Farrell Dobbs Scores Truman Strikebreaking Role Kutcher Defends

Exposes Demagogy In President's Bid For Vote of Labor

FLINT, Mich., Sept. 11 - In a ringing reply over radio station WFDF to Truman's Labor Day speech at Detroit, Farrell Dobbs, presidential candidate of the Socialist Workers Party, today scored Truman's demagogic pose as a "friend of labor."

Dobbs underlined the sharp contrast between Truman's "prolabor" campaign promises with his anti-labor record. Before his last-minute "veto" of the Taft-Hartley Act, Truman demanded Congress pass a savage anti-la-bor law to draft strikers into the army. The Socialist Workers Party candidate reminded his radio audience of the three strikebreaking assaults against the coal miners launched by Truman through the courts. He pointed to Truman's use of the Army two times to break strikes of the railroad workers.

ANTI-LABOR POLITICIANS

The Democrats and Republicans, Dobbs explained, work hand in glove with the employers promoting the war drive and the furious anti-labor offensive. As for Henry Wallace, Dobbs cited Wallace's record to show that he, too, was just another capitalist politician seeking to profit from the failure of the union officialdom to launch a Labor Party."

"There is a mighty power in the hands of your United Auto Workers Union and the sister unions of the CIO, AFL and Railroad Brotherhoods," said the SWP Presidential candidate.

"That is why President Truman came here to launch his election campaign in a speech at Flint Park on Labor Day. That is why the Republican Party quickly rushed Harold Stassen into Michigan to speak in rebuttal against Truman. The capitalist politicians know that without the electoral support of the mighty labor movement they couldn't hold public office for fifteen minutes.

"Truman tried to cover up his black record as a strikebreaker by giving you a friendly wave of the arm, a big grin and a promise of a period of new hope. Stassen tried to make you believe that the Taft-Hartley Act is for your own good. Both Truman and Stassen talked about almost everything but the real problems confronting the workers."

THE CENTRAL ISSUE

Pointing out that the outstanding issue of the 1948 elections was the unceasing and sharpen ing "war between labor and capital," Dobbs emphasized how well the rich know this and how it shapes their policies along with those of their government in Washington. The crying need is for the working people also to fully understand this in order to smash the furious anti-labor of-

A number of serious defeats recently suffered by the workers on the political as well as the economic field were explained by Dobbs as due to the "false policy of the union leadership," who continue to "cling tighter than ever to the skirts of capitalist politi-

Giving Her the "New Look"

Labor Alone Can Halt The March of Reaction"

By Grace Carlson, SWP Vice-Presidential Candidate

The anti-democratic chain reaction set off by the bi-partisan war drive is following its own destructive course. Government strikebreaking, "loyalty" purges, witch-hunts, banning of minority parties from the ballot cannot be "contained" so as to affect only the trade unions and minority groups. With the barring of Truman from the Louisiana ballot, following virtually similar action in other Southern states, the hand of totalitarianism has reached out toward a major capitalist party—one of the initiators of the spreading reaction.

While the Louisiana action against Truman was taken by the race-supremacist Dixiecrats, it is the logical outcome of the methods of the Democrats and Republicans themselves. Indeed, Truman is only getting a taste of his own poison.

For the Democratic Party itself has either inspired or has stood idly by while the Socialist Workers Party, the Wallace Party and other parties have been removed from the ballot in state after state. It has belped to set the precedent, now used against it by the Dixiecrats, whereby the party in power can brutally and arbitrarily eliminate its opponents.

We must keep in mind, however, that the anti-democratic chain reaction does not hit every group with the same force and violence. The Democratic Party has been denied its place on the ballot in Louisiana. But even with the likelihood of more Dixiecrat states trying to follow suit, that's just a slap on the wrist compared to what labor and minority groups face.

Wallace was pelted with eggs and tomatoes and physically threatened all along his Southern tour. This party has been barred from the ballot in northern states like Illinois.

As for the Socialist Workers Party, not only is it barred from the ballot in most states, but its leaders have been thrown into prison to silence them altogether. The Democratic administration did this during the war in the Minneapolis Labor Case while Wallace and Truman were vice presidents.

Truman is off the ballot in Louisiana—but millions of Negroes in the whole South are terrorized from voting. They are even shot to death, like Isaiah Nixon in Georgia last week. And every worker everywhere faces the threat of Truman's Taft-Hartley injunctions, Army strikebreaking and tear gas and clubs, as in the West Coast strikes.

But if injustice and class violence and abrogation of workers' rights have a chain reaction, so too has the resistance of labor. It can swell into a titanic force once it is unleashed. This chain reaction of the workers against the growth of totalitarianism can be set off by a Congress of Labor. Labor alone can halt the march of reaction. Let the rank and file representatives of all the unions hold a mighty Congress in Washington to draft a united program to smash the antidemocratic forces and they can set in motion such a power for defense of democratic rights as this nation has never known.

