### "CZAR" TOBIN UPHOLDS **BECK'S SCAB-HERDING**

SEATTLE, Aug. 31 — As SWP presidential candidate Farrell Dobbs flatly predicted in his recent public meeting and radio address here, AFL Teamsters "Czar" Daniel J Tobin has

now announced support for the scabherding and strikebreaking | genuine and growing response in of his West Coast "Crown Prince,"

At the AFL Executive Council Tobin introduced and secured the portions and is mounting from possibilities of such clauses in passage of a resolution "to support the International Brotherhood of Teamsters in its fight to maintain its jurisdiction against strike after five months and still a non-affiliated organization" that is, to approve the strikechinists on strike at the Boeing plant here.

WEAK CLAUSE

It is true, as The Militant pointed out last May, that the GM escalator clause is weak in a number of respects. It permits a reduction in the wage scale of up to five cents an hour for comparable decreases in the BLS costof-living index. However, it places no ceiling on the possible amount

The chief weakness of the GM wage clause is that it started at the contract allows the company to raise production quotas almost at will. ## Also Scores Wallace Backing **Of Old-Line Party Candidates**

By FARRELL DOBBS and GRACE CARLSON SWP Candidates for President and Vice-President

After giving shame-faced and back-door support to Truman for everal months, the majority of you CIO and AFL leaders have decided to brazen it out. You have finally announced open and even enthusiastic" support for the man who has broken more strikes than any president in U. S. history.

Never will you be able to justify this political betrayal before he workers of America. We confidently predict that millions of workers will repudiate your choice either by staying home on election day or casting an unprecedented protest vote for minority party candidates.

We have used the words "brazen it out" advisedly—particularly in the case of you and your lieutenants, Philip Murray. Only those devoid of all respect for the intelligence of the workers, would dare to take the position you do on Truman after your publicly expressed attitude toward him and his political henchmen these past 3 years.

As we read the statement of your Political Action Committee on Sept. 1, saying that "the platform of the Democratic Party and the record of Harry S. Truman and Senator Alben W. Barkley are deserving of enthusiastic support," there came vividly to mind a statement you made on a different occasion, Brother Murray, nearly three years ago.

Then, in a nation-wide broadcast, you scored the Truman Administration in biting and truthful words. You assailed his demand that the GM workers call off their strike without a contract and his order setting up his notorious "fact-finding" system of compulsory arbitration.

Pointing to the union-busting arrogance of the billionaire corporations, you declared: "To all this arrogance, the Federal Administration (that is, the TRUMAN administration) yields in abject cowardice. Its rancor is confined to labor." You charged that the results of Truman's policies could only be "to weaken and ultimately to destroy labor union organizations. It can be but the first step for even more savage legislative repression."

And do you remember what you said a year later, when Truman, on Dec. 3, 1946, announced that he was sending to the new-the 80th Congress—"the strongest measure I know how to prepare" to illegalize the closed shop and impose compulsory arbitration? Do you remember what you said when Truman endorsed the infamous Case anti-labor bill and boasted he hoped to "steal the march" and "beat the Republicans to the punch."

You called the Truman administration and the Democratic controlled 79th Congress "the dictatorship of a reactionary coalition," and "a deliberate and monstrous movement" to "destroy the labor movement." And when Truman initiated his punitive injunction and million-dollar fine against the striking miners, you said: "All the social, economic and legislative gains of the past decade are in dire danger. The recent court injunction against the United Mine Workers and the vengeful fine imposed is but the first step."

### Truman's Record on Injunctions

Has anything changed since then, to alter your judgment? Ask the AFL typographical workers. Ask the coal miners. Ask your own members in the CIO Maritime Workers Union. All of them have felt the last of Truman's strike-breaking injunctions-Taft-Hartley injunctions—within the past six months. Do you think they can back Truman "on his record" with "enthusiasm"?

Why, only two months ago you and your lieutenants were begging the Democratic Convention to nominate anybody—anybody at all-in place of Truman. Your colleague Jack Kroll, head of the CIO-PAC, complained publicly that if Truman were nominated millions of CIO members would "sit on their hands" next election day. He was right. They will. And you, Philip Murray, and the est of the union leaders who offer them nothing but further support of the discredited capitalist candidates, are responsible.

