PUBLISHED WEEKLY IN THE INTERESTS OF THE WORKING PEOPLE

Vol. XII -- No. 45

NEW YORK, N. Y., MONDAY NOVEMBER 8, 1948

PRICE: FIVE CENTS

And Its Great Significance

By George Clarke

The number of votes for Farrell Dobbs and Grace Carlson will not be known for many days and perhaps weeks. The capitalist electoral machinery is deliberately designed not only to keep working class parties off the ballot but to withhold their votes from public view until interest in the elections has subsided.

Yet it is possible now, before the votes are tallied and made public, to assess the significance and the achievements of the first Trotskyist presidential campaign in the United States. Precisely because this was our first national campaign these achievements will not be truthfully reflected in the votes received by Dobbs and Carlson. The Socialist Workers Party entered the campaign unknown to the great working public which is accustomed to voting not only for well-established parties but even along traditional lines from generation to generation.

Arena of National Politics

Our first and primary objective, therefore, in this campaign was to smash our way out of the obscurity of a narrow circle of radical workers into the wide arena of national politics. In this aim we succeeded beyond our fondest hopes and expectations. Millions of people heard about the Socialist Workers Party and the program of Trotskyism for the first time — more people than in all the past twenty years of our movement combined.

The miracle of this achievement was coldly presented each week in the Militant scoreboard listing contributions to our campaign. These figures represented stint and sacrifice by members and supporters of the Socialist Workers Party, but their total was puny by comparison with the vast funds at the disposal of Republican, Democratic and Progressive Party, not even excluding the Socialist Party and the Socialist Labor Party.

We can thank Lenin for providing us with the secret weapon which forced open the doors of the press and radio monopoly when we were too poor to buy our way in. In the early days of the Russian Revolution, Lenin was asked by a capitalist politician what he would use for an army if Russia were invaded by the imperialists.

He replied: "We shall use your army." We used the press and the radio of our capitalist enemies to write and broadcast our message of anti-capitalism. And let no one think that even an inch of this newspaper space or a minute of radio time was placed at our disposal as an observance of the traditions of democracy or the spirit of fair play. In almost every instance, we were obliged to struggle with the radio monopolies to conform to the law which was written to prevent discrimination by one capitalist party against another but not to give fair treatment to minority parties. We had to exploit every pretense of impartiality by the capitalist newspapers to gain publicity.

Achievement of Rank and File

And in the final analysis, these victories were not the work of professional publicity experts or radio specialists — of whom we had none — but the achievement of the rank and file of the party. We could not have approached the organs of public opinion if the Trotskyist workers had not won us political legitimacy by CIO and AFL leaders are workmonths of tedious labor in gathering petitions to put Dobbs and

Through this campaign, the Socialist Workers Party has won recognition not merely as another party, but as the extreme left wing of American politics. This was no simple task in a time when confusion and lies blanketed the land like a heavy fog. The Norman Thomas Socialist Party and the stagnant Socialist Labor Party were represented as advocates of a socialist society. Wallace and the Stalinists were constantly designated as "the left wing."

But in the course of the campaign it became clear to ever larger numbers that socialism could not be championed by a respectable middle class liberal who is cheek by jowl with the war policies of Wall Street, nor by unreconstructed sectarians who oppose the trade unions and scorn the class struggle. So too it became increasingly clear that the "left wing" must be more than a New Deal party which seeks to reform capitalism in alliance with those who serve the reactionary interests of the Kremlin rulers.

Our main programmatic aim was to hammer home the need for a Workers and Farmers Government as the principal answer to war, poverty, depression and reaction. We did not speak vaguely of the advantages of socialism over capitalism but of the instruments and methods whereby the working class could join battle with its oppressors and achieve a world of peace, freedom and plenty.

