GRACE CARLSON IN BOSTON

Grace Carlson, Trotskyist candidate for U.S. Senator from Minnesota in the last election, arrives in Boston this week-end on her national lecture tour. The two meetings arranged for her in Boston

SUNDAY, Jan. 19, 8 p.m., at the Workers Center, 158 Broadway. Subject: "South America".

MONDAY, Jan. 20, 8 p.m. at the Aurora Club, 42 Maverick Square, East Boston. Subject: "The Right to Life", a graphic picture of the actual conditions under which the American people live, and how their living conditions can be transformed by a Workers' Government.

(Complete schedule of Carlson tour appears on page 2.)

CIO Executive Board Adopts Bankers Give It 6-Point "Plan" For Draftees Their Blessing

Accepts Principle That Unions Are Duty-Bound to Protect Rights of Worker-Soldiers; But Program Is Too Vague

A "six-point plan to insure democratic spirit in the army" was adopted by the CIO executive board at its two-day session in Washington last week-end.

This "plan" is practically a the November convention of the ment of the American army. CIO at Atlantic City. The repetition of it by the CIO board now, in the form of a "new" six-point program, indicates there must be a strong demand from the ranks for a union program to protect the rights of the workers drafted into the army.

Unfortunately, however, the CIO "plan" deals very little with workers' rights within the army. It is primarily concerned with requesting an "active voice" for labor on the draft boards, guarantee of re-employment when the men return from the army, protection of their families against lapsing of life insurance policies, foreclosures, etc.

The only points that deal at all with conditions within the army are the following

"4. Living conditions for conscripted men that will improve their health and well-

"5. Administration of the training period in accord with democratic practice." (CIO News, Jan. 13)

cipline," the CIO statement says, of the worker-soldiers, just as in explanation of these points, the most progressive unions did

"has no place in a citizen army. "The encouragement of initiative and self-reliance with full word-for-word repetition of the opportunity for advancement resolution (No. R-24) adopted by from the ranks is a first require-

> "Conscripted men should be guaranteed both in selection and training against discrimination because of race, creed, nationality or any other reason. The civil rights of conscripted men, such as the right to vote, must be protected. Communication with families and unions must not be interfered with."

The extreme vagueness of this language is very striking. When the CIO board wants to make "full opportunity for advanceclear what it is talking about, it can do so very easily.

the words: "Communication with to change that. .. unions must not be interfered with." Does that mean, as it should, that the unions are prepared to defend the interests of the unions propose to set up ways and means whereby they will members in the army and rep-That the unions will set up spe- training.

"Harsh and authoritarian dis-| cial machinery for the grievances for their unemployed members?

That's what the CIO program should mean.

It is true, as the CIO board says, that "harsh and authoritarian discipline has no place in a citizen army." But the plain fact is. as everybody knows, that the Street. discipline of the U.S. Army, like that of all capitalist armies, is harsh and authoritarian. What does the CIO board propose to do to remedy that? Its "program' does not say.

The officer caste is hand-picked from the capitalist class. Hardly a single worker-soldier ever rises to a commissioned officer. The ment from the ranks" proposed by the CIO does not exist; and What, for example, is meant by the CIO board makes no proposal

In short, the CIO board, while admitting in principle its responsibility to launch a program their members in the army? That on behalf of the worker-soldiers,

The struggle to defend the keep directly in touch with their rights of the workers in uniform once it is taken seriously, will resent them in their grievances lead thinking workers to demand against the reactionary officers? trade union control of military

Bill Is Confession That Imperialists Whether "Democratic" or Fascist, Now All Wage War By Totalitarian Methods

Roosevelt's "Lease-Lend" Bill-its correct title should be War Powers Bill—is certain to be adopted with all its essential

That was made plain when the bill was endorsed by Wendell Willkie on behalf of the Republican high command, and by Winthrop W. Aldrich, chairman of the great Chase National Bank, undoubtedly speaking for the dominant section of Wall

The silence of the AFL and CIO leadership, during the first crucial days after the bill was introduced, indicated that, whatever perfunctory opposition they might offer later to one or

another section of the bill, they were in reality already commitand Mussolinis will likewise ted to accepting it.

They were accepting a personal military dictatorship of the United States. The War Powers Bill creates that. It vests in the president all the main powers hitherto given by constitution and custom to Congress. The process of concentration of power in the presidency, which has been going on since the crisis began in 1929, is climaxed by this measure.

Congress' power over the purse was specifically established in the constitution in order to provide a civil check and control over the military arm of the government, of which the president is commander-in-chief. This bill empowering the president not only to transfer the whole or any part of the Navy or Army equipment to other countries, but also empowering him to draw from the Treasury "such amounts as may be necessary," wipes out Congressional control of the purse. Thus all financial and military powers are fused in th hands of a single omnipotent in-

The motivation for this personal military dictatorship is plain enough. It is an obvious fact that Congress is always more amenable to popular pressure than is a president. By abdicating its powers, Congress will protect the war plans of the president against future changes in the outlook of the people.

By constitutional provision, t protect the people against a war making president, Congress alone has the power to declare war This provision has, of course This provision has, of course been violated more than once. Bu' the present bill simply wipes out that constitutional provision.

END OF "DEMOCRACY" The demand of Roosevelt for

such powers constitutes a confession that "democracy" goes by the board in this epoch of worldwide collisions between the great capitalist powers. Modern imperialist war can be waged only by totalitarian methods on either the "democratic" or the fascist

There are, of course, plenty of fat-headed liberals and "labor" leaders who are prepared to give us their personal guaranteebacked up by nothing-that after the war is over, the country will go back to being a "real" democracy. "It may be a paradox," they say, "but dictatorship is necessary now in order to have democracy later."