You, and the 35 members of your CIO National Executive Board who voted to endorse Truman, bitterly attacked the Stalinist minority of the Board for backing Wallace. Who but you and the other union leaders clinging to the bankrupt "two-party system" are responsible for the growth of the Wallace movement? Wallace sees the wide-spread sentiment for a labor party which you have obstinately and blindly tried to suppress. He is trying to capitalize on this sentiment. And, naturally, hundreds of thousands of workers who are offered no way out from your political blind alley will turn in misguided hope to the demagogue Wallace.

They will be mistaken—but not for the reasons you give. Their sentiment for a break with the old-line capitalist parties is progressive and sound. But they are being lured into another capitalist party-even though labeled a "progressive third party."

That is frankly admitted in the appeal for "real working unity" between the CIO-PAC and the Wallace party, issued the day after your Board meeting by C.B. Baldwin, Wallace's campaign manager, Baldwin pointed out that "of the 56 Congressmen whom the CIO News rates as 80 per cent liberal or better, there are few whom we will oppose." That's right. You all stand for the same thing, really. The continuation of the capitalist monopoly of politics.

### Guilty of Same Crime

You and the Stalinists whom you denounce so bitterly for their foreign policy are really guilty of the same crime: You are attempting by every means of deceit and treachery to prevent the American workers from winning their political independence, from building their own CLASS party based on their own organizations, the unions.

That is a policy that our party, the Socialist Workers Party, is fighting to defeat. We are campaigning on a program of mobilizing the American working class into a party of their own that will uncompromisingly battle against the capitalist parties and for a Workers and Farmers Government.

You, the top union leaders, offer the workers only a devil's choice between corrupt, discredited political agents of Big Business. We, the Socialist Workers Party, offer the only real choice: Independent Labor Political Action through Labor's Own Party.

You American workers who realize the need for this program, can best advance it by voting for the only candidates who fight for James Kutcher his only protection is the greatest this program in this election. Support Dobbs and Carlson! That is the way to fight for a party of your own.

## Kutcher's Answer to "Loyalty" Purgers

The following letter was sent by James Kutcher to the Veterans Administration Loyalty Board after he was informed by the board chairman that he was fired from his job as clerk because of membership in the Newark Branch of the Socialist Workers

> 135 Seth Boyden Terrace Newark 5, N. J. August 25, 1948

Mr. Benjamin E. Hinden Chairman, Loyalty Board Veterans Administration Branch Office No. 3 5000 Wissahickon Avenue Philadelphia 1, Penna.

In reply to your letter dated August 13, notifying me that I am to be removed from my job as a clerk in the Veterans Administration office in Newark on the grounds of my membership in the Socialist Workers Party, I hereby challenge your right to do so.

Il have never denied my membership in the Socialist Workers Party: I do not deny it now; on the contrary, I proudly affirm it. What I do deny is the false accusation that the Socialist Workers Party is "subversive" or advocates the overthrow of the government by force and violence.

The Socialist Workers Party has publicly demanded that it be removed from the "subversive" blacklist compiled by Attorney General Clark; it has publicly requested a hearing for that purpose. Instead of granting such a hearing, the administration has rejected this request and is proceeding to punitive and discriminatory measures against the members of the Socialist Workers Party. This procedure violates my constitutional and civil rights and smacks of the worst practices employed in police states.

I entered the armed forces in January, 1941. My draft board did not ask me about my political views or the party to which I belonged; they drafted me. I became an infantryman, serving in the 9th and 3rd |

Divisions and participating in the North African, Sicilian and Italian campaigns. When I was at San Pietro, Italy, in November 1943, the German mortar crew on the other side of the lines did not ask me about my political views or the party to which I belonged; they fired at me. The army surgeons did not ask me about my political views or the party to which I belonged; they amputated both my legs, one above the knee, the other just below. The Army did not ask me about my political views or the party to which I belonged when it gave me the Purple Heart.

