By James P. Cannon

The Mil tant began its existence 20 years ago as the organ of the pioneer group of American Trotskyists who had revolted against the Stalinist degeneration of the Communist Party. From the very

JAMES P. CANNON

first issue it was dedicated to the struggle for orthodox Marxism. This Marxism is not, as the snivellers say, a "theology" or a fossilized dogma, but the most dynamic revolutionary theory is the greatest merit of our Militant and the main reason why it became and remains the dearest treasure of the revolutionary vanguard of the American working class.

organization. Along the way, we established relations with groups

of different origin who were advancing toward a revolutionary pro gram, and in the course of collaboration and unification with them the name of the organization was changed several times. In the furtherance of our tactical struggle, The Militant, too, underwent several temporary changes of name. Once it was suppressed altogether for a time. This was the price of our admission into the Socialist Party in the days of its revolutionary ferment in 1936 defenders of civil liberties and and 1937. The government clipped The Militant's wings and revoked democratic rights. its second class mailing privileges during the war.

Straight Line of Continuity

All these changes of name, of both the organization and its ing the defense of James paper, were matters of form only, as far as we were concerned. In Kutcher and calling on all afthe essence of the matter, there is a straight line of continuity from fillated bodies to back the case. the first tiny founding group of 20 years ago to the Socialist Workers Party which has just carried through its first presidential campaign. By the same token, our Militant of today, which has survived and grown tougher through all the difficulties and vicissitudes of Civil Rights Committee are the , 20 years of battle, is the same old Militant which made its first American Veterans Committee. appearance November 15, 1928. And it still defends, no less firmly the National CIO Committee to and effectively, we believe, the same program.

The original organization of expelled Trotskyists and their paper, The Militant, appeared to be "new" manifestations struggling Newark and vicinity, the New against the "old," as represented by the Stalinized Communist Party. But this, again, was only the form, not the substance. The new experiments in the domain of theory and politics were represented by our opponents. They were the revisionists, not we. The Stalinist dogma of "socialism in one country" was derived from a lack of confidence in the revolutionary potential of the interna- Oct. 23, Dorothy Fuldheim tional working class. It implied the abandonment of the program of strongly protested Kutcher's disinternational proletarian revolution in favor of the reactionary- charge, remarking: "I don't know utopian/program of a national Russian "socialism" co-existing in- anything about the Socialist definitely with capitalism in the rest of the world.

The Stalinists and the Stalinoph ohes, like the Colonel's Lady and Judy O'Grady, are sisters under the skin.

For our part, we emphasized from the beginning, and never failed to repeat at every stage of our 20-year struggle, that we had no new revelation. World Trotskyism grew and developed by its affirmation-against all pessimists, skeptics, and renegades-of the revolutionary nature of our epoch and the profound realism of the program for the revolutionary transformation of society.

Just at the moment when capitalism in Europe had regained a certain stabilization in the decade following the First World War; when American capitalism, expanding in an unprecedented boom, dazzled the world with the claim that Ford had refuted Marx; when a worn-out generation of Communists became Stalinist and traded off their activity as working class revolutionists for the miserable role of pressure groups for the Russian State bureaucracy-it was just then that Trotsky proclaimed in his great Criticism of the Draft | been fired "we haven't happened Program of the Communist International: "There will be no lack of to hear of any ultra-rightists kin, president of the union, said not yet been formed. revolutionary situations. Plans New "Substitute" Bill **To Continue Union Restraints**

By Art Preis

On the morning after Election Day, Truman greeted the news of his victory with, "Labor did it!" Before another 24 hours went by, Truman and his

advisers began to hedge on the key campaign promise to labor -- the unqualified pledge to repeal the Taft-Hartley Act.

