### **Landlord Incomes Rise Almost 10%**

Net operating incomes of New York City landlords last year were 9.7% greater than in 1943 when rent controls went into effect, according to a large sample survey made by the office of Federal Housing Expediter Tighe E. Woods.

The survey was made at the request of the New York City Rent Advisory Board after it heard pleas of landlords and real estate interests for a general 15% rent increase in this area. Tenant groups, on the other hand, demanded a 5% decrease in rents.

The survey, covering 48,852 rental units in 1,331 properties, disclosed that far from suffering "hardship," as the landlords claimed, they netted \$10,377,46? income in 1947 as compared with their not-inconsiderable take of \$9,457,350 in 1943.

## **OUR UNITED FRONT PROPOSAL** AGAINST SMITH 'GAG' ACT

- An Editorial -

The offer of the Socialist Workers Partycarried in last week's Militant-to aid the Communist Party in organizing a broad fight against "Gag" Act, has aroused widespread comment. It is common knowledge that the Trotskvists are deadly political opponents of the Stalinists. It is further well known that the Stalinists gave aid and comfort to the government in its frameup and conviction of 18 Trotskyist leaders during the war under this same Smith Act; and they did everything in their power to obstruct the campaign to arouse the labor movement to

### United Front Offer

The united front offer of the SWP is based on no fly-by-night decision. We Trotskvists are people of principle. And one of the fundamental principles to which we adhere is the necessity of the whole labor movement to act in solidarity against any and all attempts to deprive any working class group or individual of civil rights and liberties. Any deviation from this basic principle has invariably wrought havoc to the labor movement. It destroys the solidarity of labor which is needed to ward off the attacks of the capitalist class. It permits tyranny and reaction to divide the ranks of labor in order the easier to defeat them.

One of the greatest crimes of the Stalinists-

among their innumerable crimes - is their systematic violation of this very rule. We, as principled labor militants, never permit ourselves to be motivated by spite, anger or other such petty and unworthy considerations. Despite Stalinist treachery in aiding the prosecutors of our comrades in the Minneapolis labor case, we now extend to them the offer of solidarity against these same anti-labor prosecutors-because the broad interests of the whole labor movement and the fight for civil liberties demand it.

### A Broad Committee

We will continue our campaign for the organization of a broad committee, representing all tendencies in the labor movement, to smash the government conspiracy against civil rightsdespite the Stalinists' shameful refusal to reply to our generous proposal, and despite their dishonorable and reactionary conduct at the Wallace convention in turning down a proposal to fight for the restoration of the civil rights of the 18 Minneapolis Case victims.

In this way, the horrible heritage of Stalinism will be wiped out and the tradition of labor solidarity and united action in the face of enemy attacks again restored. And incidentally, further telling blows will thus be dealt to the already waning Stalinist influence in the labor

## Calls for Escalator Wages, Mass Consumer Committees **And Nationalized Industries**

The following is the text of the radio address by Farrell Dobbs, Socialist Workers Party candidate for President, delivered over the national network of NBC on Friday evening, Aug. 6. NBC granted the radio time to Comrade Dobbs to reply to Truman's Message to Congress.

I want to begin tonight by thanking President Truman for calling the Special Session of Congress. By this one action he has done more to expose the deceit of the Republican and Democratic election platforms than I could in a hundred speeches.

The voters of America are watching the political sideshow in Washington where the performance of both parties is again proving their subservience to the monopolies and their cynical disregard for the welfare of the working people.

When this special session ends, the Negro people will remain an oppressed minority, still deprived of their civil rights, still the victims of discrimination and lynch law. The Republicans and the Northern Democrats quickly surrendered to the White Supremacists on the poll tax issue. The Senate filibuster could easily have been smashed. But the capitalist politicians actually welcomed the filibuster as a pretext to abandon their civil rights promises to the Negro people.

Truman is a party to the farce and scandal of the Special Session. By a stroke of the pen he could have eliminated discrimination in the army and the national capital. His presidential order leaves segregation — the worst form of discrimination - intact in the armed forces.

