# THE STRUCTURE OF THE SOVIET STATE. By John Reed.

(Reprinted from the 'New York Liberator.')

Through all the chorus of abuse and misreprematerial and directed against the Russian Soviets
the capitalist press, there runs a voice shrill
with a sort of panic, which cries: "There is no
overnment in Russia! There is no organisation
mong the Russian workers! It will not work!
will not work!"

There is method in the slander.

As all real Socialists know, and as we who have the Russian Revolution can testify, there to day in Moscow and throughout all the cities towns of the Russian land a highly complex dical structure, which is upheld by the vast ajority of the people, and which is functioning well as any newborn popular government ever netioned. Also the workers of Russia have shioned from their necessities and the demands life an economic organisation which is evolving to a true industrial democracy.

HISTORY OF THE SOVIETS.

The Soviet state is based upon the Soviets—or meils— of Workers and Peasants' Soviets.

These Councils—institutions so characteristic the Russian Revolution—originated in 1905, en, during the first general strike of the workers, trograd factories and labour organisations sent legates to a Central Committee. This Strike mmittee was named "Council of Workers' puties." It called the second general strike the autumn of 1905, sent out organisers all Russia, and for a short time was recognised the Imperial Government as the authorised elesman of the revolutionary Russian working-

Upon the failure of the 1905 Revolution, the embers of the Council either fled or were sent Siberia. But so astoundingly effective as a ditical organ was this type of union that all the solutionary parties included a Council of lookers' Deputies in their plans for the next

In March, 1917, when, in the face of all Russia aring like a sea, the Tsar abdicated and Grand the Michael declined the throne, and the retant Duma was forced to assume the reins of remment, the Council of Workers' Deputies rang full-fledged into being. In a few days it wenlarged to include delegates of the Army, called the Council of Workers' and Soldiers' puties. Except for Kerensky, the Duma Comthe was composed of bourgeois, and had no mection with the revolutionary masses what-Fighting had to be done, order had to be stored, the front guarded....The Duma memshad no way of executing these duties; they be obliged to appeal to the representatives of workers and soldiers-in other words, the meil. The Council took charge of the work of molution, of co-ordinating the activities of the ple, preserving order. Moreover, it assumed task of assuring the Revolution against its myal by the bourgeoisie.

from the moment when the Duma was forced appeal to the Council, two governments existed Russia, and these two governments struggled the mastery until November, 1917, when the mets, with the Bolsheviki in control, overthrew

Coalition Government.

There were, as I have said, Soviets both of orkers' and of Soldiers' Deputies. Somewhat there came into being Soviets of Peasants' souties. In most cities the Workers' and bliers' Soviets met together; they also held in All-Russian Congress jointly. The Peasants' mets, however, were held aloof by the reactionary ments in control, and did not join with the orkers and soldiers until the November revolution and the establishment of the Soviet Govern-

Revolutionary Workers Burning the Russian Eagle, the Emblem of Russian Czardom.

#### CONSTITUTION OF THE SOVIETS.

The Soviet is based directly upon the workers in the factories and the peasants in the fields

in the factories and the peasants in the fields.

Until the spring of 1918 there existed Soviets of Soldiers' Deputies. These were abolished after the demobilisation of the old army at the treaty of Brest-Litovsk, when the soldiers were absorbed

into the factories and the farms. At first the delegates of Workers', Soldiers' and Peasants' Soviets were elected according to rules which varied with the needs and population of different localities. In some villages the peasants chose one delegate for each fifty voters. Soldiers in garrison were given a certain number of delegates for each regiment, regardless of its strength; the army in the field, however, had a different method of electing their Soviets. As for the workers in the great cities, they soon found out that their Soviets became unwieldy unless the delegates were limited to one for each five hundred. In the same way, the first two all-Russian Congresses of Soviets were roughly based upon one delegate for each twenty-five thousand voters, but in fact the delegates represented constituencies of various sizes.

