NOT AUTHORITY; BUT CO-OPERATION.

Vol. X. No. 29.

October 6, 1923.

WEEKLY.

The Big Stick in Poplar

Who Called in Police to beat Unemployed?

Upwards of forty people badly hurt, hundreds of slightly wounded cases

Much has been said and written of love and hate and violence in Poplar. One thing stands out clearly: it is that the result of working-class representatives taking part in the administration of capitalist machinery, is that working-class representatives become responsible for maintaining capitalist law and order and for enforcing the regulations of the capitalist system itself.

The Labour Guardians, who hold all the seats on the Board save two, have deducted the is. 6d. a week coal allowance, and are contemplating a reduction in the scale of relief, though the winter is approaching and the cost of living rising rather than falling.

The Deputation.

On Wednesday, September 26th, a deputation of the Unemployed Workers' Organisation waited have taken such action. Guardians have been

upon the Guardians to ask for the restoration of the coal allowance and an increase in the scale of relief to single men and women.

Relief to be Reduced.

The Guardians refused both requests, and Mr. Edgar Lansbury, Chairman of the Board, told the deputation that a reduction in the scale of relief is being considered in order to reduce the call on the ratepayers by £85,000.

Guardians Locked In.

Thereupon the Unemployed locked the main doors of the building and told the Guardians that they must remain for the night unless they would reverse their decision.

This is not the first time the Unemployed

locked in many times before in Poplar and in other Boroughs. The Unemployed officials declare that Mr. George Lansbury and other members of the Board have in the past expressed approval of such tactics; but if that is so it was no doubt in the shape of platform perorations not intended to be taken too literally. Certainly the Board resented the locking in on this occasion, and, though some of them are members of Parliament, accustomed to all-night sittings at Westminster, and others hope to be, they were not willing to make this sacrifice of comfort to oblige the Unemployed.

Some two hundred Unemployed were in the building, and about twenty were inside the Boardroom with the Guardians. A few were in the public gallery. The rest of the two hundred were downstairs in the entrance hall of the Guar-

dians offices.

A crowd of men, women, and children were outside.

At this time it seems that the Board meeting came to an end and that it was decided there should be no further business done by the Board that night. The Labour members, who form the great majority of the Board, remained wrangling with the Unemployed.

Police Refuse to Enter.

The Unemployed assert that Mr. George Lansbury went downstairs and broke a fanlight, saying that that would be the signal for the police to break in. The police did not come in. The "Daily Herald" and the rest of the press assert that the police refused to enter without a written order from the Guardians.

The Ambulance.

Comrades Bellamy, Johns and Gape spoke to the crowd outside from the Board-room window. Presently a London County Council Ambulance drove up. The summoning of the Ambulance was a gruesome act, whoever was responsible for it. It proves that the local authorities expected and also intended that people should be wounded. This is a borough "where Labour rules!" Noske and his tactics are undoubtedly to have their counterpart also in this country. It is strange that the lesson should first be given in Poplar. Seeing the ambulance. Comrade Bellamy said, "We don't want that yet '; but the police began to beat the crowd of men, women and children with their truncheons.

Who Sent for the Police!

Meanwhile certain Labour Guardians were clamouring for the police to be sent for to break into the building, release the Guardians, and clear out the Unemployed.

As to what happened then there are different yersions. The "Daily Herald" says:

"When the police arrived, in response to a telephone call, they declined to force an entry to the building, without written authority, and some time elapsed before the Guardians decided to give this.

The "Daily Telegraph" report agrees with that of several other papers. It states that Alderman John Scurr, Mayor of Poplar, a magistrate, and a Guardian, took the chair, "and it was decided to give the police requisite authority."

The members of the Unemployed organisation say, as the "Telegraph" does, that Mr. Edgar Lansbury was willing that the police should break in the doors, but not that they should enter the building. The Board meeting, they say, came to an end, and Mr. La isbury, left the chair. Then the Labour member of the Board

BROTHERLY LOVE.

held a meeting. Mr. Scurr, Mayor of Poplar The Terrible Queue. (I.L.P., Theosophist, etc.), took the chair. Mr. A. A. Watts (Communist Party of Great Britain) moved, and Mrs. Scurr seconded, that authority be given to the police to come in. The Unemployed say that this motion was carried. They add that Mr. Scurr then wrote a note to the police, which was thrown through the window by one of a group of Guardians: Mr. Watts, Mr. Partridge and Mrs. Scurr, who were standing at the window. The police inspector was seen to read the note.

