vote and a substantial increase

over the vote he received for the the Senatorial candidates of the Wallace Party, the Socialist Party, the Socialist Labor Party and the SWP. Their vote was as follows: Progressive Party - 22, 658; Socialist Party - 11,441; Socialist Labor Party - 3,910. Breitman surpassed his 1946 vote by 3,069.

Election returns for Farrell Dobbs and Grace Carlson, Presidential and Vice-Presidential candidates of the SWP, are coming in to the National Office of the party and should be available for publication soon.

Use Convention to Whoop Up Program of U.S. Imperialists

By Art Preis

In contrast to the leftward shift of the American workers as reflected in the national elections, the recent CIO national convention marked a de-

monstrative push to the right by the top CIO leadership.

The election results were, above all, a mandate to the union leaders themselves to mobilize labor's ranks for an aggressive fight to secure improved living standards, adequate housing, civil rights.

These crucial needs of the workers were completely subordinated by Philip Murray and his top machine at the CIO convention. The bureaucrats turned the convention into a "victory" demonstration for the Democratic politician they had salvaged from the trash bin and for his basic program of militarism and imperialist war preparations.

They concentrated almost en-Stalinists, a vulnerable and discredited minority to whom they attributed all evils. This was a convenient means to divert the convention from its real duties the elaboration of a militant program of action to win what in the election campaign.

councils, but over the internareaching concentration of power

Only incidentally, sandwiched in between long hours of ballyhoo for the Marshall Plan and Wall Street's bi - partisan foreign policy, was brief recognition paid to the real problems confronting the workers - unconditional resey in the 1948 election. Breit- peal of the Taft-Hartley Act, fourth-round wage increases, orpercentage of the minority party ganizing the unorganized, etc.

Profits Hold Lead; **Wages Trail Prices** Here is how prices, average

manufacturing wages and corporate profits have fared in the past four years, according to latest government figures. **Prices Wages Profits**

... 100 100 100 ... 108.5 98.5 147.1 1946 1947 ... 124.0 110.9 208.0 1948 ... 135.2 123.1 234.5

Resolutions on all these quesions were adopted by the convention. But both the resolutions and the brief discussion on them suffered from a grave omission. Not a word was said about how to implement these resolutions, tirely on a drive to crush the how these progressive aims are

A FOOL'S GAME

major military successes in the "the mooring of any ships along just as fraudulent as were his similar claims on the eve of the fall of Mukden in Manchuria. A military debacle followed Chiang's order to "evacuate" Mukden. Another debacle on an even bigger scale appears to be now unfolding in the wake of a similar order to "evacuate" Suchow. One of Chiang's armies, a force

of 140,000 men, is reportedly caught in a trap 65 miles south of Suchow. The strongest military formation in this area that could come to their aid is the evacuated Suchow garrison, estimated at 180,000 men. But this garrison is itself, from all reports, a disorganized mass of already fled in panic.

mend, although it is not containmeet these difficult organizational problems which arise and which we are constantly required to meet, particularly as it has affected industries and the unions to which I have made reference."

The industries and unions he named specifically are "government services, public workers, white collar workers, workers employed in the retail and other - most of them now under jurisdiction of Stalinistdominated organizations.

Murray attempted to sheath the sharp edge of his purge formula by explaining, "It is not a question of communism with me. If a communist is leading a labor organization in the CIO and, after years of existence he is unable to demonstrate his fitness to organize the unorganized, then, in justice to the people employed in that industry he should resign. That is a practical, realistic, factual description of certain situations which confront the Congress of Industrial Organizations to-

STALINIST ABSTENTION

The resolution granting Murray dictatorial re-organizational power over international unions was introduced and adopted during the fourth day of the convention. The vote on the resolution was approximately the same as that on other crucial issues. The Murray machine had 537 votes to the Stalinists' 49 on the Political Resolution. But by the time this resolution on reorganization came up, the Stalinists appeared to have lost some votes. Many of their delegates abstained from voting on some questions because of the pounding they took

throughout. The real issue dividing the firmly entrenched Murray machine and the Stalinists hit the convention floor the afternoon session of the first day, Nov. 22. Donald Henderson of the Food and Tobacco Workers Union introduced some "minority exceptions on the Report of Officers." These "exceptions" constituted the minority report on the work of the CIO during the past year. It was signed by Henderson, Irving Potash of the Fur Workers, and Joseph Johnson of the Marine Cooks and Stewards.