Until February, 1918, anybody could vote for delegates to the Soviets. If even the bourgeois had organised and demanded representation in the Soviets, it would have been given them. For example, during the régime of the Provisional Government, there was bourgeois representation in the Petrograd Soviet—a delegate of the Union of Professional Men, which comprised doctors,

Last March the constitution of the Soviets was worked out in detail and applied universally.

It restricted the franchise to—
"Citizens of the Russian Socialist Republic of both sexes" who shall have completed their eighteenth year by the day of election....

"All who have acquired the means of living

through labour that is productive and useful to society and who are members of trade unions..."

Excluded from the right to vote were: employers of labour for profit; persons who lived on unearned increment; merchants and agents of private business; employees of religious communities; former members of the police and gendarmerie; the former ruling dynasty; the mentally deficient, the deaf and dumb; and those who had been punished for selfish and dishonorable misdemeanors.

As far as the peasants are concerned, each hundred peasants in the villages elect, one representative to the Volost, or Township Soviet. These Volost Soviets send delegates to the Uyezd, or County, Soviet, which, in turn send its delegates to the Oblast, or Provincial, Soviet; to which also are elected delegates from the Workers'

Soviets in the cities.

The Petrograd Soviet of Workers' and Soldiers'
Deputies, which was in operation when I was in
Russia, may serve as an example of how the
urban units of government function under the
Socialist State.

It consisted of about 1,200 deputies, and in normal circumstances held a plenary session every two weeks. In the meantime, it elected a Central Executive Committee of 110 members, based upon party proportionality, and this Central Executive Committee added to itself by invitation delegates from the central committees of all the political parties, from the central committees of the Professional Unions, the Factory Shop Committees, and other democratic organisations.

mittees, and other democratic organisations.

Besides the big City Soviet, there were also Rayon, or Ward, Soviets. These were made up of the deputies elected from each ward to the City Soviet, and administered their part of the city. Naturally, in some wards there were no factories, and therefore, normally, no representation of those wards, either in the City Soviet or

## THE STUCTURE OF THE SOVIET STATE

in Ward Soviets of their own. But the Soviet system is extremely flexible, and if the cooks and waiters, or the street sweepers, or the courtyard servants, or the cab drivers of that ward organised and demanded representation, they were allowed delegates.

Elections of delegates are based on proportional parties are represented in exact proportion to party—but also by the growth and activity of abolished for ever private title to land or the number of voters in the whole city. And it is political parties and programmes which are voted for-not candidates. The candidates are designated by the central committees of the political parties, which can replace them by other party members. Also, the delegates are not elected for any particular term, but are subject to recall

at any time. No political body more sensitive and responsive to the popular will was ever invented. And this was necessary, for in time of revolution, the popular will changes with great rapidity. For example, during the first week of December, 1917, there were parades and demonstrations in favour of the Constituent Assembly-that is to say, against the Soviet power. One of these parades was fired on by some irresponsible Red Guards, and several people killed. The reaction to this stupid violence was immediate. Within twelve hours the complexion of the Petrograd Soviet changed. More than a dozen Bolshevik deputies were withdrawn, and replaced by Mensheviki. And it was three weeks before public sentiment subsided-before the Mensheviki were one by one retired and the Bolsheviki sent back.

#### THE SOVIET STATE.

At least twice a year delegates are elected from all over Russia to the All-Russian Congress of Soviets. Theoretically these delegates are chosen by direct popular election; from the provinces, one for each one hundred and twenty-five thousand voters-from the cities, one for each twenty-five thousand; practically, however, they are usually chosen by the provincial and the urban Soviets. An extraordinary session of the Congress can be called at any time upon the initiative of the All-Russian Central Executive Committee, or upon the demand of Soviets representing one-third of

the working population of Russia. This body, consisting of about two thousand delegates, meets in the capital in the form of a great Soviet, and settles upon the essentials of national policy. It elects a Central Executive Committee, like the Central Committee of the Petrograd Soviet, which invites delegates from the central committees of all the democratic

This augmented Central Executive Committee of the All-Russian Soviets is the parliament of the Russian Republic. It consists of about three hundred and fifty persons. Between All-Russian Congresses it is in supreme authority, but it mus not act outside the lines laid down by the last Congress, and is strictly responsible in all its acts to the next Congress.