Mr. Edgar Lansbury, questioned at a Bow Baths meeting the following Sunday, did not give a clear account of the facts. He did not know whether a vote was taken on the motion of Mr. Watts; he was speaking against it, he deny that the police had had authority given to them by the Board, by Mr. Scurr, or someone else to enter the building, nor would he admit it.

Police Break In.

All other reports agree that the police were summoned by the Guardians. The police then broke the window and climbed into the waiting- beaten enough. room below the Board-room.

lamy to go downstairs to the Unemployed and ask them whether they would open the doors and go quietly, or be batoned down by the police. who were being driven out. He said that they would be given a quarter of an hour to make their decision. Mr. Lansbury said: "Someone has telephoned to the police." This was before the note was sent.

Comrade Bellamy went down to deliver the message to the Unemployed, who were all unarmed, and had come to the Board meeting, expecting no violence would result. He had scarcely left the Board-room, when the police

A Terrible Scene.

on the unarmed people in the building, beating as he passed, struck him again on the back of them cruelly with their truncheons. Not only members of the Unemployed organisation were and Burles fell upon him. By falling, Burles ill-treated, but also individuals who had come independently on their own special cases. Numbers of men were felled to the ground and lay bleeding.

"George, Can't You Stop It!"

Men rushed to Mr. George Lansbury, crying: 'George, can't you stop it?"

Mr. Lansbury spurned them: "They have asked for it, and now they will get it. It will be a lesson to them," he answered.

Mrs. Scurr shrieked at Comrade W. Gape, who is only about twenty years of age, and has tially crippled with rupture. He is recently out lived in the borough about two years: "You of hospital and still attending as an out-patient. go back to Hendon, Gape!"

dians: "You have 'phoned for the police, now threw him to the ground. His arm was injured;

Mr. Lansbury answered, as though inciting the police to seize him: "You are one of the the head.

unemployed: go with them." "I know," replied Bellamy, "what I shall get when I go outside. I am ready to face it."

to head and legs. Yet it was Gape who had found unconscious. taken off his cap and respectfully begged Mr. Lansbury to intervene to stop the scene of bru- "To see Dr. O'Brien," one of them answered. that he may have an opportunity of defending tality taking place downstairs.

"Sit Quietly."

Lansbury told the men in the Board-room that comrade was jostled away by the police, and proved, or Mr. Lansbury must apologise. they should sit down quietly, and no harm neither of them saw the unconscious man again. Mr. Isley is but one of many who are bitterly would be done to them. The Unemployed re- Rose Bowler, of 44, Bargrove Street, saw an assailing the Labour members of the Poplar lied on this assurance and, considering them- unconscious man lying on the ground. She local authorities. selves overwhelmingly out-matched, they offered attempted to raise him, but a policeman struck no opposition to the entry of the police. Had her in the face with his hand and drove her away. they foreseen what was to happen, they declare Numbers of wounded people were unable to Several men are still in Poplar hospital and they would have used their position of vantage, reach the hospital, or afraid to attempt it. Many in the Sick Asylum suffering from injuries to preven police climbing in were taken in by the neighbouring residents, who received on September 26th.

Mr. Edgar Lansbury said at Bow Baths that he asked the police inspector to take the Unemployed who were in the Board-room out with him and see that they were not hurt. The Unemployed in the Board-room were told to go out after the inspector, and Mr. Edgar Lansbury One Shilling for X-Ray Treatment. accused those men of hiding behind the inspector, but whatever may have been intended by Mr. Edgar Lansbury, the men who followed the inspector were not spared the violence which befell their fellows. Freeman, who went out in the queue behind the inspector was seriously assaulted about the head, and is thought to have lost the sight of one eye.

Some Guardians have accused the Unemployed said, when the police came in. He would not of hiding behind the chair or amongst the Guar- to the Guardians' offices. dians. We do not think they did; but we do not know why an unarmed man should be blamed for trying to avoid a beating with a truncheon let the Guardians try a taste of it!