Yet these are the very same people who accuse us of mysticsm when we say that a dictatorship of the proletariat is the only road to REAL democracy. They ran't see how a Worker's Government will establish genuine democracy, but they can see how Wall Street dictatorship will voluntarily make way for democracy. And these people call them-

selves realists! Coming events contain many grounds that they are "sabotagunpleasant surprises for these ing national defense," these milipeople. They will see Roosevelt | tant workers are holding firm. employing his dictatorial powers The Indiana Harbor SWOC local to back the British Tories against of the Youngstown Sheet and the demand of the majority of Tube Company, representing the English people for a Labor some 6,000 workers in the plant, Government. Churchill will rule is supporting the chipping de-England thanks only to Roose- partment and is preparing to call velt's threat of withdrawal of a general plant strike if neces-

arms supplies from England. The Latin-American Hitlers come to terms.

Fortunately for the future of the human race, the mere conferring of these powers on the president by Congress does not guarantee him the strength to exercise these powers. Legal powers of this or any other kind are only formal and not real, unless the workers permit the

exercise of such powers in-

definitely.

maintain themselves in power

against the masses, thanks only

to their Good Neighbor's gener-

ous donations of arms and war-

REAL LIMIT OF POWERS

The struggle against this concentration of power in the president can henceforth only mean a struggle for the concentration of power and control in the hands of the workers' organizations. The first stages of that struggle are clear enough. In civil life and industry: keep the hands of the bosses and their government off unions real fighting organizations. In the armed forces, likewise, the workers' organizations must fight for the rights of the worker-soldiers. Trade union control of military training is the way to get those rights.

We are many, they are few. They can pass the laws. We run the machines and bear the arms. All that is needed is that the workers grasp this simple fact.

EAST CHICAGO **OUT ON STRIKE**

EAST CHICAGO, Ind.—One hundred and fifty chippers of the Indiana Harbor, Ind., plant of the Youngstown Sheet and Tube Company went on strike this week. After weeks of fruitless negotiating with the company, these chippers—all members of the Steel Workers Organizing Committee (CIO)-working under the most difficult physical conditions, were forced to strike when the management refused to grant their demands.

The chippers are asking for a dollar a day increase in wages in order to be able to meet the ever-increasing cost of living which is especially high in this area. Despite its tremendous profits gained from lucrative "derense" orders, the company pays these men wages which are far lower than those paid by other steel corporations for similar work.

In spite of the fact that both the company and the boss press are using the war hysteria to attempt to raise public opinion against the strikers on the sary to force the company to

A Laborer On the New Army Camps Tells His Story

tion in the construction of traingering to the imagination.

At Ellington Field, Palacios, Corpus Christi, Galveston, Hitchcock and other places the working people are building their own future concentration camps. This expression is not a personal one. It is in daily use at the fields plod ankle, knee and even, some-Texas ooze. It is an expression that characterizes not a deep pride in the product of their handiwork, but a shame, a hatred, and a rebelliousness.

the average common laborer is ate! Phew! "The union stinks but . . . (and These are the training camps,

their wages would be even lower lief. Of course, I am only a than they are. A "button-man" is a proud man, and the envy of his neighbors. The few seeds being planted in this field will one day bring rich harvests, you can

The common laborers hate their eckers, they hate their foremen they hate their supervisors, and their hatred is particular for the contractor. But most of all they hate army shavetails and officers in civvies who even today prowl about the grounds with a "tomorrow I'm gonna gitcha and really make you work you sunnab!" expression in their eyes.

And by the way, don't let the kept press fool you about bigtime proletarian patriotism. The nearest approach to it is a hopeless acceptance of the inevitable, but a rebellious acceptance none the less. Its most distant pole is the desire of some of the workers I have heard to install polecat nests under the officers' quarters. I say "polecat" deliberately. Use your imagination.

Working conditions for us are terrific. Even button-men with the

The Record of the War Labor Board of 1918

By MICHAEL CORT

Immediately upon its inception in February 1918 the National War Labor Board enunciated "A Declaration of Principles." The best way to analyze the Board's work is to quote the principles and then show how they were applied.

the vast majority of commercial Principle No. 1.—"There shall be no strikes or vessels. In the Naval Reserve collockouts." There were plenty of lockouts during the war period but the Board only took cognizance Wages have been raised by the unions to a tolerable point; in the of the strikes. There is no record of the Board Naval Reserve the scab standards ever having disciplined a boss for locking out persist. On union ships overtime his men. There are plenty of cases where the pay is religeously adhered to; in Board cracked down on the workers for striking.

The first step taken in this direction was the enactment of a rule that provided that once workers in any plant had struck, their case was "outlaw" and could not be heard before the Board. Thereupon, all agencies of the government would mobilize bourgeois public opinion against the workers; if this failed to break the strike, troops were used. If the workers struck after the Board had made a decision, then the case was turned over to the executive branch of the government and the workers involved were barred from all war time employment, which meant 90% of Amer-

The workers at the New Jersey plant of the Wesson Oil Company revolted in the summer of ' 1918 against working conditions that the Board Board declared the case "outlaw," and handed the case over to President Wilson. The President threatened, not only to bar the workers from 'any war time industry throughout the country," but also threatened to send them into the front line trenches. AFL President Gompers joined in

The National Run-Around

Principle No. 2 .- "Labor has the right to organize and bargain collectively.". The workers in the New England plant of the Madison-Kipp Lubricator Company in 1918 were working 12 hours per day on piece work. However fast they worked, their piece work earnings were always computed in such a manner as to keep their wages at a fraction over 28 cents per hour. Upon announcement by the NWLB that employes were guaranteed the right to collective bargaining, the workers organized and demanded their rights. The boss not only refused to lower hours and raise wages, but he completely refused to bargain collectively. Immediately an appeal was filed

After some months a traveling-examiner showed up to hear the case. Conditions were so bad that the examiner was forced to find for the workers, but the boss ignored his decision. Faced with an unyielding boss, the workers appealed the case to the Board itself. After several more months the Board affirmed the right of the workers to bargain collectively, instructed them to again elect a shop committee, and again wait upon the boss for a discussion of their grievances. The boss was admonished to meet with the committee this time. The boss refused to meet the workers this time too, and they again appealed to the Board. Before the Board got around to consider their appeal, the war ended and the Board was dissolved.

