DIVES AND LAZARUS.

Did you ever hear of Dives, Who lived in Palestine? A marvellous rich man was he, Well clothed in superfine, His table groaned with wealth of food, His wines by gallons ran, No wonder he grew sleek and stout, Just like an alderman! Another man named Lazarus, Homeless sick and poor, In hopes to beg the rich man's crumbs, Lay at the rich man's door. He heard the sounds of mirth within, But not a friend had he, Except the dogs who licked his sores In silent sympathy.

You will think this very very strange, But then, of course, you know, It was in a far-off country, A long, long time ago. Now Dives daily feasted and was gorgeously arrayed,-Not at all because he liked it, But because twas good for trade. He fed 500 servants That the poor might not lack bread, And had his vessels made of gold That they might get more lead, And e'en to show his sympathy With the deserving poor. He did no useful work himsen, That they might do the more.

You will think this very very strange, But then, of course, you know, It was in a far-off country A long, long time ago.

But now at length poor Lazarus grew
Too weak with death to strive.
He evidently was not of the fittest to survive.
So on one frosty night, about a quarter past eleven,

He looked up at the silent stars, then died and went to Heaven.

Now Dives too was waxing old, and presently

Whereon a lawyer was called in to make a mighty will.

And as his friends were gathered round To hear his last farewell, He bade them follow in his steps, Then died and went to Hell.

I don't think God would venture now To treat a rich man so, But this was in a far-off land, A long, long time ago.

The German Ignominy.

To Trade Unionists and Proletarians.

Translated from the "United Front," the Organ of the German All-Workers' Union.

We have in Germany an enormous indifferent and reactionary mass, as monstrous as, during the war, one imagined the Russian steam roller to be. This mass is the organised Trade Union and party-ridden proletariat. Individually these workers are most good-natured and mentally lazy; collectively they are trusting, easily led, and politically at the A. B. C.

By means of this giant steam-roller of Germany, a highly efficient professional leader-ship, which is fully aware of what it is about, has crushed down every freedom-loving movement.

Let us examine more closely the policy of the Trade Unions and working-class political parties. Who was it that held back the masses from action before the signing of the Versailles Peace-Treaty? The Trade Unions and political parties.

Was it not precisely the United Socialist Party which cried out most loudly for the signing of the Peace Treaty? Scheidemann's phrase: "Let the hand wither first," was nothing but a clever pretence. He wished to absolve his valuable self—superficially, be it understood—from responsibility; and to leave the actual signing to some politically indiscreet person. The Trade Unions and parties not only did nothing to make the signing appear shameful, they were even in favour of it.

French Capitalism has now put its hirelings in the Ruhr. Why do we grow angry now, instead of admitting that this is the consequence of our own conduct? Had we tried to prevent the Treaty of Versailles, as a mass of united workers, all foreign occupations and oppressions would long have been at an end. The revolution would have triumphed. Are not the protest demonstrations and strikes of those who agreed to the Treaty pure hypocrisy?

The soldiers have marched in and taken possession of what should belong to the proletariat. Everything has gone smoothly. There have not been wanting attempts of the workers against the ruling class. The only thing lacking was the call to the general strike by the Trade Unions; ut the "comrades in the Government and in the high official positions do not seem to wish it. The Communist Party-it is well known that its members are in the Trade Unions-demanded from the Trade Unions and Social Democrats the declaration of the general strike. The Communist Party hoped thus to force the resignation of the Cuno Cabinet, to dissolve Parliament, and—to be able to play at a "Workers" Government."

A Workers' Government, indeed! We have had enough of the "worker" Noske! What can a Workers' Government do? What can any Government do, any way?

Each Government can only do what is agreeable to the existing ruling class. A Workers' Government cannot do otherwise.

What is needed is the seizure of power by the proletariat. To provoke a general strike, for any other aim is a crime. . . When Kapp and his hordes appeared before the Brandenburg Gate, Ebert Scheidemann, and all connected with them, fled to Stuttgart.

Very courageous that! But there is better to follow.

It is a well-established fact that the Social Democrats and Trade Union leaders always describe strikes as nonsense. A general strike is, to them, general nonsense!

Yet as they ned to Stuttgart these heroes called for a general strike against the Capitalists who were supporting Kapp! The mass obeyed; the "Socialist" Government triumphed. Thanks to the general strike, those who had left their comfortable seats owing to lack of courage were able to climb into them again.

A portion of the working class, and certainly not the worst portion, was not pleased with this general nonsense; it wished to battle for Socialism through the general strike. That portion was in the Ruhr.

What did the Trade Unions and workers' parties do then? They called off the general strike. The strike was proclaimed to be wild: it was outlawed and excommunicated.

