'NATIONAL UNITY' HIDES BLOW AT LABOR

MINNESOTA VOTE 5,743 FORCARLSON

Anti-War Stand Gains Lead **Among Minorities**

By CARL O'SHEA

MINNEAPOLIS, Minn.-The Socialist Workers Party, on the basis of the November 5 election returns, has become the leading party appealing to the radical industrial proletariat of Minneso

The state's metropolitan area, comprising Ramsay and Hennepin counties, gave Grace Carlson, our senatorial candidate running on the Trotskyist Anti-war Party ticket, 2,782 votes. Thomas trailed with 2,090. The Browder-Ford ticket could get only 842 votes, and Aiken-Orange of the SLP *sect obtained 1,338. Thus, running against traditional candidates of long-established parties, the Fourth International candidate and program clearly outdistanced its rivals.

VOTED FOR TROTSKYISM

Returns on a state scale are no less encouraging. With a hundred precincts yet to be tallied, Carlson Browder-Ford, 2,520; and Aiken Orange, 2,417. Inasmuch as our party confined its election camvotes from the rural areas for a Auto Workers-CIO, and the Gen-suspended from the plant. candidate listed on the ballot as eral Motors Corporation. The

War Drive Pushed For Spade and Hoe "Full Speed" Ahead

Wall Street Urges "National Unity" At Labor Expense

"National Unity" has become he chief battle-cry of the thirderm Roosevelt administration.

With this slogan, Roosevelt nopes to harness the labor movement to the war chariot of American imperialism and, incidentally, to silence his opponents of the extreme right-wing Wall Street camp now mobilized behind Wendell Willkie.

The "National Unity" campaign has come as a whirl-wind followup of the election. It was initiated in a big way Wednesday evening after the election at Carnegie Hall, when leading Roosevelt supporters made a symbolic alliance with their Republican opponents, represented by Alf Landon, who delivered a radio plea for unity from Kansas, and Howand Coonley, chairman of the National Association of Manufacturers, who spoke in person.

CHAIN GANG UNITY

War Crisis Brings **FDR** Intervention In Latin America

With the third term nailed over his fireside, Roosevelt has returned to Washington to represent American capitalism for another four years. He immediately accelerated his drive toward war, markets, colonies, plunder, regimentation of the labor movement. Wall Street reacted with great activity on the stock exchange, steels, chemicals, and government securities leading.

On the home front, Roosevelt launched a drive for "national unity" at the expense of the labor movement to back up the "deense measures." Not a capitalist paper last week failed to carry editorials and headlines on the need for "national unity." The Republicans also backed the drive to a man-Willkie, Landon, Fish, etc. Some of them suggested burning campaign literature in bonfires like so many campaign promises as a gesture of "national unity." At the same time the Republicans demanded for themselves the right of "loyal oppo-

Roosevelt indicated that he vould push for "unity" between he CIO and the AFL. Pressure rom the White House to unite at the expense of industrial unions ism is already being felt among the delegates to the two trade union conventions at Atlantic talk of appointing Mayor La Guardia as Secretary of Labor to replace Secretary Perkins.

On the question of increasing taxes, especially the indirect taxes which pick the pockets of construction of the greatest military machine in the world, Roosevelt conferred with Democratic leaders. It was undecided whether to do this job now or wait until around Christmas time.

ON THE WAR FRONT

On the war front foreign diplomats and foreign governments along with Secretary of Navy Knox correctly interpreted Roosevelt's re-election as indicating that war preparations on the part of Washington would be speeded up. It was intimated in circles near the White House that Rooseveit might ask the next Congress to repeal the Johnson Act prohibiting loans to nations in default of past debts and to repeal the cash-and-carry provision of the Neutrality Act in view of the present strain on the capitalists of Great Britain.

On the day following Roosevelt's re-election, the British launched a propaganda campaign to bring the United States into the war as a direct military participant, declaring that the idea the USA can keep out is "just so much bunk." The British argue that Britain can't possibly outproduce Germany in war materials, that Britain alone can't pay the expense of fighting Hitlerthe burden must be shifted onto the backs of the American public too, that they can use at this time some navy units, some pilots and some aircraft with guns to go along with the pilots, and that a declaration of war by Washington would "turn the tide of morale" in favor of Great Britain.

LATIN AMERICAN EXPANSION.

The Latin-American countries read the election returns as a goahead signal for US expansion in their direction. Just as Hitler first swallowed Austria, Sudeten, Czechoslovakia, the greater part of Poland, then Denmark, Norway, Holland, Belgium before really turning loose on his major foe, France and Britain, so it is expected that the thoroughly hated "El Tio" Sam will move in on the weak semi-colonial Latin-

American countries. The agents (Continued on Page 3)

Urges Appeal Editors To Use Two-Syllable Words, Bury Dictionary

· Editor:

After reading the November issue of the Socialist Appeal, I was struck, as I have been struck before by its scholastic tone. believe that the Appeal should truly be a workers' paper. I would like to ask if the editor thinks that the American workers can fully comprehend, without the aid of Webster (and they probably do not own one) the Ph. D. theses on Lewis' reversal. It is not the editor's job to give the workers a lesson in five-syllabe words but nather to speak in their language, not the language of the university. If the editor does not know how the workers talk, let him go out and live among them for a

It has been said that since the Fourth International only comes once a month, we therefore need theoretical and semi-theoretical articles in the Appeal for the more advanced workers. How about letting the more advanced workers hunger for a few weeks while we feed those workers that we are trying to recruit. Save the desserts for the Fourth and give us the staples once a week in the

I remember the series of articles the Appeal carried on the auto workers fight. Do you remember pressions, simple language-language that Detroit and every other working class city could understand. Have those people forgotten how to write?