Now, we are informed by Administration-inspired press reports, Truman intends to push for repeal of the Slave Labor Law — BUT. That big "but" is his plan to seek passage of a substitute anti-labor law which will contain some of the worst features of the Taft-Hartley Act

If Truman is already trying to velch on his one unambiguous campaign promise, we can well magine the sad fate in store for his other promises: on civil rights, which his administration consistently violated: on inflation, which nis arms budget will fuel still further; on housing, which has emained in acute crisis. On Nov. 4, Truman's Secretary

of Labor Maurice J. Tobin revealed that the President is preparing a new labor law to offer at the same time that he calls on the 81st Congress to repeal the Taft-Hartley Act. This substitute "fair to both workers and maabout the Taft-Hartley Act too. PRESSURING LABOR

The Debacle of Wallace's Third **Capitalist Party**

By Art Preis

The unexpectedly small vote for Henry Wallace has dealt a devastating blow to the pretensions of his new Progressive Party. It had entered the 1948 election campaign with the avowed aim of emerging as a major party, at the very least holding the balance of power between the Democrats and Republicans. It fell far short of its goal.

Wallace, in one elated mood, went so far as to foresee for himself the possibility of a 20-million vote. "Over 10 million" was the more cautious estimate of the Wallaceites. The pollsters, with what they thought was extreme conservatism, gave Wallace in million votes. He received less peace mission to Moscow." than 1,200,000 votes, more than half of them in New York state.

Stalinist mouthpiece, confesses: "The vote for Wallace, it must be admitted, fell below not only the unrealistic quotas assigned to him by certain forces, but even below what his most sober supporters, including this paper, had suspected."

POPULAR FIGURE

In the past, Wallace had been a very popular figure among the workers, and was hailed in most "Crown Prince." He is certainly more impressive as a personality CP HYPOCRISY than the colorless Truman. And the results of the election, insofar as they show a smashing repudiation of the 80th Congress and all moving leftward and are receptive to progressive ideas. The debacle of the Wallace party cannot be attributed, therefore, to lack of a popular leader or a reactionary trend in the masses.

The fatal weakness of the Wallace movement was its attempt movement. If this election proved anything at all, it proved that no of Wallace. new mass progressive political party in this country can get to talist politician seeking to build first base without the solid support of organized labor.

official organizations of the workers and win the workers simply through social demagogy. But the major capitalist parties are no less adept at demagogy than Walace — and they have far more facilities and resources for disseminating this demagogy.

Indeed, in its post-mortem on 'The Meaning of Truman's Election," the Daily Worker complains that "Truman won the election by a hypocritical copying of the speeches of Franklin Roosevelt and by imitating as much as he dared the charges of the Progressive Party and Henry Wallace." He even "stole" Wallace's "peace program, laments the Daily Worker for "Truman won support advance from 2½ million to 4 he did not carry out—the Vinson when he announced-even though

This is also saying that Truman Even the Nov. 4 Daily Worker, than Wallace—which is doubtful. is a more effective demagogue Truman had one thing especially that Wallace lacked-the support of the unions.

Now that their adventure has ended so discreditably, the Stalinists are attempting to shift the blame to others in the Wallace coalition. Thus, the Daily Worker discovers "that the pro-Wallace labor forces did not sufficiently combat the 'lesser evil' illusion' and that this "undoubtedly had labor circles as Roosevelt's its influence in their ranks and weakened their practical work.

This is a prime sample of the unbounded Stalinist hypocrisy. No one has propagated the falits works, demonstrate that the the "lesser evil" more vigorously lacious and pernicious theory of American working people are than the Stalinists. Since 1935 in this country they have preached the choice of the "good" capitalist politician as the "lesser evil" to the "bad" capitalist politician.

The Stalinists were among the most loyal and uncritical supporters of Roosevelt. And they continue to peddle the doctrine of the to by-pass the official labor "lesser evil" to this day—that is the very essence of their support

Capitalist monopolies, having corroded the middle classes, are devouring the democracies. Monopolies themselves were a result of private ownership of the means of production. Private ownership, having once been the source of progress, came into contradiction with modern technique and is now the cause of crisis, wars, national persecutions and reactionary dictatorship. The liquidation of the private ownership of the means of production is the central historical task of our epoch and will guarantee the birth of a new, more harmonious society. The act of birth, daily observation teaches us, is never a "gradual" process but a biological revolution.