Our candidates were the living symbol that our party alone was in earnest in the struggle against war. Not by theory and argument alone did we refute the anti-war pretensions of Henry Wallace and Norman Thomas but by the record and by contrast. We showed Wallace as the drummer-boy of World War II and the quitter who promised to run out on the struggle when the new war started. We showed Thomas as the betrayer in World War II of the traditions of Eugene V. Debs and the supporter of bipartisan war policies

And we showed by contrast how Dobbs and Carlson had kept their word even at the cost of personal liberty. We proudly pro-claimed that our candidates had been imprisoned for socialist internationalist opposition to capitalist war because above all where peace is concerned words are cheap and plentiful — it is deeds that count.

The Trotskyist campaign was an open challenge to the spreading reaction, to the witchhunters and the redbaiters. We defied the inquisitorial blacklist of Attorney-General Clark and challenged him and Truman to bring their charges into the open where the public could see and judge. In the process, our presidential campaign became the focal point of the struggle for civil rights. Many who were supporting the witchhunters for office, joined with us in the struggle against withhunting.

The 1948 Presidential campaign marks the third and biggest performance of the Trotskyists on the national political scene. In 1934, Trotskyists leading the Minneapolis truckdrivers blazed the trail for the triumph of the CIO in the mass production industries. In 1941 Trotskyists preserved the banner of socialist internationalism on the eve of the war in a courtroom in Minneapolis. In 1948 millions of American workers saw the Trotskyists as the spokesmen for working class independence, for uncompromising struggle and for revolutionary socialism.

Truth Is Making Its Way

The truth is making its way. Labor leaders, bitterly opposing our program, recognize us as the revolutionary left wing of the working class movement. Thomas socialists and renegades no longer challenge our claims but fight against our Marxist princples and Bolshevik intransigeance from the ideological ramparts of the capitalist enemy. Stalinist workers, tired of corruption, lies and betrayal, are beginning to see in us the inheritors and modern representatives of Lenin's Communism.

The star of Trotskyism rose higher than ever in the 1948 campaign for the repeal of the ment still have to do a lot of spade campaign. It was a promise that in the months and years of strug- vicious Taft-Hartley law itself." work before their slow-moving gle for labor emancipation ahead of us, Trotskyism will become the brightest star in the firmament of the working class movement.

SWP Campaign Labor Must Fight to Compel Truman to Fulfill Promises

The final election rally in New York City held at the Hotel Diplomat. Farrell Dobbs, SWP Presidential candidate is addressing the audience.

ewis Renews Demand To Aid French Miners

The argument that a strike is "politically inspired" is taken directly from the arsenal of the chorus of vituperative replies capitalists. They attack all strikes

ferently if their strike were led by non-Stalinist leaders? And aren't the French capitalists and their "socialist" lackeys like Blum also "politically inspired"

Right here in America we've vitnessed the National Guards called out repeatedly - just six months ago in the packinghouse workers strike-against workers' struggles for the most elementary economic demands. We've seen repeated attempts to break coal mine strikes by Army

seizures. Moreover, there is not a major strike in America today that does not have profound political implications - especially since passage of the Taft-Hartley Act. At bottom in the French mine strike are the terrible conditions of the miners. That is why 350,-000 miners defy the government and its armed forces. The Scripps-Howard correspondent writes on Oct. 25 from France:

"The majority of the miners are supporting the strike because they are miserably paid. A French miner gets the equivalent of \$33 for a month's work. They are supporting the strike because they have no confidence that their tional union — the National Oct. 19 passed a motion to "sup- inept government will do any.

moving in behind his coattails. This ambiguity is now removed. Truman lacks all the magnetic qualities of Roosevelt. He is colorless in personality, mediocre in talents. His record as a strikebreaker, his bellicose war-mongering, his "loyalty" purge and witch hunt. his retreat before the monopolies when he liquidated almost defeat to the Taft-Hartleyites in workers. Their growing indifference to whether the Democrats or Republicans ruled in Washington was graphically expressed in the 1946 Congressional elections, when their failure to vote in large numbers ensured Republican Control of the 80th Congress.

