#### EUGENE DEBS: THE AMERICAN SOCIALIST. By JOHN REED.

[Eugene Debs, the American Socialist, has been sentenced to 10 years imprisonment for obstructing the U.S. War Programme.]

Everybody knows Gene Debs in Terre Haute. Sixty-two years ago he was born in Terre Haute, of parents who came to America from Alsace, Gene's father was of upper middle-class family and owned mills in Colmar. He fell in love with a girl who worked in one of his mills, and renounced his heritage to marry her. They came to Indiana as immigrants, and lived through hells of poverty...

This was all before 1870. But old man Debs never admitted that Alsace could be German. On his tomb-stone he had engraved, "Born at Colmar, Alsace, France."

Gene, his father and his mother went through their political and economic evolution together. Together Gene and his father voted for the Green-Party, then for the Populists .... and that the characteristically American way, Gene and his father and mother came to Socialism.

erre Haute is a rich little country town in the sier land, where Eugene Field came from, James Whitcomb Riley, and a whole raft of elists and poets. Going through that country on the train I can never resist the feeling that after all, this is real America. Trim villages, white farm-houses set in trees, fields of tasselled corn; shallow rivers flowing between earthern banks, little rolling hills spotted with lazy cows, bare-legged children; the church-spires and gravevards of New England, transported hither by Protestant folk, mellowed and grown more spacious by contact with the South and West; rural school-houses, and everywhere hideous and beloved monuments commemorating the Civil War; locusts jarring in the sycamores, an almost overwhelming fertility rioting in the black earth, steaming in the procreative heat of flat-country summer, and distilling a local sweetness that is distinctively American-sentimental and humorous.

The Middle West, with its tradition of settled, country-living folk, and behind that, the romance of the Civil War, and still further back, the epos of the race moving West and conquering ....

Here lives Gene Debs, authentic kin of Field and Riley, American, Middle Western, shrewd, tender-hearted, eloquent and indomitable. When I was a small boy my conception of Uncle Sam was just what I found Gene Debs to be-and I'm not at all sure my instinct was wrong.

It was on the Fourth of July that Art Young and I went to Terre Haute to see Gene. Barely a month before, the terrible rumour had gone round, chilling all our hearts-"Gene Debs is going back on the party!" That lie he nailed in the stinging statement published in the New York Call.... Then came his tour through the middle states, menaced everywhere with arrest, violence, even lynching....and Debs calmly speaking according to schedule, fearless, fiery and full of love of people.... Then his Canton speech, a clear internationalist manifesto, and the Cleveland arrest.

"Gene Debs arrested! They've arrested Gene!" people said everywhere, with a shock, a feeling of pity, of affection. Nothing that has happened in the United States this year has stirred so many people just this way. The long sentences given to conscientious objectors, the suppression of the Socialist press, the indictment of editors, lecturers, Socialist officials under the Espionage and Sedition Acts—people didn't seem to be deeply moved by these things; but the arrest and indictment of Gene Debs-of Gene Debs as a traitor to his country! That was like a slap in the face to thousands of simple people—many of them not Socialists at all—who had heard him speak and therefore loved him. 'Not to mention the hundreds he has personally befriended, helped or even saved from every sort of evil....

"Gene Debs arrested! Our Gene! That's going too far."

It appears that Allan Benson had come out with a piece in the paper criticising the authorities for arresting Debs at the moment when he was 'just on the point of going over to the National Party!" Sitting there in his darkened sittingroom, with the busts of Voltaire, Rousseau and Bob Ingersoll just behind him, he chuckled over

Mr. Benson's perspicacity. I couldn't help seeing a ludicrous mental picture of Gene Debs in the company of pious Prohibition preachers and Socialist renegades. "Cheap skates," was Gene's dismissal of the whole tribe.

He was in bed when we arrived, but insisted on getting up. Not very well, his wife said; had not been well a whole year. How gaunt and tall he was, how tired his long burned-up body looked; and yet with what a consuming inward radiance he came forward and greeted us, holding both his hands on ours, looking at us so eagerly, as if his affection for us was so deep....We felt wrapped in Gene Debs' affection. I had never met him, but I had heard him speak. How from that body and soul then he had poured out vitality, flaming across all his time, warmth and courage and belief!

Now he was older, more ravaged by the strain of giving and fighting; but his smile was still as delighted, and his sympathy as wonderful, and the tides of his indomitability at the service of anyone....