It took me a long time to learn to use my artificial limbs, but I learned how in order to get a job because I must contribute to the support of my aged and sick parents. You can understand that it is not too easy to get a job when you have no legs. But two years ago this month I went to work for the Veterans Administration, and have filled my job satisfactorily. Now you propose to deprive me of that job, solely because of my political views and the party to which I belong. This is political persecution, and I intend to fight against it with all my vigor-because my job is at stake, because a great principle involving my own rights is affected, and because it concerns thousands of other government employees, many of them veterans, whose rights are similarly threatened by this dictator-

I make no secret of my views or those of the Socialist Workers Party, which have been publicly expressed for many years over the radio and in the press. I believe that Socialism is the only system that can bring humanity peace and freedom, and in support of that belief I propose next November, whether employed by the government or not, to vote for the Socialist Workers Party national ticket, Farrell Dobbs for President and Dr. Grace Carlson for Vice-President. I do not advocate force and violence to achieve Socialism: the only time in my life I ever practiced force and violence was under the orders given me in the Army by the U. S. Government. I did not believe that the recent war was a war to eradicate fascism and to establish the "four freedoms," and everything that has happened | JK:ra

since the end of the war strengthens me in that belief. Furthermore, I am opposed to the preparations for a new war. I am opposed to restrictive legislation against labor and minority groups. I am opposed to racial discrimination in every form. I am opposed to witch hunts and attacks on civil rights. And I am in favor of political organization and action by the working people, who represent the great majority of the population, to nut an end to these evils. You have the right to disagree with my views, but

not to deprive me of my job for holding them, or for belonging to a party and associating with people who share them or contributing my money to support of a newspaper that defends them. I contend that I have the same right to a government job as you or any other American, and that not a single shred of real liberty will remain for anyone in this country if I and other political opponents of the administration in Washington are to be hounded out of our jobs because of the principles we believe in. I have already been deprived of both my legs and my freedom of movement. I do not propose to have any government official deprive me of my freedom of thought and expression and my right to earn a living. The methods employed against me are those of totalitarianism and not of

democracy. Please consider this as my written reply to your charges and my written request for the administrative hearing before the Branch Loyalty Board, referred to in Paragraph 2 of your letter, although like many other people I consider the entire procedure involved in these hearings as illegal and unconstitutional. I insist. however, that this hearing be open to the public and the press, since I feel that this issue concerns the American people as a whole. For the same reason, I cannot restrict the defense of my job to these channels alone, and serve notice on you that I will take such other measures as I may find suitable.

I affirm that all the statements made above are true, to the best of my information and ability.

Susan B. Anthony II, grandniece of the crusading Susan B Anthony of the Suffragette Movement, wrote an article in the July 17 Saturday Evening Post which has been widely commented upon. The newspaper columnists are all trying to make the American woman satisfied with the present system which keeps her in economic servitude. These writers bewall the fact that women are not using their huge voting bloc.

insecurity and want.

WOMEN DISILLUSIONED

Some of the facts brought out by Miss Anthony are indicative of the disillusionment of women. They feel that none of the existing organizations in the field today have a program which fights tor their true interests. Miss Anthony further brings out that the number of women lawvers. doctors, educators and even those candidate of the Socialist Workgetting college degrees was on ers Party—the only woman candithe decline even before the war, date for the office—is a symbol

nursery schools for pre-school children. • 2. Co-operative housecleaning

services. 3. Prepared-meal services that

would deliver hot cooked dinners to double-earner families. 4. Professional shopping serv-

Daily we read of parents, and especially mothers, leaving chillien alone and uncared for while the penitentiaries.

SOLUTION IN POLITICS

The solving of the problem of vomen's rights is similar to the problem of winning emancipation for other oppressed sections of the population. It can only be done by women organizing themselves to fight for their rights and aligning themselves with the great progressive movements in our society. Women - like the oppressed Negro people and minority groups—must certainly get into politics to win their ights. But no more than other oppressed groupings can they win these rights by supporting the parties of capitalism. Women can merge as a political force only by working for the creation of a new political party of the working people, representing and responsive to their interests.

A NEW PAMPHLET — JUST OUT!

Born in Savannah, Georgia, William E. Bohannan moved with his family to Newark, N. J., when he was five years old.

Bohannan has played a prominent role as a member or officer of both CIO and AFL unions. He is a member of the executive board of the Newark Branch of the NAACP and was one of the organizers of the Newark unit of the March on Washington movement.