By the time of the Democratic Party convention this year, even the pro-Democratic union leaders were loudly agitating for a different candidate—anybody at all but Truman. Only with much hesitation and reluctance did the bulk finally present Truman to their members as the "lesser evil."Yet, even with the Democratic Party torn on the left by Wallace and on the right by the Dixiecrats, the organized labor movement was able once more to put over the Democratic ticket.

LEFT SHIFT

If the results of this election testify to the predominant weight of organized labor, they likewise register a sharp leftward political shift of the American masses. The workers and the lower middle class did not vote with any enthusiasm for Truman and the Democrats. They voted against the bare-faced reactionary policies of the Republican-controlled 80th Congress, and above all, the (Continued on page 2)

Capitalist monopolies, having corroded the middle classes, are devouring the democracies. Monopolies themselves were a result of private ownership of the means of production. Private ownership, having once been the source of progress, came into contradiction with modern technique and is now the cause of crisis, wars, national persecutions and reactionary dictatorship. The liquidation of the private ownership of the means of production is the central historical task of our epoch and will guarantee the birth of a new, more harmonious society. The act of birth, daily observation teaches us, is never a "gradual" process but a biological revolution. -Leon Trotsky, Interview in St. Louis Post-Dispatch, Mar. 1940

LENIN

The Ballot Box

Several days before elections, it was discovered that the Democratic Party's list of electors in Michigan had not been certified through either accident or oversight. The legal date for certification was long past. But the Republican Secretary of State proved most accomodating. He not only informed the Democratic Party of the oversight, but generously waived aside all legal technicalities to permit the belated filing and certification of the Democratic electors.

This would be merely a curious though insignificant event of the election campaign were it not for the fact that it shows up the different and opposite treatment accorded by the two major parties to minority parties.

No legal technicalities are waived to accord a place on the ballot to opponents of the Democrats and Republicans. In fact, every legal-and illegal-obstacle is placed in the path of minority parties to bar them from the ballot. Almost every state—including Michigan—has harsh election laws, passed and enforced by both the Democrats and Republicans, designed to prevent minority parties—particularly anti-capitalist parties like the Socialist Workers Party — from getting on the ballot.

The public is familiar with the methods used against Wallace in Illinois, where Republicans and Democrats, from the election boards up to the highest courts, ganged up

to keep the Wallace ticket from the official ballot. Missouri similarly barred the Socialist and Socialist Labor parties.

As for the Socialist Workers Party, open fraud was practiced to keep its candidates off the ballot in Massachusetts and Ohio. · Larry Trainer of Boston, running for Congress on the SWP ticket, had his legal petitions thrown out without a shadow of lawful pretext by an election board which openly displayed its partisan hostility. Harry Braverman's petitions, which met the legal requirements, were fraudulently ruled out by an openly biased election board in Youngstown, Ohio, and his appeal was rejected by the Ohio State Supreme Court acting in cahoots with the Democratic and Republican election

The contrast between the generous treatment accorded the Democrats and the determined effort to bar minority parties from the ballot points up the fact that elections are not at all really free in the United States. It underlines the fact that the two old-line capitalist parties attempt to keep a monopoly over the ballot box and bar competitors. It further emphasizes that the labor movement, if it is serious about independent political action and democratic elections, must launch an energetic fight to liberalize the election laws and make the ballot accessible to all parties.

82% of Quota Reached in Campaign For \$25,000 Party-Building Fund

By William F. Warde, National Fund Director

The scoreboard spurted upward another 5% this week for a total of 82% of the \$25,000 Election and Party Building Fund, as branches sent in this week \$1,396. Three more weeks remain to complete the fund, and all branches and friends are urged to get their pledges in to meet the deadline.

St. Louis sent in an additional@ \$5 to bring this branch to 138% of its regular quota.

Flint came over the top by sending in \$53 and is now in the 100% column.

Lynn joined the 100 percenters in one leap by sending in the \$90 balance on its quota.

Ditto for San Francisco-Oakland which mailed in its \$97 balance; Toledo which came across with its \$55 balance and Youngstown with its \$146 balance.