### Graft, Not Housing

The homeless veterans, the slum dwellers, the inhabitants of congested flats will get no relief from this Special Session of Congress. Some substitute for a housing bill may be passed before adjournment. But it won't even be the Taft-Ellender-Wagner Bill to which both parties are committed. That bill made a feeble gesture toward a public housing program by calling for five million housing units although twenty-five million are needed right now.

If any housing bill comes out of this Congress, it will not contain any provision for government built low-rent housing, nor for slum clearance. But it will guarantee more fat profits to the building trust for the construction of homes for the well-to-do. That's not housing — it's graft.

An effective housing program must begin with the nationalization of the building industry and its operation under control of the workers. This program should be operated through a government planning board of architects, engineers and representatives of the Workers in the building trades. It

about inflation. But whatever bill it does or does not pass, adjourns than they were on the day it convened. The Truman surrendered. Democrats and the Dewey Republicans cannot and will not do anything about the high cost of living because they cannot cope with the fundamental causes of inflation.

The two main causes of inflation are the huge expenditures for war — the last one and the next — and the robbery of the American people by the profiteering monopoly corporations.

Both major parties are committed to a war program and have been voting billions in appropriations to finance it. Every

ton of steel used for tanks or guns creates a scarcity and raises the price of refrigerators and automobiles. Every bolt of cloth used for uniforms creates a scarcity and raises the price of suits and dresses. The tons of food stockpiled for the military machine jack up the cost of pork chops and potatoes.

The war budget is not even up for consideration by the Special Session. And that's one lifthe thing to be thankful for, because every time Congress takes up the war budget a few extra billions are tacked on to it.

Profiteering — or to call it by its right name, plundering of the American people — by the

monopoly corporations is the second main cause of inflation. You are well aware of the billions made in profits during the war. That was bad enough. But today, according to Marriner S. Eccles of the Federal Reserve Board, peace-time profiteers are raking in twice the plunder they did in the war year 1943.

### Profits Come First

The last Congress helped along this profit grab by lifting the excess profits tax. Truman does not now urge that this tax be completely restored and the Special Session is ready to Consumers Committees Needed turn down his suggestion for only partial restoration. Profits come first. That's what the capitalists say — and that's how their political agents act.

Truman is proposing a return to government control over prices. The experience of World War II shows he is baiting a trap for the workers. Despite wartime controls, prices rose locality which should become the official agencies for checking steadily. Administration officials found one pretext after another to lift price ceilings and they winked at the thriving black market. But every capitalist politician in office did his level best to enforce the wage freeze which was clamped on the workers in return for a fraud of government price control.

The fact is that prices are controlled today, controlled by rich become richer, more reactionary and more arrogant. the huge monopolies. They fix prices, restrict production, ration raw materials — all for their own unlimited profit. It is the vicious cycle. This control by the monopolies over the economy and the government must be broken before effective price controls can be instituted and the living standards of the people improved.

### Smash the Stranglehold

The program of the Socialist Workers Party aims at smashing the stranglehold of Big Business and transferring control over economic and political life into the hands of the workers and farmers, the overwhelming majority of the Am-

We propose to nationalize, not this or that public utility as Wallace promises, but the meat combine, the steel trust. the chemical and oil monopolies, the banking syndicates and all other giant private corporations. These trusts must be nationalized without compensation. Through profits and high prices, the American people have already paid many times over for these industries. Unlike the Norman Thomas brand of nationalization, we advocate the operation of these basic industries under the democratic control of the workers.

While fighting for this basic program, steps must be taken to insure that wages keep pace with prices. The Socialist Workers Party was the first to advocate the principle of the sliding scale of wages. We propose that every union contract and government employment regulation contain an escalator clause which would guarantee an automatic rise in wages with every rise in prices. Such a cost of living bonus would be added to the guaranteed basic wage which could not be reduced even if

Next month the General Motors workers will receive an automatic increase in wages under the escalator clause in their present contract. This increase will not equal the real rise in prices because it is based upon the notoriously inaccurate government price index. This emphasizes the need for the unions MINNESOTA BLFE GROUP to establish their own statistical bureaus as the recognized agencies for measuring price increases.