Leon Trotsky, Interview in St. Louis Post-Dispatch, Mar. 1940

LENIN

Rapid Social Shifts

· A significant lesson to be drawn from the election results is the acceleration of tempo in American politics. This is a time of far more rapid and shortened swings of the pendulum than was the case a few decades ago. In addition the center of the oscillation has shifted leftward.

After the First World War, it will be recalled, the conservative Republican machine swept back into office under the leadership of politicians far less impressive even than Dewey. They not only took power, they survived the severe depression of 1921-22 and sordid scandals involving the White House itself. They kept office until the great depression following 1929 that turned everything topsy-turvy and profoundly changed the whole political superstructure of America.

After the Second World War the Republicans thought that history would be repeated. They counted on another long period in office on a program modelled on that of Harding, Coolidge and Hoover.

Their victory in 1946 fostered this illusion. They swept into control of Congress even more rapidly than they had counted on. Many of their strategists and hoped to increase the percentage of Republicans in the 1946 Congress but not to take full control until 1948 when they expected to win the White House. To their amazement the Republicans took not only the House but the Senate and displaced many Democratic

decisively rejected the Republican side of

vote as a cohesive bloc.

this two-party system. It seems safe to say, therefore, that when the workers finally decide to break with the Democratic Party it will not be to rehabilitate the Republican Party which has become clearly indentified in their eyes as the instrument of Big Business, but to build their own party.

Basing themselves on the experience of

1920, they took this as a certain sign of a

deep-going and far-reaching turn to the right.

Within two years this was all reversed,

The 12-year tenure of the Republicans in the

twenties was reduced to two years in the

forties. Instead of capitalizing on their 1946

victory, the Republicans completely dis-

credited themselves in this short period, and

This is a sign of the greater political

maturity of the masses, especially the work-

ers, today as compared with the post First

World War period. Even though they have

not yet learned the fallacy of voting for the

so-called "lesser evil," they have learned to

And even though they are still operating

within the two-party system, they have

without the impetus of a depression.

The rapidity with which political shifts occur today is a hopeful sign. It shows that when workers get ready to move on their own politically — they will do so at truly American speed.

Personalities and Politics

The pollsters, newspaper seers and Republicans were not the only ones who took a trouncing in the election. Advocates of the "great man" theory of history also ended up with the new battered look.

Marxists do not dismiss the role of leaders as insignificant. In fact they insist on the importance of the individual in history and the even decisive part that outstanding personalities can play in crucial moments of social and political change. Marxism, however, emphasizes the inseparable connection between leaders and the social groupings they represent. Marxism places the main stress on the social forces behind the individual.

How much more correctly the Marxist view explains events is illustrated in the case of Henry A. Wallace and Harry S. Truman.

As one of the chief spokesmen of liberalism, Wallace enjoyed national political prominence long before Truman was ever widely heard of. Wallace was Vice President of the United States when Truman was only a second-line Senator. The labor bureaucrats and New Dealers considered Wallace their spokesman and pushed his candidacy for Vice President in 1944, finally agreeing to Truman only as a doubtful compromise.

Truman is a gray, narrow-minded, run-of-themill ward-heeler. Truman's rise to national prominence and the White House was an extraordinarily clear illustration of the immense role that sheer chance sometimes plays in politics.

Considered solely on the basis of their personalities, Wallace was obviously the superior man. The influence of Wallace's personality, however, was cancelled out by far mightier

To a Marxist, however, the reality is plain. Great social forces in America for a time refracted their light and power through Wallace; then they shifted; the glow around Wallace died down and Truman lighted up like a neon sign. The working people put their strength and energy behind Truman and that was sufficient to outweigh even his abysmal weakness of per-

When the labor bureaucrats argue that the working class does not have any personalities worthy of office in Washington they are merely advancing the long-exploded "great man" theory of history, implying by way of insult that the working class has no great men and is incapable of producing them. Such spurious arguments from now on should have far less influence among workers than they once had. What happened to Wallace and Truman should help drive home how subordinate personality actually is in comparison with the massive social forces that propel individuals into the limelight or retire them from the stage of history.