> The police continued beating the people as they went down to the door, and some of them would hold up the stairway till a man had been

Mr. Isley has written to Comrade Gape is also in hospital with injuries raised up a man unknown to them, whom they the secretary of the Poplar Labour Party de-

bathed and bandaged their wounds. They got home as best they could. Some of them, in cluding the Secretary of the Poplar branch the Unemployed Workers' Organisation, who was seriously injured in the head, were obliged go to hospital later.

One of the wounded was ordered an ex-ray examination at the hospital, and told that his must pay is. for it. Not having the money he went to Mr. Scurr, the Mayor, who had acted as Chairman of the Board of Guardians, and asked what the Guardians would do for him. Mr. Scurr gave the man a shilling and told him that as a peaceful citizen he had no business to have gone

Hundreds of witnesses are forthcoming, eager to testify to the action of the police and the Guardians on this amazing occasion. We have quoted only those sayings in the Board-room which a number of witnesses have corroborated without being present when the same statement were made to us by others. We have recorded only a few of the acts of violence on the part of the police reported to us. We have only given names where these were specially offered, as we know that some of the Unemployed are afraid of having their relief cut down.

The Unemployed who were present declare that many of the policemen were drunk. We are not surprised if it be found necessary t fortify men with strong drink, in order to prepare them to attack defenceless, unresisting people whose physique has been reduced by poor

We are making no charge against the police; our complaint is not against them, but against those who called them in to punish the people for having locked the Guardians in: our charge is against the Guardians.

The Unemployed declare that they were le into a trap by their confidence that they would not be subjected to violence with the sanction one whom they now bitterly call "Jesus Chris Lansbury," who preaches of love and forbear

On Thursday, September 27th, a deputation of the Unemployed waited upon the General Purposes Committee of the Poplar Borough Council to raise the question of Wednesday night's

A strong force of police was present, and the Council informed the members of the deputation that the police were ready to give them more o the treatment they had had the night before. The Councillors who are, of course, the same individuals who form the Board of Guardians, adopted a railing tone.

The Unemployed complain that Mr. George Lansbury belittled Soderberg, a Swedish seaman, who is active in the Unemployed organisation, o the score of his being a foreigner. Many of Mr. Lansbury's old fellow Socialists protested against

Hiding Behind the Chair?

Mr. F. J. Isley, of 26, Lion Street, Poplar, an manding that Mr. Lansbury's attack upon his A policeman cried "Where are you going?" character be brought before the Party, in order "You want to see Dr. O'Brien? Well, you himself. He declares that Mr. Lansbury refused the employer for higher wages." shall see Dr. O'Brien!" the policeman answered. to remain for him to give his answer at the At the same time he struck the man who had time. He insists that no man is better than an-While the police were breaking in Mr. George spoken, who collapsed under the blow. His other, and that either the accusations must be

The Moral of it.

This is where participation in the administration of the capitalist system has brought the Labourists, Socialists, and even some who call themselves Communists, in Poplar.

But what could the Guardians have done?" someone asks.

The answer is manifold: the Guardians have put themselves upon an inclined plane which has led them to their present disastrous pass; many and worse incidents than those of September 26th are certain to follow.

What Could the Guardians Have Done?

We will take the points in succession, beginning with the end of the series. How might the Poplar Board of Guardians have avoided the ig- The Fighting Ranks. nominy of having beaten their unarmed neighbours; their poor, unemployed working-class neighbours, whose cause they are supposed to champion? Do not forget that it was the will of the Guardians, though the arms of the police, which thus cruelly assaulted the people.

How might the Guardians have avoided the

As they avoided it when the Unemployed locked them in a year ago, by making a virtue of necessity; by preserving an appearance, at least, of good nature; waiting quietly till the Unemployed themselves were tired of the siege.

Why did the Guardians submit on the last occasion, and call the police this time? Was it because on the previous occasion the Unemployed were more numerous and more militant in temper, and had made preparations for resisting attack from outside? Or did considerations party or policy play their part? Suppose the against them. well fed Guardians had spent a night on the not uncomfortable chairs of their Board-room, would that have been too large a price to pay o preserve the respect of their fellow workers in the proletarian movement of Poplar, to preserve some appearance of solidarity in spirit with

Was it your dignity and your vanity, that. were assailed, O Labour members of the Poplar Board of Guardians? Shall your dignity count when others are in need? Shall your dignity count when the class struggle is being fought? What would you say of the Liberals and the Tories had they thus preserved their dignity with

So to our first question and last point in our series we say the Guardians could and should have avoided the batoning by waiting quietly till the Unemployed were tired of the siege. On this occasion, at least, it would not have been long—as the Guardians knew—for the police were outside and the Unemployed had no provisionsnothing more than an all-night sitting was contemplated by the Unemployed.