The capitalist government, swarming with servants of Big Business, has demonstrated that it cannot be relied on to hold down prices. Only the people themselves can do this. The great mass of consumers, workers, veterans, farmers, housewives, must organize their own independent committees in every and policing prices.

The high cost of living is the high cost of maintaining the profit system. This profit system moves from depression to war to inflation — and then repeats this terrible cycle all over again. At every point along this ruinous road, the American people pay heavily. They suffer either from lack of jobs or from lack of buying power when they are working, while the

## Revolutionary International of Youth Must Be Built, Proclaims Manifesto

a continuation of the Manifesto issued by the recent World Congress of the Fourth International.

### For a New Revolutionary Youth International

After the first World War, it was from the cadres of the Socialist Youth, following the glorious example of its great international leader, Karl Liebknecht, that the young communist parties of Europe issued. After the second World War, it is again in the cadres of the Socialist Youth of several countires that the first breaks with the treacherous leaderships are taking place and the first searchings for a new revolutionary International. That the youth is the motive force of all revolutionary movements is not at all a simple empirical observation. The conditions of existence of decaying capitalism weigh most heavily on the young generations of workers, whether of hand or brain, who find themselves from birth cut off from any hope of a future. Bureaucratic sterility and the stifling atmosphere of intrigue and hypocrisy, which now rule in the old workers' organizations, likewise drive the most gifted of the youth, and the most devoted to their class to violent revolt. It is not by accident that the Fourth International, itself deriving from ar

opposition which in part came from the youth, is now an organization which is composed in its great majority of young workers and students in all countries. This is, at the same time, the surest pledge for its future development.

The organizations of bourgeois youth (Catholics, semifascist) and those which claim to be working class (reformist and Stalinist), intensify their efforts with the aim of promoting systematic de-politicalization of the young workers. The disgust inevitably provoked by the policies of capitulation and compromise of the traditional organizations also tends to operate in the same direction. That is why the Fourth Internaional systematically instructs the exploited youth in political understanding of their miserable lot. Education of revolutionary youth cadres is the indispensable pre-condition for assuring that the emancipating struggle of the proletarian youth will be centered around class objectives.

The Fourth International completely rejects every condescending attitude towards the young workers and their problems. It neither puts on protective airs nor does it peddle professional speeches. It begins by itself applying the principle which it unceasingly proclaims: Emancipation of the working youth, like that of the proletariat in general, can only be accomplished by the young workers themselves. That is why the Fourth International fully recognizes the right of the revolutionary youth to its own class organization, whose activity is centered in the very first place on the problems of the working class youth all, the big employers. Next, and question-and-answer period. itself: The struggle for the right to work and to education, for the right to life and leisure. The revolutionary policies of the youth and the organizations which embrace them take a place of prime importance in the struggle against militarism, imperialism and war, a struggle which is itself one of the central revolutionary tasks of our epoch.

But at the same time that it fully recognizes this right to a specific organization, policies and program for the revolutionary youth, the Fourth International appeals to the working youth to understand that its own problems make up an integral part of the general problems which are today posed before humanity. In the factory and in the barracks, in the yards and the univer- Law; Truman's strike-breaking; sities, the working class youth collides with enemies which are the injunctions against the Unithe enemies of the collective proletariat and laboring masses: Monopoly capitalism and its increasingly totalitarian State. # **PROPOSES LABOR PARTY**

The following forceful resolution, calling for the formation of a labor party, was adopted by the State Legislative board of the Brotherhood of Locomotive Firemen and Enginemen at its just-concluded convention in Duluth, Minn.

Labor is on the retreat all along the line before the offensive of the employers. Labor is harassed by constantly rising living costs on the one hand and repressive labor legislation on the other hand.

