Street. We can expect them to vote. The bigger the vote for sure he won't be moved." Dobbs and Carlson, the better the chance to force a real count.

THE WIND UP IN NEW YORK The campaign came to its fitting climax in New York last Wednesday. There is a story on the meeting elsewhere in this issue so I won't take up more space describing it except that all hearts were lifted by great speeches by great candidates for a great

'Our New York campaigners have many other victories to record. Here I want to deal with two of them because they show we are beginning to break down the Stalinist monopoly over the radical working class public in this city - and right in their own bailiwicks.

The first was a big campaign rally on a street corner of the Brownsville section of Brooklyn, only a stone's throw from the hall where the Stalinists once violently broke up a Trotskyist public meeting. A large crowd listened to speeches by Mike Bartell, Dave Weiss and Harry Ring. When Farrell Dobbs mounted the platform the crowd had swelled to over 400 overflowing into the streets.

The second victory took place at the Fort Greene Housing project in Brooklyn where the Stalinist-run tenants group had organized a political symposium to hear representatives of the Democrats, Republicans, the Wallace Party and the Stalinists - but

excluding us. Mike Bartell, New York SWP organizer, carried the fight for an SWP speaker right to the floor. A big verbal battle ensued with the Stalinists resisting the demand of the majority of the meeting that we be heard. After trying unsuccessfully to stall the meeting with a musical program, the Brooklyn Stalinist leader, Simon Gerson, led his followers out of the hall. But more than half

"MAJOR LANDMARK"

Whether Truman or Dewey Wins, Workers Are Losers

(The following is the text of the speech delivered by Farrell Dobbs, SWP Presidential candidate, on Thursday, October 28 at 10:15 P. M. over station WNEW in New York City.)

Friends of the radio audience:

I want to begin my talk tonight by making a prediction. When the returns are announced on Nov. 3, regardless whether Truman or Dewey is elected President, Big Business will be the winner and the American work-,

ing people the losers. The great wealth, the natura' resources and the product.v system of America will remain under the domination of gian

monopoly corporations. The decision on war and peace -a decision which means life o death for the human race-wil remain in the hands of a ting group of industrial overlords an brass hats who control the bi partisan government in Washing

Prices will continue to rise un less a new depression substitute unemployment for the high cos of living as the main evil plaguing the American people.

BOSS OFFENSIVE

The offensive against the labor novement will grow in scope and fury. America will become the scene of bitter class warfare and the unions will fight for their very existence against repressive legislation, government - by - injunction and police terror.

The Congressional witchhunters and inquisitors-now safely in office-will continue their dynamitng operations to blow up the precious democratic rights of all he American people.

This prediction-I am certain - will not startle millions of American workers who have had enough of the capitalist twoparty sham. They know that the people wanted a change and were prepared-if necessary-to strug-The gathering contributed gle and to sacrifice for that

Norman Thomas--Pro-War, Marshall Plan 'Socialist'

The recent public debate between Farrell Doobs of the Socialist Workers Party and Norman Thomas of the Socialist these demoralize and derail the Party achieved a significance? of presidential candidates in an election campaign. This was a truly history debate in the sense that it illuminated the meaning and direction of two basic political tendencies that have contended for the support of the working class for a century.

In the past, the traditional debate between the social reformists and the revolutionary Marxists revolved around the question of method. How is socialism to be won, by gradual reforms and "evolution" or by a complete overturn of the existing capitalist system?

Previously, the "gradualist"at least in words-agreed with the revolutionist on the general goal of socialism. Moreover, the traditional social reformist claimcd to be a Marxist: at most, he wished merely to bring Marxism

"up to date" by a few "revisions.' In the debate between the Marxist Dobbs and the social-reformist Thomas, the latter abandoned all socialist pretense. He did not even mention socialism as a realizable goal, let alone "in our time"-he coined the phrase back in 1986. Thomas, as the leading spokesman in America for social reformism, stripped off his socialist mask.

SNEERS AT MARXISTS

He publicly sneered at the gical." The actual objective of the socialist, according to Thomas, is no longer socialism, at least not in any conceivable time. Rather, he said, all that he can perceive is "a tremendous choice of evils"—American imperialism or Stalinism. And of the two, he favored giving "critical support" to U.S. imperialism.