For example, the Central Executive Committee can, and did, order that the peace-treaty with Germany be signed. But it could not make this treaty binding on Russia. Only the All-Russian Congress had power to ratify the treaty.

The Central Executive Committee elects from its midst eleven Commissars, to be chairmen of committees in charge of the different branches of Government, in place of Ministers. These Commissars can be recalled at any time. They are strictly responsible to the Central Executive Committee. The Commissars elect a chairman. Ever since the Soviet Government has been formed, this chairman-or Premier-has been Nicolai Lenin. If his leadership were unsatisfactory Lenin could be recalled at any moment by the delegation of the masses of the Russian people, or in a few weeks' time directly by the

Russian people themselves. The chief function of the Soviets is the defence and consolidation of the Revolution. They express the political will of the masses, not only in the All-Russian Congresses, for the whole country, but also in their own localities, where their authority is practically supreme. This decentralisation exists because the local Soviets create the central Government, and not the central Government the local Soviets. In spite of local autonomy, however, the decrees of the Central Executive Committee, and the orders of the Commissars. are valid throughout all the country, because

they are in favour of the Soviets, but against the own agricultural needs, but should also some Bolsheviki. This is an absurdity. The Soviets and make a valuation of the landed established are the most perfect organs of working-class But when these Land Committees attempted representation, it is true, but they are also the function, the landlords had them arrested. weapons of proletarian dictatorship, to which all When the Soviet seized the power, its anti-Bolshevik parties are bitterly opposed. So action was to promulgate the Decree of the I the measure of the adherence of the people to the This Land Decree was not a Bolshevik policy of proletarian dictatorship is not only at all, but the program of the Right (or moder measured by the membership of the Bolshevik Socialist Revolutionary party, drawn up on party—or as it is now called, the Communist basis of several hundred peasant memorials

The most striking example of this is among Land Committees the task of apportioning the peasants, who did not take the leadership of land among the peasants, until the Constitute the Revolution, and whose primitive and almost Assembly should finally settle the question exclusive interest in it was the confiscation of the After the dissolution of the Constituent Assemble administrators of many industrial plants great estates. The Soviets of Peasants' Deputies the Decree was made final. at first had practically no other function except Outside of these few general propositions the solution of the land question. It was the a section providing for the emigration of sural failure of the land solution under the Coalition population in congested neighbourhoods Government which turned the attention of the details of confiscation and distribution were great mass of peasants to the social reasons entirely to the local Land Committees. Kalagaran behind this failure—that, coupled with the the first Commissar of Agriculture, drew up as cases engineers and book-keepers, the ceaseless propaganda of the left wing of the elaborate set of rules to guide the peasants in the found themselves faced with the alterna-Socialist-Revolutionary party, and of the Bol- their action. On the other hand, peasants hangs a map of Russia, sprinkled with red-headed farm co-operatively are given credit, seeds pins. Each of these red-headed pins represents implements and modern technical training. a Soviet of Peasants' Deputies. When first I saw Attached to the Land Committees are agricultures, and so forth—to work for us /" that map, hanging in the old headquarters of the cultural and forestry experts. In order to co Peasants' Soviets at 6 Fontanka, the red points ordinate the practices of the local Committee were sprinkled sparsely over the vast country, a central body is elected from them, known as the nor did their numbers grow. For the first eight Main Land Committee, which sits in the capital months of the Revolution there were volosts, in close touch with the Commissariat of uyezds, whole provinces in fact, where only one culture. or two large towns would show a Peasants' Soviet, and perhaps a scattering of villages. After the November revolution, however, you could see all Russia redden under your eyes, as village after village, county after county, province after

province, awoke and formed its Peasant Council. At the time of the Bolshevik insurrection a Constituent Assembly with an anti-Soviet majority could be elected; one month later it would have been impossible. I saw three All-Russian Peasant Conventions in Petrograd. The delegates arrived -the vast majority of them Right Socialist Revolutionaries. They met in session-and very stormy sessions they always were-under the presidency of conservatives of the type of Avksentiev and Peshekhanov. In a few days they would move to the left, and be dominated by pseudo-radicals like Tchernov. A few days later the majority would become very radical, and Maria Spiridonova would be elected chairman. Then the conservative minority would split off and set up a rump convention, which in a few days dwindled to nothing. And the main body would send delegates to join the Soviets at Smolny.