He is now the Socialist Workers Party candidate for Congressman from the 11th District in New Jersey in the November elections.

the swing of the Presidential by 11 more this week. Sara Ross Election Sub Drive, following the fine beginnings made by Detroit and Flint. More than 300 subs came in last week and this week starts off as promising. Militant subscriptions are seen

to be a vital part of the SWP election campaign. The house-tohouse and street sales of subs have prepared for mass street meetings, which, in turn, have helped to sell more subs.

From Philadelphia, George reports: "25 of the 28 subs are from an open air meeting—13 sent six. A dozen others also came more than from our first street meeting. This was a new experience to us here, but we are learning fast. Starting next week we will hold three street-corner meetings a week, which should step up sub-getting even further." In the past, America has known more than one stormy outburst of revolutionary or semi-revolutionary mass movements. Every time they died out quickly, because America at every time entered a new phase of economic upswing and also because the movements themselves were characterized by crass empiricism and theoretical helplessness. These two conditions belong to the past. . . American capitalism will enter an epoch of monstrous imperialism, of an uninterrupted growth of armaments, of intervention in the affairs of the entire world, of military conflicts and convulsions. . . These radical changes permit us to predict with certainty that the inevitable and relatively rapid, revolutionary transformation of the Amercan proletariat will no more be the former, easily extinguishable "bonfire," but the beginning of a veritable revolutionary conflagration. In America, Communism can face its great future with confidence. Leon Trotsky, "Germany: The Key to the International

Situation," 1931.

### The Kutcher Case

No political persecution and outrage against democratic tradition in recent years has aroused such spontaneous, widespread and burning indignation as the case of James Kutcher, the Newark war veteran who lost both legs in combat in Italy.

Indeed, no one with a spark of decency can fail to seeth with anger at the government's brutal action in firing this war-maimed veteran from his \$40-a-week clerical job with the Veterans Administration because of his anticapitalist views and membership in the Socialist Workers Party.

James Kutcher has not begged for mercy. He has not equivocated. From the start, he has stated publicly and admitted with pride that he is a member of the Socialist Workers Party. And he has declared furthermore that he intends to fight for his right to hold any political views he sees fit and still keep his government job.

Kutcher has determined to make his case the symbol of resistance to the Hitler-like witch-hunts, "loyalty" purges and political blacklists that make a mockery of civil rights and democratic processes in this country.

"I am not fighting this case only for myself," he told reporters last week. "Somebody has to stand up sometime and call a halt to these persecutions, If, by my stand, I can save any veteran or government employe from government persecution in the future, I will consider my fight worthwhile."

Everyone who has respect for a fighter, and a man of principle will applaud these words.

There have been hundreds of government workers fired in the "loyalty" purge because of their political views; but here is the first case where one of them has stood up and said, "Yes, I hold these views. I have a right to hold these views. And the government has no right to fire me because of them.

Thus, the defense of James Kutcher is posed clearly and openly as a defense of fundamental political liberties. As such, it involves the rights of every American citizen, of every working man and woman. It has the profoundest significance for every person who now, or in the future, may differ in political views from the regime in power.

James Kutcher didn't count noses before making his stand. He boldly elected to make his stand on principle even if he stood alone. But he won't stand alone. Already a mass defense movement is spreading throughout the country; a number of prominent labor and liberal leaders are serving on the recently formed Kutcher defense committee.

But this is not enough. The lame-duck politicians, the office commandos and bureaucrats in Washington won't be moved by mere appeals to simple decency. They will be forced to reverse their action in the Kutcher case only by a powerful, organized mass protest.

Above all, it is the duty of the entire labor movement to array itself publicly and aggressively on the side of James Kutcher, to denounce the political persecution against him and thus fight to call a halt to vicious antidemocratic practices that his case symbolizes.

big stride forward in meeting its sizable \$7,500 pledge when the enthusiastic audience at its Leon Trotsky Memorial meeting gave \$753 to the \$25,000 SWP Election Campaign and Party Building Fund. This fine collection was a twofold tribute to the memory of the great working class leader who founded the Fourth International and to the living example of courageous action exhibited by Comrade James Kutcher, the legless veteran who is defying the "loyalty purge." Comrade Kutcher recéived a tremendous ovation at the meeting.