The Michigan Election

The victory of Gerhard Mennen Williams, an unknown Democrat, over the incumbent Republican Governor of Michigan, Kim Sigler, proves beyond the shadow of a doubt that labor has the ability to determine the outcome of an election.

Williams was virtually unknown before the campaign. Ten years ago he was appointed as attorney for the Social Security Board. Later he was appointed by Governor Sigler to another obscure post, membership on the State Liquor Commission. Although he is the scion of a wealthy pickle manufacturer, he has not yet come into his inheritance and so was unable to finance a big campaign from his own resources.

Against this attorney from nowhere was arrayed the powerful Michigan Republican machine, with all the resources derived from years in office and the financial backing of the auto barons. The capitalist press gave Williams no chance; nevertheless, he rode into office in what was termed an "amazing upset."

The secret of this success was not some magic in Williams' personality. He spent more time in his campaign shaking hands and introducing his wife than attacking the Republicans or presenting a positive program.

The explanation for Williams' victory is the backing he received from labor. Both the AFL and CIO stood behind him. The CIO-

PAC mapped the campaign, planned the strategy, and put it into effect. The dollars that financed Williams' drive for office came from the pockets of tens of thousands of union members. Such labor figures as Walter P. Reuther and August Scholle promised that this political nonentity would carry out a progressive program in office. The rank and file of labor did the work that swung the election in favor of the Democratic candidate.

It is therefore clear that the union movement in Michigan could have placed anyone it wished into office. Had it desired, a man responsible to the labor movement and answerable to the union rank and file could have been made Governor of Michigan.

But Williams is not responsible to the labor movement. He is a capitalist politician on the make who saw an opportunity to use labor as a stepping stone to bigger and better things. As a member of the Democratic Party his first loyalty is to this political machine that is nationally owned, operated and controlled by Big Business. A successful career in this machine requires cementing firm alliances with these sinister figures who rule

Thus Michigan labor demonstrated its power in the election—but not in its own behalf. How much better if that power were turned into the channels of a Labor Party and placing labor's own men in office!

TACT AND COMPROMISE

Bowles, whom even the Walaceites supported, stated on Nov. that his administration will reflect "a kind of practical liberalism" which "even conservatives" will respect as "a good, clean operation." He would avoid the mistake of the New Deal which "was always whaling the hell out of conservatives so that they got frightened and failed to function... There's got to be tact and compromise."

No more Truman-talk about gluttons of privilege" and "Wall Street reactionaries." The new theme song of the Truman Democrats is "Tact and Compromise." A cunning campaign is under way to rob the workers of what

they considered a victory against the Taft-Hartley Act. On the one that the other Truman promises hand, the press is continuously reminding labor that the majority n the 81st Congress, both Senate and House, is still composed of those who voted for the Taft-Hartley Act. On the other hand, Truman Administration spokesmen and certain union leaders are spreading the idea that if Congress is to be persuaded to repeal the Taft-Hartley Act, it will be necessary for labor to agree to a "reasonable substitute."

But a majority voted for outright repeal of the Taft-Hartley Act — with no "ifs, buts or maybes." They didn't vote for "sub-

stitutes." They didn't vote for "tact and compromise." They exelections approved the idea of pect Truman to live up to his Congress enacting new labor pledge and on the opening day of Congress to demand immediate To show how ready he is for scrapping of the Slave Labor Law, without "bargaining" or equivo-Green even called on the workers cation. Smash the Taft-Hartley Act first — discuss anything else

These straws in the wind should cure the labor ranks of any illuready to hand back to employers sions that they can afford to sit what the workers have just voted back and wait for Truman and to take away, the Democratic poli- the Democrats to carry out their ticians are even more ready to promises. Labor will win only go easy" on the fulfillment of what it fights for Truman will their campaign promises. Typical carry out only those promises ef the post-election attitude of that he is pressured and forced campaign material in combinaeven the most "liberal" Democrats into carrying out. That is why the is the statement of Chester fight to repeal the Slave Labor Bowles, newly elected Governor Law will have to be pressed harder than ever. And to the slogan It became a regular occurence for 'Smash the Taft-Hartley Act!" Substitutes!'