Newark sent in \$30 and is now within hailing distance of its quota — 94%. Detroit sent in \$100 and stands

at 81%. Buffalo inched up to 79% of its quota by a remittance of \$74. Chicago gained 6 points on the scoreboard by its contribution of

Connecticut mailed in \$124 and now stands even with Chicago at 62% of its quota.

WE ARE REMINDING EVERYONE AGAIN: YOU HAVE THREE REMAINING WEEKS TO GET INTO THE 100% COLUMN!

the Stalinists are now slandering \$5 million every quarter. This the Yugoslav Communist Party leadership. The Yugoslav leaders rose to prominence in the under- town Sheet and Tube, General tinue to be assured - by the ground movement against the Motors, International Paper, Truman-Marshall war program, Nazi occupation. "The most important partisan army in all Europe" was formed, numbering some 300,000 troops. "Military rank was unknown;" there were no officers in the classical sense of the term; every officer was known as "comrade."

When the Soviet Army entered Yugoslavia, they brought with them all the rank and privilege that has grown to such monstrous proportions under Stalinism. "Here was the beginning of the disillusionment among the Yugoslav Communists."

Meanwhile, great land reforms were instituted, industry taken over by the state and a 5-year plan advanced. It was in the midst of these basic changes that Stalin launched his attack on Tito.

The reason for this attack is the independence of the Yugoslavian Communist Party. "Stalin cannot tolerate any unit of his international machine maintaining the slightest degree of independence from Moscow," since this would give the masses an opportunity to press for a revolutionary policy.

Comrade Trbovich analyzed the profound gap between Tito's program and that of the Socialist Workers Party, underlining the Stalinist ideology." He called for a clean break from that reaction-

Union Democracy

Striking beer drivers of the CIO Brewery Workers in New York City are setting an inspiring example for the rank and file of labor everywhere in the vital struggle against bureaucratism and for democracy in the

This strike represents a revolt against a top bureaucracy whose boast is that the brewery workers have not had a major strike

Fearful of leading a real battle against the brewery owners, the top union leaders signed a contract behind the backs of the men. This contract not only provided wage increases far below what the men were demanding, but also a treacherous "joker"—a clause permitting speed-up with automatic penalties for drivers who failed to keep up with the stiff pace.

Instead of merely accepting a collusive contract signed against their will, the drivers decided to assert their rights and fight. They organized, struck and halted all beer deliveries.

The international officers promptly flew in from Cincinnati, ordered the strike ended, suspended several strike leaders, attacked the strike in the public press and even tried to mobilize strikebreakers.

Instead of folding up, the strikers set up their own Rank and File Committee, tightened their ranks and repudiated all the slick deals the top officials negotiated with the employers. Through their militant action, the strikers have already cracked the employers' front and forced a number of companies

to abrogate the speed-up clause. The New York beer drivers have in this case struck a blow not only on their own behalf but against an evil that can throttle the whole union movement. That is the evil of top machines which usurp the democratic rights of the members.

It was this evil which enabled the old AFL leadership to prevent the organization of industrial workers and against which the CIO rose in revolt. Today, however, the CIO itself is gripped by a heavy-handed bureaucracy that is squeezing the democratic life out of the industrial unions.

Nothing is more indicative of the antidemocratic control of the CIO as well as the AFL unions than the fact that the top officials of the internationals have arrogated to themselves the "right" to say when workers may or may not strike. Some bureaucrat in a plush office far from the struggle presumes to dictate to thousands and hundreds of thousands of workers when they can or when they can't defend themselves against the

It is this top bureaucratic crust over the unions which smothers the ranks and prevents them from fighting effectively against the employers' offensive, the Taft-Hartley Act, the injunctions.

The New York beer drivers have given a demonstration of the spirit that will prevail against anti-democratic rule and restore union democracy. They have organized and effectively asserted the right of the members to decide all issues affecting the welfare of the union membership. They have proclaimed anew the bed-rock principle of union democracy: Authority flows from the bottom up, not from the top down.

Open the Books

As an answer to the lying anti-union propaganda of the shipping tycoons, a number of militants in the maritime strike on the West Coast are advocating that the ship owners' books be opened to public inspection.