The contributions last week totalled \$1,359. This fell a little less than one hundred dollars short of the half-way mark. The branches will have to step up their collections from now on if the entire \$25,000 is to be raised in the remaining weeks.

Farrell Dobbs' appearance in the Northwest has evidently spurred contributions from there. Last week's mail brought a donation from John McBride of Seattle; one from Wentachee; and a \$5 bill from Portland,

The Minnesota Campaign Fund Manager reports a very successful meeting for Dobbs in Minneapolis which has enabled his home state to get into the top ten on this week's scoreboard. Minnesota has now reached 60 percent of its \$2,000 quota.

Flint writes that "we put on a beautiful publicity campaign for Grace Carlson. It helped put us on the map in the city—but it depleted our funds." Flint is now making plans for an equally ousing reception for Dobbs.

Cleveland is mounting steadily on the scoreboard. Bob Kingsley vrites that additional pledges made by friends will raise the total pledge here to \$455, which goes beyond its quota.

### Stalinist Emigration Many people are wondering why the Stalin

regime made such a cause celebre of the case of the three school teachers' who refused to return to Russia; why the Stalinist officials pushed matters to such extremes as to permit the U. S. State Department to create an international scandal for the Kremlin?

Some have explained the utter brutality and cynicism of the Kremlin officials' action by the fact that a totalitarian regime does not understand the niceties and finesse of diplomacy. Something far more fundamental is involved here.

The Kremlin regime is growing increasingly concerned about the foreign emigration, of which the case of the school teachers is simply the latest spectacular example. In the past few years this trickle has grown to a sizable stream. The emigration includes not only professional people and deserting soldiers but goes all the way up to important administrators, consular officials, GPU officers and ambassadors. Stalin fears that a new potential government-in-opposition may be created abroad which at a later stage can find support among the highly dissatisfied population of Russia.

Every tyranny has produced an emigration. But no regime in modern history has experienced the difficulties of the Kremlin in retaining the loyalty of its governmental staffs. Even the decaying Chiang Kai-shek regime of China, bereft of any popular support, has not had any desertions of its governmental staffs abroad. That is because, despite its decomposition, the Chiang regime represents a definite, stable, historical class—

The recurrent desertions of high government officials is one of the best demonstrations that the Stalinist bureaucracy is not a new class but a temporary and unstable parasitic formation, hating and fearing the very government of which it is the beneficiary. The frantic efforts of the Kremlin to seal every crevice leading across the borders can solve nothing. The regime lives from hand to mouth in dread of the approaching day of reckoning.

I have had some interesting talks with the interviewers who conduct such programs. Privately, they are somewhat impressed by honest peoplemaybe they are even a little envious. Radio announcers, who have to reel off one commercial after another all day long, are forced to be fakers. And there is always a big whip held over them! A prominent sign in Toledo's station WTOD tells its announcers "Commercials Pay Your Salary-Do Them Right."

Selling Socialism is a much more satisfying kind of work than selling Taystee Bread or Kiddies Kute Klothes.

Of course it isn't possible to sell the entire Socialist Workers Party program on one of these radio interviews but I get in as much Trotskyism as possible. Perhaps it would be interesting to the Militant readers to know what kind of questions are asked on such a program. I'll just copy the questions off the mimeographed sheet, which the director of station WTOD's "Women's Page of the Air" gave me before the broadcast yesterday. The answers were not written out and, of course, I don't have to give them because all of our readers know what the answers should be. Announcer: 1. "We have here in the studio with \* us today Dr. Grace Carlson, Socialist Workers Party Candidate for Vice-President of the United States. Dr. Carlson, I might add, is the only woman running for Vice-President in this election. Have women been chosen to fill the vicepresidential berth in any other election to your knowledge, Dr. Carlson?

2. "Do you expect to be elected?"

"When you're a candidate in a national election, you can vote for yourself, can't you?"

4. "Where were you born?" 5. "Where did you get your doctorate degree and in what subjects?"

6. "When did you first become actively in terested in the principles of the Socialist Work-

7. "Have you encountered any resentment towards having women in positions of prominence in your political party?' 8. "Do you receive a salary from the party?"