But Labor's economic power is a tremendous force. Only through our organized force have we been able to wrest wage gains and improved working conditions from the powerful monopolists. But we do not have the political power, comparable to this economic rower. Time and time again, we ave seen our hard-won gains other governmental centers. "The human race has a right to be proud of its Aristotle, Shakespeare, Darwin, Beethoven, Goethe, Marx, Edison and Lenin. But why are they so rare? Above all, because almost without exception, they came out of the upper and middle classes. Apart from rare exceptions, the sparks of genius in the suppressed depths of the people are choked before they can burst into flame. But also because the processes of creating, developing and educating a human being have been and remain essentially a matter of chance, not illuminated by theory and practice, not subjected to consciousness and will. . . Socialism will mean a leap from the realm of necessity into the realm of freedom in this sense also, that the man of today, with all his contradictions and lack of harmony, will open the road for a new and happier race."

### Local 107 Shows the Way

The July 26 Militant contained an editorial bringing attention to the case of two union men at the South Philadelphia works of Westinghouse Electric who were fired at the instigation of the Navy Department as "poor security risks." Our editorial hailed the prompt action of CIO United Electrical Workers Local 107 which struck the plant and forced the company to reinstate the victimized workers.

We are glad to see that Local 107 has not let the matter rest there. We have just received a copy of a hard-hitting pamphlet published by the local which described the events and their meaning for all labor. The attractive cover is decorated with a photograph of the motto over the entrance of the Supreme Court Building in Washington-"Equal Justice Under Law."

On the cover is also the statement: "American trade union workers in the South Philadelphia Works of the Westinghouse Corporation in Lester, Pennsylvania, sounded a significant note for the preservation of basic democratic rights in the United States on Monday and Tuesday, July 12 and 13, 1948."

We especially want to quote the introduction of the pamphlet: "It's an American story enacted and told many times before in America but rarely duplicated exactly. Each time it's new people, a new idea, a new driving force but always the same fight—the fight to preserve the individual's right to think . . . and say . . . and believe what he likes; the

fight to remain innocent until proven guilty; the fight for a just redress of grievances. . .

"For the first time in a long time Americans have fought back . . . fought back and won! That's what makes this story different. Plain people in the face of much opposition stood up and were counted when they recognized their civil liberties being threatened. We haven't been hearing about this kind of thing lately, especially in the trade union

This pamphlet is a splendid contribution to the fight for the integrity of the union movement and the cause of civil liberties and we urge our readers to secure it, read it and pass it along to other workers. It can be obtained from Local 107, CIO United Electrical Workers, 345 Bartram Avenue, Essington, Pa.

We wish to repeat the warning of our previous editorial. The Westinghouse incident is but one of many similar attacks on union militants. The corporations are being assisted by the military authorities in victimizing good union men and women, without hearing or charges, under the pretext of "national

This outrageous and dictatorial abrogation of union rights by the military can lead to the destruction of the unions. The whole labor movement must be aroused to the danger and launch a nation-wide campaign to halt this menace. Local 107's action and pamphlet point the way.

### Shameful Incident

Shachtman's Workers Party has made its bow on the presidential election arena. It has come forward, not with a program or candidates, but with a "position" which is probably without precedent in the socialist movement.

The WP leaders advise their followers to vote for either Norman Thomas of the Socialist Party, Farrell Dobbs of the Socialist Workers Party, or Edward Teichert of the Socialist Labor Party. These are all equally socialist, according to the statement by the National Committee of the Workers Party, and that is why they do not prefer one to any of the others.

Having no better guide, it would seem that the conscientious WP members would have to toss a coin to decide whom to vote for in

But Marxism provides much better ways to differentiate between rival parties and their candidates. These are tested by their programs and performance.

From these decisive standpoints, Norman Thomas, as Trotsky once remarked, can be considered a "socialist" only as the result of a misunderstanding. Thomas supported U.S. imperialism in World War II while Farrell Dobbs went to jail for his revolutionary socialist opposition to the war. By supporting the Marshall Plan, Thomas shows his readiness to back Wall Street in its projected Third World War.

Teichert is the candidate of the sectarian Socialist Labor Party which comes to life

### Free Enterprise?

Under their banner of "free enterprise," giant monopolies have controlled the economic and political life of this country for the past 50 or more years. They are the real rulers of the nation.