This demand is well worth the most serious consideration of the embattled maritime workers. The public has a legitimate right to know all the facts relevant to the shipping tieup and the efforts of the shipowners to smash the strike and crush organized labor on the Pacific Coast water front.

In the tough strike against General Motors in the winter the 1945-46 the auto workers raised this slogan with great success. They found that the demand to open the company's books to public inspection at once placed the company officials on the defensive.

If they refused to accede to this reasonable demand, it could only be for reasons that would not stand scrutiny. What secrets, harmful to the public interest, were they forced to cover up and hide?

If they granted the demand, then the public would not only gain authentic information on the enormous size of company pro-

could only strengthen the cause of the union. The General Motors Corporation refused the union demand in 1945-46 at heavy cost to its publicity campaign against the auto

In the case of the ship owners, the demand to open their books would prove singularly effective. There is no section of the capitalist class so obviously parasitic.

They operate government-owned ships at enormous profits derived from subsidies. What ships they do own, in most cases were built by the government and turned over to them far below cost, the token selling price to be paid out of operating profits.

During the war, their profits from carrying war supplies were so scandalous as to invite repeated investigation by government bodies. Operating hand in glove with friendly officials, they piled up fortunes that shocked even Congressmen hardened to the most outrageous plundering of other industrial barons.

By opening the books of the ship owners, these sordid facts would provide sensational reading for the public and clearly demonstrate what is really at issue in the maritime fits, but also all the chicanery, crooked mani-pulations and anti-public conspiracies that termined to crush the maritime unions.

That is the conservative prediction of "The Costs of Another War," a condensation of an article from U. S. News & World Report published in the October Reader's Digest. Ironically, the article is featured in the "Understatement of the Month" section.

In the last war, by 1944, the U.S. was spending \$90 billion a year. On the same basis, the next war "would cost \$143,000,000,000 a year at present prices." A war of the same length as the last would cost "\$540,000,000,000 without allowing for new inflation." (Original emphasis.)

All war supplies will cost "at least 50% more for any new war that may come."

While the cost in lives is "unpredictable," the scale of casualties is "suggested by German experience." The Russian war cost Germany 5 million killed and missing, 4 million wounded. U. S. losses in the last war were 294,000 killed, 670,000 wounded. The losses in the next - not allowing for atomic weapons - will be 10 times as great.

In last war, U. S. used 5 billion tons of its "best minerals"; about 8 billion barrels of oil. Plans now being prepared assume a far bigger use of materials in World War III. "By war's end, the United States would be a 'have not' nation." Impoverishment of resources would reduce U. S. economy to European levels.

"Practically everything" will be rationed; autos and trucks "confiscated." The price situation is already "dynamite" with the military now taking 10% of total production; in war, the military will take "at least 60%." Competition for what's left "would set off explosive inflation."

There will probably be a work-or-fight law "applying to adults up to 65." Strikes will be "outlawed," job-switching "seldom permitted," production for civilian consumption "would be stopped," military needs "would get priority everywhere."

World War II has already left the U.S. with a debt of \$250 billion dollars. By the end of World War III, it would increase by another \$500 billion and interest charges alone "would be staggering." The government would face the decision "on whether to repudiate debt as Russia

As an alternative to debt repudiation — that is, a declaration of bankruptcy — the government would inflate prices, issue huge amounts of cheapened currency. The present U. S. dollar, now worth less than 60 cents in pre-war buying power, "could become a ten-cent dollar after World War

The sober conclusion of this "Understatement of the Month" is: "War, in other words, would not be a simple solution of U. S.-Russian diffi-

In spite of this capitalist realization of the cost of another war, as expressed by U. S. News, the U.S. capitalists are preparing to resort to war as the only "solution" to the impending crisis of the decayed profit system.

