A Review of the Struggles of the Catering Trade Employees

By W. McCARTNEY

(Late Vice-President, United Catering Trade Union.)

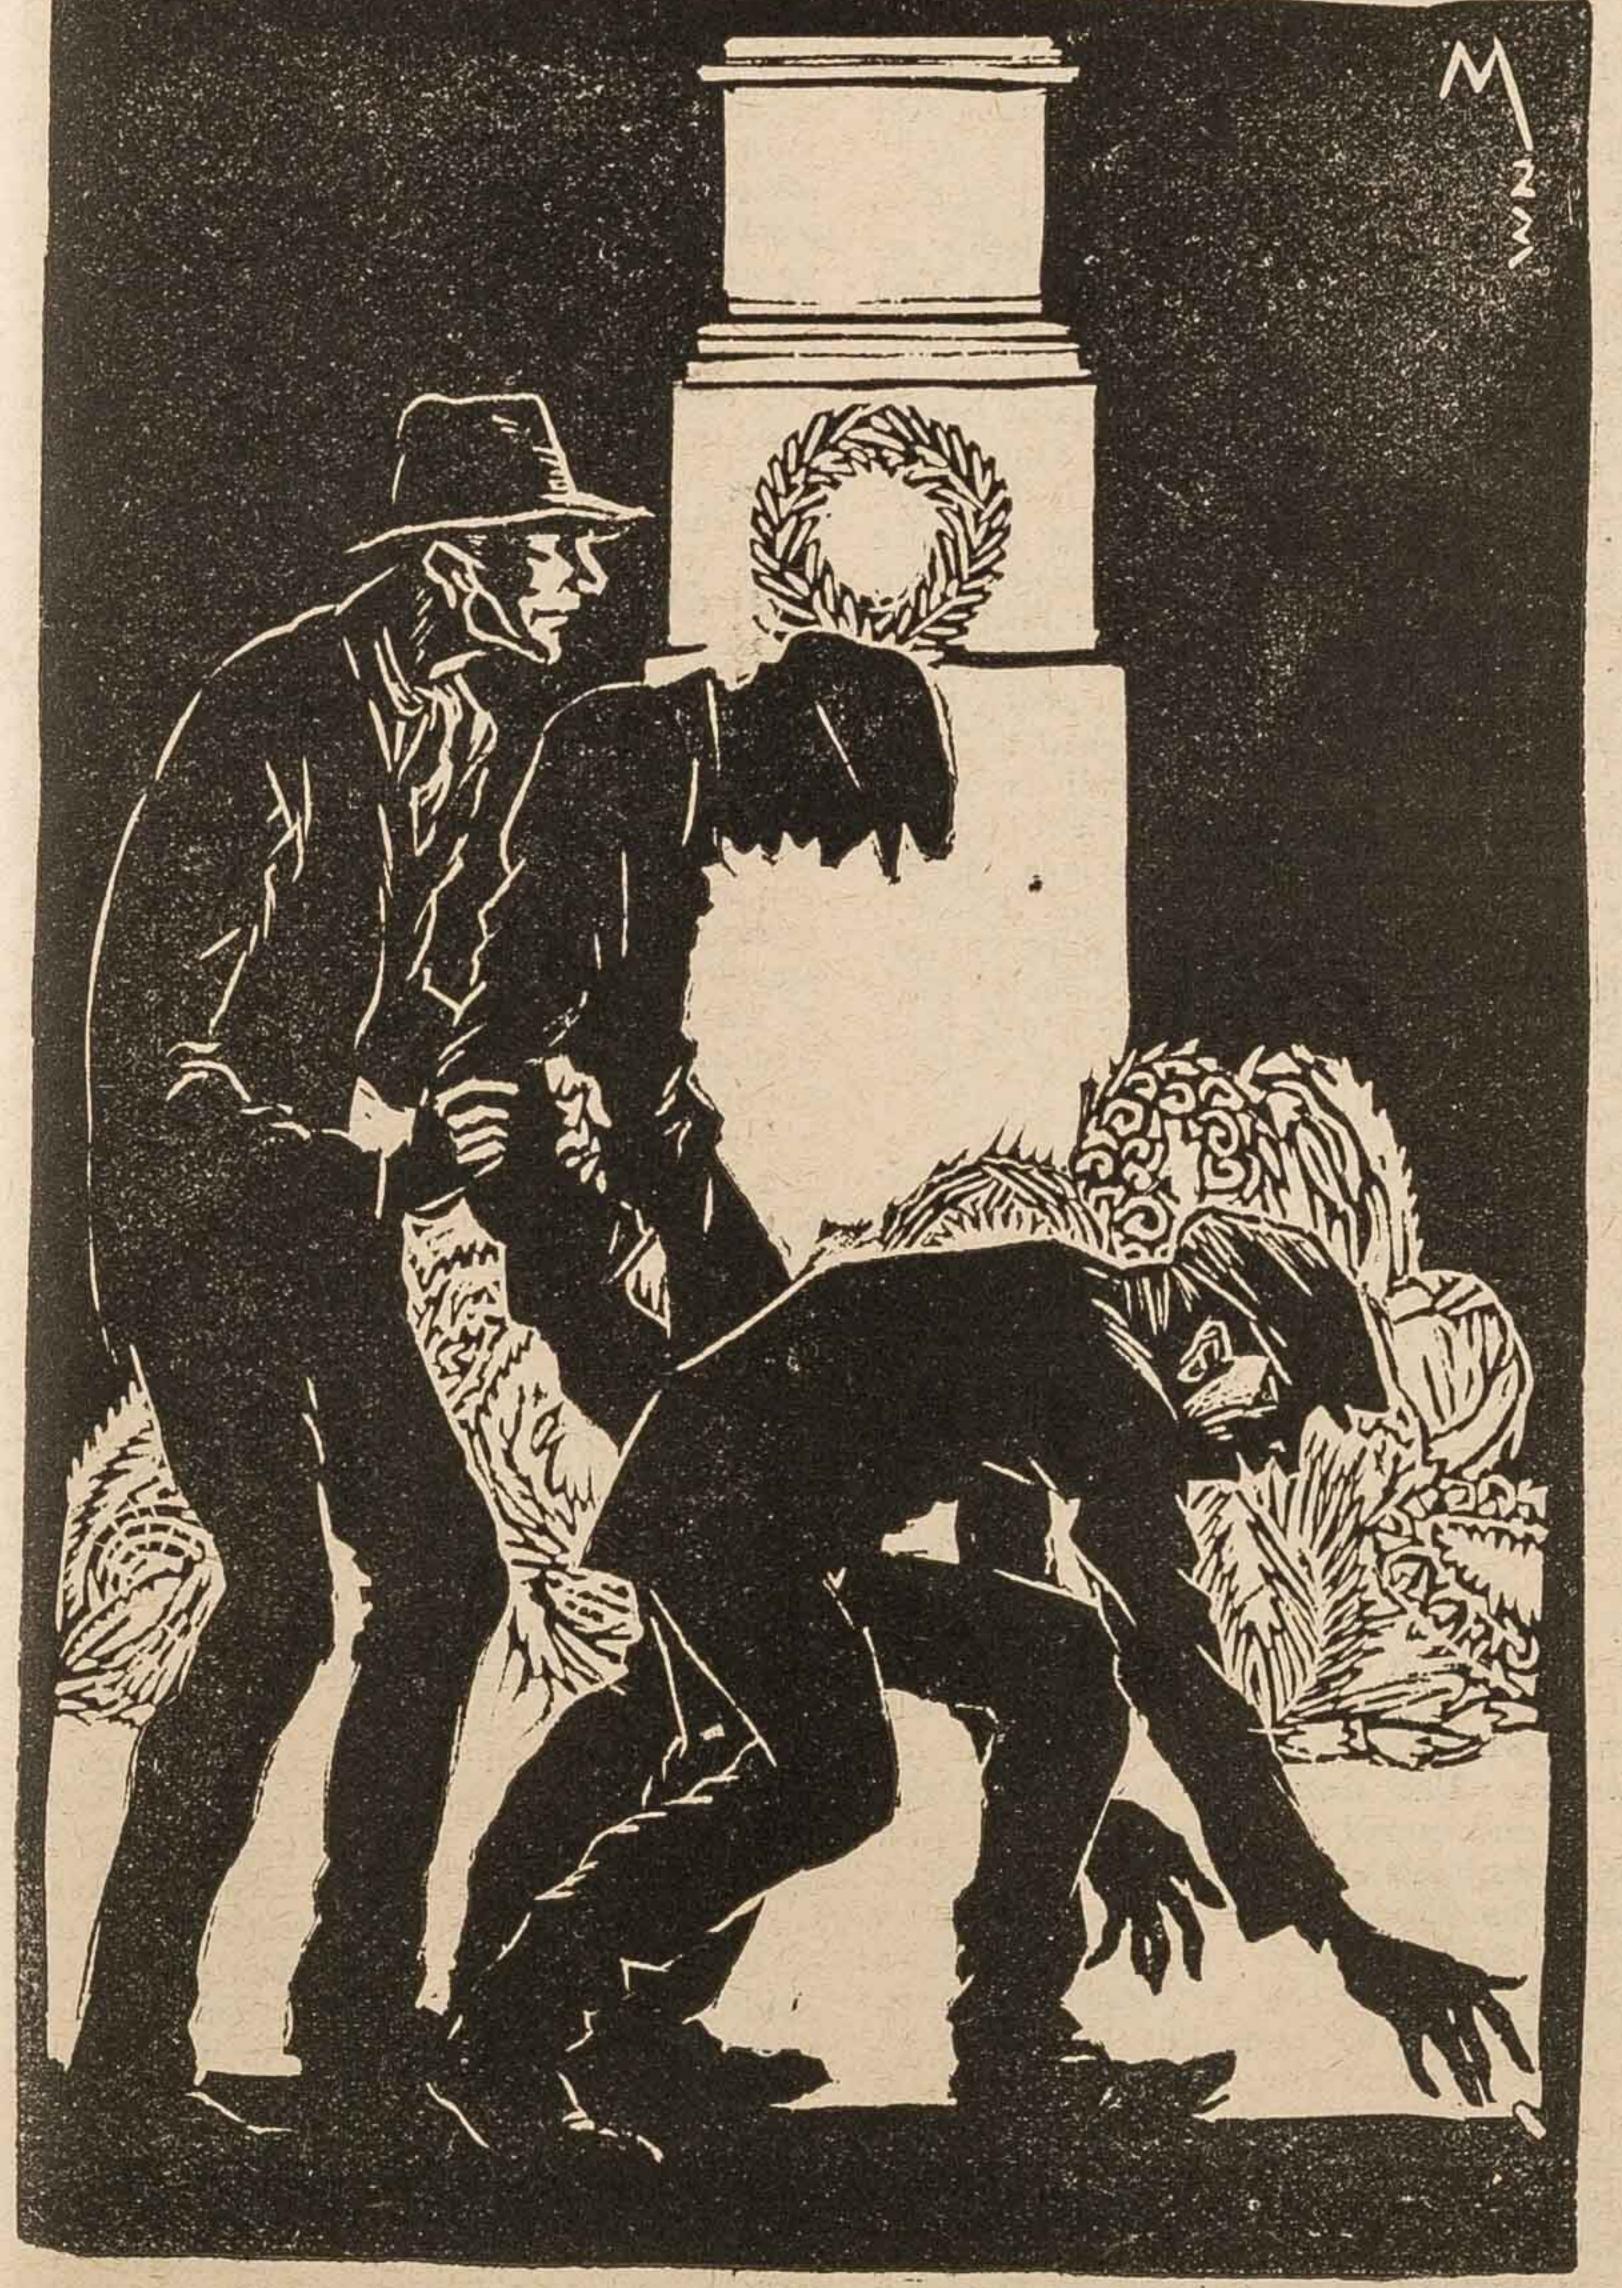

III .- THE KITCHEN WORKER (Continued).

Kitchen workers are often obliged to work with insufficient light and bad utensils. I know places where the cook's first thing in the morning is to grab the stew pans and saucepans, and as there are not enough to go round there may

manager or chef will accept no reasonable explanation, so probably you lose your job.

Even among workers in the catering trade a class cleavage is insisted upon. See the kitchen staff at meals in any West End hotel or res-

THEY WHO DID NOT DIE!

We ask for bread and you give us a stone.

be none left for you. In order to get your stuff cooked, you get hold of apple tins, etc. Then owing to insufficient cooking stoves and ovens, you have got to wait till other cooke have finished, which may mean that you are late with your part on the day's menu. The

dishes, cutlery, cruet, snow-white table cloth and all the rest. At the head of the table sits the chef of the kitchen, next to him comes the second or sauce cook, then the pastry cook, and so on, down each side of the table, till you

come to the cook's assistant—at the bottom.

Turning from the cook's table, we see the scullery man—not with a table, like the cooks, with all the best of food on it. No! he can eat his "staff food" (previously described) where and how he can, so if he can eat it at all he eats it all among the dirty washing-up tables, dirty pots laying everywhere about the scullery. Perhaps he sits on an old box, with his "staff meal" on his knees. Sometimes the kitchen porters clean one of the dirty tables, put some newspaper on it, get some old boxes, etc., and try to take their "staff food" in some sort of comfort and decency, but they must not dare to sit with the cooks, because they are "so inferior" to the cooks.