226 Board decisions were concerned with the right of collective bargaining and the majority of the case histories parallel the one just cited. Principle No. 3. "Where union and non-union

men and women work side by side the continuance of such conditions shall not be deemed a grievance." This prohibited the closed shop and thereby robbed the workers of the backbone of any genuine collective bargaining system.

Perpetuating Coolie Wages

Principle No. 4, "In fixing wages, hours, and conditions of labor, regard should always be had for conditions prevailing in localities affected." Through this paragraph the Board justified wage differences between the South and the North, beween the organized and the unorganized workers. The Board was dedicated to the status quo, not

This demand came from labor so frequently and to their jobs, with back pay not fused to pass our picket line." insistently that the Board made a brave announce- to exceed \$11,000. The January ment that it would set up such wage scales for the defense industries. The howl of the bosses several articles pro and con relasoon changed the Board's attitude however, and after wrestling with the problem for five months. it announced, " . . . that for the present the Board or its sections should consider and decide each case involving the principle (living wage) on its particular facts and reserve any definite rule or red-baiting resolution. decision until its judgments have been sufficiently clear to make generalizations safe." This statement of policy was approved by the Board

When the Board announced its abandonment of any minimum wage scale, Compers was bitterly attacked by the more militant locals of the AFL. His reply was, "In the midst of a war there can be no discussion among those who have guns trained upon them . . . therefore, let us defer questions which can be deferred, questions that are likely to divide us in this war."

Workers were usually awarded about the same wages they were receiving when they filed an appeal. In October 1918 the Board gave a basic hourly wage of 36 cents to the street-car conductors in Memphis, Tenn.. One month later it awarded a basic wage of 61 cents to conductors in Butte, Mont. That is, the unorganized southern workers received about what they were already getting before coming to the Board; the workers in highly organized Butte were in a position to force a

Trouble With Bethlehem Steel

There were cases where conditions demanded a change in wage scales and the Board was unable to dodge the responsibility. Such a case was Bethlehem Steel. The Board instructed Bethlehem to raise wages of all common labor and certain categories of skilled labor. Bethlehem took advantage of the red tape surrounding the Board's dreaming and just walked around a mass party. (Get the snow out procedure and stalled on compliance with the in a daze. order until after the armistice, then it discharged the workers involved. The Board took the only attitude it could, that Bethlehem owed the discharged workers back pay: the difference between their wage and the one granted by the Board. Bethlehem countered this by claiming that it didn't know the addresses of its workers and could not notify them by mail of the money due them. Furthermore, Bethlehem said, most of the workers were foreigners and wouldn't be able to read a letter of notification if they got one. Before this dispute was settled the Board was disolved by its own vote and the entire case passed

Wage Raises—With a Catch

The Board did get compliance with wage in crease orders from some of the bosses, but this was usually accomplished through a "deal." For instance: many of the Board's hearings were devoted | hind a seemingly impressive to the conditions existing in the various streetrailway systems throughout the country. The records reveal that wherever the Board awarded an increase in wages to the workers, an accompanying petition from the Board was submitted to the municipality, asking a change in the laws fix ing the rate of fare. The Board's petitions always explained the hardship imposed upon the boss by the increased wage order and called on the city officials to grant the boss the right to raise fares and pass the cost on to the worker-consumer.

This, then, is how the Board's five principles were applied to prevent strikes and keep the workers shackled to the machines throughout the war. All the decisions quoted were by unanimous

And what happened in the 82 cases where at least one "representative" of labor rebelled? The machinery was this: an unmpire was chosen by the Board, and his decision was binding upon all parties. If the Board was unable to agree unanimously upon an umpire, then one was chosen by lot from a panel of ten nominated by President Wilson. Thus the final arbiter was always the boss and labor's representatives could do nothing but maintain the farce of national unity by voting "Ja." Oh yes, the name that led all others on the panel of ten umpires was that of Henry Ford. with February 1st issue we ex-

There arose, however, considerable demand for the formulation of a minimum wage scale.

Negro Struggle

By ALBERT PARKER

The aircraft workers at Vultee (organized into Local 683 of the United Auto Workers Union, CIO) deserve double thanks from the workers of

First of all they struck a blow which showed that it is not only desirable but possible to win higher wages and better working conditions in the war industries, even under a heavy barrage of attacks from the employers, their stooges and the government.

Secondly, they have taken another action which will be greeted with enthusiasm by the workers, especially those Negro workers who are almost 100% barred from many important industries such as aircraft.

Here is how it happened. At the dance celebrating the victorious strike, two Negro members were asked to leave by people acting as floor managers and making the request on their own initiative.

When the members of the union learned about it, there was a discussion of this action on the floor of a regular local meeting, resulting in the adoption of the following resolution:

"WHEREAS: At a public dance given by the Vultee unit of Local 683, two Negro union brothers and their guests were asked to leave,

WHEREAS: This action is in direct contradiction to the national CIO policy of no discrimination because of race, color, creed, nationality or political affiliation, and

WHEREAS: The success of our drive to organize the aircraft industry depends upon the broadest possible public support, and

WHEREAS: The Negro people, who helped on our picket line with donations of food and money in our recent successful strike, are part of that public, and

WHEREAS: We recognize that discrimination of any kind is the weapon used by the employer and his organizations to split and divide This in our struggle for a higher standard of liv-

RESOLVED: That we apologize to the Negro + people for this action, and that we give our complete assurance that this action will not be repeated, and be it further

RESOLVED: That this Local 683 of the United Auto Workers, CIO, do all in its power to break down the anti-labor, racial discrimination policy in the aircraft and national defense industries, recognizing that our national defense must rest on the maintenance of our democratic principles, foremost among which is the right of every citizen to an opportunity to earn his livelihood without discrimination."

Another instance of gains in the field of labor against racial suspicion and division is to be seen in what happened in another CIO union, Local 486, of the Midland Steel plant in Cleveland.

