units in the New Jersey National Guard. But it has done so reluctantly and on a temporary basis, with reservations calculated to restrict this change to New Jersey alone. And at the same time it has sharply reaffirmed the policy of strict segregation of Negroes inside the Army

MONDAY, FEBRUARY 16, 1948

Last November a new state constitution was adopted in New Jersey, prohibiting segregation because of race or color in the state's militia (or National Guard) and schools. The Army is involved because the National Guard is one of its civilian components, getting money and equipment from the federal government. The Army claims the "authority to determine all questions relating to the federally recognized National Guard.'

After the new constitution went into effect at the beginning of the your, the Army ordered the continuation of segregation in the New Jersey Guard, Governor Driscoll, In response to Negro and labor pressure, directed the state Guard officials to ignore the Army order and abide by the state constitution.

On Feb. 8 Secretary of the Army Royall wrote Driscoll that "for the present" the Army will give federal recognition and funds to the New Jersey Guard.

This means that when the opportunity is favorable, the brass hats intend to withdraw even this slight concession to the Negro

Royall explained the exception for New Jersey on the ground that its constitution specifically prohibited segregation.

#### THE ONLY STATE

Since New Jersey is the only state with such a constitutional provision, this means that the Army will not grant a similar exception to any other state, including those north-

conference in Lima, Peru, where they the interest of national defense," Despite opposition from the Stal- set up the Inter-American Federa- that Negroes "be organized into separate units" in the Army. These regin force for the regular Army," and will also be effective for the fed erally recognized civilian compon-

ents of the Army" This means that in time of war, when Grard units are generally transferred into the regular Army, the New Jersey Negro Guardsmen will again be Jim Crowed.

On Feb. 2, Royall's superior officer, the commander-in-chief. President Truman, had sent Congress a message on civil rights in which he declared: "I have instructed the Secretary of Defense to take steps to have the remaining instances of discrimination in the armed services eliminated as rapidly as possible."

Six short days later, Royall's letter highlighted the loathsome hypocrisy of Truman's message by upholding Jim Crow segregation, which is the foundation-stone of ALL the "instances of discrimination in the armed services."

Unsegregated National Guard units in New Jersey represent a victory for the opponents of Jim Crow. But Royall's letter makes it plain that this victory is very limited, and that it will take a lot more changes in constitutions or laws to achieve genuine equality. Required above all is a change in the capitalist social and economic system-a fundamental change that will eliminate the profit motive responsible for race discrimination and oppres-

## Reuther's Views on Longer Week Protested by 200 UAW Leaders

ists representing 50 UAW local unions in the Detroit area expressed vigorous opposition to the inference of President Walter Reuther, in his statement to the Senate Foreign Relations Committee, that the of the meeting who said, "Reuther's auto workers are ready to accept proposed 44-hour week appears to the 44-hour week as a solution to us to be the opening wedge to shatthe problem of inflation.

The assemblage also unanimously went on record to reiterate its support of the wage program of a flat 25-cent per hour wage increase, plus a cost-of-living bonus clause as proposed by five Flint UAW local presi- work hours. We believe that the de-

the proposal to reduce the wage demands to 15 cents per nour and that we make can be protected and ad