Severing and Walther went down to the Ruhr district. What happened then? Death and imprisonment for those who wanted to realise the ideals of the proletariat.

But the "comrades" once more had their comfortable places in the seats of the mighty. The leaders remained undisturbed to carry on a policy of reconstruction and reform, and the eat mass stood by piously with adoring gaze.

The present wage policy of the Trade Unions is a policy of resuscitation of expiring Capitalism. If the Trade Unions had not intervened to modify the fall in wages, the masses would long ago have come into ronflict with the exploiters and would have consigned them to a hundred devils. The Trade Union officials at the negotiating tables have maintained the barrier between slaves and slave owners. Through them all goes smoothly forward without conflict. There is an increasing amount of paper money, for which one receives less and less, and-that is the main point—one is quiet and waits. The Trade Unions will soon accomplish it, one is assured; there will soon be more again. O unconquerable folly!

All the same, our experiment has more than justified itself, and we are enjoying ourselves immensely. Only when the community did justice 45 Capital and Labour alike had the community the right to impose responsibilities of service upon Capital and Labour alike. The working man, he thought, was largely impersonal in his view, looking upon capital and not upon the capitalist. What was the suggestion for bridging the gulf between Capital and Labour? Capital must take labour into its councils as co-operators. It was only when an employer got the whole of a man's personality working for himsoul and mind, as well as muscle—that he got fine work. When working men began to have their brains trained, the separation between the functions of capital and the functions of labour became not merely an economic difference, but an intellectual and moral difference. The ideas of humanity came in; the worker began to feel that he is a man. He would like to feel that he was a co-operator not simply in the getting of, say, coal, but in the whole marketing of it. That was the moral basis for what was called nationalisation. . . . He regarded Trade Boards as a very good experiment. What they had to do was to modify the Acts by experience, so that they could enthuse their goodness into all the relationships affected by them. If they failed in that, then there was nothing left but revolution. But he, not being a red peril man and having no belief in force, relied on the value of man's intelligence. He thought the Whitley Councils had failed through lack of trust on both sides. . . . He ked neither the lock-out nor the strike. They could not solve things that

It is an odd sort of amendment to have interfere. been framed by a Labour, not to say a Socialist, Party. Mr. Snowden, who seems to have no doubt as to the permanence of Capitalism, complained that it will take 150 years to pay off the National Debt at the present rate. The National Debt is owing to average wage per shift of all classes of workers the wealthy people whom Mr. Snowden complains made themselves £4,000,000,000 richer during the war. Mr. Snowden wants heavier estimated at 9/11. taxes or a capital levy, so that those very rich persons may have the debt repaid to them following figures:

present Budget.

The super-tax payers with incomes over £5,000 a year get, on the average, £300 a year each in reduced taxation from the present Budget.

A single man with an earned income of £250 a year will get relief to the extent of £1 2s. 6d. A single man with an unearned income will get £1 8s. 9d. relief. A single man with £500 a year earned gets £5 1s. 3d. relief. A single man with £500 a year unearned gets £6 6s. 3d. A childless couple with £500 a year earned get £2 16s. 3d. relief. If the income is unearned they get £2 6s. 3d. tax reduction.

The 6d. in the £ income-tax reduction does not operate on the incomes under £7,000. Married people without children and an income of £500 a year only get a reduction of 11d. in the £. Married people with three children and the same income only get a reduction of 3d. in the £.

The fact is, the ameliorations introduced to. palliate the conditions of the income-tax payers are now being withdrawn.

The profits of 406 companies analysed by the "Economist" showed £28,000,000 profit in 1921, and £41,000,000 in 1922. Wages. however, have fallen by £7,000,000,000 in the last three years. The cost of living is still 74 per cent, above pre-war level. The wages of ship-joiners are only 27 per cent. above the pre-war level, shipwrights only 18 per cent. above, riveters 20 per cent. above. Lesson 19.

Mi lavas min, I wash myself. Vi lavas vin, you wash yourself. Li lavas sin, he washes himself.

Note that in the third person (he, she, it, they) we use si. Another way of expressing the idea in the last sentence would be to say, Li lavas al si la manojn (aŭ la vizaĝon), he washes ("to himself") the hands (or the

Ni lavas nin, we wash ourselves.

Ili lavas sin, they wash themselves (or ili

lavas al si la manojn aŭ la vizaĝon). The first thing to note about si is that it is always used in the third person only (i.e., with li, he (a man), ŝi, she (a woman), or gl, it (an animal, thing or child); it is not used with the first and second persons (i.e., mi, I; ni, we; and vi, you).

The second and essential thing to notice is that si always relates to the subject of the sentence. (In the above examples, sin relates to li and ili respectively.

Now note the difference between Ili lavas sin, they wash themselves, and Ili lavas ilin, they wash them (the babies, for instance!). In the latter case, the word ilin does not stand for the same persons as ili.