Here in a union where 90% of the membership are white workers, Joseph Jackson, a Negro and former vice president, has been elected president. As one commentator in the area, Ted Cox, put it:

"They (the members) wanted the best leadership available in the shop. So, when President Mack Cheek resigned, they looked around. They didn't give a damn what color or what religious or political opinions that leadership might have. They wanted ability.

"It happened that Joe Jackson, who is colored, had that ability. So now Joe is president of one of the biggest, most militant and most successful local unions in the Cleveland CIO."

Here, therefore, are two good example of how trade unions, militant and democratically controlled by the rank-and-file, are educating white workers to the necessity for complete equality.

Much Still to be Done

The editorial page of the latest issue of The Chicago Defender features a cartoon by Jay Jackson, entitled "Back Of It All." It shows a factory entitled "National Defense Work," bearing a sign "Help Wanted." In front of it stands a Negro worker in overalls, labelled "Negro Labor," and he is held up, prevented from entering it, by a huge hand extended in front of him, barring his entrance. This hand is labelled "A.F.L."

.The point of the cartoon is quite evidently that Negro labor could get jobs in the war industries if it were not for the AFL, which is "back of it all."

Does such a cartoon help the struggle to open the doors of industry to colored workers? We

Who owns and controls and runs the factories? The unions—or the bosses? To ask the question is to answer it. It is the bosses of course, and it is they and their managers who do the hiring. Who benefits from division of the races, who really profits from it, the unions or the bosses? The bosses, of course, because they can play one race against the other.

Plenty of factories in the war industries are not organized at all. How many of these hire Negroes any more than the factories that are or-

It is incorrect and misleading to say that the main responsibility for discrimination in hiring in the war industries lies at the door of the AFL. To do so serves only to whitewash the role of bosses who are really responsible.

We do not seek in any way to minimize or excuse or cover up the stupid, reactionary and vicious part played by some union leaders in the AFL. We denounce them and we carry on a fight against their harmful policies.

After all, what is "back of it all" even in the case of AFL officials guilty of Jim Crow practices? Isn't it the training they received from the capitalist system? Isn't it the prejudices they inherited from the "respectable" captains of industry whom so many of them try to imitate?

KARL LIEBKNECHT: Revolutionist

The "Democrats" Murdered Him --- And Opened The Road To Hitler

By EUGENE VARLIN

Twenty-two years ago this January 15, the two outstanding were known; but their trial was the Czar would be one of the first proved to the hilt by the present revolutionary leaders of the German working class, Karl Liebknecht and Rosa Luxemburg, were arrested and murdered by the German Tunker officers whom the Social Democratic government had called upon to aid it in crushing the socialist revolution. That horrible deed, connived at by the pro-war "socialists," beheaded the revolution and led to the victory of Nazism. Liehknecht's "Militarism" - his

part of bourgeois militarism. It flows from the need of the capitalists to discipline in their army he working class whose interests are opposed to those of the capitalist class. The power of life and death possessed by the officers further aggravates this situation: the officers tend to use maltreatment instead of persuasion in whipping the men into shape.

THESE CONTRADICTIONS

POINT THE WAY OUT This exposition of Liebknecht's views indicates how he proposed to put an end to bourgeois militarism. Pacifism, disarmament, etc., he viewed as so much nonsense. The fundamental contradiction between the capitalist of ficers and the armed worker-soldiers would inevitably lead to an explosion from within. It was the task of the revolutionary party to fight for the interests of the gle as is the fight in the factories for workers' rights, and in the epoch of militarism even more important-would come. Liebknecht was sure, the socialist society of

Liebknecht and Luxemburg

They Tell Vile Falsehoods About German Workers

The war propaganda of British and American imperialism attempts to picture the German masses as "hypnotized" followers of Hit-

It is a deliberate lie.

It was with the connivance and consent of the capitalists of the world that Ilitler came to power in 1933. They preferred Hitler to the only other real alternative—the socialist revolution in Germany.

That revolution was almost achieved in 1918, when the German workers and the returning soldiers overthrew the Kaiser. It was with the help of a French-British-American threat of armed intervention-just as they intervened in Russia—that the German "democrats" smashed the revolution.

The German workers have shown in their whole history that Nazism is utterly alien to them. They have given to the world a shining firmament of revolutionary figures: Karl Marx, Friedrich Engels, Rosa Luxemburg, Karl Liebknecht, Franz Mehring, Clara Zetkin. These, and not Hitler, typify the German

Thirteen million socialists and communists—the backbone of the German people voted against Hitler in the last election that was permitted. And that election only dimly reflected—no election under capitalism really reflects-the anti-fascist sentiment of the German people.

The German workers need help in overthrowing Hitler. But that help is not carried by American bombing planes. Not freedom but a bloody military dictatorship will be prought to Germany by the victorious imperialist armies of "democracy."

The decisive help that we can give to the German workers so that they can overthrow Hitler is to demonstrate to them that we, too, are struggling against our oppressors. That we, too, are fighting for a Workers Government;

Our Red Rosa, The German Workers Called Her

By ANTOINETTE F. KONIKOW

Physically she was small, slender, a neglected hip lisease in childhood left her with a limp. On her arrival to address large gatherings, committees meeting her for the first time would become crestfallen: How could such a frail being make an impression on the speaker's platform! But once she faced the crowd, she seemed to grow in stature; her resonant powerful voice, her flaming oratory roused audiences to wild enthusiasm. Our Red Rosa, the German workers called ner with proud tenderness.

. Rosa Luxemburg was a magnificent speaker and combined this with a rare ability of presenting the ideas of socialism in a simple and graphic language. She was not only a student but a theoretician of Marxism, the author of many pamphlets and books, among them. "The Accumulation of Capital," in which she expanded and modified Marx's exposition of this subject in volume II of Das Kapital. (The controversy over her interpretation still continues and I leave it to theoreticians to evaluate its merits.) But Rosa was no cabinet theoretician. Her writings as her speeches were intimately bound up with action.