Gene talked. You who have never heard him talk don't just know what that means. It isn't erudition, fine choice of words, or well-modulated voice that makes his charm; but the intensity of his face, glowing, and the swift tumbling out of his sincere words. He told about his trip, describing with boyish pleasure how he outwitted the detectives watching for him in Cleveland; and how mayors and patriotic committees in little towns had warned him not to speak—and he had spoken, just the same.

"Aren't you afraid of lynching?" I asked him. Gene smiled. "Now that's a funny thing," he said. "I just don't happen to think about it, some way. I guess I'm sort of psychically protected, anyway. I know that so long as I keep

my eye on them, they won't dare to do anything." Outside as he talked to us the automobiles went by, covered with flags, and the sound of the parade came drifting down....Looking through the darkened windows we watched the people. As they passed the house they motioned or pointed toward it, with expression compounded half of eager malice, and half of a sort of fear. "That's where Gene Debs lives," you could see them saying, as one would say, "The House of the Traitor...."

"Come on," said Gene, suddenly. "Let's go out and sit on the front porch and give 'em a good show, if they want to see me." So we went out on the porch, and took off our coats. And those who passed only looked furtively our way, and whispered, and when they caught Gene's eye, bowed over-cordially.

There was something tragic, and funny, in the way Terre Haute regarded Gene. Before the war Gene added luster to the name of the town, as well as having an immense personal popularity. In the beginning, practically the whole population, all through that section, was against going to war....But since the war the usual phenomenon has happened in Terre Haute. The whole place has been mobilised physically and spiritually. Except Gene Debs. The simpler people couldn't understand it. Bankers, lawyers and merchants felt for him a terrible rancour. Even the ministers of the gospel, who had often implored him to address their conventions, now held meetings denouncing "the enemy in our midst."

No names were mentioned. No one dared to call Gene Debs "enemy" to his face. When he went down the street, everyone was studiously polite. Department of Justice operatives, volunteer detectives of all sorts, Liberty loan agents, prowled all round his house—but did not dare to enter and front the old lion. Once a business men's "patriotic" committee descended upon a German-born workman, and threatened him. Gene heard about it, and sent word to the committee: "Come down to my house, why don't you, instead of to the place of a poor man. I have a shot-gun waiting for you fellows." The committee did not come ....

I have a picture of Gene Debs, his long bony head and shining face against a background of bright petunias in a box on the rail, his lean hand lifted with the long, artist's fingers giving empliasis to what he said:

"Say, isn't it great the way most of the boys have stood up? Fine! .If this can't break them down, why then I know nothing can. Socialism is on the way. They can't stop it, no matter what they do. The more breaks the other side makes, the better for us...."

And as he went down the steps, wringing our hands, clapping us on the shoulder, winning and warm, he said—and all the neighbours could hear him, too-

"Now you tell all the boys everywhere who are making the fight, Gene Debs says he's with you, all the way, straight through, without a flicker !" [From The Liberator, U.S.A.]

## SOCIALISM IN THE MAKING.

DECREE CONGERNING THE REGISTRATION

OF CIVIL MARRIAGES AND CHILDREN. The Russian Republic recognises only civil marriages as legal. The following are the regulations concerning civil marriages :-

1. Persons who intend to marry must notify either verbally or in writing the registry office for marriages and for births attached to the county, district or parish council in the district of their abode.

Remark.—Civil marriage is absolutely obligatory. The secondary performance of a church ceremony is the private affair of the individuals concerned.

2. Notifications of marriages are not accepted :-(a) From males younger than 18 years of age and from females younger than 16 years of age. For the natives of Transcaucasus the legal age for marriage is 16 years for males and 13 years of age for females,

(b) From relatives of linear descent, and neither from brothers and sisters nor from half brothers and half sisters, the same regulations as above apply to relatives of a similar degree even if one or both of the parties are born outside wedlock.

(c) From married persons.

(d) From lunatics.

3. It is necessary for those intending to marry to call at the registry office for marriages and to sign a form declaring that they are free from the impediments to marriage as stated in article 2 of this decree and further that their marriage is a voluntary act on their part.

Persons deliberately giving false statements concerning the non-existence of impediments stated in Article 2 will be proceeded against, for making these false declarations and their marriage will be declared

4. The officer in charge at the registry office for marriages, after obtaining the required signatures, enters the fact in the registry book and then declares the marriage already to be in force.