Let's tie a few keys down on the typewriter. It's about time that we left the school and walked across the tracks.

Editor's Reply:

In place of taking away the editor's copy of Webster-where he searchs painfully for the five-syllable words he uses-how about crowding out his articles by sending in some workers' stories from your district?

We are sure that all the readers of the Appeal would like to tickets for a movie in Panama hear labor news from Houston, City. They were told that there with or without the typewriter were no more seats. My wife and

STEEL WORKERS **USE "QUICKIE"** TACTIC TO WIN

YOUNGSTOWN, Ohio, Nov. 1 .-"Quickie" strikes are being used with telling effect, particularly in the Republic Steel plant here, to enforce settlement of the swelling list of grievances which have been harassing the steel workers. On October 18, 100 workers in the shipping department of Repub-

lic staged a day-and-a-half "quickie" shut-down which brought the company to terms with an assurance of wage increases to be immediately negotiated with the Republic local of the Steel Workers Organizing Committee.

Prior to the shipping department stoppage, over a hundred shippers pulled a three hour halt returning to work when the management promised wage increases. They threaten to pull another "quickie" if the company does not come through.

These, and a number of other similar actions, are resulting in large gains for the membership of the SWOC in Youngstown, as the steel workers, disastrously defeated in the Little Steel strike in 1937, begin to take courage again and learn that it is possible for them to buck the steel bosses and win.

The "quickie" tactic is spreading to other steel plants. An effective stoppage of this type was pulled by the entire machine shop department of the MacDonald plant of the Carnegie-Illinois Corp. of U. S. Steel several days, after the shipping department-walk-out in Republican.

The entire striking department confronted the management as a committee of the whole and in a few hours returned to work with their demands for revision of working schedule and ample advance work notification granted.

NEW YORK, Nov. 8 .- Negroes will have the "honor" of doing the dirtiest and most dangerous asks in the army, but they are peing systematically excluded from work in the war industries. They are even being denied acess to the vocational training being ordered by the National Deense Commission.

State and local administrators of the "national defense" vocational training courses in Alabama, for instance, are refusing outright to permit Negroes to take such training. They argue that the industrial plants in the local communities do not hire colored workers.

For the first time in its history it has recruited trade union elements into its ranks, workers who go out and LEWIS WITHDRAWAL distribute our literature widely LIKELY and it has finally been released from its shell of isolation."

Union of La Plata, Argentina, in a strongly worded resolution expressed its sorrow over the assassination of Leon Trotsky and placed the responsibility for the murder squarely on the doorstep of Stalin.

The resolution calls on all "chief." workers' organizations to cleanse their ranks of the Stalinist "paid curs and ambush assassins."

Bad Health Has Army Worried NOTES

by Farrell Dobbs

On November 18, the CIO convention will open at Atlantic City. The AFL gathering will convene on the same date at New Orleans. The main issue before both bodies is the question of the renewal of unity negotiations with strong pressure for unity coming from the White House.

Now that the Third Term election is out of the way, Roosevelt is moving more swiftly than ever toward war. Therefore,

complete regimentation of the trade union movement has be- them and his opposition to Rooscome more imperative to him. of regimentation is the patriotic ROOSEVELT PRESSURE trade union officialdom.

However, the conflict between the AFL the CLO creates condi- the wall to preserve their industions which are dangerous to trial form of organization. The Roosevelt's war program. He must have a maximum of harmony ing strong pressure to force unamong the class-collaborationist ity. The AFL, still basically a trade union leaders. Hence the craft union organization, is very strong pressure for the unification | confident of its strength and will of the AFL and the CIO.

COCKY ATTITUDE OF AFL The AFL approaches the nego-

iations with a cocky attitude. The Executive Council feels that the craft unionists are in a very tainty of a split in the CIO if strong position. George Meany re- the AFL terms are found inacports a current AFL membership ceptable and refused by a majorof four and one-quarter millions. This is an increase of 50 percent over the membership figure after the CIO was suspended. While the Executive Council, through Green, officially proclaimed "neutrality" in the presidential election, a big majority of the AFL officials supported Roosevelt. This, they feel, gives them an edge over the CIO at the White House because of Lewis's support of Willkie. They add to these factors the internal conflict now raging within the CIO which cannot With the mass of the workers, help but weaken it in the unity negotiations.

CIO IN TURMOIL

is in great turmoil. A realignment is taking place in the leadership, a section of which has come out strong for unity with in great jeopardy by putting the the apparent intention of desert- industrial unions on the block in ing the CIO if the impending unity negotiations break down. evelt's foreign policy.

The CIO unions go to Atlantic City fighting with their backs to Roosevelt administration is bringattempt to drive a hard bargain. The CIO is weakened by internal conflict. There is grave danger of a capitulation on some of the basic premises of industrial unionism. There is almost the cerity of the CIO.

LEADERSHIP PREVENTED UNITY

The evil fruits of machine domination in the trade unions have fallen upon both the AFL and the CIO workers throughout the entire period of the split. Cowardly leadership, uncontrolled by the workers, has frequently capitulated before the pressure of the bosses, thus depriving the workers of the gains that they could have made through their unions. both AFL and CIO, prepared to establish unity on a fair and proper basis, this uncontrolled leadership has arbitrarily stood in the The CIO, on the other hand, way of labor peace. Now, under pressure from the War Deal, these same officials place the hard-earned gains of the workers

Negro Struggle

By ALBERT PARKER

We urge our readers to pay particular attention to the articles in this and past issues of the Socialist Appeal, reporting the treatment by the Southern officer caste in the U.S. Navy of Negro sailors who have dared to expose to the world the vicious Jim Crow policies in force on the ships.