Thus, the Thomas of the pre-World War II "Keep America Out siding with the American warmakers and has actually discarded burning interest to class conscious socialism as a realistic program. He presents us only with a Street imperialists and the Stalin-

Program Will Lead to a Socialist America," as advertised, but how growing receptiveness of the to utilize the methods of agitacan capitalist America best and American working class to the tion appropriate to a mass party." most effectively destroy Stalinist ideas of Marxism. Thus the cam-

CLASS POLICY

In the past, Thomas and similar social - reformists made some attempt to base their program on the working class. That too has been abandoned. Dobbs explained how Marxist policy is based on the primacy of the class struggle the essence of the platform on and that it banks on educating the working class to fulfill its Historic mission of taking power out of the hands of the capitalists and reorganizing society on rational socialist lines: that this is the only effective way of fighting and doing away with capitalist war.

Thomas said not a word on what the workers should do. At ro time did he propose any program of action for them, because he no longer believes in the working class or its ability to establish a new socialist society.

Thomas's policy instead is based on advising the capitalists, giving us; because we are aware that them gratuitous suggestions, drawing up "constructive" plans for them and the like. He gives workers, constitutes a decisive advice to the U. S. State Depart- factor in the future of humanity. ment on the best methods of The day they launch the assault

far beyond the customary clash with the United Nations; how Washington should push the Baruch plan for the atom bomb,

> Thomas went further and made an unabashed defense of class collaboration. When Dobbs challenged Thomas on this, the latter answered by pointing to the "collaboration" of the SWP with various groups of people in the defense of Leon Trotsky and the 18 Minneapolis prisoners. Here again was revealed the

clear - cut demarcation between Marxist politics based on a class approach and the politics of bourgeois liberalism based on the myth of class unity. Marxists favor united fronts of all tendefense of civil liberties, democratic rights, strike support. These nelp strengthen the labor movement and advance, in that sense, the whole socialist objective. But in defense of capitalist programs

working class movement and are thus crimes against socialism and the working class.

On the immediate, crucial quesion posed in the debate-particularly for anyone calling himself a socialist-How to fight the coming war. Thomas answered that the 'realistic' approach must make an appeal to the war makers to 'disarm.' Dobbs answered that it was up to the workers to fight to take power out of the hands of the warmakers. Thus, all along the line the class line of division was drawn shars and unambiguously clear.

Thomas performed—even if unwillingly or unwittingly-a useful service to the extent that he dencies within the labor mover stated the true position of his ment or even with liberal in- tendency. How shall the lost battle be turned into a winning war? Where shall the American working people find new leadership? These are questions of the hour. now lead-or rather mislead-big government. Join with us in the cialist Workers Party. organizations, then the quest shall be hopeless. You must look elsewhere-among those who speak the truth at the cost of personal sacrifice and the hostility of the powers-that-be. You must look to those who fight for every inch but refuse to trade the great aims of peace and abundance for temporary and doubtful gains. You must look to the Socialist Workers Party.

MINORITY GROUPS

Wallace, we admit, has more followers. Murray, Green and Reuther have more influence and control in the union movement. But history demonstrates that progress is never made by those who stand for the status quo even though they represent large numbers. Minority groups who speak and live the truth have always been the instruments of great changes. They become majorities with the help of events and experience. Eventually their ideas penetrate through a fog of lies and deception into the minds of the people and become a power

The pioneers of American liberty-men like Sam Adams. Tom Paine and Patrick Henrywere a small and persecuted minority until British tyranny convinced all but a few of the American colonists of the need for a Declaration of Independence.

The foes of human slaverymen like Frederick Douglass, William Lloyd Garrison, Wendell Phillips and John Brown—were a little hand of idealist greeted Yet their cause was finally Abraham Lincoln who led a civil war that abolished slavery.