From time to time—usually before elections—one or another of the very political parties controlled and financed by these monopolies put on a show of "trust-busting" in order to win some votes. The Truman Administration, through the Federal Trade Commission, is putting on such a show right now. As all such performances of the past demonstrate, it won't bust the trusts. But it does

give us more information about them. The FTC's recent report, entitled, The Merger Movement, shows how the big monopolies have continued to grow even since 1940 by absorbing smaller, independent firms. Such mergers have caused the disappearance in eight years of more than 2,450 formerly independent manufacturing and mining companies. Nearly a third of these companies have been absorbed by corporations with more than 50 million dollars of assets. Of the country's 200 largest corporations, 123 have made corporate acquisitions since 1940; 46 have absorbed from five to 10 other companies in less than a decade.

only at election time and ignores the real class struggle the year round. No one, including the WP, has taken them seriously as a force for socialism during the past 30 years.

Until yesterday the WP claimed to be Trotskyist and interested in uniting with the SWP. Today they cannot distinguish between Thomas, a supporter of American imperialism, and Dobbs, a consistent opponent of Wall Street and its policies.

This bizarre election statement by the WP is an obvious attempt to overcome its internal differences and reconcile the conflicting tendencies within the organization This position is devised to permit its opportunist elements to vote for the Social Democrat Thomas, while leaving room for those who desire to be revolutionists to back Dobbs.

This is the same kind of unprincipled politics which seeks to include in the same party those like Albert Goldman and others, who acclaim the Marshall Plan, and those who opposed it. It arises from their attempt to hold on to their intellectual friends, James T. Farrell, Felix Morrow, and others who are campaigning for Norman Thomas and support the Marshall Plan.

The choice is clear for those in the WP who wish to remain true to revolutionary socialism. They should vote for the SWP candidates, Dobbs and Carlson. Any one of the SWP election headquarters will furthermore welcome their assistance in the campaign to place the candidates of revolutionary socialism on the ballot.

Two years ago, The Militant ran a series of articles on "World War II and the Monopolies," showing how the monopolies had grown during the war with the aid of the Roosevelt government. These articles analyzed the findings of the Senate Small Business Committee, which revealed that just 250 corporations by the end of the war controlled more than two-thirds of all manufacturing facilities in the United States. Since then the monopolies have obtained billions worth of government-built plants for a song.

The purpose of the FTC report, its authors claim, is to call attention to loopholes in the Clayton Anti-Trust Law, passed during the first administration of Woodrow Wilson to close loopholes in the Sherman Anti-Trust Law of 1890. The only conviction ever secured under the Sherman Act was the conviction

of the great Socialist and union leader, Debs. Monopoly, as Marx and Engels pointed out a hundred years ago, is a natural development of the capitalist system. Monopolies cannot be curbed under capitalism. They can only grow and grow like a cancer until

they destroy the country. The only way to eliminate private monopolies is by governmental expropriation and the operation of the means of production and distribution under workers' control.

### Criticizes Militant On CP Statement

Just finished reading the issue of The Militant of July 24 in which Farrell Dobbs' statement on the arrest of the CP leaders appears. I consider the statement inadequate. Our defense of civil rights in the United States flows from a principled position — that is we consider first and foremost such rights from the class angle When the Capitalist state attacks an organization within the working class orbit, we undertake its defense regardless of our disa greements. But when it comes to the Stalinists, our delimitation

The Socialist Workers Party isn't just another TALKING party—it's an ACTING party. That's one thing, among others, that makes the SWP different from all other parties in the 1948

presidential elections. Although the SWP is still small in numbers and resources, it has done more than all other parties put together in the fight for civil rights and in defense of labor and the Negro people.

This is the first of a series of articles to inform our new friends and readers on the record of the Socialist Workers Party. We have earned the right to ask your support of our candidates, Farrell Dobbs for President and Grace Carlson for Vice President, by our record in the struggle against the labor-haters, fascists and Negro-

. If there's one real test of any party, that is its record in the fight for Negro equality. The proud record of the SWP is written large in such recent historic actions as the Fontana case in California, the Freeport case in New York and the Hickman case in Chicago.