A number of these sailors are already in grave danger. To their aid have rallied sailors from other ships who are speaking up in their defense as well as they can, and signing their names too

It is our duty on the outside to widely publicize the facts they have bared, to defend them from punishment by mass pressure and meetings, and to intensify our agitation for taking control of military training away from the bureaucrats and putting it in the hands of the trade unions.

INTO THE WASTE BASKET

Last Wednesday we threw into the wastebasket a lot of clippings, some of them a full page in size, from several Negro newspapers, containing the paid advertisements of the Republicans, and editorials from those papers that stumped for Willkie.

We had saved them just on the chance that Willkie might be elected. In that case we were going to use them in comparing his record from week-to-week with his promises.

Because, you see, Willkie was not stingy in this campaign in his promises to the Negroes. Realizing how important the Negro vote was in many key states, he promised them just about everything but socialism.

Lynching? No one looks at it with more condemnation than he does, he said, and furthermore, something should be done about it. A law should be passed.

... Jim Crowism? He was against it, he said. If he was elected, he would put an end to it. Yes, he said, he would even fire any of his subordinates "on the spot" if he caught them at it in civil

Segregation in the armed forces? He didn't see any reason for it, he said.

Job discrimination? He didn't like that either. And if he was elected, he would see to it that colored men would have equal opportunity to get jobs in private industry.

Unemployment? Of course he was against that too. Just elect him and he would do away with it, and put everybody to work.

Relief? He promised to do away with "the theory that relief is a Negro reservation." He said he would abolish discrimination in its administration and continue it for those who couldn't get gainful employment.

These were the promises he made when he was speaking to colored audiences. Of course, he did not say these things when he was speaking in the south, as at Amarillo, Texas.

Nor did he explain why it was that in the utility industries, where he is already "elected," he has never done anything to wipe out the Jim. Crow hiring policies, which either exclude colored workers completely or confine them to common labor. He did not show how he could abolish job discrimination easier as head of the government than as head of a utility corporation.

promises and general remarks he made now were made pretty much word for word by the Demoerats in 1932 and 1936. He did not touch on this at all to show why he would keep these promises in contrast to the Democrats who broke them when they were once elected.

Nor did he spend much time explaining why the Republicans when they controlled Congress completely in 1921-22 killed the Anti-lynch Bill in exactly the same way that the Democrats who completely controlled Congress have been killing it ever since 1937.

Nor did he say much about the right to vote, although he talked a lot about equality, and he did not at all take up the question of how the Republicans have helped the Democrats kill the Geyer Anti-Poll Tax Bill this last year.

But those who were able to, voted, and settled the question. So we threw all these promises in the waste-basket, in the same way Willkie would have throw them in the waste-basket if he was elected, and in the same way that the Democrats have thrown theirs now that they have been elected.

POLL TAXES HIT BOTH

The poll tax laws in operation in eight Southern states kept ten million people from voting in the presidential election last week.

This, says the Afro-American, was in addition "to some five million residents barred from the polls by sheer intimidation."

These poll tax laws, originally passed to insure lily-white elections and to keep Negroes from exerting any political influence in Southern politics, today serve to disfranchise all workers, white as well as colored.

Most white workers in these states can't vote there either, because they can't pay the taxes, which range from \$1 to \$3. In some states these taxes are cumulative, that is, even workers who paid their taxes this year were not permitted to vote unless they paid up all their back poll taxes, from the time they were 21 years old and on. That means that the longer this thing goes on, the worse it gets, and the more people it robs of their right to vote. How many workers or sharecroppers could raise the money to pay for the years of the depression?

The result is that while almost 60% of the adults in the rest of the country participate in the elections, in these eight Southern states only about 10% can enter the voting booths. And these 10% represent the ruling class, of course.

The whole thing is the best possible proof of our contention that laws aimed against the Negro people inevitably hit and hurt the work-

Fourth International Features Trotsky Article

The november issue of FOURTH INTERNATIONAL the monthly magazine of the Socialist Workers Party, will soon be off the press. It will feature an article by Leon Trotsky, "The Comintern and the GPU."

This is the article which Comrade Trotsky finished but a few days before his assassination and which he intended as a juridical document for the Mexican court in relation to the machine gun assault upon his bedroom May 24.

With a wealth of careful documentation, including special declarations by Walter Krivitsky, Joseph Zack, and Benjamin Gitlow, it analyzes the relationship between the Comintern and Stalin's secret terroristic organization, the GPU. The guilt of Stalin as organizer of the May 24 assault is established beyond all doubt by Comrade Trotsky in this remarkable analysis. The assassination on August 20 underlines Trotsky's proofs in

Don't miss getting your copy of the November issue of FOURTH INTERNATIONAL, containing this last article to be completed by Trotsky.

Long Time No See!

NEW YORK, Nov. 9-A city-wide shakedown racket that apparently has cost elevator companies millions of dollars in the last 30 years was brought to light yesterday with the suspension of 26 inspectors in the municipal Department of Housing and Buildings.

That this racket was not thirty years is as likely as the story of the man about town who married a chorus girl and five years later asked for a divorce on the grounds he had just discovered she had a wooden leg.

(Continued from page 1) get because the officers want us there to serve them . . . '

TIME TO WAKE UP

And the letter ends: "We are not trying to stir up strife, hatred or dicontentment, we are only trying to tell our people that it is time to wake up and go to the front and demand what we so justly deserve. We have slept long enough. Now is the time for more action and less talk!"