GRACE CARLSON Vice-Presidential Candidate of the Socialist Workers Party

To Labor Mounts In French Crisis

By Joseph Hansen

The political balance in France today hangs by a frayed line that is giving way under the prison during World War II | Numerous similar resolutions increasing strain. This is the common conclusion of spokesmen of all camps. The breaking strands are visible in the downfall of cabinets, one after the

Since January of last year, France has had five Premiers. Ramadier lasted less than 10 months. Schuman less than 8 months. Marie barely a month. The second Schuman Cabinet two days. No one ventures to predict more than a brief span for the new Henri Queuille Cabinet which could be formed at all only on sufferance of Queuille's friend, the fascist-minded de Gaulle.

The big political question now tanding over France is what will follow when the last thread of these stop-gap regimes snaps?

Grave economic ills underlie the successive cabinet upsets. After the Allied victory in World War II, the French capitalists set their sights upon recovery as a world imperialist power. This meant financing costly expeditions to the colonial areas, especially Indo-China, to put down independence movements. It meant diverting workers from the factories into the armed forces and diverting production from the restoration of the ravages of war to the construction of a new war machine. It meant backing Wall Street's blueprint for assault on the Soviet Union, thus converting France into a European beachhead for American Big Business and American militarism instead of a center for the unification of Europe

WORKING CLASS PAYS

The cost of this imperialist policy as always was placed on the backs of the workers and farmers. The universal scarcity of consumers goods that accompanied the increasing abundance of arms has forced prices continually upward. Three-quarters of the average French worker's pay goes for food alone nowa

Each cabinet has sought to car ry out this task imposed on i by the capitalist class - to strengthen French imperialism at the expense of the living standards of the working class.

The French workers in opposi tion to this policy have sought to safeguard their living standards and to bring them back to prewar (Continued on page 3)

Civil Liberties at **Kangaroo Hearing**

By George Collins PHILADELPHIA, Sept. 10 -- "Kangaroo court"

- these were the words used by James Kutcher, the Purple Heart Veteran of Newark, N. J., who lost both his legs at San Pietro, Italy, to describe the Loyalty Board hearing called today at Philadelphia to decide whether he should be dismissed from his clerical job with the Veterans Administration because of membership in the Socialist Workers Party.

STAR-CHAMBER HEARING

The hearing was held behind losed doors, with only the atorneys and the representative of the Kutcher Civil Rights Committee permitted to attend. The press and the public were excluded. The demand of Jimmy Kutcher and his attorneys for an open hearing was flatly denied at the outset on the pretext that government regulations, in order to protect the defendant, forbid no longer be penalized by their public participation.

JAMES KUTCHER

Fellowship of Reconciliation, stated: "One way in which you could Jimmy Kutcher had nothing to give practical effect to your hide. But the Bi-Partisan Governsplendid statements on the civil ment needed secrecy to conceal rights issue would be to pardon the great outrage it was perthe 18. . . These persons were petrating against the civil liberthe first victims of the Smith ties of the American people. The Act which seriously violates basic three-man Loyalty Board needed American concepts of civil libersecrecy to hide its inquisitional ties." Meyer Schapiro, Professor methods at a hearing where it of Fine Arts at Columbia University, wrote: "It was only for acted as prosecution, judge and their belief in socialism that the jury. The decision of the board is defendants were convicted. . .

May I ask you, Mr. President, still being awaited but it was to pardon these men and in doing clear from the remarks of so to help bring about the re-Kutcher and his representatives that there is little likelihood that a favorable verdict can come out Willard Uphaus, Executive Secretary of Religion and Labor of this star-chamber proceeding. An Open Letter to Yugoslav C. P.

The International Secretariat of the Fourth International has issued an open letter to the Central Committee and members of the Yugoslav Communist Party in connection with the conclusion of the Fifth Party Congress of the Yugoslav Communist Party.

The complete text of this communication appears below.

Comrades:

Although you thought it necessary to limit participation in your Fifth Party Congress exclusively to delegations from the Communist parties-none of whom have accepted your invitation—our movement has attached special importance to the discussion and decisions of your Congress.

The course you have decided to follow is now clear: It is to defend yourselves against the accusations hurled by the Cominform without breaking with the Russian Communist Party and with Stalin, the real instigators of the campaign in progress against you. We greet your determination not to capitulate to Stalin; but we note, with regret the self-contradictory character of your defense against the Kremlin's attack.

Your leaders and delegates at the Congress have emphasized the fact that there are no programmatic differences whatever between your party and the ideology of the Kremlin. It appears that you share this ideology on two fundamental points: on the possibility of building socialism in one country; and on the "monolithic" character of the revolutionary party, which means the expulsion of any ideological tendencies that might some time advocate policies different from those of the party leadership.