In entering upon wedlock the couple may freely decide what surname they will adopt, the name of the husband, the name of the wife or the joint surname of both.

To prove the performance of the marriage, a copy of the marriage lines is issued directly and given to the couple.

5.......

6. If the registry books for marriage are destroyed, lost in any way, or if a married couple for any reason are not able to obtain a copy of their marriage lines, the persons concerned ar entitled to make a statement of their marriage within a certain date, at the registry office of the district where they both live, or where one of them lives. They must again give their signature as stated in Article 4 of this Decree, and also in addition their signature must state that the book has been lost or that for some other reason, worthy of consideration, they were unable to obtain their marriage lines. This will be considered as sufficient ground for registering their marriage and for issuing again a copy of their marriage certificate. ON CHILDREN.

7. The birth of a child must be registered at the registry office for marriages and births in the district inhabited by the mother. The birth of a child must be separately registered.

8. The birth of a child must be notified at the local registry office by the parents, or by one of them, or in case of the death of the parents by the person who is in charge of the newly born child. The name and surname of the child must be given and two witnesses must attest the birth.

9.....

10. Illegitimate children are to be treated in a similar manner as legitimate children in regard to their rights and obligations towards their parents and also in regard to the rights and obligations of the parents towards these children.

The persons who notify and give their signatures as the parents of the child are recognised as the

father and mother of the child.

In case of an illegitimate child, where the father omits to give the above mentioned notification the mother, the guardian or the child itself has the legitimate right to prove the paternity.

## THE LUST OF VICTORY IS POSTPONING PEACE.

- On Saturday and Sunday when the news came through that the German Government had definite. accepted President Wilson's terms, and was willing to evacuate the invaded territories before opening peace negotiations, people were full of joyous expectation of an immediate peace. Every where -by the road side and in the 'buses and the trainsone heard them saying: "The War will be over in a week!" "It can't last a month!" Some who had not read the newspapers expressed doubts, but they were reassured by the printed words :-

"The German Government has accepted the terms laid down by President Wilson in his address of January 8th, 1918, and in his subsequent addresses on the foundation of a permanent peace of justice. one who enjoys the debate. Strangely enough Brigadier-General Page Croft, M.P., who throughout the War has been one of the foremost in bellicose speeches, spoke now more mildly than the others, saying that he was "pleased with the German reply so far as it went."

The Allied capitalist press has all but unanimously demanded a refusal. President Wilson, postponing a definité answer as to terms, added yet further conditions to an armistice.

"The only condition on which an armistice can be granted is that atrocities on land and sea must cease, and also that the autocracy must go before

Therefore, to comply literally with this demand, it would seem to us necessary that Germany should case fighting, whether the Allies continue their attack on her or not. Towards the second condition that the autocracy must go, Germany is, we believe, hastily speeding onward, impelled, not so much by the Allied armies without, as by popular forces within. As we anticipated last week, Prince Max's Chancellorship will apparently be short, already his resignation is demanded. Some of the German Majority Socialists ask for one of their number, Herr Ebert, as Chancellor; whilst some of the Minority Socialists are openly calling for revolution. Great changes must now be looked for in Germany; we may expect to see Government succeed Government, with a tendency ever more towards that revolutionary rank and file Socialism which is now usually described as Bolshevik, and which has

established the Soviets in Russia. Soon the German autocracy may be gone; will

Murphy's main attack was directed against the "Guildsmen's" idea of a "National State" power between producing and non-producing bodies. He declared that whilst a government formed on a territorial basis must create industrial departments, which are superficial, because imposed from without, such a government, having no power to enforce its decisions, must obtain power from without by the creation of police and an Army and Navy. To retain the spirit of real democracy; these things should not be reserved as the special province of a specialised fraternity of non-producers. - Cole protested that of power between the State and the Guild Council, of view between man and man, but the difference of point of view "in the same man"—a truly curious proposition! ## WOMEN AND INDUSTRY AFTER THE WAR.