In the debate that followed it was clearly revealed that the dividing issue is the Marshall Plan.

Murray and his smooth-talking. heavy-handed lieutenants are attempting to sell the Marshall Plan as "economic aid to the destitute peoples of Europe." This is "CIO Report of Officers.

The Stalinist "exceptions" sought to amend Murray's line by pressure. positions of power in Western Germany and Marshall Plan funds being used to rebuild the German cartels and trusts; to the use of French armed forces, maintained with American funds and supplies, against striking French miners; to Marshall Plan bolstering of of jurisdictional raiding within craven tributes to the "demodictatorial regimes in Greece, the CIO in debate on this reso-China and Turkey where all bona lution, but Allan Haywood, di- 1ay." fide unions are destroyed.

simply declared that his memof policies the CIO leadership vas trying to put over.

The only one who came close o meeting the arguments of the official bureaucracy was Reid Robinson, who reminded the telegates that if a minority at the 1935 AFL convention had not remained true to the principle of Robinson was talking about a principled position.

STALINISTS UNPRINCIPLED The main trouble with the Stalinists at this convention was that they are people without principles. There is no principled difference between the support of the capitalist party of Wallace and the capitalist party of Truman. Similarly, their position on the question of foreign policy was devoid of principle. They only wanted to amend the position of Murray. They wanted to

oppose certain aspects of the

Marshall Plan and give support

resent The Militant's policies.

Capitalist monopolies, having corroded the middle classes, are devouring the democracies. Monopolies themselves were a result of private ownership of the means of production. Private ownership, having once been the source of progress, came into contradiction with modern technique and is now the cause of crisis, wars, national persecutions and reactionary dictatorship. The liquidation of the private ownership of the means of production is the central historical task of our epoch and will guarantee the birth of a new, more harmonious society. The act of birth, daily observation teaches us, is never a "gradual" process but a biological revolution. -Leon Trotsky, Interview in St. Louis Post-Dispatch, Mar. 1940

LENIN

Douglas's Speech to the CIO

Hailing Supreme Court Justice William O. Douglas's speech to the CIO convention, Philip Murray said it "will ring through the land, and its effects will be felt." It was indeed a significant speech, even if not precisely in the sense Murray meant.

Douglas, one of the shrewdest and ablest spokesmen of American imperialism, publicly admitted that Washington is meeting tremendous popular hostility in Western Europe to the Marshall Plan. The European workers do not accept the claims of the American diplomats and propagandists that the Marshall Plan is a strictly humanitarian

On the contrary, they view the Marshall Plan as a scheme to extend Wall Street control and to prop up rotten and bankrupt capitalist regimes that the masses hate and yearn to overthrow as speedily as possible.

"A gap has been growing between the United States and Europe," said Douglas. And the American labor leaders alone are "peculiarly qualified" to bridge that gap. His speech expressed the hope that American imperialism would be able to sell the Marshall Plan to the European workers by assigning the job of chief salesmen to the American union leaders.

In developing his thesis, Douglas pointed out that "a new Europe is being born," that new leaders have come to power in Western Europe and "in almost every case their political strength is in the labor movement." These labor movements are "bitter" and "suspicious of all those who may be undisclosed agents of predatory interests"—and, specifically, agents of "an American imperialism . . . extending its power into Europe through cartels, banks and other powerful instruments of industry and finance."