"Socialism in One Country"

Your leaders and delegates at the Congress have reaffirmed the position, long held by your party, to the effect that Yugoslavia is already a country where socialism is being built and that it is possible to do this, to be sure only partially, thanks to the aid of the Soviet Union and of the other "new democracies." This aid is, however, now reduced by and large to the economic reprisals against you imposed by the Kremlin on all its satellites.

The conception of "socialism in one country" was never shared by Marx or Lenin. It is Stalin who, toward the end of 1924, introduced it into the Russian Communist Party and the Third International as a theoretical cover for his own nationalistic policy, which mirrored the interests of the then budding Soviet bureaucracy and which has revealed itself as more and more hostile to the world socialist revolution. In formulating this anti-Marxist and anti-Leninist "theory," Stalin took care to generalize it for his own needs and to underline the special, as it were, "Messianic' character of the USSR, whose size and resources allegedly permitted the building of socialism to

More than 20 years have elapsed and the Soviet Union is still very far from having attained this objective. On the contrary, the victory of the Soviet bureaucracy, which succeeded in expropriating the masses politically and in installing the most bureaucratic police regime in the annals of history in order to maintain and extend its own privileges, has resulted in the utter degeneration of the Soviet Union as a

You have had occasion to observe this degeneration in a number of facts which, limited as they are, nonetheless remain very significant. Among these facts are: the life of Russian military and civil functionaries on a bourgeois pattern; the systematic spying by the GPU—the chief vehicle of the Kremlin's policies—on your party and your government; the Kremlin's opposition to the Balkan Federation or any progressive unification of the economies of the various "People's > Democracies," a unification which is so indispensable for their development; the bureaucratic and slanderous character of the Cominform attacks directed by the Kremlin.

What then will be the fate of Yugoslavia, if she, under far less favorable material conditions, enters the utopian road of "building socialism" within her own frontiers? Such a "theory," here too, carries with it the danger of serving as a cover for nationalistic policies of a privileged bureaucratic caste.

In our epoch of the world-wide division of labor and the world character of the productive forces, whose development has already brought the capitalist countries into collision with their own national boundaries, socialism can flourish only on the world arena. To think that each country can by itself build its own "socialist" society and will later associate itself with the other because of ideological kinship-to think in this way is to fall into petty-bourgeois utopianism, blinded completely to the realities of our epoch. Victory over capitalism, the victory of the proletarian revolution is possible in a single country, but the achievement of socialist construction is not possible without the joint efforts of at least a considerable number of countries, including the most advanced ones.

To realize socialism in life in Yugoslavia would mean to attain a level of development of the productive forces far surpassing those of the most advanced capitalist countries; it would mean the complete elimination of the differences between the city and the countryside, the building of a classless society where material abundance would already reign and where the state would have already lost its functions of coercion, becoming reduced to a simple administration of things, without police, without judges, without prisons and without a bureaucracy. In what historical perspective can such a goal be reached in Yugoslavia, a country predominantly agricultural and with very limited resources?

On the other hand, what is actually possible is to begin the building of socialism, while waiting for the extension of the proletarian revolution to other countries. The true framework for the socialist development of Yugoslavia is, to begin with, the Balkan Socialist Federation and the Socialist United States of Europe.

A "Monolithic" Party?

As regards your "monolithic" conception of the revolutionary party, this also stems from the arsenal of Stalinism but not from Marx and Lenin. The revolutionary party, is by its very nature, democratic, permitting the free presentation and struggle of ideological tendencies in its

The Bolshevik Party of Lenin to the very day he died had nothing in common with the horrible caricature set up by Stalin's bureaucratic and police apparatus, which sealed its victory over the Soviet masses with the blood of Kamenev, Zinoviev, Bukharin and then of Trotsky, i.e., of the men who made the Russian Revolution and who led the Communist International while Lenin

The "monolithic" conception of the revolutionary party is the unmistakable sign of a Bonapartist bureaucracy which sets itself up over and above the masses and the party. If you cling to this conception you will head inexorably toward the foundering of your revolution and of your own party; you will travel toward the definitive installation in Yugoslavia of a bureaucratic-police dictatorship in the image of Stalin's regime.

Your Congress has not deemed it necessary to probe more deeply into the meaning of your

Democracy at Work

Detroit unionists pitch in to repair the damage done by a mob of white hoodlums to the home of a Negro member of the United Auto Workers (CIO). with affirming the slanderous character of the Cominform accusations, while covering up the Russian Communist Party and Stalin, i.e., the real leaders of the campaign against you. This fact alone is a sign of grave danger.

What reasons impell you to feign ignorance of who is behind a Hodja or a Rakosi, a Dimitrov, a Thorez or an Anna Pauker, when they attack your party, your government, when they conspire to overthrow your leadership, when they issue decrees to institute an economic blockade against Yugoslavia? What is the meaning of your silence about the Kremlin and about Stalin, whose obedient puppets all of the above men and women are? And how is it possible for this Kremlin and this Stalin, who conduct this entire campaign, to truly represent inside the labor movement a leadership faithful to Marxism-Leninism?