Relief versus Wages.

further reducing the scale as they intend?

Mr. Edgar Lansbury answered this question at not wish to assist in maintaining the system. coming to the Guardians asking that their low shopkeepers. wages shall be made up to the relief level. Mr. Keyes, who spoke at the same meeting, said that to subsidise wages by Poor Law relief, would bring down wages in the long run.

realise that to lower the scale of Unemployment against the present system and to disrupt their relief will not tend to raise, but to lower the administration from within. Can it be that scale of wages. It is difficult to get men to the Third International has now changed its work for lower wages than the relief scale; policy, and that it now expects from its memlower the relief scale and you bring pressure bers the careful administration of the existing upon men and women to accept wages only a Government machinery, with every regard for little higher. Mr. Keyes claimed credit for the finance, in order that Capitalism may continue Labour Party in Poplar on the score that as long as possible? they have assisted the workers to refuse work at The Labour Party of Germany has again and Councils are abolished, trial by jury is abolished sweated wages precisely by paying a high scale again made itself the tool by which the shaken and replaced by military tribunals, and the priof relief. to reduce their wages, which was the test struggle of us to that fact. of the British working class at the beginning of the present wages slump, the Poplar Board of Guardians reduced the wages of its employees. and so lined up with the capitalist employers. The present reduction of relief in accord with falling wages merely assists in preparing the way for another fall in wages. What did the Poplar Labour leaders do to help the striking dockers to resist the last reduction in their wages?

But again, it is argued, the Guardians are reducing the relief because the Government insists upon it. Those of them who are Councillors have been to prison once for refusing to levy a rate, and they don't mean to go to prison again.

If that were the view of the Poplar Guardians and Councillors, their place would be out of the fighting ranks. Those who are not prepared to stand by their principles at any cost should retire from the struggle. The Unemployed protest that the action which led the Councillors to prison did not benefit them, but the ratepayers, especially the big ship-builders and manufacturers.

All the Guardians agree, we think, that the scale is already too low. They should refuse to make themselves responsible for reducing it. They of the left arm from the armpit down, and over should demonstrate with the Unemployed, not

Reformist Expedients.

Most of the Poplar Guardians are reformists: they are fond of preaching social regeneration by taxation. They have not explored what they might do by a great raising of rates in Poplar in order to mulct the big industrial concerns and a compensating Poor Law relief grant, or rebate on rates, to all the poorer part of the population. Such manipulations might be declared illegal but if the Poplar Labourists went to prison again in support of their ideas they would do excellent propaganda for their views.

We do not believe in the milennium via graduated rates and taxes, but those who do should seek every means of giving their views a trial.

Government versus Workers.

We have always declared that working-class representatives who become councillors and guardians assist in the maintenance of the capitalist system, and, sooner or later, must inevitably find themselves in conflict with the workers.

When the great slump in employment loomed into view at the close of the war was emphatically elbow. the moment when all those who desire a change Now as to the second question: Can the Guar- of system should have said: We refuse to accept dians restore the coal allowance and raise the responsibility for adjusting the difficulties which relief to single people; can they refrain from have been created by the system. October 1, 1923.

I have examined to-day the following persons and found on their persons the injuries mentioned in each particular case. All the injuries are recent ones.

1. Mr. William Bell, aged 59 years, of 353, Grosvenor Buildings, Poplar, boilermaker, out of work since 1919, has (i) a bruise on the back of his head on the left side, about the left superior occipital line; (ii) a bruise on the back of one hand, with a hard mass in it, which feels like fresh callus over a fracture of the middle metacarpal bone; (iii) a bruise over the left buttock; (iv) an abrasion over the lower part of the right thigh; (v) a bruise over the middle and lower portion of the inner surface of the left tibia; (vi) a bruise and abrasion over the back of the left elbow; and (vii) an abrasion on the top edge of the right ear.