Si, which is called a Reflexive pronoun, may be made into a Possessive adjective by adding -a; thus, Si lavas sian infanon, she washes her (own) child; ili lavas siajn infanojn, they wash their (own) children. Si lavas sian infanon, means, She washes her (another woman's) child.

Finally, note that si or sia cannot form part of the subject of the sentence; thus, in a sentence like Lia vizaĝo radiis pro plezuro, his face radiated with pleasure, where the word lia vizaĝo forms the subject, we could never found wanting when a decision has to be (Lab.), who explained that in the provinces have "sia vizago," for the reason that sia made, protested that he had not understood which used to belong to Austria-Hungary all is essential reflexive—i.e., it "bends back"

Mem, self, is a word expressing emphasis; thus, Mi mem, I myself; li mem, he himself; Mem-stara, "self-standing," means independent (one may also say sendependa).

CORRESPONDENCE.

To the Editor.

I have been charged under section of the Lord's Observance Act, 1838, that I did wrongfully and unlawfully sell copies of a certain newspaper, called the "Workers' Dreadnought," for the sum of one penny sterling.

The Court literally teemed with police and detectives. As far as the public is concerned, it was crowded to suffocation; doorways and

windows were all crowded.

Prior to the hearing of evidence, I stated I wished to take exception to the summons on the ground that the Act of 1838 did not apply to newspapers, because at that time newspapers were not offered for sale in the streets of Cape Town. I also put in a plea that the newspapers were sold from the railway bookstalls. The objection was overruled. The prosecutor laid the 'Workers' Dreadnought, pinned to various legal documents, on the table of the Court.

Detectives gave evidence that the "Workers' Dreadnought" aims at destroying the Parliament system of government by revolution and force, and is circulated among both Europeans and non-Europeans through-

out the Union.

In my defence I said: "The prosecution is a class prosecution, and aims at striking a blow through me at the Communist Party to stop the circulation of the paper amongst the workers. It is not a matter of profit as tar as selling is concerned. If a purchaser of the paper did not wish to retain it after reading it, we were prepared to refund the money. If a worker has no money to buy the paper, he gets a copy gratis. . . . The paper teaches pure Communism."

The Magistrate held that I had contravened the law, and fined me 10/-. A collection took place in the Court, and the fine was paid. The Empire is saved for Bolshevism.

You and the Prime Minister.

The King has called another Prime Minister, fellow-worker; but you are decidedly out of it. This country is supposed to be democratically governed; but what say have you had in making Mr. Baldwin Prime Minister?

What will the pale Mr. Baldwin do for you, fellow-worker, now he is Prime Minister? The editor of the "Daily Herald" says Mr. Baldwin has gained a reputation for soundness of judgment," 'kindliness," 'honesty," "a real desire to secure both better conditions at home and peaceful, friendly relations abroad."

Wait a bit, fellow-worker, amongst whom has the pale Mr. Baldwin acquired that reputation? Why, amongst the Tory Capitalists, of course, and in the "best club in London, the House of Commons.

You do not belong to that Club, fellow-worker, and you are not a Tory Capitalist. What does Mr. Baldwin look like to you?

The "Daily Herald" has published an article on the new Prime Minister "by one who knows him." That is an interesting article, fellow-worker. You must disregard the headlines: "A Strong Force in House of Commons," "His Pipe and Pigs," "Ambition Fulfilled," and all that sort of thing; read turther, and observe:

"He succeeded to the family interest of Baldwins, Ltd., the great steel firm with works in Wales."

Like Mr. Bonar Law, the new Premier is a representative of Big Business and an ironmaster; we are still in the clutches of the iron and steel kings.

"A real desire for friendly relations abroad," says the "Daily Herald." "Herald" tell that to the Marines! Which is the branch of Big Business that benefits most by war? Mr. Hamilton Fyfe, late of the "Daily Mail," has learnt very thoroughly the art of writing with his tongue in his cheek.

Mr. Baldwin, your new Prime Minister, is a nominee of the Tory Die-Hards, and his interests are those of the Die-Hard clique.

The Government is the Executive Committee of the big Capitalist interests, and they have picked out Mr. Baldwin as a man whose business instincts are of a quality well fitted to serve them.

Consequently, fellow-worker, you must look out for further reductions in wages relative to the cost of living, more coercive treatment of the unemployed, and shorter rations for them, and a more aggressive imperialism, with preparations for another Capitalist war. The French are having a great adventure in the Ruhr. The British Imperialists will not allow themselves to be outdone by the French; they are preparing a big move further east. Big Business intends to be bigger, and with Mr. Baldwin acting as its executive servant, Big Business intends that you shall be the tool.