TROTSKY

Capitalist monopolies, having corroded the middle classes, are devouring the democracies. Monopolies themselves were a result of private ownership of the means of production. Private ownership, having once been the source of progress, came into contradiction with modern technique and is now the cause of crisis, wars, national persecutions and reactionary dictatorship. The liquidation of the private ownership of the means of production is the central historical task of our epoch and will guarantee the birth of a new, more harmonious society. The act of birth, daily observation teaches us, is never a "gradual" process but a biological revolution. -Leon Trotsky, Interview in St. Louis Post-Dispatch, Mar. 1940

LENIN

An Act of International Solidarity

John L. Lewis's letter to William Green, printed elsewhere on this page, asking the AFL President to use his influence with Truman to "stop the shooting of French coal miners who are hungry" is a refreshing and welcome departure from the servile handraising to State Department policy that has become almost second nature with the top union bureaucracy. It is the first time in many, many years that an outstanding labor figure has reached a helping hand across the sea to striking workers in a foreign country. It revives again the splendid tradition of international labor solidarity practiced by the genuinely great American labor leaders from William H. Sylvis of the American Labor Union down to the Haymarket martyrs, 'Gene Debs and "Big Bill" Haywood.

We have often pointed out the political backwardness of Lewis that forms such a paradoxical combination with his militancy in fighting for purely economic demands. He is 100 percent wrong in his opposition to socialism and class politics. But Lewis struck a most timely blow in behalf of the beleaguered French coal strikers when he tore the veil of hypocritical humanitarianism from the Marshall Plan to show how it builds up the "bureaucrats and financially powerful in

The Clang of the Iron Heel

France" while "American money, American guns and American bullets are to be used to shoot, starve and oppress French citizens." This denunciation of State Department policy and expression of international labor solidarity will undoubtedly hearten the French miners and help stiffen their resistance to the French government's onslaught.

And Lewis's gesture will hearten militants here in America as well. It will aid in building up the feeling of brotherhood among the working class throughout the world, in emphasizing that workers everywhere face one common foe, and that they must do everything possible to help each other in their common

In its way, Lewis's letter is a sign of the awakening political consciousness of the American workers, the turn away from pure-andsimple economic unionism to the broad political questions that affect labor so decisively and immediately nowadays. It is another significant indication of the deep currents now stirring the American labor ranks. It strengthens our conviction that American labor will slough off its backwardness in the coming period and assume its responsibilities as leader of the whole nation in freeing America from the grip of the industrial tyrants.

the men in charge of the loyalty program. It is not merely the cruelty with which the government has treated a man who deserved consideration from his country. The circumstances provide a reductio ad absurdum for the syllogism of suspicion which has hitherto served as rationale for the

Just as discussions of the race question in the south sooner or later come around to sex, so discussions of the purge always get back to the atom bomb. The clincher, the would-you-wantyour-sister-to-marry argument, is whether you would place a Communist in charge of the secret of the atom bomb. The answer at the moment is, of course, obvious. This answer is triumphantly assumed to justify the discharge of a letter carrier for having once contributed \$5 to the Joint Anti-Fascist Refugee Committee. Some people think the atom bomb more precious than the Constitution.

The Case of the Legless Veteran demonstrates that the loyalty purge goes beyond any supposed necessity for protecting secrets so vital they justify the abandonment of traditional liberties. The political views and the job involved show that the effect is to punish a man for his ideas, irrespective of his conduct or his record.

James Kutcher, who lost his legs to a German shell and his livelihood to American hysteria, is a member of the Socialist Workers Party, a Trotskyist group opposed to the Soviet regime. No one could suspect a Trotskyist of trying to steal the atom bomb and ship it to the Kremlin, except perhaps with mechanism attached to make it go off when Stalin turned the spigot on the office samovar.

No suspicion of divided allegiance is raised. The Trotskyists have been blacklisted for their political ideas. Just what the government finds objectionable about their ideas is not clear. They are lumped with other radical parties, including the Communists, under the general heading of organizations which "seek to alter the form of government of the United States by unconstitutional means." That's as vague as it is

No further explanation is given. The loyalty order does not require the attorney general to give an accused organization either a hearing or an explanation. . . Membership in the blacklisted party is enough for discharge, though the organization may be a legal political party, campaigning for public office. That this provides disturbing precedent for the future should be obvious. If Trotskyists can be proscribed, why not Socialists? If Socialists, why not New Dealers? . . .