Labor will have to be mobilized on a national scale and in battle array. The need of the hour remains - as it has since the beginning of the post-war anti-labor offensive - the conveying in Washington, D.C. of a National Emergency Congress of Labor, representing all the unions.

Such a Congress of Labor, as proposed by the AFL International Typographical Union and endorsed by the CIO National Maritime Union, must launch a united militant labor offensive as the only way to assure that Congress will repeal the Taft-Hartley Act in the shortest possible time - and with no "substitutes." And will be carried out.

the election? We can expect that explanations of this universal error will be featured for some time to come and no doubt they will be as weighty and ponderous as the reasons they gave before the election for the certainty of a Dewey victory.

Very likely they'll discover why the polls went wrong and try to improve them or at least leave greater opening for the possibility of sharp changes and shifts in opinion and so attempt to refurbish their reputation.

But the polls, after all, represented the views of only three or four small agencies whose resources for sampling public opinion cannot be compared with those of the newspaper industry. How could these great institutions go so completely wrong? The fact is all the more amazing if you consider how highly organized and efficient the modern newspaper is.

News of an event in the remotest corner of the world can be placed on the streets together with photos of the happening within an hour or two of the occurrence. The giant presses can turn out millions of copies of papers containing as much copy as large books, and edition after edition can be distributed in record time throughout a great

Not only is virtually the entire world within seeing and hearing distance of the editorial office, but every section and stratum of society is touched by the sensitive feelers of the newspaper. Every big newspaper has its own staff of highly trained men. They are in constant touch with people and supposedly keenly alive to public sentiment.

In addition, every major paper enjoys the services of the great associations that feed news on to the wires and teletypes. Through these channels, the big newspapers are connected with the smallest local papers throughout the country.

How could this whole vast, intricate set-up go haywire in estimating the sentiments of the peo-

The Negro Struggle —

The answer can be found by checking on who controls the press. Although the big newspapers are supposed to serve the public, and be organs of

These ruling families, who control the press, wanted a Republican victory. They utilized the newspapers as one of their most important propaganda weapons in the Republican campaign. They hoped that the weight of the press would help prove decisive in determining the outcome of the election.

Since editorial policy called for a Republican victory, the reporters and re-write men whose job security depends on pleasing management naturally felt receptive to facts seeming to bear out that policy, less receptive to contrary facts, and inclined to slant news in accordance with editorial wishes. That's in the best case. Many editors, of course, deliberately doctored the news.

Thus we witnessed the amazing spectacle of the entire capitalist press reflecting not the sentiments of the people but the wishes of the few thousand colossally-rich individuals. The most ironic side of this spectacle was Big Business and its press getting caught up in their own propaganda and letting wishful thinking blind them to

The capitalist editors and pollsters are now doing their best to squirm out of their embarrassing position as gracefully as possible. Some poke fun at each other's expense in the style of football dopesters eating crow over an upset. Others draw a "sharp" lesson about over-confidence and resolve to pay more heed to the warning signs they disregarded.

But the real lesson to be drawn from their "error"—the evil of monopoly control of the press, is one lesson none of them will draw.

How Negroes Voted--And Why

Immediately after Henry Wallace announced

his candidacy, I wrote as follows in the Jan. 5 Militant: "If present indications mean anything, he will draw a very large Ne-

gro vote in 1948; perhaps even a majority of the Negro vote." At the time that was written, Truman had already begun his demagogic appeal to Negroes by endorsing some of the recommendations of his

Committee on Civil Rights. Despite that, I believed that Truman would be unable to convince large numbers of Negroes that he really meant business on civil rights, and that was why I predicted a strong vote for Wallace.