If this were actually the case, then history would be only a sinister farce, and your conflict with the Cominform would be only a scene in this farce, incomprehensible to any one who seeks

Your position is truly untenable and can have no results other than to demoralize your party and the Yugoslav masses, while playing into the hands of your enemies, the direct agents of the Kremlin who have sworn to destroy your leadership and your party. Your conflict with the Cominform has in reality placed on the order of the day one single question, namely: THE NATURE OF THE STALINIST REGIME WHICH, THROUGH THE KREMLIN, LEADS THE USSR AND THE COMMUNIST PARTIES.

This regime has nothing in common with the proletarian revolution and socialism. It is the mouthpiece of the Soviet bureaucracy, consolidated into a privileged and uncontrollable caste inside the Soviet Union, applying throughout the entire world a policy strictly in defense of its own interests. The Communist parties serve as tools for this policy thanks to the Soviet bureaucracy's direct and absolute control over these conflict with the Cominform, contenting itself parties. The Kremlin has likewise sought to September 1948

establish such a direct and absolute control over your own party and government. You tried to resist, and, from that moment, a life-and-death conflict with the Kremlin regime became unavoidable.

It is your duty as well as in your own selfinterest to raise the clarification of your conflict with the Cominform to the plane of the true ideological reasons, which pertain to the nature of Stalinism. Only in this way will you be able to arm your party and the Yugoslav masses and resist the formidable assault launched against you by the Kremlin, now bent on wiping you out. Bureaucrats depend only on the police apparatus for their defense.

Revolutionists depend above all on the ideological and political mobilization of the masses. Which of these roads will you choose?

Stalin plots against Yugoslavia because your resistance to his direct and absolute control can become a dangerously contagious example. He cannot seek grounds for a compromise. He must wipe you out. In this terrible predicament, your sole defense is the conscious support of the Yugoslav and world masses.

Yugoslav Communists! Appeal to these masses for this support! Break with Stalinism and denounce it openly! Institute a real regime of proletarian democracy in the party and in the country! Crush every bureaucratic move in your own ranks! Take the road of the real proletarian revolution, made by the masses and for the

Issue a call for the real proletarian revolution in other countries of Eastern Europe! And of all of Europe and the world! This is the hour neither for tricky maneuvers nor for opportunist considerations. It is necessary to march in the vanguard. It is necessary to confront Stalin face to face with the open face of Revolutionary

Vol. XII --- No. 38

Monday, September 20, 1948

The experience of my life, in which there has been no lack either of successes or of failures, has not only not destroyed my faith in the clear, bright future of mankind, but, on the contrary, has given it an indestructible temper. This faith in reason, in truth, in human solidarity, which at the age of eighteen I took with me into the workers' quarters of the provincial Russian town of Nikolaiev - this faith I have preserved fully and completely. It has become more mature, but

"Stiffening" Taft-Hartley Law

"Important changes in the Taft-Hartley law are in the works," declares The Wall Street Journal of Sept. 4.

These changes won't soften the infamous Slave Labor Law. Instead, they will "stiffen" the act, according to the inside information jubilantly reported by this mouthpiece of Big Business.

The changes are being prepared right now by the Senate Committee headed by Joseph H. ("Foul") Ball, Republican of Minnesota, who is one of Senator Taft's head errand boys. They will be tailored "with the aid and comfort of many Democrats," says The Wall Street Journal. Naturally, "until after the elections" the new proposals will not be widely publicized.

Here are some of the changes now shaping up, according to The Wall Street Journal: Force unions to pay scabs and strikebreakers for time lost because of picketing

"which kept them off their jobs." Make it illegal for unions to engage in collective bargaining over employer contribu-

tions to union welfare funds. Exclude business "local in character" from

jurisdiction of the National Labor Relations Board.

Ban industry-wide bargaining.

Require all members of unions on any policy-forming, governing, representative, administrative, disciplinary or negotiating body to take the "anti-communist" oath. The aim of this is to drive all militants out of the unions under guise of a drive against "com-

Outlaw strikes aimed to secure a contract held to be in violation of any provision of the Taft-Hartley Law.

This "stiffening" of the Act is the payoff "won" by the top union officialdom for thinking they could live with the Taft-Hartley Slave Labor Law, for giving up the fight against it and signing the notorious yellow-dog oaths.

These labor "statesmen" reacted precisely as Big Business had calculated. They fell for the "inch at a time" strategy of the monopolists. They fell for the Big Business propaganda that after all the Taft-Hartley Law is not as bad as it has been pictured.

The Militant has repeatedly warned that this Slave Labor Act is not the last of its kind. Still worse legislation is sure to follow if uncompromising struggle is not waged against the brutal challenge of Big Business.

The report of The Wall Street Journal indicates the timeliness and correctness of our warnings. Having won a major beachhead in their political war against labor, the Republicans and Democrats are now preparing further savage blows.