An appropriate start for our series is a description of the role of the SWP in the successful defense of the life of the Negro steel worker, James Hickman, twice tried for the killing of his landlord after his four children had burned to death in a fire-trap blaze in Chicago's Black

The significance of the Hickman case and the historic mass defense movement initiated and inspired by the Chicago Local of the SWP is attested to by a 14-page article, "The Hickman Story," written by John Bartlow Martin and published in this month's issue of Harper's Magazine. It is a dramatic, moving and honest account of the events.

During the war, James Hickman brought his wife and eight children up North from Mississippi, seeking an opportunity to work at decent wages, raise his children to be honest, self-respecting citizens. He came to Chicago, hoping there to find the "promised land."

He didn't find it. He found the misery and degradation of the Black Ghetto, the incredibly crowded segregated area to which Negroes are confined because of restrictive covenants and the greed of real estate interests.

Hickman was forced to house his family in a fourth-floor attic room of a dilapidated old dwelling. His "home" had no running water, no toilet-and just one exit. He paid the landlord, David Coleman, \$100 for the "privilege" of moving in and the promise of a basement flat later on, plus \$6 a week rent.

Then Hickman found out the promised basement apartment was leased to another family. He went to the landlord Coleman and demanded back his \$100 deposit. Coleman refused, threatened to burn the Hickman family out if Hickman held back the rent.

On the night of January 16, 1947, while Hickman was at work on the night shift, a fire broke out on the landing outside the Hickmans' door. There was no escape. Mrs. Hickman and an older son leaped from a fourth-floor window. They lived, but horribly burned and injured. Four of the youngsters, huddled under the bed, were burned to death.

That was when the SWP entered the picture. It investigated the fire and began a campaign to

Hickman was a man bereft. He was convinced Coleman had set the fire—and all evidence pointed to arson. He brooded until he got a gun. He went to look for Coleman, found him, and shot him to death. Hickman gave himself up to the police. He was booked without bail. He had no money for a lawyer. He faced the electric chair.

"But suddenly to his rescue came some cit.zens -an organizer for the Socialist Workers Party, —an organizer for the Socialist Workers Party,
Mike Bartell, and two labor union men, Willoughby Abner, a Negro and first vice president of the central CIO Council in Chicago, and Charles Chiakulas, president of a United Auto Workers (CIO) local," writes John Bartlow

The SWP representatives proposed and secured a broad united labor and Negro defense of Hickman. A campaign was launched to arouse the conscience and support of the city and the nation. One of the chief attorneys for the defense contract with the striking Aerowas M. J. Myer, noted for his legal assistance Mechanics. He characterized the in the famous Minneapolis Labor Trial of the strike as an "unfair practices

The Harper's article states: "Many such groups degenerate into luncheons and resolutions. Hickman's defenders worked hard, effectively, fast, and according to plan." Before the trial was over, money and moral support poured in from organizations all over the country.

Hickman was tried by an all-white jury and a white judge. But the defense soon turned the case into a trial of the Jim Crow system, restrictive covenants and greedy landlordism. The result was a hung jury - seven to five for

The prosecution started a new trial. By now the Defense Committee, in which SWP representatives played a leading role, had aroused a nation-wide response. The pressure was so great, the court agreed to accept a plea of manslaughter instead of murder. On Dec. 16, 1947, Hickman was found "guilty" and released on two years probation. Hickman, his wife and three remaining sons, are now living in a housing project. He is working at a job obtained for him by the Defense Committee.

The Hickman defense, initiated by the SWP, saved the life of a poor, unknown, victimized Negro worker. It put a national spotlight on the shame of the nation—the Black Ghettoes of the cities. And, above all, it taught the lesson of how to mobilize the workers, Negro and white, for successful mass struggle.