As the Courier points out: "Col Benjamin O. Davis has been made a general in the United States Army, but that means nothing. Judge William Hastie had been named a civilian aide to the Secretary of War, but that means nothing. Major Campbell Johnson has been made executive as sistant to the director of selective service, but that means nothing. THE UNITED STATES NAVY STILL ABUSES, RESTRICTS AND JIM CROWS BLACK BOYS!"

END THEIR CONTROL

That's true and it will continue o abuse, restrict and Jim Crow them as long as the Negro-hating, labor-hating generals and admirals continue to control military

and naval training! One Negro yeneral, colored assistants and aides can do nothing as long as the military caste controls things.

Let us, in addition to defending these boys, take a page from their Leroic books and carry to a finish the fight for workers' control of military and naval training!

Join The Army To Learn a Trade

For those individuals who may have been impressed by the slogans on the recruiting posters and newspaper editorials emphasizing the opportunities to learn a trade in the Army we quote the following from an editorial in the Army and Navy Register of November 2:

"In painting the picture of universal military training many sections of the American press are prone to stress the idea that the draftees will have an opportunity for training in skills which will be useful to them and may serve to help them into jobs when they return to civil life at the end of their year's training. Such may be the case with a minor portion of the great draftee army-those young men who are assigned to the motorized or mechanical units and those who draw the maintenance outfits of the Air Corpsbut it probably will not be the case with the great mass of draftees who are to take their place in the line of the Army."

NEGRO SAHORS Recruiters Wax Poetic In Film Blurb

The higer things of life, art and all that, are nct neglected in the Army. We were pleasurably surprised to find a cultured review of a newly released Warner Bros.'s cinematic gem in the November Recruiting News, official house organ of the Recruiting Publicity Bureau, U. S. Army.

In several thousand glowing words, the review describes the half-hour-run special feature techni-color Service With The Colors. We will let the masterly review speak for itself, merely high-lighting in bolder type the more exquisite

A RECRUITING DEVICE

"The film, frankly a recruiting exploitive made in the interests of National Defense by the public-spirited Warner Brothers," begins the review, "features a simple but interesting little plot." Accent on the "simple."

The plot involves two young civilians, "one from a typical American home of comfort, the other a youth in reduced circumstances and almost ready to go on relief."

Tom, the son of this "typical" prosperous family, hears an Army recruiting program on the radio and is "inspired to enlist." His whole family immediately approve and this "fine, cleancut youngster marches voluntarily off to the recruiting station."

FOR AN ASSURED INCOME

The scene switches to Charley, "the unemployed, down-on-his luck youth" who "shuffles" past a San Francisco recruiting station. An Army canvasser tries to sell him a bill of goods.

"One can see that Charley is not much impressed by the recruiting sergeant's" line of gab; "what appeals to Charley is the prospect of having some assured income, no matter how small, good food regularly, and a clean place in which to sleep."

Charley finally gets towed in and is sworn in with a group which includes "the starry-eyed Tom."-All dope does that.

Tom, a scion of the "better" classes, "as is to be expected, pays close attention to everything told to him by the drill sergeant, and even studies Infantry Drill Regulations in his off moments." Of course, this makes him just too popular with the rest of his "buddies"-in his "off" moments.

EVEN BUMS CIGARETTES

But Charley, who comes from a "non-typical" poor family, is simply terrible, "talks back to the sergeant," n'everything. He tried "to 'bum a smoke' from a smart-looking gentleman in civilian clothes," who happens to be the regimental

colonel. "" The colonel, incidentally, true to the 'officer and gentleman' tradition, smilingly hands the uninhibited recruit his package of cigarettes and engages him in friendly, casual conversation" until the sergeant comes up to haul the offender into line. We remind our readers this is an Army colonel, not a Boy Scout captain.

SKULKS IN WOODS

Charley goes from bad to worse, and finally tries to desert, while he is "skulking" through a near-bye woods, he encounters a radio detail led by Tom behind a huge pile of heavy lumber. At this point, Fate Knocks on the Door!

A heavy truck is about to back into the log heap behind which are the men of the radio detail. Charley, forgetting self, rushes from the bushes shouting a warning to the men, who spring to safety. But poor Charley is himself

buried under the pile of logs. ROSE BUDS AND SERGEANTS

Getting bumped on the bean by a couple of tons of lumber miraculously turns Charley into a "good soldier." "There follows a scene-the one false note in the film-" of "the hard-boiled sergeant bringing-of all things!-a bouquet of flowers to the blushing Charley." I can't go on, boys! I'm all choked up.)

But while Charley has redeemed himself unofficially, he still must receive his official punishment for attempted desertion. He is brought, as soon as he recovers, before the colonel, "humane and understanding," who explains "in kindly, fatherly" fashion the "proud records of the fine regiment."

Contrite Charley "bucks" up, cries he has been an "utter fool" and takes his punishmentyou guessed it-"like a man." The wind-up scene shows "Tom carrying the National Colors and marching along proudly beside him and carrying the regimental colors, Charley."

WALL STREET THEME SONG

curtains in the Army tents!

The review concludes,"... Throughout the ... film the song... 'Then-Now-Forever,' which was inspired by the Recruiting Publicity Bureau poster, is used as the musical motif (original emphasis, my dear,) always modulated and undertoned to good effect." Nothing to remind us of anything so loud and vulgar as a drill sergeant dressing down a private-or an artillery barrage. Blah! Now there's even talk of putting lace

HORROR ITEM

The War Department's opposition to censor. ship was voiced by Lieutenant Colonel Stanley J. Grogan of the general staff press section who said that military officials "believed the press would cooperate voluntarily with authorities in such a way as to make censorship unnecessary." Yep, you cannot hope to bribe or twist, thank God, our noble journalist; but seeing what he'll do unbribed, why, there's seldom an occasion to.