"How do you manage to make both ends 10. "In your tours around the country, I

of the vice-presidential candidates (maybe even the presidential candidates) I was able to give Toledo's citizens the recipe for a very good Italian dish, Liver Rocco.

### Tito-Stalin Conflict

By Joseph Hansen -

The dispute between Tito and Stalin serves to popularize the fact that the Soviet Union has degenerated and that Stalinist policy represents a complete break with the Leninist tradition.

Lenin and Trotsky based their program on the international solidarity of the working class and depended upon the appeal of reason to unite the laboring people of all lands in the great task of building world Socialism. They went so far in upholding democratic rights as to insist on the right of all races or nationalities to secede from the Soviet Union if they so desired.

As Lenin himself underlined, while "trying to knit the nations closely together" the revolutionary socialist party "does not intend to bring about that consummation by the use of force, but through the free, fraternal union of the laboring masses of all nationalities."

Stalinism, on the contrary, rests on fear of the advance of Socialism and maintains power through the lie, police terror, concentration camps, the firing squad and the assassin's knife.

And like gangsters that are hard-pressed, they are discarding diplomatic pretenses and openly employing threats of murder to those who dare cross them. Thus the Central Committee of the Russian Communist Party in a letter to Tito dated March 27, referred to the fate of Leon Trotsky, emphasizing for Tito's benefit: "We believe Trotsky's political career to be sufficiently instructive."

The GPU, with its customary subtlety, is calling Tito's attention to the pick-axe it had driven into Trotsky's skull in 1940.

This was not all. The clincher came on August

23 at an extraordinary Congress of the Triestine Communist Party when Vittorio Vidali, the local Moscow representative, called on "every Communist to contribute to the fight against the Yugoslav leaders." Another Stalinist official in Trieste "clarified" this directive: "Putting it bluntly this means that anyone among us, if he has the chance, should remove Tito."

In rebuttal, Tito has demonstrated his ability to meet the Kremlin debaters on their own ground. Adherents of the Moscow faction in Yugoslavia have been removed from office and also from public view. One general who found the discussion too sharp for comfort in Yugoslavia was brought up short at the border by the strongest argument in the arsenal of Stalinism-a rifle bullet. Tito has done his best to demonstrate his Stalinist

Nevertheless, the rift between Stalin and Tito is of profound significance to the working class. It shows in the most emphatic way how little freedom Stalinism dares allow those under its domination. It throws a strong light on the instability of the Stalinist bureaucracy and its internal weakness. It can mark the beginning of a new upsurge of the peoples freed from Stalinist influ-

In other words far more is involved than the fight between a big dictator and a little dictator. The struggle initiated by Tito, involving the question of national sovereignty of Yugoslavia, may well become the starting point for new, largescale regroupments and developments in the international working class movement.

## Stalinist Biology

By Louis T. Gordon

writers and musicians, the Central Committee of the Russian Communist Party has stepped into a new field, biology. Many will doubt the qualifications of a Stalin, a Zhdanov or a Molotov to even give opinions on such matters. But no one doubts their ability and readiness to jail biologists who disagree with the Kremlin dispensations.

This time the ukase was on the problem of the relative importance of chromosomes and the rest of the cell in heredity, and the question of heredity of acquired characteristics. For many years this has been the subject of a lively discussion in the USSR. Whereas a number of agronomists hold the theory that the main factors in heredity are the chromosomes, Lysenko, a distinguished plantbreeder, asserts that from the point of view of heredity, there is no difference between the chromosomes and the rest of the cell, and that acquired characteristics can be inherited.

This is a complicated question in biology and the subject of considerable experimentation by scientists throughout the world. It is a problem to be freely decided by scientific workers if science is to advance.

But this is not the prodecure in Stalinist Russia. According to Pravda's reports published in the American press, at a conference of the All Union Academy of Agricultural Science which took place in Moscow from July 31 to Aug. 7, Lysenko defeated his opponents and imposed his views. The conference adopted a resolution calling for the elimination of all traces of the geneticists' theories from Soviet laboratories, universities and schools and the rewriting of all text books to put them in accordance with the Lysenko-

After "correcting" the "errors" made by Soviet Micurin ideas. The pleas of a certain S. I Alikhanyan that scientists be allowed to proceed in all directions instead of being limited to one most violent form. The Stalinists, school were unavailing.