The Negro Struggle

## Civil Rights Demagogy

The front pages of all newspapers carried stories of President Truman's Executive Order "abolishing" Jim Crow in the Army. Hidden somewhere in the back pages of the paper was a small item

relating to the views of General Bradley. It is worth reproducing in full the response of the Chief of Staff to the Order of his Commander-in-Chief: "FORT KNOX, KY. July 27 (UP). — General

Omar Bradley said today in reference to nonsegregation of races in the armed services, that "the Army is not out to make any social reforms." The Chief of Staff, here for a conference on the experimental universal military training unit, said: The Army will put men of different races in different companies. It will change that policy when the nation as a whole changes it."

Capitalist politics being what it is, President Truman and General Bradley no doubt exchanged advance copies of their entirely contradictory

For anyone who reads the Executive Order carefully, it is easy to see that "the equal treatment" and "equal opportunity" that Negroes are to be accorded in the Army are evidently to be within the limitations of segregation, since not a word is uttered against it. It is further instructive to note that Bradley emphasizes that the army will change the policy of segregation only "when the nation as a whole changes it." Needless to say, by "nation" the brass hat means not the people, but Congress. And since both Commander-in-Chief and the Chief of Staff know that any civil rights program that this Congress may enact would be worth as much as the paper on which the Executive Order is written, neither really worries about any abolition of Jim Crow. That accounts for the demagogic language of

the Executive Order. Truman badly needs votes. And he hopes the people are gullible enough to take him at his word. That is the long and short of it.

-Specifically, Truman is aiming for the vote of labor and the Negro masses. He is hoping that the labor bureaucracy and the Negro middle class leaders can deliver this vote, provided he speaks radically enough. Not that the Murrays and Greens on the one hand, and the Walter Whites and Dr. Tobiases on the other hand, believe what President Truman says. But they want the masses to believe. Just as the labor bureaucracy is trying to keep the labor movement tied to the Democratic machine which has acted as open strike-breaker, so the Negro leaders are trying to have the Negro masses do nothing less shameful than uphold the dominant party of the totalitarian South. The labor bureaucracy has not yet dared openly to call for support of Truman. But through the ADA and sometimes even the PAC it tries shamefacedly

Then we had Dr. Channing H. Tobias state at the Convention that President Truman, in his espousal of the civil rights program, accomplished no less a revolutionary act than was accomplished by President Lincoln in the Emancipation Proclamation. Since that leaves him no correspondingly famous act with which to compare the new Executive Order, we will ask Dr. Tobias to use his free time to explain to us what the Order means by saying that "equal opportunity" be created "as rapidly as possible, having due regard to the time required to effectuate any necessary change without impairing efficiency or morale." He might also say a word or two about Gen. Bradley's declara-

There is only one possible answer the Negro masses can give to the hypocrisy of Truman and those who try to whitewash him. That is by engaging in independent political action and voting the only revolutionary socialist ticket in 1948—that of the Socialist Workers Party.

We are sure that the Negro masses are in no wise fooled by those of their organizations and press who try to whitewash either the Truman Administration or the Republican Congress. SEATTLE, Aug. 1 — The NLRB Trial Examiner, William E. Spencer, handed down a decision this week recommending that the Boeing Airplane Company negotiate an immediate strike" and said that all strikers should be reinstated and "new hires" dismissed if necessary to make jobs available to strikers.

The decision was hailed as a great victory by the union leadership. The morale of the picket lines rose and many strikebreakers left the plant. However, the company has announced its intention to appeal the decision. It has ir the meantime taken no steps to comply with the Examiner's recommendation. Boeing workers, now in the fourth month of their strike, see no prospect of a settlement ahead. The company continues its drive to resume production and claims that it has a force of over 7,000 production workers. A large number of the scabs are imported from other areas.

The Boeing workers are receiving increased support from the labor movement in Seattle and the state of Washington. A fullpage ad in support of the strikers, signed by officers of dozens of unions in the city, appeared in both daily papers. The state AFL convention passed a resolution, aimed at Dave Beck, Vice President of the Teamsters Union, condemning "any persons or organizations that engage in organizing activities behind the picket lines of a legitimate trade union." NEW YORK CITY, July 28 An enthusiastic audience of 250 people crowded into the Walker Memerial Baptist Church, 37 W. 116 St., on Wednesday night, July 28, to attend a mass meeting called by the New York Branch of the National Association for the Advancement of Colored People to protest police brutality. Mr. Charles Levy, executive secretary of the branch, chaired the meeting.