This happened every time. I shall never forget the Peasants' Conference which took place toward the end of November, and how Tchernov fought for control and lost it, and that wonderful procession of grizzled proletarians of the soil who marched to Smolny through the snowy streets, singing, their bloodred banner floating in the bitter wind. It was a dark night. On the steps of Smolny hundreds of working-men were waiting to receive their peasant brothers, and in the dim light the two masses, moving one down and the other up, rushed together and embraced, and wept, and cheered . . . .

#### LABOUR UNIONS.

Labour Unions in Russia, as at present con the private factories, too, the shop comstituted, are less than twenty years old. Before were the product of necessity. After the the Revolution of 1905 there was very little economic organisation among the workers, and the middle class and the proletarian organi that was illegal. During the Revolution of the actual paid membership in the Professional industrial capitalists began to be afraid of the Unions was about fifty thousand, and the reaction mg power and ambition of the workers

of 1906 outlawed them utterly. The Russian Unions are an artificial develop at the land committees, and the officers ment. They were designed by intellectuals, who soldiers' committees and Soviets. Along made a scientific study of the labour organisation at the first part of June began the more or less in other countries, constructed on paper the ideal sious campaign of the entire bourgeoisie to halt labour union (in this case, a combination of the Revolution, and break down the democratic French syndicats with the German trade-unic misations. Beginning with the Factory Shop system), and applied it to Russia. The Russia mittees, the industrial owners planned to unions, however, are industrial unions of the a clean sweep of everything, including the broadest kind-for example, in a cannon-factory his. The army was disorganised, supplies the carpenters who make the gun-carriages ar members of the Metal Workers Union. membership of the Unions grew to more than hard their grain, and provoked to disorders. two hundred thousand. Five months later the number of organised men was over a million and two months after that more than three

### SOVIET DECREES.

THE DECREE ON PEACE. Accepted unanimously at the meeting of the All-Russian Congress of Soviets of Workers', Soldiers', and Peasants' Delegates, October 26th,

The Workers' and Peasants' Government created by the revolution of October 24th-25th and supported by the Soviets of Workers', Soldiers', and Peasants' Delegates, proposes to all belligerent nations and their governments to commence immediate negotiations for an equitable democratic peace. An equitable, democratic peace is desired by the vast majority of the exhausted, and after the overthrow of the monarchy was most long, stubborn, self-disciplinary work in the Government, while many of those who did war ravaged workers of all combatant countries, insistently and decisively demanded by the creation of working-class organisations which committed sabotage, destroying the work which Russian workers and peasants. According to the are a worthy example to the workmen of the they were appointed to conserve and extend. Russian Workers' and Peasants' Government an whole world—all these models of working-class Editor. 'Workers' Dread Nought.'] equitable democratic peace is an immediate peace heroism and historical creation should serve as a The Government of the Soviets of Works without annexations, that is to say, without the guarantee that the workmen of those countries Soldiers', and Peasants cannot and does not without annexations, that is to say, without the guarantee that the workmen of those countries Soldiers', and Peasants cannot and does not without annexations, that is to say, without the seizure of foreign lands, without the forcible will understand the duty lying on them to deliver to proceed, in the determination of its nor annexation of foreign nationalities, and without humanity from the horrors of war. These same relations to the employees and workmen of the payment of indemnities.

# IMPRESSIONS OF RUSSIA.

An Extract from a Verbatim Report of gave up all the munitions there without firing a Conversation with Albert Rhys a gun. Williams.

(With acknowledgements to 'The Liberator' of New York.)