Georgia" "Fear Bloodshed in

The grim portent of Herman Talmadge's victory in the primaries as Democratic nominee for Governor in one-party Georgia was intimated in the following headline of the Sept. 11 Amsterdam News: "FEAR BLOODSHED IN GEORGIA."

The accuracy of this dark foreboding was soon confirmed. On the very same day the headline of the prominent Harlem paper appeared in the streets of New York, Isaiah Nixon, a Negro father of six children died in a hospital at Dublin, Georgia, of three gunshot wounds. He was murdered because he dared to vote under the American flag that waved at the polls.

According to the Associated Press, Nixon braved Sheriff McCrimmon's "advice" not to vote, and exercised his basic democratic right to cast a ballot. A few hours later, two white supremacist brothers, Johnnie and M. A. Johnson, pushed into the home of the 28-year-old Negro and shot him down before his wife and children.

This murder is a token of what to expect under the reign of Talmadge the Second.

Like his notorious father, this young American imitator of Hitler campaigned on a lynch-minded platform of racial hatred. It took more than this to clinch his victory, however. Talmadge won through the infamous "unit" system instituted by the Democratic Party in Georgia, which weights

the Negro-hating rural vote against the lessbigoted vote of the cities. In addition, hundreds of Negroes courageous enough to register were struck off the lists by the Talmadge machine. Open terror and intimidation barred thousands more from voting. The hooded Ku Klux Klan rode through Negro districts. Fiery crosses burned in many areas, casting a menacing light over this "election" of an American fuehrer.

Talmadge's accession to the Georgia dictatorship should not be dismissed as a temporary and accidental aberration in American politics that will be righted without effort. It is a sign of the mounting strength of reaction in our land. All the native fascist scum, already emboldened by the anti-labor drive, witch-hunts, "loyalty" purges and "spy" hearings, will take fresh courage at this victory over democracy.

Talmadge will now set out to consolidate his power in Georgia. This means a reign of fear and violence that will have repercussions far beyond the borders of that unhappy state. Georgia will become one of the pest-holes of the fascist disease.

Let labor pay special attention to organizing serious struggle against this sinister political trend in America! Talmadgeism is on the march. Disaster faces the labor movement if this danger is not recognized and indispensable defensive measures taken in

Government Strikebreaking

as the executive committee of the ruling class. This Marxist truth has been made most apparent in the maritime industry.

Today on the Pacific Coast, the United States Army is being used to spearhead a strikebreaking assault on the maritime unions engaged in a showdown struggle with the ship-owners.

The use of the Army as a strikebreaking agency in the present dispute was a calculated move openly executed by the employers. After breaking off negotiations the employers pushed the Army forward to put the unions "on the spot." A demand was made that the union work Army cargo with the expectation that this demand would be met with a refusal. When the union acceded to the demand the employers declared it was nothing but a "communist trick" and refused

They then demanded that the Army use its "own means" to work cargo. At this snap of the whip the Army fell into line and began recruiting its own. "working force"—to fink on the longshoremen.

This is only the latest in a whole series of government actions designed to destroy the independent unions of the maritime workers.

Following World War I the government smashed the seafaring unions in the lockout of 1921. From 1921 to 1934 the open shop prevailed in the maritime industry. When the

In a class society, the government functions maritime workers on the Pacific Coast began their historic struggle for independent unions in 1934 the government again intervened on the side of the ship operators.

General Hugh Johnson, then head of Roosevelt's National Industrial Recovery Administration, was sent to recruit strikebreakers to put down the strike—which he dubbed a "communist insurrection."

In 1936-37 the shipowners tried again to restore the open shop but were compelled to capitulate after a 99 day strike. That encounter proved conclusively that the shipowners were unable, through their own resources, to break the strongly entrenched maritime unions.

From then on every major dispute on the waterfront found the unions confronted with the direct intervention of the government acting as agents of the employers. At one time or another, each branch of the government, executive, legislative and judicial, has been brought into play against the unions.

The agencies of a capitalist government could not act otherwise than to execute the bidding of their bosses, the bankers, industrialists, and other monopolists. Only a Workers and Farmers government can defend the rights and living standards of the working people. The workers will learn, through such experiences as the maritime workers are going through in their struggles, that only their own class government is worthy of their confidence and support.

"MISTER DISTRICT ATTORNEY"

the government.

Victor E. Anderson, U. S. dis- oned without their host.