British "Socialism"

By Art Preis*

The British Labor Government's "socialism" is no more socialist than Stalin's "communism" is communist. This is further evidenced by the government's latest move against the British workers. It was announced on Oct. 28 in London that disciplinary committees with powers to fine and dismiss coal miners for "absenteeism" are being established. The system of fines is part of a new Code of Conduct drafted by a government council and approved by the bureaucrats heading the National Union of Mine workers.

Simultaneously, Sir Stafford Cripps, Laborite Chancellor of the Exchequer, broadcast a demand for "higher productivity" and "more output each year from each individual." This is part of the government's speed-up drive to squeeze the last possible ounce of work out of the ill-nourished, under-paid workers in order to prop up tottering

The system of fines is a throw-back to the most barbaric forms of labor exploitation under early capitalism. The successful struggle against the system of fines was one of the earliest battles of the young labor movements everywhere.

That the British Labor government is attempting to reintroduce this relic of unrestrained capitalist exploitation, is one more proof that its "socialist" claims are pure fraud. It throws more light on the real nature of the nationalizations on which the claim to "socialism" is based.

Many people on this side of the Atlantic have been fooled by these nationalizations. In reality, the nationalizations have been undertaken to safeguard British capitalism and to ensure steady profits from the most bankrupt industries. By and large, the British capitalists themselves have approved the nationalizations, particularly of such industries as coal which were previously in hope-

Through the nationalizations, the British Labor government has been able to restore some semblance of orderly operation to mismanaged industries and to "discipline" the workers, while the actual control remains in the hands of the former capitalist managers. Profits, in the form of interest on government bonds, are guaranteed the former private stockholders.

In foreign affairs, the British Labor government from the start clearly demonstrated that it is faithfully serving the imperialist interests of British capitalism. It has shown this in Greece, Palestine, Malaya and everywhere else that it is carrying out the Tory foreign policy in the name of "socialism."

In its profits-preserving nationalizations, its strikebreaking, its speed-up program culminating in the system of fines, the British Labor government is likewise carrying out the Tory program at home. It represents not the fulfillment but the betrayal of the socialist promises made to the workers by the British Labor Party leaders.

That promise will be on the road to fulfillment only when the British workers themselves, through their own committees, take full control over all the means of production and distribution, expropriate all industry without compensation to the capitalists, and cooperatively operate the entire economy on a national plan without profits.

Notes from the News

MURRAY vs STALINISTS — CIO Pres. Phil- reinstated only with seniority rights. Discharge CIO Retail Clerks Union win back control over

the department store locals in New York City which, under the department store locals in Stalinist control, have seceded from the parent body and set up an independent council. Michael Mann, Chicago CIO Director, has been put in charge

of the campaign. At the same time, the FBI is investigating the "validity" of the non-communist affidavits signed by officers of two of the seceding locals at Stern's and Macy's.

BARBERS SECEDE - The largest local in the CIO Barbers and Beauty Culturists Union, representing approximately 1,200 workers in New York City, dissafiliated from the International

STATE OF UNION - Selective Service officials in the nation's ten largest cities reported that an average of 72 per cent of the 24 and 25year olds called up for pre-induction physical examinations were unfit for military service. Psychoneurotic disorders and heart ailments were the major causes.

ILG VOTE - 42,000 workers in the women's cloak and suit industry of New York and New Jersey voted almost unanimously for the union shop in an NLRB poll conducted under the Taft-Hartley Act. The union involved is the AFL Ladies Garment Workers.

SMOKING OK - An editorial in the American Medical Association Journal says: "In all probability more can be said in behalf of smoking as a form of escape from tension than against it."

FRENCH POPULATION UP - Reversing the pre-war trend. France's birth rate continues to rise and her death rate to decline. Statisticians of the French Ministry of Public Health explain the post-war increase in births by the long wartime separation of husbands and wives and the povernment's program of substantial aid for families with many children.

MASS PICKETING - The CIO intends to appeal to the courts the NLRB's recent ruling banning mass picketing.

KRAVCHENKO SUIT - The French Tribunal of the Seine admitted the libel suit filed against the Stalinist-dominated newspaper, Lettres Francaises by Victor Kravchenko, author of "I Chose Freedom" and former Soviet purchasing agent. Kravchenko's suit is based on the accusation printed in the French paper that he was an agent of the U.S. Office of Strategic Services. Many prominent Stalinists have been cited as witnesses.