MR. WILLIAMS: No, I don't think they need the excuse to-day of wiping out German influence in Russia. It is wiping out the Bolsheviki, and no excuse is necessary. They are talking about taking the army over there after peace is made.

peace."

says we have entered upon an era of wars that little things that were any good. There was stories are to me merely vapid falsehoods. will last fifteen years-wars and social revolu- some scheme for getting American technical tion. And Lenin is a great prophet among the experts out there-he was always harping on Bolsheviki. They always say; "We vote that. The best thing about Lenin is that he against him in the secret conferences, and then is a realist. Instead of trying to get you over we find he is right. Lenin insisted that the to his side of the game, and get your support first thing to do was to get Kerensky and arrest for his party, he will say, "The points for us him. We said: 'No,' and course he was right are 1, 2, 3, 4; and the points against us are as usual."

look like him?

looks more like a nice bourgeois-the mayor always explaining to the people just how many of a small French city. He does not impress chances they had of existence-just what the you very much at first. He is stocky, rather inclined a little bit to be robust, but gives the impression of solid strength; always talks with his face right up near you; the most courteous man I think I ever met in my life-and, of course, his enemies call him the most vitriolic. I presented him when I first came, at the time of the uprising, with my credentials from the Socialist party. He kept them for about an

was at the Constituent Assembly, and he was rather bored with the whole thing, and, instead

in him. Q. You did learn it?

with him. Another time was when the Germans were driving on Petrograd. You see, I had stood up on that armoured car and said that I would join the Red Army and fight with the proletariat if the Germans came, and, having made speeches to that effect all over Petrograd, I could not very well crawl. And so, when the Germans came within two hundred miles of Petrograd, and most of the Americans and the whole foreign crowd left town on one excuse or another, I had to stay! I really could not think of any good excuse! So I went up to join the Red Army, and on the way I met Bucharin, who wanted to prove to Lenin that there was a great deal of fighting force left incident. If he had been cunning at all he there. He hustled me up to Lenin, to prove would have got me to lug this one hundred that here was the whole foreign community thousand rubles up, and just led me on a little, ready to join the army! Lenin said, "We and said, "Yes, that is very interesting," &c., have no fighting force. The people at Pskof and then he would have got me right in the act

"We ought to have the President of that Soviet shot on the spot," he added.

Well, Lenin gave me a note to Krylenko, and then he got very much interested in the International Legion I was forming to fight for the Revolution and the Soviet. After that I generally had access to him. And, of course, I was always thinking that the Revolution was going to fail every ten minutes, and I would get up elaborate schemes for injecting a little MRS. STOKES: There "ain't going to be no new life into it. He never would reject them, tegrity, having such honesty, even about life absurd as they often were, but I can see now Mr. WILLIAMS: Not if Lenin is right. Lenin how he took out of that mass of stuff the only brought up as bourgeoisie—that all the 1, 2, 3, 4." He said to me, "Three months, Q. Did you see this portrait? Does this it looks as though we can hold on now "-March, April and May-he was figuring it all A. That makes him look like a wolf. He up-"unless something big happens." He was chances were of their going down; he never injected one note of bluff or voodooism.

Q. Was that the Trotsky appeal? A. Trotsky was always more inclined to see things red and rosy and glorious. I had a good

many experiences with Trotsky, too, -one very lurid experience.