According to the reports, most participants in the conference backed Lysenko although a small smear the Curran group and adgroup opposed him vigorously until he announced vance their own factional interthat his address had been read and approved by ests. In their reckless and unresthe Central Committee of the Communist Party. trained bid to retain control they Then the opposition collapsed. After the party line was set, two Soviet bio-

logists were fired. Professor Zhebrak, who was a scientific member of the USSR delegation at the UN conference at San Francisco in 1945, sento to Pravda a letter of repentance. "I, as a party member," he wrote, "do not consider it possible for me to retain the views which have been recognized as erroneous by the Central Committee of our party."

As we see, the problem has been "solved" ac cording to the best traditions of Stalinism.

Following suit, the Academy of Sciences sent a letter to Stalin in which it promised to "correct its mistakes" and added that the Academy "turns to you, our beloved leader and teacher, with heartfelt Bolshevik greetings and gratitude for the attention and assistance which you, every day, are giving to Soviet scientists. Soviet science is obliged to you for its best attainments. . ."

This sycophancy may please Stalin's inflated ego, but it will not help Soviet science to advance one inch in the right direction. Just as German science suffered because of Nazi interference and totalitarian prejudice, so Soviet science will not fail to suffer because of the monstrous control of the Stalinist dictatorial machine.

# STALINIST LEADERS

By C. Thomas

NEW YORK, Aug. 31 — Three prominent Stalinist leaders were expelled last night by a general membership meeting of the CIO National Maritime Union on charges of mishandling union funds and misconduct

The charges, preferred by Treasurer Hedley Stone against ex-Secretary Ferdinand Smith, ex-Vice-President Howard Mc-Kenzie and ex-Port Agent Paul at the membership meeting by a vote of 1,462 to 523.

while in office.

The charges were based on violations of the NMU Constitution committed by the three top Stalinist officials, particularly in the period preceding the recent general election in which the Communist Party machine was swept from office. It was in the pre-election period

that the internal struggle for conthen in control of the union apparatus, utilized their position to committed flagrant excesses which formed the basis of the charges, trial and expulsion.

MISHANDLING FUNDS

For example, the charge of mishandling funds arose out of a conflict over the use of union funds to finance Stalinist factional activity. On several occasions. when Curran and Stone refused to authorize the disbursement of union funds for what they considered factional purposes, the Stalinist officials diverted dues money collected by the Port Agent and authorized the expenditures. This was a violation of the constitutional provision governing the handling of union funds.

Similarly, the charge of "misconduct" arose out of the factional use made by the Stalinists of the official union paper, NMU Pilot. The most flagrant example was the publication of an unauthorized four page supplement calling for a strike against a court injunction after the membership had approved the recommendation of the National Officers to abide by the temporary restraining order.

The defendants contended the charges were purely "technical" and intended to cloak a campaign of political persecution of members of the Communist Party as a prelute to the intimidation and suppression of all opponents of the present Curran administraa purge of CP members. FLINT, Mich., Aug. 29—One of the most significant developments in years within the CIO United Auto Workers is signalized by the statewide conference here today of 350 leading UAW members, organized as the Committee for a Militant and Democratic UAW.

This conference, convened at 9 now president of Detroit DeSoto says: Local 227, laid the foundation for a regroupment of the auto militants on a fighting, progressive program.

In its size, composition and program, the conference demonstrated the strong and speedy come-back the progressive forces are making in the UAW since their defeat by the Reutherite-ACTU machine at the UAW convention last fall.

What is especially important is that the new grouping is solidly cemented by a sound program. The conference discussed at length the many problems of the auto workers and developed a militant program of action for union security, against the high cost of living and speed-up, for independent labor political action and for union militancy and democ-

n Brazil, there's an awful lot of wheat here in eastern Montana. Harvest time has come, drawing most every able-bodied man into the fields. But not nearly so many men as there

used to be. Horse-drawn binders, bundle racks, shocking crews, spike pitchers, and the old-fashioned separator are almost extinct. They have given way to the combine, tractor, truck and

jeep. Technological development in agriculture, as in industry, has sharply reduced the need for labor iastic support of the membership power and speeded the growth of monopoly control over the land.