She possessed the rarest of gifts—the ability to understand and even sense in advance the vital periods, problems, and strategy of the workers' movement. It was precisely this that brought her into sharp conflict throughout her life with the self-satisfied and degenerating leadership of old German Social Democ-

Rosa Luxemburg was born in Czarist Poland, and began to participate in illegal revolutionary circles from a very early age. At 18 she was forced to flee Poland in order to escape arrest. I met her at Zurich where she studied economics and philosophy. She was so mature, serious and self-assured that my friends and myself considered her our senior, but in reality she was several years younger than we were.

Returning to Poland she worked to counteract the eactionary nationalist movement which had grown strong, by organizing the workers on a principled Marxist basis. Lenin criticized her opposing the demand for self-determination, in particular for Poland. Her influence in organizing a powerful and strongly centralized party in Poland was enormous. On more than one occasion she sided with Lenin against the Mensheviks within the Russian movement.

Her Struggle Against Reformism

Through a fictitious marriage she became a German citizen and was thus admitted to the arena of the large German party. From then on we find her dealing blow after blow to the reformist tendency which was gaining sway over the German Social Democracy and the Sec-

ond International. For example, when the French Socialists became jubilant because Millerand had received a high ministerial post, Rosa at once condemned this entry into a bourgeois government. The gist of her criticism was: Socialists can accept executive state positions only if the government itself is in their hands, otherwise they invariably serve as the servants of the bourgeoisie and betray the workers.

In her fight against revisionism she attacked Bernstein, a very prominent and influential party leader in Germany, who argued that Marx had become "outmoded" and that it was possible to evolve into socialism without any revolution by simply relying on progress, the parliament, and the feelings of justice and morality. Revisionism expressed the direct pressure of the middle class upon the workers' movement; pressure which repeats itself periodically, as we can vouch for from our own recent experience. In Germany, capitalism was on the up-grade at the time. The party had several million votes, a vast treasury, many newspapers, scores of parliamentary seats, etc. Party functionaries were well paid, and trade union leaders dominated the party. A feeling of satisfaction combined with a fear of losing their gains began to possess the Social Democratic tops. They argued against revolutionary action because everything seemed to be progressing smoothly. Why rush, why "gamble," when a gradual growth would bring about socialism? In her fight against this Philistine outlook, Rosa had against her almost the entire German lead-

1905 Becomes the Dividing Line

When the 1905 revolution broke out in Russia, Rosa with great joy followed the tremendous mass movement in her own backward homeland. She grasped at once the importance of the new weapons applied in her Russia, especially the role of the general strike. The German leadership inclined to dismiss the general strike as "general nonsense." But Rosa saw in it revolutionary mass action surging onward without fear of the possibilities of defeats—an expression of the tremendous vitality latent in the masses. During this period she became more and more estranged from the old leadership, and from Karl Kautsky himself who had for a while shared her enthusiasm for the

1905 events in Russia. The World War of 1914 brought with it the crucial test for all revolutionists. The German party and the Second International revealed the full extent of their degeneration. The leaders betrayed the working class. Kautsky, the theoretical leader of the Second International bid his farewell to Marxism, declaring that internationalism could operate only in peace time and

had to be suspended for the duration of war. Rosa Luxemburg did not waver in her stand. Togetherwith Lenin she had sponsored the resolution against war adapted at the Stuttgart World Congress, the last one before the war. This resolution in veiled phraseology (to elude the German censors), had actually threatened a civil war against the bourgeoisie in every country if war were declared.

At the outbreak of the war Rosa Luxemburg applied the line of this resolution. Addressing the workers in Germany she said: "If you are ordered to shoot down your French brothers refuse to shoot!" She was arrested and imprisoned for the duration of the war. Her fate became henceforth indissolubly linked with that of Liebknecht, her comrade-in-arms, who had proclaimed: "Our main enemy is at home!" and who soon shared Rosa's fate-imprisonment.

Rosa Luxemburg, caged like an eagle, spent her days in a tiny cell from which she could barely glimpse a blue patch of the sky. Her letters from prison reveal an aspect of her character previously known only to her friends. The tenderness of this indomitable fighter is evidenced in these letters. She could not observe without revulsion even the suffering of animals-the overloaded oxen, the tiny, unprotected bird. In her letters she puts down her deep sympathy for all suffering, her craving for peace and beauty, her anger at injustice. She did not, however, let her hands hang. Her magnetic personality and noble nature enabled her to make friends in prison who helped to smuggle out regularly her articles for "The International," the publication of the Spartakus group which she and Liebknecht had formed.

The Famous "Junius" Pamphlet

Her best known work of that period is the Junius pamphlet, circulated throughout Germany. She did not sign her name because that would have disclosed her work in prison. Even Lenin was unaware of the identy of the author, of this remarkable namphlet, which he greeted with joy as a sign of a new and powerful revolutionary wing developing in Germany. He critized the pamphlet for its mistakes, but appreciated its power and true revolutionary spirit.

"Junius" reasons for opposing impierialist wars have become classic. They should be studied today, for they apply to World War II just as they did twenty years ago. Rosa explained that the victory of either side-whether Germany or the Allies--would necessarily lead to another world slaughter. Only the masses could tear humanity out of war. Nothing can save the world except Socialism.

She exposed the hypocricy of the capitalist class, the fraud of patriotism. The ruling class will always make an alliance with the enemy in order to suppress its own working class. The French aristocrats welcomed the English and German armies against the French Jacobins. The German army released the army of Napoleon III so that the Paris Commune could be crushed. The Russian White Guards urged England. France and Germany to help them against the Russia of the Bolsheviks.

She pointed out that, far from weakening the working class, the revolution would strengthen and encourage the masses to defend their country, which becomes their real fatherland only after the revolution. The combined forces of all the monarchies could not subdue the great French Revolution. Nor could Soviet Russia under Lenin and Trotsky be overthrown by all the imperialists.