The Nov. 2 returns show I was wrong about the final election results, leaving aside the question of whether I was right about the sentiment existing last January. Although a study of the results in major Negro communities shows that Wallace did do relatively better there than elsewhere, it is plain that Truman got a clear majority of the Negro vote in the North as well as the South. I think I know why.

A change began at the Democratic convention in July. Truman had sought a compromise with the Southern wing of his party on civil rights. But the convention, realizing better than he did at that time the importance of the northern Negro vote, forced through a stronger-sounding plank than he had advocated. The result was the Dixiecrat walkout, and a few weeks later the Dixiecrat nomination of candidates.

In the eyes of many Negroes, this seemed to indicate the emergence of a new Democratic Party. With at least some of the most rabid race-haters out of the party, the Democratic Party seemed to them to have undergone a progressive transformation. And although Truman

carefully avoided discussing civil rights in the South, a majority of the Negro voters evidently decided enough of a change had been made to warrant the belief that Truman represented a lesser

But it would be wrong to conclude from this that the Negro people are now strongly committed to the Democratic Party, or that they will be committed to it at all for any extended period. It is true that they suffered under an illusion in voting for Truman. But it is the kind of illusion that can disappear rapidly—in a matter of months even-and give way to a widespread recognition that the Democratic Party can never be a genuine instrument for Negro progress and emancipation.

This is not the first time the Democrats have been in power after making lavish promises to the Negroes. What reason is there to think these promises will be kent better this time than before? None at all-especially when we can already see the Democrats preparing a reconciliation with their Southern wing, which wields such power in Congress, and when already there is talk about a "compromise" civil rights program acceptable to the Southern wing.

No, the Negroes are not going to get anything at all out of those civil rights promises unless they fight for it, and that is why increased struggles for equality must be expected in the coming period. In those struggles the Negroes are going to find themselves pitted against the Democratic Party leadership, including Truman. The experience they will pass through in that struggle will destroy illusions about the "lesser evil" nature of the Democratic Party. And that in turn, we are confident, will reawaken the movement in Negro ranks for a clean break with all capitalist parties and the establishment of an independent Labor Party based on the unions and Negro or-

The Campaign Ahead

- By Grace Carlson

Nov. 3 - Unlike the capitalist parties, our campaign does not end on election day. As our election platform truly stated:

'The Socialist Workers Party is a political organization of American workers that fights in the interests of the working class 365 days of the

And so we look forward. We want to consolidate the many gains made in the election campaign. We want to make members out of new contacts discovered during the campaign. We want to establish branches in new centers, where

we made some new friends for Trotskyism. Much new ground was plowed during this campaign; many seeds were sown. Our harvest will come in new members and new branches.

This past week, I campaigned in two such new areas-Sioux Falls, So. Dakota and Des Moines, Iowa. In Sioux Falls, I was the guest speaker before the Thomas Paine Society, an organization of students, trade unionists and liberals of all types. The constitution of the Thomas Paine Society states that "The purpose of this organization is to provide a vehicle for free, stimulating, unprejudiced expression of ideas, resulting from realistic, constructive and reflective thinking, the goal of which is positive action."

We had three hours of "free" and "stimulating" discussion at the Thomas Paine Society meeting. I wouldn't say that it was "unprejudiced," however. Most of the members were prejudiced in favor of capitalism, whereas, I am strongly prejudiced against capitalism. But there's ground for hope that some of the younger members of the Society will do some "realistic, constructive and reflective thinking" and come to see that the Socialist Workers Party offers the only worthwhile goal for "positive action."

In Des Moines, I met a young radio announcer, who is a former University of Minnesota student. It was very gratifying to talk to someone who knew all about our former Minnesota election campaigns, the Minneapolis Labor Case, etc. And we hope that the Des Moines radio speech did some further educational work in this new area.