2. Mr. John Bigden, aged 54 years, of 94, Suffolk Street, Poplar, labourer, out of work since 1921, has (i) a bruise over the whole length the top of the forearm; (ii) the lower end of the left humerus is bruised, with callus forming from the clot.

3. Mr. William Keen, aged 51 years, of 6, White Post Lane, Victoria Park, varnish maker, out of work 2 years and 9 months, has (i) a wound on the back of the head, and (ii) stiffness of the left deltoid muscle, giving pain with and limitation of movement at the left shoulder.

Mr. Arthur Thomas Peacock, aged 54 yrs., of 345, West Ferry Road, Millwall, plate puncher and shearer, out of work for a year, has a bruise on his head over the right parietal bone.

5. Mr. John Payne, aged 50 years, of 23, British Street, Millwall, general labourer, out of work for over one year, has an ecchymosis of the left orbit, with a wound on the outer edge.

6. Mr. James Murphy, aged 43 years, of 58, Augusta Street, Poplar, out of work since Dec. 1922, complains of acute pain over the spine of the scapula near the beginning of the acromion process, due probably to a slight local injury to the bone.

7. Mr. Charles Long, aged 50 years, of 28, Manchester Road, Cubitt Town, labourer, out of work for 16 months, has a bruise about the left

A Social Outcast

By TOM ANDERSON. (Proletarian Schools.)

She was a lowly proletarian, a woman about fifty years of age. Her face was weather-beaten and her clothes bore undoubted testimony to her social status. She was going through one of the ash-bins which are attached to every working-class tenement in Glasgow. They are known as the "midgy."

As I passed through the back court, she said to me, "I am looking for jewels."

"I am afraid," I said, "that the jewels are all locked up in the homes of the rich. "Well, well," she replied, "that may be so,

but then it is God's will." This reply gave me some food for thought, and so I said, if that is so, then He has made a very

bad job of it. She eved me as if to read my thoughts, and then she replied, "If it's not God's will, then it's

our ignorance.

"That may be so," I said. With that she picked up her bag, saying:

"No jewels to-day." I caught the words that she hummed, "No Saviours from on high deliver," as she passed out of the court.

Here was a "social outcast" hitting back in a way that no one could make a mistake about, and I raised my hat to her as one of the few "outcasts" I had met. To me she was a woman.

After she had gone, my brain kept working. This woman, I said, is a social "outcast." She was once a little child whom a fond mother loved, and nursed. She grew up as other children do, betwixt mirth and play. I pictured to myself her laughter, what it would be forty or more years ago. Then she went to school as we all do, and her little playmates and she had many splendid days: days of rain and sunshine. She becomes a young woman, and I could of an individual, but also of a political attitude. see her walking out with her lover, and she is The above lines were written, in Dutch, by Hen- sacrificed all which most men value in life to his Guardians on Wednesday night. all smiles, her arm is in his, and her eyes riette Roland Holst, Holland's greatest poetess, conception of what is right, and I bow to his in are speaking, and each of them are laughing. who is a member of the Communist Party of timate knowledge of conditions as they were in I see her at the dance, and she is all life, ever Holland, affiliated to the Third International. Between Two Worlds

TO FRIEDRICH ADLER. (Translated from the Dutch of Henriette Roland Holst, by Th. W. DE Witte.)

Once more I come to wrestle for Your soul, Friedrich Adler, to pray you that You may return to those whom you betrayed.

Behold-I'm not like many of my comrades: Cast of one gulp of red-hot metal; My being does not plunge to one side only Steep like a chasm down. I know my soul To be a land so full of cracks,-My spirit flows, by its own nature, Like water to all sides, my heart Is apt to take all forms like wax.

In one thing only I am strong and steady: I've heard the call of Life renewed, Which, snorting, rushes in with shocking hoof. I jumped on it and firmly cling On to its flying mane, and only this Is always in myself of everlasting steadiness. And through whatever terrors it may carry me, 1sm. I shall hold fast, I'll never turn away.

My brother—you and I were born Rather to love than to hate, Rather to dream than to do. Hate And to be hated makes our souls feel sick. We only thrive if we can love And bask in love as fruits do in the sun; So you and I we cannot march in front In these wild days that stride on now Over the world. Their brazen mouths Call for the forceful Doers, the great Haters, to stimulate them, not for us. I know that and submit in resignation To what is unavoidable, although my days Are often heavy with an inward struggle. And sometimes, in nocturnal visions, The hankering of old wells up in me.