American imperialism is so discredited, distrusted and feared that it cannot speak through its own mouth and in its own name. *But "American labor carries good credentials to western Europe. Doors tightly closed to all others may open at its knock." It is "in this precise respect that American labor can render a unique service, whether it represents the government in particular missions, or as an observer of the European scene, or acts as an educator of the rank and file of the

Thus, as Douglas sees it, the main role of the American labor leaders is to do for American imperialism what it cannot do for itself. They must be assigned the key task and the dirtiest chore—to appeal to the class consciousness of the workers abroad and serve as the "labor" bait to lure the European masses into the Wall Street trap.

Murray hailed the words of Douglas as recognition of the great force and influence of the American labor movement in the world today. And that is so. But the real meaning of Douglas's appeal is that this influence is to be used not to aid the European workers to rid themselves of hated regime, but to fasten their shackles tighter and to add new imperialist chains.

That role will not increase the influence of the American labor leaders. Rather it will lead to their speedier discreditment. In the minds of the European masses — and the American workers too — it will link these "labor statesmen" with all that the peoples hate and fear most, the capitalist system and rulers that have dragged them to the edge of

The convention also passed a resolution

instructing the incoming officers to stage a

purge against members of the Communist

Party. To deny membership to anyone be-

cause of his political beliefs is to uphold the

very principle on which all reactionary witch-

hunts and political persecutions are based.

It can only weaken the AVC as a non-

partisan organization fighting for veterans'

The AVC resolution on behalf of Kutcher

struck a greater blow at the Stalinists than

any purge. It helps to expose their criminal

silence in the Kutcher case and the falsity

of their claims to be defenders of civil

We have long pointed out that the Stalin-

ists are a menace to any liberal and labor

organization. But the way to fight them is

not through witch-hunts and anti-democratic

methods. It is to expose their aims and pro-

gram, to destroy their influence in the ranks.

The AVC Convention

The national convention of the Americans Veterans Committee (AVC) in Cleveland last week struck a blow for civil liberties in this country when it unanimously endorsed a resolution to support the defense of James Kutcher, legless Newark veteran who was fired from his government clerical job because of membership in the Socialist Workers Party. This action does credit to the AVC and we take this occasion to commend it.

But, unfortunately, other actions taken by the convention can only serve to harm the cause of civil rights and to help embolden the very witch-hunters who are persecuting Jimmy Kutcher and others who do not agree with the political beliefs current today in Washington.

The denial of seats to the elected delegates of 13 Stalinist-controlled New York chapters of the AVC was a highly anti-democratic act. It is a method borrowed from the arsenal of bureaucrats and totalitarians of every stripe, including the Stalinists.

Hands Off China!

The next major decision affecting the course

of the Chinese civil war will be made in

Washington, D. C. That is why Chiang Kai-

shek, "the Butcher of the Chinese people,"

has sent his wife across the Pacific to plead

for the tottering Kuomintang dictatorship.

And that is why a section of the American

capitalist class, frightened at the danger to

their investments in China, are shouting for

Asia." They suggest five billion dollars to

keep Chiang's private war going. They even

talk about an American Expeditionary Force

to invade China and fight the dictator's

battles against the Chinese people. Chiang

himself is less out-spoken. In his latest in-

terview he does not "expect American troops"

but does "hope for munitions from the nearest

Chiang has made clear his willingness to

subvert Chinese sovereignty for the dollars

and bullets he needs so desperately. The

American supplies in the Pacific."

anese Mikado.

families have apparently not yet made up their minds what to have Truman do. It is

not difficult to see why they hesitate. The policy of supporting the Chiang dictatorship has ended in disaster. What guarantee is there that continued support will prove more successful? If America's armament factories are opened wide to Chiang's corrupt bureaucracy, will not great quantities end up as in the past in the hands of the opposing forces? To seat this tyrant firmly in the saddle would require a major effort-direct intervention. Can Wall Street get away with plunging America into armed conflict on the continent of Asia to save the despised

Kuomintang regime? For the labor movement there can be no question of the correct policy to follow toward China. The Chinese people have demonstrated in the most decisive manner that they want no more of Chiang's brutal dictatorship. Without American guns, this bloodstained monster would have gone down long ago and been replaced by a popular government of the Chinese people's own choice. To continue to block the will of China's teeming millions can only build up such hatred for America as to poison relations for generations

Let the Chinese people decide their own fate! Help them achieve the peace they seek. Stop the shipment of arms to Chiang's regime. Withdraw all American troops! Hands off China!