And so, after a 14,000 mile election tour as the SWP vice-presidential candidate—a trip which took me into 16 states and 38 cities-I am back home, campaigning for socialism as the SWP Organizer in Minnesota.

Notes from the News

WAR DEPT. PUBLICITY-The people of Hiroshima, according to General Eichelberger, have "nothing but admiration" for Americans. He

maintains they admire "the people of a country capable of making a bomb which could destroy their city."

INTER-PLANETARY SLAUGHTER — Dr. Olaf Stapledon predicts that the

United States and the Soviet Union will one day fight as allies in the biggest war of all-against invaders from other worlds.

OUT OF SEASON-A Thompson, Conn. man who accidentally shot and killed his wife on a hunting trip was arrested on charges of hunting deer out of season.

BIRTH CONTROL ILLEGAL-A Massachusetts referendum to make it legal for physicians to give birth control advice to married women whose health would be endangered by pregnancy was defeated 896,597 to 695,832, according to unofficial returns. The Roman Catholic Church waged an intensive campaign against this longoverdue measure. The Planned Parenthood League was encouraged by the support given the proposal and plans to continue the fight to legalize medical advice on birth control.

BOSS JOINS PICKETS-"Join our ranks," strikers of the Dayton Rubber Co. shouted to the company president A. L. Freedlander as he left the plant last week. The boss accepted the invitation. Ten minutes on the picket line was apparently enough to convince him of the justice of the strike. The following day the company granted a wage boost of 11c an hour retroactive to June. common expiration date of their constantly hang over the locality, vegetable stands. public opinion, they are not free to register the wishes and sentiments of the people. As a matter of fact, these institutions are perverted to the will of a tiny selfish minority—America's 60 West Coast Maritime Unions West Coast Maritime Seek Long-Term Peace Pact

SAN FRANCISCO, Nov. 7 — Optimism among top labor leaders following the unexpected re-election of president Truman last week gave rise to two moves designed to effect a quick settlement of the 66-day old pacific coast maritime strike.

HARRY BRIDGES

First of these moves was a letter from Vincent J. Malone, president of the striking independent Marine Firemen's Union, adlressed to J. B. Bryan, president of the Pacific American Shipowners Association. Malone's letter began with the announcement that "the results of the presidential election makes pointless any further continuation of the current strike or lockout."

The second move was made by CIO President Philip Murray who is pressing for re-opening of negotiations and has offered to underwrite any new contract to insure "faithful performance."

The employers, within the councils of the PASA and the Waterfront Employers Association, have already adjusted their tactics to the Truman election victory.

The seamen's unions have demanning scales. This is an abso- 100 attended the first forum on lute minimum demand in face of the growing unemployment in foreign-fiag competition, backed To Lack of Filters U.S. merchant fleet is slashed by by American capital.

NO-STRIKE CLAUSE

Furthermore, most contracts have in the past contained a nostrike, clause guaranteeing that there would be no strikes or work stoppages during the life of the agreement. However, there are usually provocations on the part of the employers which force temporary work-stoppages. Under exsting laws unions can be sued in the courts for such stoppages. As a measure of protection against these employer provocations and subsequent court actions, all the striking maritime unions went on record to eliminate that the 19 deaths were "just the no-strike pledge and substitute a "willing and able clause" which specifies that no member of the union shall be required to work under provisions of the conto do so.

contract which expires in 1952. Other unions will likely have contracts of shorter duration. This would enable the employers to isolate the CIO maritime unions on this coast and attempt to smash them in another strike a year or

The union officials now seem nclined to cling to the groundless hope that a long period of "labor peace," guaranteed by a new Truman Democratic Administration, lies ahead. This was clearly expressed by V. J. Malone in the following telegram to Mr. John R. Steelman, labor advisor to President Truman:

"Undoubtedly labor's vote was a dominant factor at the polis. We urge President call conference labor representatives AFL. CIO. railroad brotherhoods, independcontracts.