A conference of "leading trade union women' and employers of Tabour was arranged by the National Alliance of Employers, and employees. According to The Times this conference " realised that the Government must fulfil its pledges to the trades unions, but this was seen in no way to apply to new industries, or to the extension of old industries that have led to the employment of an increased number of workers, compared with pre-war figures." This is interesting! The partial restoration of trade union conditions would in practice tend to be no restoration at all! We are not amongst those who set great store by the restoration of pre-war conditions. We want something very much better than pre-war conditions. We want to socialise industry, sweeping away capitalism and all that pertains to it. But we cannot think that "leading women trade unionists" can have given their sanction to the narrowing down of the pledges given by the Government or to the restoration of trade union conditions. Who were these "leading trade union women?' The conference was of opinion that a minimum, for the worker to obtain. We are glad wage is desirable. It also urged that during the period of demobilisation and dislocation, it would be best "to institute a system of part-time work, so that the whole of the work-people should be employed for part of the day, or part of the week, rather than that some should be employed full-time and the rest turned out on the unemployment market. It was anticipated that this period would be only temporary, and ultimately all would be re-absorbed." The conference did not state that "the system of halftime work" would entail also half-time pay; but in the absence of any statement to the contrary we infer that that is what is meant. The workers are made to fight and induced to work, and after all their suffering they are to be told: "Now that the war is won you are to go on to part pay which means part-rations.'

Mr. Kellaway, Parliamentary Secretary to the Ministry of Munitions told the Women's Liberal Federation that in the munitions trades proper the wages of women had been raised from 10s. to 35s. per week. He said that the Ministry had had to face a "double problem-to secure a living wage for the women without utterly ruining every women's trade in the country, and at the same time to put women on to men's work at rates that would fulfil the Government's pledges and secure the consent of the mer."

That statement is illuminating. It shows us that when women are agitating for equal pay with men they have to contend, not only with the contention that their labour is worth less to the employer than the labour of men, but still more with the pressure of those who have hitherto employed women at low wages, and who declare that their trade will be ruined by the raising of women's wages in other trades, because women will refuse any longer to accept the lower paid work!

#### WOMEN ON THE LAND.

The Agricultural Wages Board has fixed 5d. an hour as the rate for adult women workers on the land. This is equal to less than 21d. before the War and is scandalously low. Agricultural workers should demand equal pay for men and women.

#### AN EDUCATIONAL OPPORTUNITY. WORKERS' CORRESPONDENCE SCHOOL.

When the workers gain control of industry and of the community itself they will need much technical skill and knowledge to enable them to control and develop the complicated machinery of modern life. This has been one of the great lessons of the Russian Revolution. In Russia the counterrevolutionaries paid the staffs of Government departments, even the teachers in the schools and the operators of the telephones, to remain away from work, in the hope of bringing the revolution to chaos and destruction. Moreover, the Soviet Government fixed a standard wage for all, but the non-Socialist technical experts were still able to put any price they chose upon their services, because the Soviet's supporters could supply but few able to replace them.

Education, so important to all, is difficult be able to announce that a committee of persons well qualified for the work has agreed to open a Workers' Correspondence School, in which first-rate teaching will be provided at popular prices. Courses will be opened at once in French and Shorthand, other branches of study being added from time to time as opportunity and the wishes of students direct. The fees for each opening course will be 1s. per lesson, or 10s. 6d. for the coarse of twelve, payable in advance. All communications should be addressed by letter only to the Workers' Correspondence School, 152 Fleet Street, London, E.C. It is particularly important that communications should be addressed as above and sent under separate cover to avoid confusion and delay.

INTERNATIONAL YOUNG AGE PENSIONS.

Dear Friends of Humanity,-In order to relieve the terrible poverty and suffering that is devastating Europe, let us endeavour to place the children and all those who are helpless in comparative safety by securing SEVEN SHILLINGS A WEEK each for them from the state, that we may be free to work for other reforms. At present, whilst they are exposed to cold, poverty and hunger, we can think of nothing else. 7s. a week would ENABLE FAMILIES TO MOVE AT ONCE INTO BETTER HOUSES, and to obtain better milk and food. This would stimulate local trade and reduce expenses of WORKHOUSES, HOSPITALS, PRISONS and LUNATIC ASYLUMS, and do away with all poor rates to such an extent as to be A GREAT SAVING to the taxpayers, and would enable sensible girls to marry where they would otherwise not dare to do so, and to bring up healthy happy children to become stalwart citizens and parents in their turn, besides relieving untold pain and suffering, and being an estimable benefit to

the State. The fact of a married man becoming automatically POORER at the birth of each child constitutes a cruel wrong to all children, and until each child has 7s. a week in its own individual right, as an infant citizen, suffering, war, disease, and poverty can never be abolished. Let us all demand this from our different Governments now, before it S. MACKENZIE KENNEDY. may be too late.