Henry A. Wallace, speaking at San Francisco, said Latin America never before had so much faith in the United States.

FIGHT WITH THE SOCIALIST WORKERS PARTY

ON THE WAR FRONT:

For:

- 1. Military training of workers, financed by the government, under control of the trade unions.
- 2. The establishment of special officers' training camps, financed by the government and controlled by the trade unions, to train workers to become
- 3. Confiscation of all war profits-all company books to be open for trade union inspection.
- 4. Expropriation of all war industries and their operation under workers' control.
- 5. Trade union wages for all workers drafted into the army.
- 6. Full equality for Negroes in the armed forces-Down with Jim Crowism.
- 7. An end to secret diplomacy.
- 8. A people's referendum on any and all wars.

AT HOME:

For:

- 1. A job and decent living for every worker.
- 2. Thirty-thirty—\$30 weekly minimum wage—30 hour weekly maximum for for all workers on all jobs.
- 3. \$30 weekly old age and disability pension.
- 4. Full social, political and economic equality for the Negro people.
- 5. Workers Defense Guards against vigilante and fascist attacks.
- 6. A twenty-billion dollar Federal public works and housing program to provide jobs for the unemployed.
- 7. Expropriate the Sixty Families.
- An Independent Labor Party based on the Trade Unions.
- 9. A Worker's and Farmer's Govern-

Encouraging Vote

One of the most encouraging indications of national trend in the election was the vote cast in Minnesota for Grace Carlson.

She ran on the ballot as the representative of the "Trotskyist Anti-War Party" and her program. was a clear cut revolutionary socialist program.

In the Twin Cities where the campaign was centered she received 2,782 votes, topping all the other left wing parties.

In the state as a whole she received 5,743 votes, only 203 votes less than that received by Thomas-Krueger running on a pacifist program.

The 3,000 votes in the outlying districts despite the fact Carlson could not campaign there due to limited funds indicates that the poor farmers are ready to lock arms with the workers in a revolutionary solution to the capitalist crisis and war.

What this vote proves beyond all doubt is that the national political situation is ripe for the organization of an independent labor party.

With the slogan PUT A WORKERS AND FARMERS GOVERNMENT IN WASHING-TON, such a party could dominate the political

Professor Spills Beans

The ruling class attempts to utelize every institution in the nation as a means for maintaining its rule. In the army it organizes a caste of officers to command the armed forces and so control the military power of the nation for its own ends as a class.

The ruling class attempts to utilize every inthe capitalist will through a staff of trained seals who applaud the existing regime, cover up all its sores, and who oppose the very idea of the workers controlling anything.

The ruling class likewise perverts the educational system, staffing it with professors who fill the minds of the youth with lies and misrepresentations about the nature of the capitalist system.

Naturally the capitalists and their defenders

deny all this or cover it up. But occasionally they make a slip and the reality is exposed.

Thus the press reports Dr. Dixon Ryan Fox, president of Union College, of having declared on

"If capitalism, even under strain, leaves education in the lurch, it loses one of its credits and increases its own danger. The threat for the rich is that the whole edifice of capitalism may be destroyed...through lack of respect for the works of capitalism. Strain or no strain, capitalism is not at present giving enough to sustain that respect, so far as this one criterion is con-

The rulers who sit in Wall Street understand better than this university president that in the coming period it is not a question from their point of view of simply teaching "respect" for capitalism, but of going beyond that and teaching the masses how to fight for capitalism. The important school now is the military training camp.

Just as we oppose the bourgeois perversion of education in the schools in peacetime, so we oppose the bourgeois perversion of military education in time of war.

Just as we are for the workers obtaining a Marxist education and eventually converting the educational system into an instrument that will correspond to the interests of the working class instead of the bourgeoisie, so we are for the workers not only gaining a military education but of themselves controlling that military education; hence our slogan:

FOR TRADE UNION CONTROL OF MILI-TARY TRAINING!

SHORT SHORT STORY: H. G. Wells called the British army, in a pamphlet now being distributed, an organization of "yessirs led by Hawhaws." Which is another reason why the army should be under the control of the trade unions.

Moscow Celebrates

In the early days of the Third International, the diplomats sent abroad to represent the Soviet Union acted as centers for the dissemination of revolutionary propaganda and as the connection between the Soviet Union and the working class throughout the rest of the world.

Contrast this with the present function of the Moscow diplômatic representatives!

On November 7, at the Soviet Embassy in Washington, Ambassador Constantine A. Oumansky held a celebration of the anniversary of the Russian Revolution of 1917.

Among those who came to celebrate the October revolution together with Stalin's diplomatic flunkey were Jesse Jones, Secretary of Commerce and Federal Loan Administrator; Sumner Welles, Under-Secretary of State, Joseph E Davis, special assistant to the Secretary of State, Henry F. Grady, Assistant Secretary of State, and the chiefs of many divisions in the State Department.

Delegations were also present from the capitalist governments of Great Britain, Germany, Japan, China, and Finland.

The festive occasion was in marked contrast to previous celebrations, the press reported. It is well-known that Oumansky, an old GPU

agent, is the connecting link between Stalin and all GPU activities in North America. It is absolutely certain that Oumansky was in charge of organizing the assassination of Trotsky.