This poem is the poetical expression, not only

the present constellation of world Capitalism, nought," Mr. Owen made only one specific charge In Glasgow to-day we have three grades of because this is not due to their personal and against Obregon-namely, the persecution of Enthe leading personalities in the Dutch C.P., son." But surely Mr. Owen will be the last to Might I mention the super-social outcasts, that namely Wynkoop and van Ravesteyn, we are forget the regimes in Mexico which preceded

It is merely a quarrel between leaders of the old

The policy of the Third International finds its best expression in the political attitude of the German C.P., especially where it shows its sympathy for the "revolutionary middle class." to the German petty bourgeois, with a view backing up the State and national unity, is a flagrant violation of the A.B.C. of Marxism. For the middle class is the most obstinate ele-Communism and to protect the modern slave state. In fact, Stinnes' centralisation of international and gigantic concerns far across the national, whose principal aim is to keep up the trade unions and their backward mentality.

No, the forceful doers and great haters are Nevertheless, they are working hard, and their voice will be heard soon all over the world in the final combat between Labour and Capital. TH. W. DE WITTE.

Mexico Slill Hopeful

By Prince Hopkins tion, "is a long way off" for those, especially, who scorn to travel except by an undeviating route. But so long as a steamship line runs to sensible Englishman will avail himself of them, there exists in Mexico, or in any other country, will not be able to mislead by whitewash. a regime embued with revolutionary ideals which it is visibly putting into practice, I for one w rather give my allegiance to that regime, a who isn't a hundred per cent. of my ideal.

is in Mr. Owen's own words-words damning his argument—when he admits to "one great have become a frankly revolutionary people."

Unemployed Workers Organisation.

The action of the U.W.O. during this last week has brought sharply to the surface this great problem which is confronting society a matter of fact this counter-revolutionary appeal to-day, namely the unemployed question. In Poplar, at a public meeting some little time ago, the Great George Lansbury expressed indignation and disgust with the unemployed-why? Because they had locked the Guardians in, or raided the Dear Editor, ment in capitalist society, always ready to fight Council Chambers? Oh, no; but because the nemployed, he alleged, had gone to sleep.

'Wake up; come around and worry us; you nemployed can have is. 6d. coal money if you

The Catering all engaged in the same industry, will be told Scurr, are all as bad, and I may say were very Union asked the Workers' Union to stop its to submit to rules that they had no voice in try to make it at once successful and liberal, noticeable in the agitation to have the police members from delivering food, etc., at the strike making, and pay subscriptions they did not decide rather than refuse to co-operate with any man called in. Already we have held a number of establishments. No satisfaction was given, and upon. There are to be different rules and difprotest meetings throughout the borough, and cases of blacklegging were denied by the Wor- ferent unions for the same industry. There To return my friend Mr. Owen's compliments, the people have unanimously declared their dis- kers' Union officials, although proof was given will be the petty jealousy of rival unions, the I hold him in the highest esteem, as one who has a gust with the cowardly action of some of the by the strikers. Ultimately the strike failed, autocratic authority of the Council which the catering workers never helped to build, never

about it. This union should be open to all

comes the gem: Dallas and Gibson practically The rank and file should decide and control

"DREADNOUGHT" £1,000 FUND.

Karl Liebknecht's Letters.

Luckau, 20th May, 1918.

... In July, in three week's time, it will be your visiting day again. Two months already since your last visit. I hope then to get all the news in detail, and to hear more about your relations with the Russian "deputation." You know what I think about it.

I was very pleased to hear Helmi's account of the new turn of affairs in Rostow. Do they expect a regular correspondence to be kept up on both sides? I have put in a couple of lines, anyhow, but it is impossible to write anything, not even to our "ally" Ukrainia.

As to what you say about the money question and similar problems, of course it is not desirable to accept assistance from any but one's near relatives. I neither can nor will hang myself from all sorts of moral ropes in the future.