Jawn Sandifer, Roy Wilkins, and Herbert Hill, Chairman of the Police Brutality Committee of the New York Branch, addressed the meeting. Mr. Hill roundly condemned the policy of the Police Department. He stated that the Police Department was treating the Negro people as secondclass citizens and hoodlums, and pointed out that this policy would inevitably lead to racial strife in Harlem. He called for the support and participation of all the citizens of Harlem in the NAACP's struggle against this discriminatory treatment.

This meeting arose out of the necessity to combat the rising wave of police brutality in the Negro neighborhoods. Three of the most recent victims of vicious police actions spoke at the meet-

An ambitious plan for conducting more than 150 street corner

NEW YORK, July 30 — Michael Quill, International President of the CIO Transport Workers Union, and until recently the darling of the Stalinists, has now launched in earnest a real war upon his erstwhile P

allies in his union. For years, Quill was built up as a "progressive" labor leader, sent on national tours, elected City Councilman on the ALP ticket, and proudly displayed on many a Stalinist platform. Now he charges that the Communist Party has a long record of opportunism and treachery among

the transport workers. Quill is obviously recording successes in his struggle with the Stalinists. His supporters routed the Stalinists 24 to 10 at the last executive board meeting of Local 100, representing 40.-000 workers. The board condemned the American Labor Party, the Communist Party and the city CIO Council. TWU officials were instructed to either resign their ALP posts or their union posts.

At a previous meeting of some 400 workers and officials of the BMT section of Local 100, a similar motion received majority approval. The Stalinist chairman of this meeting refused to recognize the motion and the meeting broke up in disorder.

'NOW IT CAN BE TOLD" Quill has started writing a

Now it can be told" series in the union paper. He reveals how during the war, the Stalinists sabotaged the TWU's organizing which was a betraval of the city's because of "national unity." Quill verifies what has long been known about the treacherous "progressive coalitions" put over by the Stalinists. As one example, when they supported La-Guardia they worked to prevent the bus drivers from striking in 1941 for fear it would disturb their friendly relations with the untimely clapping and was forced | Mayor. to back up in his speech and After Browder was deposed as

in return for a wage increase.

O'Dwyer had the problem of forcing through the subway fare hike and yet not lose support among the city's working class voters. He went through the motions of trying to get the State republican administration to get him off the hook. Naturally, hey wouldn't do that.

### STALINIST TREACHERY

O'Dwyer then went to work on the transport workers leaders. While Quill was out of town, the mayor met privately with two Stalinist TWU officials, Hogan and Santos. They buckled easily and agreed to go for a fare increase in order to show the men a wage victory. Then in order to show O'Dwyer what good guys they were, they complained that Quill was "a thorn in our side" pecause of his insistence on retaining the nickel fare.

Upon Quill's return, he was convinced by the Stalinist union attorney, Harry Sacher, that the only way they could receive a wage increase was through a fare

The Tammany hacks at City Hall were much relieved. Now they could shift the responsibility for the fare increase upon the union leaders.

However this slick shuffle, working class population, backfired. The top strategists of the CP called their TWU hacks to heel and promptly blamed Quill for the dime fare, dubbing him "Mike the dime."

### STALINIST BOOMERANG

If O'Dwyer had been part of their "progressive coalition," the Stalinists would have hailed the dime fare as a great victory. But the season being somewhat different, the fare increase becomes a convenient political football.

But the day is passing when the Stalinists can get away with their treacherous maneuvers in the unions. Quill, who learned all about opportunist deals and maneuvers from the Stalinists, has decided to hook up with CIO by his alliance with O'Dwyer and the criminal conduct of the CP in | The whole sordid inside story | the support of the metropolitan