And when the social patriots sneered that the party could do nothing during war time, she replied: Our task is to issue clear political slogans comprehensible to the workers; a determined consistently revolutionary course of action followed by the party will arouse

masses; a weak, vacillating course not only undermines the power of the working class but demoralizes and confuses the masses. She cited a passage from a book by General Bernhardi (he was the guiding genius of the Germany army at that time) disclosing his fear that under certain conditions the army might become a menace to the ruling class.

The Junius pamphlet states that national wars cannot be waged under imperialism. Lenin realized that Junius had the world war in mind, but considered it necessary to correct this statement by explaining that we would support national wars of the colonial peoples for self-determination; such wars are progressive and a blow to imperialism.

Junius called for a German republic to put an end to the war. Lenin pointed out that a parliament constituted of representatives of the bourgeoisie and the middle class could never stop the war. Only the masses-through the Soviets-can assure peace.

Rosa and the Russian Revolution

In prison Rosa received the great news of the Russian Revolution. She burned with indignation over the Brest-Litovsk peace forced by Germany upon the Bolsheviks. She accused the pro-war "socialists" of " their responsibility, their degrading submission to the Junkers. The Russian Revolution deeply inspired Rosa. Enemies of the Russian Revolution have tried to construe her criticism of the Russian Bolsheviks ... as an opposition to the Russian revolution. This is false. It was as one of them that she criticized some ... of their tactics.

The most vicious lie is that spread by the Stalinists, -who have tried to depict her as an enemy of Com-

The doors of her prison were thrown open by the German workers. It was November 9, 1918--the beginning of the German revolution. Although her long prison term had weakened and exhausted her, Rosa threw herself into the work. She edited the Rote Fahne (Red Banner). Together with Liebknecht she organized the German Communist Party. The Manifesto of the party, in complete agreement with the program advocated by Lenin and Trotsky was writ-

The degenerated leadership of the Social Democracy took charge of the government in order to crush the revolution. Luxemburg and Liebknecht were hounded. Leaflets demanding their assassination were circulated. Large rewards were offered for their capture. The Spartakus group which had become the German Communist Party had a large following but was not yet strong enough to take power. The situation greatly resembled the July, 1917 days in Russia. The advanced workers were pressing forward to battle, while the leadership realized that it was premature. The bourgeoisie and the Social Democratic leaders did everything in their power to provoke the masses in Berlin to an uprising so as to drown the revolution in blood. Liebknecht and Luxemburg did not stand aside from the masses. On January 15. 1919 they were arrested and immediately assassinated.

These two great revolutionists, two of the most sincere, devoted and fearless leaders of the proletariat were murdered by the bourgeoisie and its "s cialist" lackeys. Luxemburg and Liebknecht have become the symbols for courage, militancy and unswerving opposition to imperialist war. The monuments erected in Germany to commemorate these two comrades have been destroyed by Hitler.

But Luxemburg and Liebknecht have more permanent memorials than monuments of stone or iron, Their names are inscribed in flaming red letters in the hearts of the international working class.

FIGHT WITH THE SOCIALIST WORKERS PARTY

ON THE WAR FRONT:

For:

- 1. Military training of workers, financed by the government, under control of the trade unions.
- 2. The establishment of special officers' training camps, financed by the government and controlled by the trade unions, to train workers to become
- 3. Confiscation of all war profits-all company books to be open for trade union inspection.
- 4. Expropriation of all war industries and their operation under workers' control.
- 5. Trade union wages for all workers drafted into the
- 6. Full equality for Negroes in the armed forces-Down with Jim Crowism.
- 7. An end to secret diplomacy.
- 8. A peoples' referendum on any and all wars.

AT HOME:

For:

- 1. A job and decent living for every worker.
- 2. Thirty-thirty-\$30 weekly minimum wage-30 hour weekly maximum for all workers on all jobs.
- 3. \$30 weekly old age and disability pension. 4. Full social, political and economic equality for the
- 5. Workers Defense Guards against vigilante and
- fascist attacks. 6. A twenty-billion dollar Federal public works and
- housing program to provide jobs for the unem-
- 7. Expropriate the Sixty Families.
- 8. An Independent Labor Party based on the Trade
- 9. A Workers' and Farmers' Government.

The New Stage

As we go to press, word comes from Detroit that James F. Dewey, Federal labor "mediator". has served an ultimatum on the United Auto Workers, demanding that the union call off within twenty-four hours its strike against the Eaton Manufacturing Company. The ultimatum, he stated, was delivered on the authority of the National Defense Commission, including, presumably, Sidney Hillman.

To show his "impartiality", Dewey also ordered the company to put to work the men it had failed to re-employ after a strike last December. The rehiring of these men was ONE of the issues in the present strike, but by no means the only one. The Tother issues between the company and the union, rsaid Dewey, can be settled by negotiation "after -the plants are operating again."

Note that the union has no guarantee that even the one issue Dewey refers to, rehiring, will be settled before the strike is called off. On the contrary, the union is told by the government to call off its walk-out regardless of what the company

As for the other issues, every union man knows that when a company has refused to come to a general settlement before a strike, return to work without a general settlement means giving the company the whip-hand in further negotiations. Every anti-union employer in the country hereafter will stand pat and depend on the government to force the men back to work—and endless negotiations over their grievances.

Roosevelt is taking off the velvet glove. With this ultimatum to the auto workers, a new stage of governmental action against the workers has begun.

In every class society, be it based on slavery, serfdom, or as at present on wage slavery, the oppressor class is armed. It is sufficient to mention the use of troops (including the militia) against strikers, a phenomenon common to all capitalist countries without exception. The arming of the bourgeoisie against the proletariat is one of the greatest, most cardinal, most significant facts of present-day capitalist society."-LENIN

Pacifist Changeling

If you want to understand the process by which professional pacifists turn into professional war mongers, you should read Norman Thomas' Socialist Call and watch it happening.