CIO Chiefs Push **Rightward Drive**

wasn't a hint of any program on how to win higher wages. There was no proposal for a unified struggle. It was clear that the wage drive is powered selely by the hope that the corporations will toss the workers a few more crumbs without my serious fight.

The problem of organizing the inorganized—of whom there are action to meet the needs of the tens of millions - was raised workers, that they can never be primarily as a factional issue a progressive force. They went against the Stalinists. It remains | right down the line with Murray of "organizing the unorganized" will be used simply as the pretext for Murray's intervention in unions or for a genuine camthe CIO ranks.

crats are in putting over the program of U.S. imperialism. This war program is a huge road block in the path of any progressive reforms.

The vast arms expenditures, the subordination of civilian needs to war production, the polstering of rotten dictatorial regimes in Europe, Asia and Latin America, can only result in economic dislocations and crisis, the imposition of new burdens on the American masses.

This fear haunts the workers. They hang between the pit and he pendulum — the swinging plade of inflation that slashes their living standards and the black abyss of depression and unemployment.

This is the same crucial problem the workers faced before the election. But the labor eadership gave no sound answer to it. They played the old senseless game of capitalist two-party politics and backing the "lesser vil" instead of building a labor party fighting for labor's own

Denied this latter choice, the workers voted for the "lesser

PIONEER PUBLISHERS 116 University Pl., New York 3, N. Y:

On the night of Nov. 20, less than three weeks after the elections, Mallard, accompanied by his wife, 18-month old son and two other persons, was driving to his home, 20 miles outside of Vidalia, Georgia, when he found the road blocked by a group of automobiles and a gang of 50 to 75 hooded men. Mallard was dragged from his seat and shot to death; the mob would not even permit his horror-stricken family and friends to take the body, which they left lying by the

For several days the fact that a man had been lynched was hushed up and kept out of the press. When a newspaper finally did break through the curtain of silence on Nov. 23, and it was revealed that Mrs. Mallard accused the Ku Klux Klan of the crime, the Georgia authorities moved into action—and arrested Mrs. Mallard at the funeral of her husband, charging her with his murder!

This was so raw that the Georgia police were later compelled to release her. But, as this is written, they have not yet arrested the member of the mob whom she had positively identified, or the owner of an automobile which she recognized in the roadblock. Add those facts together, and you will understand the real attitude of Georgia authorities toward prosecuting known white lynchers of a Negro.

That's the attitude of the Southern ruling class-but what about the attitude of the government in Washington? It's substantially the same. Truman's agents are not trying to arrest Mrs. Mallard, but neither are they trying to do anything to apprehend or punish the lynch mob.

Walter White assures us that Truman assured him that his civil rights program, including an anti-lynching bill, will get top priority in the 81st Congress. It remains to be seen if Truman will actually do this, or if it will have any success if he does.

This does not mean that foes of lynching should sit back now and wait to see what will happen next year. If we do that, little or nothing will be accomplished and the lynch murderers will remain free to continue their savage practices. What we need now is the mobilization of mass pressure, through a conference of Negro and labor organizations in Washington to force the new Congress to take appropriate action.

Finally, we must recognize an important truth -the passage of an anti-lynching bill will not automatically end lynch terror any more than the presence of an anti-murder law in the Georgia statutes has prevented the mob murder of Negroes. It is possible to have an anti-lynching law that will achieve nothing, just as it is possible to have one that has some real teeth in it. And much will depend not only on the kind of law passed, but also on who enforces it, and how.