Certainly you will take care of all my papers, manuscripts, and everything. But you must not think they are all equally valuable; only a few parts of them are useable, and I should like, if possible, to do something with them. You brought a MS. with you in April to be corrected. Of course, heaps of other things occurred to me at once, things to be completed or corrected.

You will find somewhere a chapter on "The Dilemma"; please insert the following passage in it:

"In the social struggles of all countries and peoples, class opposition, which is not to be confounded with the constant class war, is often reciprocal, is often found below the leveling influence of capitalistic and proletarian migration, and does not abolish the international character of capital and labour, but on the contrary stimulates the tendency to demonstrate it."

Towards the end of the chapter you must put in something like this:

"Expansion comprises both production and distribution. It takes place in a double and ever broadening spiral, etc."

At the end of the chapter please insert this:

"Thus, imperialism, if it is not first overthrown by social catastrophe, leads automatically to an economic catastrophe, to its own
annihilation by the social forces which will
crush it, annihilation by the abolition of its
own reasons for existence; so is its doom doubly sealed."

Now a word or two of business. So far, the newspapers have always come punctually, but the last twice I got them two or three days late. This is really much more important to me than the parcels of food which I care about much less. You complain that you cannot understand from my letters whether I have sufficient or not. But my dearest Sophy, I have plenty, plenty, really. Please believe me. I do so wish you would keep most of these things for yourself, for yourselves. . . .

How is Rosa? Have you seen her lately? Remember me kindly to her every time you see her or write to her. She must take care of her health. Now I want to talk about you again. . .

Not long ago, in looking for the third chapter of Ecclesiastes, my eye fell on the seventh chapter of the Proverbs. They are like wild hissing flames in form and style. There is nothing that surpasses them.

My present tremendous flow of thoughts is overwhelming—indeed, it makes my work very difficult. I have so little time for myself now, although these are the longest days of the year. But I am not slacking down.

Kurt looked very well. You wrote me that he was stationed in a small hamlet away from the front. Unfortunately, such is not the case. He is as near the front lines as it is possible for a doctor to be. You must know that we have been intimate friends from our earliest years. I was his master in many things, especially in the rearing of butterflies, which formed a large part of our youthful happiness.

The newspapers have just arrived, early, and with Saturday's included. Many thanks. I have had a dirty bath—phew!

My dear child, I often wonder if you are strong enough to bear the daily attacks of the

present on all that is good, noble, sacred, and to bear the sight of the daily triumph of cowardice, meanness, bestiality, servility, of everything that is low and vile. This is the greatest hardship of the present day. But you will not quail. The consciousness of superiority and the firm faith in future victory are the best helps in similar hardships. A reasonable survey of what is happening, of its causes and its action, is the best support, in these times, for it transports our participation in the events from the stormy atmosphere of passion to the cool heights of rational observation.

My cardboard business interests me more than you think. I meditate on the psychology of invention, on the conception of human capabilities. You will laugh at me, and certainly such experimental psychic research has often been made, and accounted for scientifically. But only careful personal observation can give one a clear idea. Every smallest movement of the body, or even of one member, its mode of action, the smallest modifications in the use of the senses, especially of sight and touch, the part played by the spiritual functions and by mental states, by the kind and class of material and the continual repetition of analogous movements, the rythm of manipulation, the observation of others and learning from them, as well as by one's personal experience, innumerable peculiarities and trifles of all sorts, from all these things spring finally one of the most important laws of movement in human development, a law which applies equally to the greatest things and the

But scientific theories notwithstanding, I have never yet succeeded in completing my allotted task. Time and again I have to return to the directions of Mephistopheles—I can demonstrate with beautiful clearness that it must be done so—but still I have not yet become a satisfactory weaver. But I still hope. The work is so easy that even a numskull like me must learn it in time partly by practice, and partly by watching the others, and such an opportunity can only be found in prison.

To-day is the 590th day of my sentence and there are 870 more yet. I have been shut up for 775 days. When you come to see me in July, it will want two or three weeks to the half of the time, from my arrest to the end of the sentence. The serious things that I have in my heart I cannot write you. Last year you were thinking of settling in Luckau. You had even looked for a house, so the rooks whispered to me. But you are still a long way off. What will you do this year? I leave it to you. Goodbye, my sweetheart, my dearest; think of yourself a little more now you have settled all the others-and think of me. Love to you and many kisses. Your KARL.