PACKINGHOUSE STRIKERS REINSTATED - The CIO Packinghouse Union won the reinstatement of 24 workers of Kansas City fired by Armour & Co. for their strike activities. The decision was handed down by arbitrator Harold Gilden. 17 of the reinstated workers were awarded back pay retroactive to May 24. 7 others were

CIO BUREAUCRATISM - Phillip Murray, Pres. of the CIO Steel Union appointed an administrator over Republic Steel local 1331 of Youngstown. Mike Pochiro, local president and all other local officers were suspended.

4c INCREASE - Swift and Wilson meatpacking companies announced a 4-cent hourly wage increase for their production workers. Swift had given a 9-cent increase last spring. It announced that the new 4-cent "adjustment" makes the 1948 increase conform to the general third-round pat-

RENT GOUGING — The Chicago Area Rent Control Board passed a resolution calling upon the local housing expediter to establish a special "shakedown detection section" to check complaints against bonus-hungry and rent gouging landlords. The Rent Control Board includes Michael Mann, Chicago CIO Director and M. J. Meyer, attorney. who is handling the legal defense of James Kutcher, legless veteran fired by the Veterans Administration from his clerk's job because of membership in the Socialist Workers Party.

SOME JUDGE — The Italian Government confirmed that Luigi Marantoni, the man who is judging former Marshal Rodolfo Graziani, War Minister under Mussolini, was himself one of the highest judges appointed by Mussolini in 1943. The present Minister of Justice indicated, however, that the government is entirely satisfied with Marantoni as a man of "high moral and political qualities" and that it will permit him to continue as judge in the case. Graziani is being tried for high treason.

head of the Clover Mfg. Co. of Norwalk, Conn. told the second annual conference of purchasing agents meeting at Cincinnati: "We now have reached a point in the present inflation where it is very doubtful if it can be checked without a total collapse of our entire economy. To my way of thinking, everything should be done to engineer a recession at once as the only way to save our system of free enterprise."

PRESS PROSECUTION - The NAACP announced that it would assist in the prosecution of the murderers of Isiah Nixon, 28 year-old Negro of Alston, Ga. who was slain by two white brothers on Sept. 8 because he had voted in the Democratic primary election.

ATOM BOMBING THE UE-David Lilienthal sent a new letter to Albert Fitzgerald, President of the CIO Electrical Union, declaring that he was ordering the General Electric Corp. to withdraw recognition of the union in Schenectady atomic plants, in addition to his previous direction to GE to withdraw recognition at the Knolls Atomic Power Laboratory. The union took no economic action but filed a \$1 million damage suit against members of the Atomic Energy Com- is now an active militant in the of race, creed or color. Has

maritime strike enters the third month, danger signs are flashing on all fronts: (1) The ship perators remain adamant in their refusal to negotiate with present leaders of the CIO cooks and longshoremen unions, claiming that this leadership is "irresponsible" and that negotiations cannot be resumed until new leaders willing to sign the Taft-Hartley non-communist affidavits are elected by the strikers. 2) Other striking unions, whose

officials have taken the vellowlog pledge, have negotiated contracts or are reported to be willing to resume negotiations. This week the CIO Marine Engineers Beneficial Association signed a ontract with Pacific American Shipowners Association, winning 5.3 per cent wage increase which brings the west coast scale to a par with wages on the east coast. The engineers were not officially on strike. Consequently, the new contract just signed by them would appear to have little bearing on the strike.