I will tell it to you, to give you a little sidelight on Trotzky. Trotzky had just written hour, and gave them back to me but wouldn't some great appeal to the working-men of the give me a pass on the basis of them. world. Raymond Robins read it, and he said, The second experience I had with him was "That ought to go into Germany. I'd put in Michaelovsky Manege, when he was making down one hundred thousand rubles this moment a speech from the top of an armoured car. to put a speech like that into Germany." When he finished he asked me to speak to the I went up to see Trotzky-I had spoken on the crowd. He talks English very well, and he same platform three days before in the Novemsaid, "I will be your interpreter." "It is not ber uprising, so I knew him pretty well. He necessary," I said, "I will try in it Russian." said: "Come right in." I said a few general And so I tried in Russian, and whenever things, and I had to talk in German because I floundered he would throw me up a word. he speaks hardly any English, and my German the Bolsheviki. They were ready to me Well, from that time on, I began to have a is not very fluent-luckily. In talking to him many concessions to Americans. So t pleasant relationship with the man, and he got I spoke about Robins, how enthusiastic he was -" why he would give one hundred thousand The next time I had a little talk with him rubles to put that paper into Germany!" He was sitting there,—you know Lenin always treats you in a sort of little, incidental, humorous of trying to urge me to work for the cause, way; but Trotzky has more of a ministerial he began to ask how I was getting along with attitude, due to his sense of revolutionary the language. He became excited about it- dignity. I repeated to him, "One hundred got himself all worked up, in fact, about my thousand rubles!" He just simply let a learning Russian. That shows how human siren shriek out of him! Then he talked, very and sympathetic he is. He had the simplest fast; I understood him to say that Robins gave and most ingenious devices for learning it, too. two million rubles to Breshkovskaya, in order I remember his saying: "Don't talk with any to put patriotic dope into the people, and was Americans. It won't do you any good any- now trying to bribe the Bolsheviki,—and that way!" He always had a little touch of humour he was using me as a medium for it. He called the guard—an honest little sailor and soldier-and delivered a terrible speech in A. I learned it fairly well. That was the Russian; the word "Breshkovskaya" came in second time I had any personal conversation every moment, and I understood enough to gather that, after having worked for the Bolsheviki from the time I arrived there, because I saw they were the only party that could save the people from ruin, I was going to be sent to prison! I grabbed him by the arm and made him sit down in a chair and we talked for an hour. "The Americans believe that they can do everything with money," he said-"this man for a hundred dollars, that man for a thousand and some other for a million."

Q. You convinced him that he had mis-

understood you?

A. Naturally. Now, of course, I don't need any further proof of his honesty than that

and grabbed that one hundred thousand rubl and then he could certainly have had so great meeting-showing the American perialists at work. But his instinctive revo tionary honour and integrity is over-sensiti He couldn't do that sort of thing. That only an example. But that is why I s from what I know of these men-fellows I Volardarski and Neibut and Peters, men v are mentioned in those Sisson documents I found them in my personal relationship w them so absolutely square, having such things, so much more than we have who we

Q. Who is the popular one, Lenin or Trotzk A. Lenin didn't get much applause at time I heard him speak; I suppose the peop were tired of waiting eight hours, and beside he gave them a very general and abstract speed Trotzky's speeches were always metallic, always full of pep and wonderful stuff. Robins s Trotzky was the greatest platform orator had heard in twenty years.\* Of course, revolution got Robins; although he alway maintained he was not a Bolshevik, they I faith in his honesty and integrity-and thought Lenin the greatest man in Russia.

But Lenin does impress you in the e He works eighteen hours a day. He is ner tired. He is always sane, always reasonal always has a smile, always courteous, and has such an amplitude of knowledge. example, he asked me about the two divisi in the Socialist Propaganda League in United States-in other words, about cert currents in our own Socialist movement. I did not even know existed! He knew eve fine point of distinction between the Socia Labour party and the Socialist party.

And he knew a whole lot about psycholo It is easy enough to make a god of your h but Lenin really does deliver the goods.

Q. When did you see him last? A. I saw him the day I went away. At the particular time the Americans were playing very good there, and America stood high w allowed me to collect a lot of literature to ta to America; and they also prepared a movin picture reel, showing the creative and artist side of the Socialist revolution, and printed these in English—they spent hundre of thousands of rubles on these reels to s America-

Q. What became of them?

A. Oh, well, of course, they were ne allowed to come over. Lenin knew it wo happen. He said, "I'm afraid they w allow this literature to get into America. pretty bad literature, really." That is the time I talked with him.

Q. Did he give you any message to deliv to American Socialists?

A. Well, I asked him if he had any messe and he wrote me a letter. I will give it The Liberator as soon as I get my papers in the State Department.

\*Raymond Robins was the head of the American Red Cron an unofficial representative from the United States Government the Bolsheviki.