That is why, while pressing for the strongest possible kind of anti-lynch law, we must also work unceasingly for the abolition of the capitalist-bred Jim Crow system that encourages lynching and for the establishment of a Workers and Farmers Government that would really be concerned with wiping out terror and violence against minority groups.

By Joseph Keller

It's surprising how shy and coy the big corporations are when it comes to discussing publicly their profits and how they are made. Get some Congressional hearing going to "investigate" the unions, or to reduce corporation taxes, and the corporation spokesmen swarm about thick as flies around molasses and buzzing twice as loud. But let some Congress committee ask the corporations for a little first-hand information about their profits and prices, and they wing for open country like they were just an inch ahead of a

Senator Ralph E. Flanders, Vermont Republican, admitted last week that his Congressional sub-committee to investigate prices and profits is being strangely shunned by "some" corporations. No matter how politely and invitingly the committee's invitations are worded, these corporations are reluctant to appear and testify.

Of course the worthy Senator didn't mean to imply that these corporations have anything to hide. The trouble he said is with the corporation lawyers. They suffer from "timidity." Lawyers, he said, "are timid folk, the most rabbit-like of the human race." And he might have addedwhich he didn't-that it's a strange coincidence that the higher-paid the lawyer and the bigger the corporation he represents and advises, the more "timid" he is.

Although Senator Flanders didn't give the names or industries of any of these reluctant corporations, he cited the example of one that "is under, or facing, indictment under the antitrust laws, and their attorneys have assured them that they should not say a word, not even mutter to themselves in a closet."

Some naive soul might well ask, "Why doesn't the committee subpoena these corporations?" After all Congress committees haven't hesitated to subpoena "reds" and labor leaders when they

want to grill them and send them to jail for "contempt" should they refuse to answer ques-

But Senator Flanders said that the committee felt "in doubt" about its power to issue subpoenas to wealthy and powerful corporations. In any event, he added, the committee would not issue subpoenas "for we felt that we can get "further, and get more information, without them." He didn't say how.

We are not surprised that the corporations are particularly tight-mouthed about answering questions about the sources and scope of their profits at this season. The third quarter returns have come in and the figures take a lot of ex-

Bernard T. Frevert, of Standard & Poor's Corp., business advisors, writes in the Nov. 27 N. Y. World-Telegram that "this excellent showing" is "largely the result of price advances"that is, of milking the consumers. He predicts that when the full year's profits reports are in they will show a profits increase over 1947 of

We don't think the workers should wait for books and records of the corporations. We have no doubt that this kind of "peek at the books'

In plain language, some top business executives are already accepting the initial sag of Christmas sales as indicating a deepgoing dislocation of the domestic

market. They hope that this dislocation will not prove too severe. If last year's sales levels can be maintained, then the current developments may be accounted for simply as severe strains, with a few cracks appearing here and there, but with the domestic market as a whole left unimpaired.

On the other hand, a continued ales drop within the range o current declines would mean that inflation has slashed the purchasing power of the masses to the point of severely damaging the domestic market.

The full extent of the actual dislocation remains in doubt because the critical tests - the biggest sales weeks - still lie

ANXIETY AND TENSION

Meanwhile, anxiety and tension in business circles are mounting. Characteristic of the mood This is by no means confined to among the big merchandisers is the stock market, where prices on vessels operating out of a report from the Philadelphia are hovering near the year's low

According to surveys, 98 percent of purchasing agents are now placing orders on a hand-tomouth basis, ordering only enough to cover immediate requirements. Drastic measures to trim existing swollen inventories are already in evidence, especially among retailers.

Similar conditions in the past have been accompanied by sizable cut-backs in production, and by lay-offs. But this has not been the case recently, except for hardest hit light-goods branches. Nevertheless rumors of projected cutsuch proportions that the N. Y. to conduct a special survey among the "heavy industries in the New York area" in order to allay all these "scare rumors."