Basic political liberties and basic procedural safeguards are threatened by the standards of judgment and procedure applied in The Case of the Legless Veteran. These in turn are not the handiwork of that 80th Congress, but were established by the loyalty order. The order was Harry Truman's and Harry Truman claims to be a friend of civil rights. More pitiable than a man without legs is a President without firm principles.

Seamen Wise

On Imperialism

During one of our coffee-time oull sessions, I had an accusation leveled at me by a Stalinist seaman. He called me a pamphleteer and said that I mouthed phrases that had little bearing upon actual fact. According to him, it was all right to read Marxist books, but after all they had been written some time ago and these questions are subject to change. I asked him what charges peoples." he was specifically referring to.

"Well," said Blackie, "you're wrong on that idea of self-determination of peoples. That statement you made that all troops should get out of the colonial countries and let the people decide for themselves how they want to be governed is an incorrect position. You wouldn't say that if you really knew the score.

"All right," I said, "what's the score."

Some of the interested listeners o these informal debates moved in closer to hear the gems of wisdom from this gazooney. "Now take Italian Somaliland."

In his Oct. 20 column the well-known columnist Joseph Alsop published some interesting information about the backers of

the Dixiecrats or States' Rights party. "By and large, the Democratic party in the South has been controlled by a conservative oligarchy," he says. "In other times the oligarchs were mostly big planters. Now the planters have been pretty much replaced by utility magnates, textile men, industrialists, bankers and, more and more, the new oil barons of Texas and the Gulf states. The States' Rights party is essentially the response of this conservative oligarchy to the pressures which have been steadily pushing the national Democratic party farther to the Left."

Among these oligarchs, Alsop lists "H. R. Cullen, a fabulously rich Houston oil man. . . Cullen arranged for a private plane to take H. Strom Thurmond, the Dixiecrat Presidential candidate, to the Houston convention, and a special train to take Fielding Wright and his Mississippi cohorts to the same meeting. He is believed to be the chief sparkplug of the oil industry's backing for the Dixiecrats. Among the oil corporations, the Humble Oil Company has reportedly particularly interested itself in the Thurmond-Wright 'crusade'."

This powerful group, in Alsop's opinion, utilizes the racial issue as a cover in advancing their economic interests. "Southern oil men

were more enraged by the Supreme Court decision which awarded to the Federal government ownership of the last great national oil reserves in the tidelands than by the Truman civil rights proposals." The tidelands oil issue "has received at least as much attention at the various Dixiecrats get-togethers as the civil rights issue."

"The real danger," Alsop feels, "is that the Southern conservative oligarchy, in an effort to preserve the threatened status quo, will be tempted to turn more and more to this sort of thing, to the end that every issue, from offshore oil to the minimum wage, may be hidden and submerged in the race issue.'

Readers of the Militant readers will scarcely be surprised to learn that the Southern oligarchs have fascist leanings. The power behind the Nazis in Germany was similarly the munitions-makers, steel kings and financial tycoons. There too the Nazi racial dogmas only covered up their sordid economic in-

The lesson labor must learn from such facts is not to leave the fate of democracy. in America in the hands of the Southern oligarchs and their Northern twins. To do so is to invite the disaster that befell Germany. Labor can defend democracy against these predatory interests only by its independent struggle on both the economic and political

When they parted at Baltimore, the draftee compressed the story of their future, and the future of all American youth under capitalism, into four bitter words, "See you in Russia."

perialist war drew them together.

I walked off the train with the veteran. When his feet touched the good earth of his home town, he set down his barrack bag, breathed deeply and exultantly, smiling happily at the world.

"Home!" he said, "Home at last, after five long years, but I still can't believe it until I get out to the northwest side and see my mother." Then an unpleasant memory of the past must have flashed through his mind, for he suddenly turned to me and said grimly, "I don't want to mess up, mister, but nobody better try to push

welcome. Baltimore thanked the veteran of five years of hell in the European and Pacific war

hours later and read the following story:

"An audience of young men and women heard the young presidential candidate of the Socialist Workers Party picture a future America with no policemen, no armies and no capitalists, but with all of life's needs provided for everyone in bounteous measure. . .