Norman Thomas' young followers are still fighting in court against military training but that pacifist activity, far from being in direct contradiction to war mongering, provides a bridge to it. In rejecting military training of any kind whatsoever, these deluded young people are, in reality, denying the realities and consequences of the class struggle. In the end, what will remain is their denial of the class struggle. Then they will support military training and war-on behalf of the capitalist class.

The next stage in the degeneration of the Socialist Party is already apparent. We cite two in-

The National Executive Committee of the Socialist Party has adopted a resolution on the entry of Greece into the imperialist war. Its key sentence is: "We rejoice that the Greek people have succeeded in administering a setback to the fascist armies." '(Call, December 7.)

The "Greek" army of Dictator Metaxas, as everybody knows except Norman Thomas, consists in large part of British troops, British airplaines, British technicians, and the British Navy. Greece as a separate entity does not exist in this war. The only question that events were called upon to answer was whether Greece would be part of the German war machine or part of the British-American war machine. Greece is no more identifiable as an independent agent in this war than Serbia was in the last war.

And if Thomas "rejoices" that the British forces in the Mediterranean have thus set back the Italians, why shouldn't he, logically, rejoice if Wall Street's army helps along?

That's the real logic of Thomas' position, and he has already recognized it by taking the next step. The Call of January 18 announces its support of the pro-war propaganda organization headed by Matthew Woll under the phony title, "The American Labor Committee to Aid British Labor."

The Call concedes that Woll's committee "could be misused and could be made to serve interventionist sentiment in the United States," but hypocritically closes its eyes to this real role of Woll's committee and declares: "In the absence of any evidence of such intent at this time, the Call commends the AFL Committee." What kind of evidence is Thomas waiting for? Matthew Woll riding down Broadway in a tank, hell-bent for Berlin?

It's a rather touching picture, virginal Norman being deceived and misled by the sly Matthew Woll, but if we are ever called on to testify we shall have to say that Norman was more than willing and knew what he was letting himself in

"The mood of the majority of the army officers reflects the reactionary mood of the ruling classes of the country, but in a much more concentrated form. The mood of the mass of the soldiery reflects the mood of the workers and farmers, but in a much weaker form; the bourgeoisie knows much better how to maintain contact with the officers than the proletariat with the soldiers,"—TROTSKY, WHITHER FRANCE? Page 100.

Good Old FDR

While bourgeois politicians and publicists assure us that Roosevelt runs a government, of the people, for the people, and by the people, his regime proceeds to act like a government of the plutocracy, for the plutocracy, and by the plutocracy. Like all other capitalist powers, the administration at Washington is in reality a pliant tool in the hands of the big international monopolist cor-

This stands out clearly in Roosevelt's imperialist war-policies. But it is no less evident in such incidental events as the deal just consummated between the International Telephone and Telegraph Corporation and the Rumanian Government, thanks to the forceful intervention of State and Treasury Department officials.

Here is the story. When the Nazis began to take over Rumania last October, Rumanian funds amounting to some \$40,000,000 were "frozen" in this country by Presidential decree. The I. T. & T. owns the Rumanian Telephons System, part of which has already been seized by Russia, Hungary, and Bulgaria and the rest by the Rumanian Government, presumably as trustee for German

None of the United States corporations in Nazicontrolled countries have been able to obtain payment in American money for their properties since the war started. That's one of the underlying motives behind Wall Street's support of Washington's military program.

But why, reasoned Wall Street, should all our monopolies have to wait until Hitler is crushed for the return of our invested capital? So, as the N. Y. Times phrases it, "with the cooperation and active help of the State Department and the United States Treasury" the Rumanian government was "induced" to pay immediately \$13,800,000 of its blocked funds to the I. T. & T. for its properties.

"The corporation," reports the *Times*, "was satisfied completely with the deal and had received an absolutely fair price for its property." Indeed they might be, for, according to the company officials, "the payment covered all I. T. & T.'s investment in capital stock (amounting to \$7,667,-686), advances on current account, and equity in undistributed earnings." That is, the corporation has redeemed its entire investment plus ten years profits plus hidden gravy, we may be sure. And it was also compensated for that portion of its properties taken by Russia, Hungary, and Bulgaria!

"This incident," remarks the Times correspondent, "showed the value of the freezing policy as a measure of protecting United States interests in countries which have fallen or are likely to fall under outside influences. If there had been no frozen Rumanian funds in the United States, it was pointed out, the I. T. & T. might have achieved a less satisfactory settlement or at least have had to wait longer for its money."

Such are blessings showered by Roosevelt's policies—upon the giant international trusts,

There's War In Canada----Against The Trade Union

But the Systematic Terror Has Failed to Break Down the Workers and French Canadians' Opposition to the War

The following is a first-hand account of the treatment of the workers and unionists in Canada during the present war, and of the growing resistance to the war in this sister "democracy" to the United States. It is part of a report to the SOCIALIST APPEAL from a Canadian comrade.

TORONTO, Canada—You may be surprised to learn that one union local here, with 160 members, advertised for an organizer in the capitalist press. You will understand why, when I tell you about present conditions here in Canada.

Unionists are afraid to accept jobs as organizers because even a little militant labor action means a jail sentence.

Civil liberties are at a very low ebb in Canada today. The been disclosed. This will give you government has taken advantage of the war to deliver smashing an idea of the opposition which blows at labor. 71 leaders of unions are in concentration camps exists here to fighting for British here. The charge?-they demandanyone here to join the army.

old men and women.

ed too much from the bosses! Pat Sullivan, leader of the AFL seamen's union was arrested right in the midst of negotiations with the 'ship-owners. He had asked for better terms in the new contract than were in the old one. A criminal and treasonable offense in Canada today.

Canadian labor is becoming increasingly aroused by this antilabor attitude of the government. All labor organizations have been driven underground with the exception of the (pro-war) Commonwealth Federation.