The Minneapolis Star, with a keen sense of the historic, reminded its readers that it was Anderson who prosecuted and sent to prison 18 leaders of the Socialist Workers Party and Local 544-CIO. That famous trial was, of course, the zenith of Anderson's career, from his point of view. For the six weeks of the trial and during the other steps in the long-drawn-out litigation, Victor Anderson became "Mister

District Attorney." We are all familiar with the a mythical D.A. whose duty it is "not only to prosecute to the by the ears." limit of the law. . . . but to defend with equal vigor the rights and privileges of all our citizens." Each week your Mister District Attorney goes on the air to enact another thrilling episode with his stooge, Harrington, in the "war

against crime." But what a pale caricature of this story-book version is the real flesh-and-blood article! Anderson represented the triumph of mediocrity. The federal government sent in a special prosecutor, Henry Schweinhaut, now a federal judge, to give Anderson the necessary assistance in preparing and handling the imporassistance, together with a friend- on the case declares, on all his Hats will have no difficulty in tant case. NEW BRITAIN, (Conn.)—Militant Dis-cussion Group every Fri. 7:30 p.m. Mili-tant Labor Club. 165 Main St. (next to

Our Michigan comrades are doing a bang-up job of campaigning. They have a firstclass sound truck which is kept in constant use. Thousands of copies of the SWP election platform, pamphlets, The Militant and other literature have been distributed. They are seizing every chance to get in their licks over the

Our local candidates are right in there pitching. Howard Lerner, Genora Dollinger and William Yancey are doing a Trotskyist job in their campaign for Governor, U. S. Senator and Secre-

Every Michigan comrade is carrying the message of socialism right into the factories and the working class and Negro neighborhoods. The workers are giving them a sympathetic hearing.

I have heard numerous stories of workers taking our literature onto the job, reading it by sentences or paragraphs as best they could under the speedup the auto corporations are imposing upon them. The comrades report that very little of our literature is found on the ground after a distribution. The workers take it, read it and talk about it. Thousands of Michigan workers now know about the SWP, its candidates and its program.

The Flint comrades were right on their toes when strikebreaker Truman came to town. They managed to drive our sound truck, with signs proclaiming our party, candidates and slogans, threefourths of the way down Truman's parade route. Thousands of people, who were lined up awaiting Truman's appearance, saw and heard the Trotskyists too.

Truman spoke 17 minutes over the major Flint radio. Since Truman received free time, our comrades demanded and won 17 minutes free time for me to answer Truman over the same station. I spoke at 6:15 P. M., right after a broadcast of the news and baseball scores. A big audience was reached in Flint, Pontiac, Saginaw and many upstate communities.

In Detroit, the comrades distributed over 15,-000 pieces of SWP literature at the Truman rally in Cadillac Square. Truman's audience at the Pontiac railroad station received 3,000 copies of SWP campaign material.

My public meetings in Flint and Detroit have been well attended by enthusiastic audiences of auto workers with a good percentage of Negro workers among them. In both cities, the workers have listened attentively to my explanation of the struggle for socialism and have then demanded that I tell them the story of the famous Minneapolis truck drivers strike of 1934.

I visited Chicago before coming to Michigan Despite the handicap of the Labor Day weekend the comrades organized impressive public meetings in both Chicago and Indiana Harbor. My explanation of the Workers and Farmers Government and the socialist society it will build was well received by the workers.

In individual conversations with workers after the meetings, I found that they are thinking deeply about the grave political problems confronting them. There is widespread resentment against the treachery of the high union officials in endorsing the hated strikebreaker, Truman.

Comrade Manny Terbovich and I discussed the SWP program in a 15 minute broadcast over the Hammond radio, which has a big audience in the Calumet region where 250,000 industrial workers are concentrated.

The worker comrades told me that in the steel mills in that area there is a great deal of sympathy with the fight of Jimmy Kutcher, our legless war-veteran comrade, who has been victimized by the Truman administration because of his political beliefs.

Next stop on my tour is Pontiac, Michigan From there I go into Ohio. Every stop brings new experiences and new inspiration that our programatically-mighty little party is not so far away from the day when it will be a numericallypowerful big party.

SWP Election Tour

In the World's Steel Center

By Grace Carlson, Vice-Presidential Candidate

The Pittsburgh-Youngstown area is widely known as the steel center of the world. Along the shores of the Mahoning, Allegheny and

Monongahela rivers are located some of Steel's biggest names -Youngstown Sheet and Tube. Jones and Laughlin, Carnegie-Illinois, U.S. Steel, Republic Steel. To recite these names is to recall long years of workers' struggle against these huge corporations and some of the bloodiest — and noblest — pages in American labor history.

But many other and varied industries are also located in the Pittsburgh area. This area has the largest tin plate mill in the world; the largest electrical manufacturing works in the world; the largest plate glass manufacturing plant in the world; the largest food producing plant in the world, and so forth and so on.

Pittsburgh's downtown area, between the Allegheny and Monongahela Rivers before they join to form the Ohio River is known as the "golden triangle." Billions of dollars of wealth is concentrated in the hands of the capitalist monopolists of the "golden triangle." They own everything in sight — but they don't own the future. We own the future — we who are building the foundations of a workers' world.

We made a very important down payment on the future when we established Socialist Workers Party branches in Youngstown and Pittsburgh. These Trotskyists are facing up to their big capitalist opponents - who own the newspapers, the radio networks, and the local governments of these cities - and they are getting in that proved so successful for some telling blows. At the present time, it may seem like a David-Goliath contest, but after all lowing the First World War. the tiny David won out over the giant Goliath because he was properly armed!