"Mr. Dobbs illustrated how the workers and farmers government which he some day hopes to head will end the need for policemen, jails, courts and judges. . .

"When we abolish the profit motive and increase production—as we would increase it in our economy of plenty-watches and other valuables would become as common and as easily attainable as water. No one would want to take yours and so we would need no police.

"Abolishing armies would be just as simple, he asserted. With the profit motive abolished and the economy of plenty substituted for the capitalists' economy of scarcity, the people of the world have no motive for which to fight each other. . .

"We must organize, he said, by two and threes. by dozens and thousands to establish the Workers and Farmers Government, abolish the capitalist system and form a socialist society."

SWP Election Tour

On Historic Ground

- By Grace Carlson, Vice-Presidential Candidate -

Boston, the scene of so many stirring events in the First American Revolution, provided us with some more stirring events in our campaign for a

Third American Revolution. In three days of meetings in Boston, Cambridge and Lynn last week, we had large, interested audiences and some of the largest and liveliest discussion periods that I've had any place on this tour. The Massachusetts folks are dis-

> cussers from way back. The discussion at Harvard University was ended by the grounds policeman, who

threatened to turn off the lights. Before that, questioners and discussers of all shades of political belief had taken the floor. Sponsored by Harvard Students for Dobbs and Carlson, 85 students had crowded into the meeting room and another 50 had been turned away.

Most important is the fact that the meeting resulted in the formation of a permanent Socialist Workers Party Study Club on the Harvard

Although the reactionaries in charge of the New Jersey Weather Bureau turned on a cold driving rain last Sunday, we had a fine turnout at the Newark election rally. Of course, our courageous veteran, James Kutcher was there. A fighter like Kutcher who faces up to all of the

attacks of red-bating Government officials is not one to be defeated by rain!

It was another cold, rainy day on Monday when I went up to New Britain to speak at an NAACP-sponsored Forum. Some 55 people turned out to hear Republican, Democratic, Progressive, Socialist and Socialist Workers Party spokesmen. As is usually the case in such forums, little attention was paid to the Republican and Democratic speakers although they were Negro professional men of some standing and ability.

The alert audience at this forum knew that the Republicans and Democrats were parties of American capitalism and turned to the Progressive, SP and SWP spokesmen for answers to the problems of war, poverty and Jim Crow.

Like his mentor, Norman Thomas, the SP speaker made a red-baiting attack on the Progressive Party although he said some very true things about Wallace's failure to fight Jim Crow when he was in Washington. I gave the SWP position-that Wallace cannot wage an effective fight against war or Jim Crow because he is a capitalist politician; that the Communist Party betrays the workers by supporting Wallace; that Norman Thomas is a fake socialist, who is now lining up with the State Department: that we stand for an all-out struggle against the whole

After I returned to my seat, Mrs. Paul Robeson the Progressive Party spokesman, leaned over to say "Good for you!" and asked for some of our campaign literature.

Highest Paid Labor Leader

By Joseph Keller

One of the evils within the old AFL that helped precipitate the revolt of the CIO was the big salaries and expense accounts of the AFL bureaucrats. When the CIO was formed, the ranks insisted that their officers be paid wages comparable to what a skilled worker getting the union scale might receive.

It was not because the CIO workers begrudged their leaders the extra money. But bitter experience had taught them that union officials who are too far removed from the workers in their living standards lose touch with the realities of the workers' lives, become soft and corrupt.

The old-line AFL moguls—the Greens, Tobins, Wolls, Hutchinsons and Freys - not only lived like well-heeled business executives, but thought and acted like them.

One feature of the recent mine workers convention that the capitalist press gave much publicity was the raising of John L. Lewis' salary from \$25,000 a year, plus a \$10,000 annual bonus, to \$50,000 — making him the highest paid union official in the world. John Owens, Secretary-Treasurer, got a boost from \$18,000 to \$40,000, and International Executive Board members were raised from \$500 to \$1,000 per month.

Lewis and the officials of the UMW are in the top national income brackets. Their scale of living places them closer to the more successful capitalist executives than to the mine workers. This is the outward sign of the fundamental weakness of the Lewis leadership.