FIREMEN'S UNION

However, the ship operators are again attempting to resume negotiations with the independent Marine Firemen's Union which is on strike. Officers of this union have signed the non-communist affidavits, and if the contract just signed by the MEBA is used as a precedent, this union could like wise sign a contract and officially end the strike. Of course the members could not return to work until the CIO longshoremen and cooks were ready to go back. But if the firemen settle and pull out of the strike the picket lines will 20 per cent of the longshoremen be seriously weakened.

picket lines in the days ahead was ndicated by the announcement Union of the Pacific was asking the Pacific Northwest: SS "George members of the striking CIO C. Perkins," SS "Edward Rutl-Cooks in the port of Seattle to edge," SS "Charles Brantley

Grain being loaded nformed the leadership of the in these ships is reportedly for striking CIO longshoremen that 'we want to support the strike." | privately operated. However, he registered a sharp protest against picketing of NMU ships in the ports of Seattle, Longview, and Tacoma (the latter being the only large port on the shoremen have a contract) and warned "that before you set policy or give instructions in any way affecting the NMU, that you consult with the NMU first."

INTERNAL DANGER The greatest internal danger

o the strike at present is the policy of the Stalinist officials of the striking CIO longshoremen. This policy, designed to win BAD TREND "public sympathy" for the strike, has resuled in strike-bound cargoes being moved from the docks Francisco, in the loading and disships, and the releasing of some east coast NMU-contracted ships.

Attempting to learn exactly

what the Stalinist strike policy

calls for, Curran, in his wire to the longshore union, charged: "Walk into a Jim Crow rest- Our reports indicate that you have taken the position that any tion for the Ad- the law and refuses to serve you. cargoes carried from the east vancement of Who gets jailed? STALINIST POLICY

trate the confusion that has been \$50 to \$150 per week.

As the 60-day old Pacific Coast and that it has succeeded in isolating the striking CIO longshoremen and cooks unions out here and preparing the ground for a concentrated attack upon these two unions by the Waterfront Employers and PASA. In this attack the employers count upon the full cooperation of the government, the aid of raiding AFL unions, and the indifference of other unions involved.

Curran actually is misinformed when he reports that 200 Army Transport vessels are being worked on this coast. The number of Army Transports being worked is indicated by the fact that longshoremen in San Francisco have had less than two days work per man per month. The average work during the strike on a coastw se basis has not greatly ex-

ceeded this. Curran is also mistaken in his information that on a coastwise basis are working. 3) The probable need for strong Less than 5 per cent is more accurate.

The following American-flag this week that the AFL Sailors ships are now loading grain in ransfer their allegiance to the Aycock," SS "Jacob A. Wester-SUP. Officials of the SUP have velt." The SS "American Oriole" signed the non-communist af- loaded grain in Oakland and sailed fidavits and are calling for an last week. These vessels are all NLRB election in a move to grab operated by east coast companies, jurisdiction over the stewards and are manned by NMU crews. West coast agents for these 4) Joseph Curran, president of vessels are member companies of the Army, but the ships are all

The Stalinists argue that by leading these ships the unions are "splitting the ranks of the employers." Actually, the employers are the ones who are gaining Pacific Coast where AFL long- this policy because the shipping companies are collecting fees as west coast agents, and they don't have to deal with any of the striking unions since the personnel aboard is represented by the NMU. Longshore labor is employed by a dummy stevedoring company, not a member of the Waterfront Employers Associa-

These instances of loosening up the strike and allowing cargoes and ships to move have not in every major port except San yet materially affected the strike, but if this trend continues the charging of some foreign-flag length of the strike will surely be greatly extended. The worst effects of the present policy have been noted in the growing tension between the several maritime. unions, as all are involved either directly or indirectly.

Pickets are more and more questioning the whole Stalinist strategy which allows work to proceed behind the picket lines. Nevertheless, the morale on the lines remains high. And there is a growing determination to straighten out the policy and tighten up the strike.

Once a tight strike policy is put through, the other unions will present suspicions and bickering series of strike defeats and will willingly pitch-in to help a fighting union whose leaders show hat they mean business.

STRIKE SUPPORT The support that the striking

unions will be able to draw upon has already been shown in a very material manner. The AFL Laborers union donated \$5,000 to the strike. The CIO Steelworkers have sent in \$10,000. Other unions locally, both AFL and Curran's charges clearly illus. CIO, are now contributing from