The representatives of the bourgeoisie could well congratulate Oumansky and Stalin on this anniversary of the October revolution.

They raised their glasses not to the worker's state and to extension of the workers' revolution, but to a pick-axe dripping with blood.

REMEMBER WHEN THEY SAID THIS?

"German fascism is the instigator of the most raging capitalist reaction, of bloody oppression of the workers, the toiling peasants, the national minorities and the entire German people... To concentrate our battle fire against German faseism, as the principal instigator of war and the mortal enemy of the Soviet Union and the proletarian revolution, is the duty of every revolutionary." (Ercoli, at the Seventh Congress of the Communist International, quoted in The Fight for Peace, Workers Library Publishers, 1935,

With Bombs

November 11, 1940, the 22nd Anniversary of the signing of the Armistice which ended the "War to End All Wars," was marked by extensive celebrations throughout the world.

Germany, which formerly failed to observe Armistice Day in the manner of the Allied nations, celebrated the occasion for the first time with a simple but impressive ceremony, which included the dropping of several hundred tons of high explosives on London.

Great Britain, with its traditional flair for pomp and ceremony, honored the day with the shooting down of 25 Axis planes and fraternal greetings delivered in Berlin by a fleet of bombers.

French and Belgian officials, in a moving gesture of peace toward their former foes, drank a good-will toast in Munich beer. The French and Belgian people maintained a solemn 24-hour silence, an extension of the two-minute ceremonial silence of previous years.

In the United States, an inspiring ceremony was conducted before the tomb of the Unknown Soldier, which included a stirring address by President Roosevelt, broadcast over a coast-tocoast hook-up to the millions of America's future Unknown Soldiers.

Roosevelt and Wall St.

Roosevelt Planned War Program From First Term On; **Economic Crisis Forces Move To Aid Big Business**

By ART PREIS

The "New Deal" was indeed short-lived. As early as June 1935 Roosevelt had declared, "All the basic innovations of the New Deal are completed." Business appeasement became the key-note of his 1936 campaign.

Relief appropriations began to be tapered off. The Federal Emergency Relief Administration was then liquidated at the initiation of Roosevelt. From June 1935-November 1935, six million jobless families faced outright starvation What F.D.R. saved in this period was partially added to the 1936 WPA appropriation for use just prior to the 1936 election campaign.

But from the very start of his Presidential career, Roosevelt held an "ace in the hole." Starting gan to sky-rocket. Each year war appropriations.

It must be remembered that term" policy taking precedence over all divisive domestic issues.

These appropriations were the capitalism would dispute with breeds war. armed might for control of the world markets and resources.

Roosevelt intensified his war drive with his famous "Quarantine the Aggressors" speech in Chicago, October, 1937. It was timed for the precipitate business collapse following a flash-in-thepan "boom," which had reached its peak in August; 1937.

It was at this point that Roos evelt openly abandoned the meth ods of priming the pump from the bottom, to greasing it at the top. Roosevelt began in earnest to give direct "relief" to the capital or heavy goods industries, steel auto, railroads, etc. The augmented arms program was intended, in part, to provide im mediate profits to the capital goods industries, whose continued depression charted the chronic fever of American and world cap

But beyond this was an impelling drive toward imperialist war, the inevitable outgrowth of capitalism itself.

By the beginning of Roosevelt's second term, it became transpar-New Deal "reforms" could never cure the deadly ills of American economy. At the peak of the Roosevelt business "boom" in 1937, a national census had revealed 11,000,000 unemployed as living symptoms of the chronic capital-

ist disease. For the inability of American capitalism, despite all internal measures, to unload huge unmar ketable surpluses on the domestic market drives it to seek markets abroad. And this task is hampered by the equally stale-mated capitalist nations everywhere.

The collapse of the internal economies of every capitalist nation in the world has meant an intensified fight over exploiting foreign holdings, over defending these holdings from competitors and expanding into new areas.

American and British capitalism arrived first on the imperialist "ground floor," The "late" nations, like Germany and Japan. must "hi-jack" their way in. Thus two sets of gangsters fight for the right to thrust "protection" on he masses.

World capitalism, of which the American sector is the most highly developed, struggles wildly in a straight-jacket of contradictions. The re-arming of German capitalism was done with the aid and consent of British and American imperialism, an off-set to French control on the European continent. links with German. Even while their opposing troops slaughtered France.

General Motors, whose chief ex- tells them in effect. werks Poelitz, which supplies syn- wall. thetic fuel for the German war tanks and planes.

While aiding German production, labor to the earth.

American markets. German methods of direct barter of manufac tured surpluses for raw materials are violently denounced. With the aid of the British blockade South America is deprived of the

German and European market. Corn piles up in Argentina Chilean nitrate exports shrink Brazil sadly contemplates 6 mil lion bags of unmarketable coffee. The U.S. cannot absorb these products. No wonder one Chile an delegate at the Pan-American conference, considering Roosevelt's plea for unification of the Western Hemisphere countries against the menace of Nazi dictatorship, declared, "Freedom is no satisfaction if you cannot sell your crops.'

Now the Roosevelt administra tion offers \$500,000,000 through with 1933, war appropriations be the Export-Import Bank to buy up Latin American surpluses, thus thereafter the arms budget was indirectly financing U. S. exports accelerated; and each succeeding This is likewise one of the ways appropriation was termed "the in which the "cash and carry" greatest in America's peace-time clause of the Neutrality Act can history." By 1939, the Roosevelt be evaded; America lends the administration extracted from the cash to Argentina, for instance, masses over 10 billion dollars in which buys up war materials to re-sell to Great Britain.