Like the Greens, Murrays and Tobins, the UMW leaders live in a world apart from the workers. They are accustomed to material security and luxury. They regard their jobs as a source of emoluments and wealth. They thrive under capitalism, live like capitalists and are capitalist-

That is why Lewis - personally so aggressive in economic struggles — is an unregenerate reactionary in politics. He clings to the system that nourishes him. He is a Republican in his pocketbook and in his heart.

Lewis may fight the capitalist government on this or that issue, and sometimes he may win a point, but in the end, and on the basic issues. he must submit. His great talents, his inspiring combativeness founder on the rocks of his backward social and political philosophy.

Lewis' militancy differs in an important respect from that of the early CIO. That latter militancy was linked with the rights of the members and was the democratic expression of their will. It could not be turned on or off at the whim

But the UMW is internally throttled. Lewis runs it with a well-paid machine based on personal loyalty to himself. He appoints two-thirds of the district presidents. He is a bureaucrat albeit a far more capable one than most - lacking in faith in the powers and intelligence of the workers. Which means he is blind to the real source of his own powers. And in this too he reflects the psychology of the capitalist class system — ruler and ruled — which he upholds.

That is why the labor movement, if it is to go forward, cannot depend on even so talented a man as Lewis. For the job of fundamental social reorganization that labor is destined to undertake, new and superior leaders are demanded, leaders linked integrally with the way of life of the working-class, leaders with real social vision and understanding of the class forces that move

Notes from the News

UNION TRENDS IN CANADA — Stalinists have their strength in Canadian unions in reverse of the situation in the U.S. They have little in-

fluence in the Canadian Congress of Labor (CIO) but are quite powerful in the Trades and Labor Congress (AFL). The recent CCL convention was rough on the Stalinists. It confirmed

the expulsion of Canadian locals of the Mine, Mill and Smelter Workers and denounced "some Communists" who mislead labor unions. In contrast, the AFL convention backed the expulsion of a right-wing union leader, Frank Hall, Vice President of the Brotherhood of Railway and Steamship Clerks, for helping an anti-Stalinist group switch its union

allegiance. The convention also condemned the Marshall Plan.

OLD ARMY GAME - Mayor Flaherty of Lorain, O., refused to negotiate with local 644 of the CIO United Public Workers, involving water works employes and other municipal workers, on the ground that Lilienthal of the Atomic Energy Commission won't deal with the union on atomic

CLERKS SECESSION - Representatives of eight Stalinist-controlled locals that have pulled out of the CIO Clerks union have set up an independent "Distributive Trades Council."

Oil Strikers Continue Grim Fight Against Odds

RICHMOND, CALIF., Oct. 25—The great oil strike is now entering its fiftieth day as thousands of rank and file workers continue to slug it out with the profit-swollen corporations on the West Coast.

The workers are engaged in a life or death struggle to preserve their organization.

The latest blow to be struck by the National Labor Relations Board, for a new election to "determine the bargaining agents" for 4,000 men employed by Standard Oil in Richmond. The NLRB has ruled that both scabs and union has issued a statement acstrikers are eligible to vote in

the midst of renewed negotiations | mands. He said; prought about by the strikes stubborn refusal to surrender. Once again government interference has come to the aid of the bosses. The full meaning of this NLRB order was made clear when a government official announced that while negotiations may continue, no settlement can be signed until all the workers (scabs included) have cast a ballot on determining what organization shall represent the employes.

STRIKE TIGHTENS As the strike tightens up, its grip is being felt by the big wheat growers in the Pacific Northwest. A report from the Cregon Wheat Commission wails that wheat producers are faced with "loss of markets." The repert says that "all indications are that the demand for wheat abroad will soon be filled, which will the Post Office building, the leave us with a tremendous surplus in the Pacific Northwest."

> The report claims that 100 million bushels of wheat or flour must move out of the northwest Delay in moving present supplies "makes it certain," according to the growers, that much wheat will still be in warehouses when 1949 harvesting begins.

These growers are still enthusiastic supporters of the ship operators, but if they are anxious to get their wheat moved they will have to ask the operators to change their attitude and recognize the unions of the striking maritime workers.