It is not only the government which persecutes the workers, but many reactionary trade union officials are aiding in this offensive. For instance, in a recent election in the International Ladies Garment Workers Union local, the leaders arbitrarily prohibited the nomination of alleged Stalinists. These leaders crawl on their bellies at every opportunity to show their servility to the government. CANADA'S "HOME GUARD"

We read about the moves to start the "Home Guard" in the U. S. Well, a "home" defense guard exists now in Canada. It has already helped the bosses in several strikes. It is a regular witch-hunt outfit., which has arrested anyone at the slightest opportunity who voices the least bit of dissatisfaction with the war or

Despite the feverish government war propaganda campaigns, the Canadian people are generally opposed to the war. By people, I mean particularly the workers and the French Canadians.

The government is having a hard time getting soldiers for over-seas service. It has used two methods to try to build the army, neither one being very successful. The government forces until their sons join the army. war comes from the French Canadians, who are 41 per cent of the Canadian population. There were bitter draft riots in Quebec and Montreal, and today there are only 2,000 French-Canadian soldiers in the Canadian army.

I have learned that there are 2,000 soldiers in concentration camps for their refusal to go over seas. Some cases of suicide among young soldiers have also imperialism.

The government has had to In the town of Scarsborough all yield to the opposition of the the unemployed youth have been French Canadians to some extent forced into the army. Lovestone Quits; The Fruit Of Lack Of Principles

The Lovestone group ("Independent Labor League of America") has announced that it has dissolved, by decision of its recent national convention. In a "Declaration" announcing the end of the organization, it calls upon all radical groups to "join forces in making a new start towards a genuine American democratic socialism"-and to begin that new start by following the ILLA into limbo.

Presumably, with the death of the ILLA, its final "Declaration" is its last word on what the coming "genuine American democratic socialism" should be. But God help the mariner who tries to sail by their

In a word, the Lovestone "Declaration" is a complete confession of bankruptcy, which blusteringly tries to cover up its nakedness by the whining lie: "Everybody else has failed too."

Among the ideologies the expiring Lovestoneites list as having failed is that of Bolshevism. The implication is conveyed that they, the Lovestoneites, tried the road of Bolshevism, and it proved a false road. A lie made out of whole cloth.

The story of the Lovestone group is worth telling in some detail, for there is an important lesson to learn from it-although scarcely the one that the Lovestoneites offer. That story was summarized by Comrade James P. Cannon in his pamphlet, "The Struggle for a Proletarian Party," published in April 1940. He wrote then:

"In the terminology of the Marxist movement, unprincipled cliques or groups which begin a struggle without a definite program have been characterized as political bandits. A classic example of such a group, from its beginning to its miserable end in the backwaters of American radicalism, is the group known as 'Lovestoneites.' This group, which took its name from the characterless adventurer who has been its leader, poisoned and corrupted the American Communist movement for many years by its unprincipled and unscrupulous factional struggles, which were carried on to serve personal aims and personal ambitions, or to satisfy personal grievances. The Lovestoneites were able and talented people, but they had no definite principles. They knew only that they wanted to control the party 'regime'. As with Abern, this question always occupied first place in their calculations; the 'political' program of the moment was always adapted to their primary aim of 'solving the organization question satisfactorily', that is, in their

"They were wild-eyed radicals and ultra-leftists when Zinoviev was at the head of the Comintern. With the downfall of Zinoviev and the violent right swing of the Comintern under Bukharin, they became ardent Bukharinites as quickly and calmly as one changes his shirt. Due to an error in calculation, or a delay in information, they were behindhand in making the switch from Bukharin to Stalin and the frenzied leftism of the Third Period. To be sure, they tried to make up for their oversight by proposing the expulsion of Bukharin at the party convention they controlled in 1929. But this last demonstration of political flexibility in the service of rigid organizational aims came too late. Their tardiness cost them

"Their politics were always determined for them by external pressure. At the time of their membership in the Communist Party it was the pressure of Moscow. With their formal expulsion from the Comintern a still weightier pressure began to bear down upon them, and they gradually adapted themselves to it. Today this miserable and isolated clique, pettybourgeois to the core, is tossed about by bourgeois democratic public opinion like a feather in the breeze. The Lovestoneites never had any independent program of their own. They were never able to develop one in the years since their separation from the official Communist Party. Today their paper, the Workers Age, is hardly distinguishable from a journal of left liberalism. A horrible example of the end result of unprincipled 'organizational' politics."

The History of This Group

Since Comrade Cannon wrote this, the Lovestoneites, pushed still further by bourgeois democratic public opinion, became above all advocates of "allout" aid to England.

The end of the Lovestoneites is the handwriting on the wall for their ilk. The Norman Thomas group, coming ever closer to a pro-British line (elsewhere in this issue we deal with their latest moves in this direction), is already little more than an appendage to Norman Thomas' radio program. Even the traditional Social Democratic Federation appears to have little basis for an independent existence in the war situation; its frenzied cries for "all out" aid to Britain merely duplicate what Roosevelt does louder and. more skillfully. And the group which most resembles the Lovestoneites in personal character and "political" methods, the Abern-Shachtman "Workers Party", sees its future mirrored.

Abern-Shachtman united with Burnham "merely" on the question of "the party regime"- a la Lovestone. Just like Lovestone, however, Abern-Shachtman found themselves at the conclusion of this "bloc" the advocates of the politics of Burnham. Here is striking proof of the political law that groups and cliques which have no program of their own become the instruments of the program of others. Shachtman, who loudly protested that he was not advocating the anti-Soviet position of Burnham, has now published his own position which turns out to be... the position of Burnham.

The Lovestoneites did not conceal their warm sympathy for Burnham-Shachtman. Here, they felt, were kindred spirits. They were right.

The war, Comrade Trotsky wrote shortly before his death, will destroy all such centrist organizations. The debris will be cast aside and the arena cleared for the titanic struggle between the only two real forces in modern society: the bourgeois ruling class and the proletariat led by the revolutionary Bolshevik party. The quicker Lovestone and his kind leave the arena, the better for the revolutionary movement. It is not accidental that the dissolution of the Lovesoneites coincides with the moment when our party reaches the highest point in morale and activity in our history.