War will come, with or without any directly hostile act, either of of Wall Street, September 7, made this fact crystal clear, declaring:

"We will not (at least for several months) consider joining the war 'unless the war comes to us'. Germany has been scrupulously careful to avoid any incident which would give us an excuse to declare war, but we have done many things which a victorious Germany could well hold against us for aiding and abetting her enemy. Administration spokesmen have made it clear that there is no doubt that if England is defeated the war will come to us, AND NOT NECESSARILY THROUGH ANY OVERT ACT OF GERMANY (our emphas-

The Magazine of Wall Street never kids its own ruling-class

(Continued from Page 1) of "democratic" rights-for them-

What still divides Roosevelt and his opponents in the same capitalist camp is to a great degree their differences on the tactics which will most effectively achieve this type of labor "unity." Roosevelt still holds for methods of "persuasion," that is winning labor to sacrifice itself voluntarily to the war aims of the bosses. Willkie and the sector of the capitalists he represents want to cut out the "kidding around" and settle the matter with one blow

of a well-directed club. In addition, the Willkie gang does not intend to forfeit its divigions of the spoils. As "His Majesty's Loyal Opposition" they figure to put enough heat on Roosevelt on domestic issues to extract all the take possible. At the same time, the results of the election have demonstrated that the Willkie backing is a solid wall of the most reactionary elements which will be re-enforced in the next four years in readiness for a real grab.

NATIONAL UNITY A FICTION

Roosevelt in his turn, is em ploying the "National Unity" French capital has had a thousand drive to split the Willkie camp or immobilize it with a sort of black-mail threat. If you impede each other, French steel flowed the war drive, if you reject "uninto Germany; German coal, into ity," I will blast you as saboteurs of "national defense," Roosevelt

ecutive, William S. Knudsen, To a certain degree, Roosevelt's heads the National Defense Com- strategy will succeed-at least mission, owns the huge Adam auto with a certain section of Republiplants in Germany. In 1933, these cans. Such Republican big-wigs plants produced 36,000 autos. In as Knox, Landon and their crowd, 1938, they produced 140,000 units, who are willing to make the most plus tremendous equipment for of Roosevelt's commanding posithe Nazi war machine. Standard tion, have already signified their Oil is half-owner of the Hydrier- intention of crawling over the

But the fiction of "national un-American policy toward South when the Willkie group gets an fire-side way of telling Wall Street, America, of which Roosevelt has opening to cut into the war spoils, "Don't shove, boys! You don't been a chief exponent, likewise and when the increasing burdens need more than your snout in the reflects this fantastic pattern, of the coming war begin to crush trough!"

American capital fights against the lie manufacturing over to the German penetration into Latin daily press, which is read by the workers.

Indeed, peace would be a maor catastrophe for Wall Street While Willkie, the Wall Street mouthpiece, was attempting to de magogically corral anti-war senti ment, the Magazine of Wall Street September 7, was stating:

"There is not the slightest doubt that the American armament program will eventually produce an industrial boom the like of which we have never known before—PROVIDED WHOLLY UNEXPECTED WAR DEVELOPMENTS DO NOT PERMIT US TO SCALE DOWN THE EXPENDITURES NOW CONTEMPLATED (our emphasis)."

The article adds:

"For years we have been speculating about some major new industry that would be capable of stimulating the economy ... This is it."

And how! And it's the chief reason why majority of Wall velt's re-election with tongues in cheek

Stetinius, U. S. Steel president and Roosevelt appointee to the Like a squirrel in a revolving National Defense Commission isn't too broken up over U. S ent in the first half of 1940 over

Knudsen can sleep easy know ing the Du Ponts won't starve on the \$113,575,460 net profits Gen eral Motors cleared for the first 13 percent over the mere \$100, nonths of 1939.

And John Biggers, president of the Libby-Owens-Ford glass mono-Germany or Japan. The Magazine poly, can't complain too loudly because his patriotic sacrifices on the NDAC promise to net his corporation a 1940 profit increase of 5 percent.

Wall Street calmly re-assured ts following during the fake pluster by Roosevelt about "tak ing the profits out of war." As early as August, Forbes, an au thoritative big business monthly declared, "What are new Federal taxes going to do to business pro fits? What happened during our last great re-arming period provides one clue. As the chart shows, Federal taxes took a big slice of corporate net income: but war orders so increased net income before taxes that the profits remaining after taxes had been paid were substantial."

Substantial indeed! For the accompanying chart reveals that net subscribers. Wall Street turns corporate profits for the four years preceding the last war averaged 3.8 billion dollars yearly; for the war years, 1916-1919, net profits were 6.9 billion dollars yearly, with a 1917 peak of 8.6 billion dollars.

> When the Excess Profits bill was finally passed and signed by Roosevelt, it provided such a brazen guarantee of unlimited war profits, that even the expectant Wall Street magnates gasped!

And when the Russell-Overton Amendment, which permits the government to "take over" plants at a "fair rental" if the owner refuses "emergency" war orders, was attached to the Conscription bill-eliciting the cry of "state socialism" from Willkie-, Bar rons, Wall Street financial weekly September 2, candidly admitted:

"It should be added that there is no sign of any intention on the part of anyone to misuse the power (to take over non-cooperative businesses). SO LONG AS KNUDSEN, BIG-GERS AND CO. ARE IN CON-TROL, THERE WON'T BE. (our emphasis)."

And they are in control, despite the efforts of Sidney Hillman, and the rest of the pro-Roosevelt labor stooges, to convince the workers differently.