Armed with the Socialist Workers Party election program, the Youngstown and Pittsburgh Trotskyists are demanding - and getting publicity in the press, free radio interviews and they make, every news release many other concessions usually granted only to issued, begins: "We can't do busicapitalist party candidates. And all of this intensive and enthusiastic campaigning has brought results. There were many new faces at the an attempt to hide the real ispublic meetings in Youngstown, Hazelwood and sues of the strike, which are-Pittsburgh and many pieces of Trotskyist literature were taken back to steelworkers and electrical workers homes for future study.

And when these workers and the many more who will be reached through them really understand that the Carnegies and the Mellons and their kind play no useful role in our society, we the present wave of reaction have refused to sign the anti-conditions. In the longshore locals will be at the dawn of the bright future of against the longshoremen and communist affidavits, and the up and down the coast they have

Letter to American Negroes

🗕 By Dinah Sanders 🗕

Perhaps never before has the question of the Negro's rights been used so sordidly as a political football as in this present election year. Back and forth it goes - Truman is-

Back and forth it goes - with Dr. W.E.B. DuBois, who supports Wallace this year, castigating Walter White of the NAACP who supports Truman, for "abandoning efforts to ease the world plight of the Negro people to serve the interests of President Truman's Administration." Round and round it goes - with Negro preachers plunking for a national "Truman Sunday" in the churches, and Adam Clayton Powell teetering astride the political fence, so fearful of his political future.

But above this yammering and bidding for votes, rises a calm voice of reassurance — a splendid pamphlet called "A Letter to American Negroes" (published by Pioneer Publishers). Bohannan, the writer, a Negro himself, tells his people the truth. He explains about politicians and promises; he recounts the lessons of the Civil War, and tells about the class struggle today. Having lived the class struggle for the 35 years of his life, first in Georgia and then in Newark, N. J., Bohannan knows the fate of the Negro

in a capitalist society, and he knows the truth: "Either the working people will take power and establish a Workers and Farmers Government or the capitalists will drag us all down to barbarism

"A Letter to American Negroes," in addition

to posing the question, gives the answer: A Workers and Farmers Government. It tells how: "The same way that the capitalists came to power - that is, through organization and action, above all, political action." And then it tells about Farrell Dobbs and Grace Carlson, SWP candidates for President and Vice-President of the United States. It tells of their records in the class struggle and the fight for the second emancipation of the Negroes. It compares their record with that of politicians like Henry Wallace, who talks a good fight against Jim Crow today when running for office, but who, when in office, declined to end discrimination in his own Commerce and Agricultural departments.

Bohannan exposes the kind of party Wallace is trying to build, and explains what the Socialist Workers Party offers: "What the Socialist Workers Party has to offer you is not vote-catching promises but a program that teaches the workers of all races what they can do for themselves when they organize and use their political power. . . " His conclusion is "To smash the Jim Crow system altogether, join with the Socialist Workers Party in creating a Workers and Farmers Government!"

Notes from the News

LEAD STRIKE — An important strike of the CIO Mine, Mill and Smelter Union against the mines, mills and smelters of the St. Joseph Lead Co. of Flat River, Missouri is entering its tenth week. After the strike began the company broke off all negotiations stating it would not deal with the union because it has not signed the Taft-Hartley affidavits.

ANOTHER UE SECESSION - Workers of the Royal Typewriter Co. at Hartford, Conn., belonging to the CIO United Electrical Workers, voted overwhelmingly in an NLRB election for the CIO auto union. 5,448 ballots were cast in the election. The results were: for the UAW, 4,954; no union, 381; 33 were challenged and 80 ballots voided.

TELEPHONE WORKERS — The CIO Telephone Workers and the Independent Communica-

tion Workers of America announced that the two unions have joined forces for a "co-operative effort to break the Bell System's opposition to a third round wage increase for the 500,000 workers employed by Bell."

WEISBORD IN LONDON - Albert Weisbord leader in 1926 Passaic textile strike and head of left-wing Weisbord group for many years is now in Britain representing the AFL Hat and Millinery Workers Union on the Marshall Plan.

LOUDSPEAKER RULING — Magistrate Peter Abeles of Bronx Magistrates' Court upheld the right of a political campaigner to use a loudspeaker in New York City without a police permit. Abeles dismissed a complaint brought by the Police Department.

Army Aids Bosses in Threat To Smash West Coast Strike

Maritime Workers Prepare For a Show-Down Struggle

SAN FRANCISCO, Sept. 14—The maritime strike on the Pacific Coast shows all the earmarks of a show-down fight. The employers have the initiative and are out to smash the CIO International Longshoremen and

Warehousemen's Union. Organized longshoremen have been the backbone of maritime labor since the days of the great 1934 strike. If the longshore union is destroyed now, the employers know that they will have

Page 3

easy days ahead in dealing with the seamen's unions. They have learned this from past experience in dealing with maritime labor.