National Business magazine, in September, at the time when many corporations were refusing defense orders to bring pressure for a favorable Excess-Profits bill, reported:

"The Defense Commission is defending business against. charges of a capital strike, putting profits before patriotism, etc ... AND SO FAR IT HAS BEEN SUPPORTED IN THIS BY PRESIDENT ROOSE-VELT. CONTRARY TO EX-PECTATIONS, THE NEW DEAL REFORM ELEMENT HAS BEEN KEPT COM-PLETELY OUT OF THE DE-FENSE PICTURE."

Yes, Roosevelt in the saddle in Washington is riding for Wall Street. When, in the name of "National Unity," he placed Henry L. Stimson and Frank Knox, two big-business Republicans, at the head of the War and Navy ity" will be exposed soon enough Departments, this was Roosevetl's

Go Forward

Prediction of Trotsky A Triumph Of Marxist Analysis

By JOSEPH HANSEN

Fourteen months ago, upon the invasion of Poland from the west by Hitler and from the east by the Red Army, the social democrats and those clinging to their coat tails were thrown into complete confusion by the complex events. With the disappearance of the Polish bourgeois government and the advance of Soviet troops, they were utterly incapable of foreseeing what might be expected to occur in the eastern occupied territories.

Among our own ranks certain elements raised the question of changing our slogan of unconditional defense of the Soviet Union because of the Red Army invasion of Poland.

LEON TROTSKY'S ANALYSIS

Leon Trotsky analyzed the Polish events on September 25, 1939, in an article "The USSR in War" in the following lucid words:

"It is more likely, however, that in the territories scheduled to become a part of the USSR, the Moscow government will carry through the expropriation of the large land owners and statification of the means of production. This variant is most probable not because the bureaucracy remains true to the socialist program but because it is neither desirous nor capable. of sharing the power, and the privileges the latter entails, with the old ruling classes in the occupied territories. Here an analogy literally offers itself. The first Bonaparte halted the revolution by means of military dictatorship. However, when the French troops invaded Poland, Napoleon signed a decree: 'Serfdom is abolished.' This measure was dictated not by Napoleon's sympathies for the peasants, nor by democratic principles but rather by the fact that the Bonapartist dictatorship based itself not on feudal but on bourgeois property relations. Inasmuch as Stalin's Bonapartist dictatorship bases itself not on private but on state property, the invasion of Poland by the Red Army should, in the nature of the case, result in the abolition of private capitalist property, so as thus to bring the regime of the occupied territories into accord with the regime of the USSR."

Trotsky in his next paragraph explains that this change in property relations could not however cause us to favor the invasion of Poland by the Red Army, since it would be "achieved in military-bureaucratic fashion" and hence lower the capacity of the proletariat to defend the old conquests and to make new ones through socialist revolution.

Trotsky's conclusion was that class-conscious workers should condemn the invasion of Poland by the Red Army but continue their unconditional defense of the Soviet Union including the new territorial

Trotsky saw the invasion as providing a remarkable demonstration of the analysis of the Fourth International that the Soviet Union is still a workers' state but suffering from bureaucratic deformations. He concluded that there was nothing "new in the situation" which should cause us to change our position of unconditional defense of the Soviet Union.

"IMPERIALIST OR QUASI-IMPERIALIST"

This analysis by Trotsky drew derision from all sides especially among those under the influence of the bourgeois war pressure. They declared that the invasion of Poland proved that there "was something entirely new in the situation," and that the Soviet

perialist territorial gains. James Burnham, for example, declared that the policy of the Soviet state had become "imperialist or quasi-imperialist." Max Shachtman declared in a resolution dated September 28, 1939, that "Stalin and the Red Army thus played a flatly counter-revolutionary role in Poland. The bitter realities of the recent events, most particularly of the events in Poland, dictate a revision of our previous concept of the 'un-

conditional defense of the Soviet Union." Now it is possible to ascertain just who was right and who wrong in their analysis of the events in Poland-not that we expect either Burnham or Shachtman to acknowledge themselves wrong! In an article in the press, Ludwig Lore reports

that private capitalist property has been entirely abolished in the occupied territories of Poland. "The nationalization of big industrial enterprises

and banks ... was the first," he states. Then came other important financial institutions. "The small and middle-sized industries were a difficult matter," he continues. "No immediate nationalization was attempted. The owners remained in pos-

session of their enterprises and were merely ordered to submit statements to the workers' delegates regarding the cost of production, wages paid, hours employed and working conditions generally. For every branch of industry and again for the individual concerns, councils consisting of representatives of the employees and the employers were established, which jointly fixed a 'just rate of profit' and supervised working and wage conditions. "However that was a transitory situation. After

seven months complete state ownership was established. According to a government statement, the dual regime of employers and employees control over production was 'ineffective and working to the disadvantage of state and industry,' wherefore abolition of private ownership in small and medium industries was decreed.

"A similar situation was created in the trades. Wholesalers and retailers were given a period of grace in which to wind up their enterprises and to sell out their old stocks. After that the Soviet state trusts refused to sell them supplies and private trade died."

Already the Stalinist bureaucracy has purged the local organizations in the occupied territories of any elements who might prove anti-Stalinist. This was likewise predicted by Trotsky, when he warned that the workers of Poland must organize resistance against the crushing totalitarian hand of Moscow.

With nothing but the meager details furnished by the bourgeois press dealing mainly with the bare fact of the invasion by the Red Army, Trotsky was able from his analysis of the Soviet Union as a workers' state with bureaucratic deformations to predict with absolute accuracy the course which history actually took. A remarkable triumph of Marxian analysis!