After World War I, the longshore union was broken in the 1919 strike. Two years later, in 1921, the government and operators combined to get the organized seamen. In a bitterly foughtout strike, with the U.S. Shipping Board holding a club over industry to prevent any deals with the union, the seamen finally went down to defeat.

By directing their heavy fire against the CIO longshoremen now, the operators hope to repeat the pattern of union wrecking them in the open-shop era fol-

hysteria being whipped up in fer." Washington. They seek to direct these workers.

This plan of the employers is cargo tied up by the strike.

After several meetings with local Army brass and a daylong debate among top executives of 152 shipping firms of the Waterfront Employers' Association and 35 members of Pacific American Steamship Association, the employers announced that they will not handle Army cargo.

Their statement said in part: "1 — It would not be in the more reasonable. . ." munist Party-line leadership.

"2 - From our experience and knowledge, of transport we are satisfied that our decision will not materially hamper or delay the Army program. The industry will make prompt arrangements with the Army to supply gear, equipment and administrative personnel to handle its cargoes."

This open bid for Army strike breaking was prefaced by a long denunciation of the Stalinist head of the CIO-ILWU. The employers call an offer by Bridges and Co. to move Army cargo "a 100 per cent political move!"

After the shipowners made their demand for Army action the local brass turned down Bridges' offer and announced its intention to hire outside the union hall.

This decision was widely pubicized but not a single legitimate longshoreman answered the Army's call.

This is the first move to break the strike and it is following a well known pattern in the maritime industry. The shipowners have in every previous crisis called on the government to do the job upon the unions that they themselves could not do.

SAN FRANCISCO, Sept. 10-Attempts of the Waterfront Employers Association and Pacific American Shipowners Association to stampede striking longshoremen and seamen into bitter internal wrangling among the several unions involved over the question of anti-communist oaths have failed completely of their purpose as the pacific coast maritime strike enters its tenth day with ranks solid. CIO longshoremen in meetings

operators were seriously disturb- ship." ed at the anti-Communist tack (of the WEA and PASA)." This is beginning to become manifest in the feelers and offers now

It is not surprising that the shipping hogs are already beginning to break ranks. They are right now enjoying the greatest profits in their long racketeering history. Companies that made over a million in 1947 include most of the operators now struck on the Coast: American-Hawaiian. American Mail Line, American President Line, and Moore-Mc-Cormack Lines. Moore-McCormack, an east coast outfit, made over \$9-million dollars. Adding their 1947 profits to the undistributed profits of earlier years, the American President Lines, a government-owned company and one of the mainstays of PASA, had between 15 and 16

million dollars in the bank. These operators must think constantly of their lush profits that the strike has temporarily halted, and many of them are wondering if an "ideological war" against communism is worth the

While the operators seem to be weakening on this issue, the unions have seized the challenge and are strengthening their ranks. In an advertisement appearing in all San Francisco papers, the unions' position is clearly stated:

Taft-Hartley Law is not 'comnunism.' It's good, common sense rade unionism. "It is the policy of the inde-

New Jersey Candidates of SWP Expose UN

NEWARK, N. J., Sept. 4-The goal of the Socialist Workers Party is "the establishment of Workers and Farmers Governments in all countries, based on production for use and joined together in a Socialist United States of the World," the New Jersey candidates of the SWP today informed Carl Van Doren, chairman of the editorial board of World Government News, a periodical advocating a "federal world government."

Mr. Van Doren had sent a questionnaire to George Breitman, SWP candidate for U.S. Senate, and William E. Bohannan, SWP candidate for Congress in New Jersey's 11th District. The questions asked were:

1. Do you believe the United Nations should be transformed into a federal world government with powers adequate to keep world peace and with direct jurisdiction over individual persons in matters delegated to it? 2. If you become a member of the 81st dates, in a letter dated Sept. 4, Congress, will you support legislation to bring this about?

THE ANSWERS

WILLIAM E. BOHANNAN SWP candidate for Congress, 11th District, N. J.

1948 were as follows:

through this letter rather than through the Yes-or-No checksheet you sent us. At the same time, you will observe that we are by no means evading your ques-"In our opinion the United Na-

tions is incapable of securing or keeping world peace, no matter what transformations it may undergo. Like the League of Nations, it is dominated by a few powerful governments which are divided by profoundly antagonistic economic and national interests and are engaged in incessant warfare, whether of the cold or hot variety. These governments are concerned only with protecting and promoting the interests and privileges of their rulers—the oppressive capitalist class in the United States, the oppressive bureaucratic caste in Russia. In their struggle for control over markets, raw materials and military bases these govern- and as a mask behind which war political collaboration to destroy ments are even prepared to plunge the whole world into a civilization-shattering war.

signed candidates of Congress, will continue to serve as an arena on such reactionary regimes and inside and outside of Congress,