As to the time of meals: if you start at 8.30 or 9 a.m., generally without breakfast, you go to the cook who has the staff food at 3 p.m., and that, more often than not, is the first you are allowed to eat from 9 in the morning. Anything the kitchen porters may have had in the meantime is what they have either TAKEN or had given to them by a sympathetic cook. They now go out (sometimes) till 5 p.m. without tea, then work till 9, 10, 11 and sometimes 12, and during that time, about 9 or 9,30, they have another splendid feed—a "staff supper." So we find that kitchen porters and assistants, who have worked in dark, dirty, often underground kitchens, with all the vile smells, terrible heat, for 12 to 14 hours a day on two "staff meals" —and these are MEN. The cooks are men, toobut what a difference! Look at their luncheon or dinner table. For the sauce cook some nice special dish, soup and entree, probably chicken, duck, etc. For the roast cook a dish of nicely carved slices of good roast beef or mutton chops or cutlets. The pastry cook brings to the table s special fruit tart or pie; if summer, a special ice, and so on. A kitchen porter makes and takes to the table the coffee for the cooks. Then out come the cigarettes or pipes; and that is how the cooks live.

But even the cooks find cause for complaint. A great many object to this "class distinction" and many are the acts of kindness offered by them to the "common kitchen worker," because the cooks realise that after all they themselves are only workers, working in the same evil conditions, subject to the same brutal and tyrannical treatment, with a sop thrown in, in the shape of better food, to make them think they are better than these "common porters." Besides, the chef and manager know quite well that if the food was not allowed to the cooks, they, being in possession, have plenty of opportunity to help themselves to just what they like, and away would go the profits. Some places even count the potatoes for the staff, and also the slices of bread, the ounces of margarine, and the ounces of tea (so-called).

Gradually in the kitchen there has grown up a feeling of common comradeship between the "common porter" and the "superior cook" in spite of the management's endeavours to create a "class distinction."

Bad as they are, the conditions of the West End hotel kitchen worker are not, in a good many cases, as bad as in the City of London. Generally speaking, breakfast is unknown. "Lunch," or "dinner," at about 3 p.m. is the only meal of the day. Sometimes, somewhere in the City restaurant kitchen, you MAY get some tea (so-called) and a slice or two of breadand margarine or dripping—and that is seldom!

Generally in the City you work from about 8 a.m. till 6 or 7 p.m., with just one meal per

That is what they call "Wages and FOOD."

Let us look at the wages of the kitchen worker, and the tricks they play with the worker

feel ill, and has to buy food outside. He has able to buy them; they will not be produced so, must be not rather strive to forget than already paid the agent, and is anxiously waiting in any great quantity, and if there should be strive to remember? Will not nature force him pay day, which he finds out is every Friday. a passing fashion for them, the "manufactures" to that? I cannot help thinking that as a rule ates: cooks first, porters after. Our newly- and "organised labour," and cheapen them out the discontented, in which case he will gain engaged worker goes up for his wages, and this of existence; or if indeed the whim of rich peo- something of pleasure from mere bitterness and money wage. He started on Monday. The other process of cheapening would be resorted more than that some of our readers know well. books are made up to Thursday night, pay-day to; wholesale dealers in such articles would if he is one. clubs in the West End pay their staff monthly, and all that would happen to the persons edu- paper which is not books or literature, since I and it is often a hard struggle to exist during cated into a capacity for and a pleasure in suppose a faculty once acquired produces a habit their month's wages are already claimed by have to be used up in the mere mechanical chanical one of reading prints. The quality of this landlord, repaying loans, keeping back riding drudgery of commercial production. fare for next month, and now he has got the same struggle next month, and every month illustrate by the mention of this feeble atafter. There is no hope of better conditions.

rule in some City restaurants to fine the worker for being a few minutes late. A flunkey with a book looks at you as you come in, and looks at the clock. When Friday or Saturday comes, you find one shilling has been stopped from your wages for being late during the week.

If you break a dish, plate or cup, or anything, your name is taken, and you find your wages are short by a shilling or two. There is no thought of the rush and excitement of the work-working like mad, shouting like mad, perspiring terribly during the rush. That is what you are PAID for. You must not break the plates, dishes, etc.

(To be continued.)

Thoughts on Education under Capitalism

By WILLIAM MORRIS. (better known as Hans Breitman) speak on the is apt to think that the almighty capitalist can teaching of the "minor arts" (we won't trou- hardly take that away from his slaves if he ble for the present as to what they are), and he has really learned to enjoy reading and to untold us he was engaged in carrying out a plan derstand books, and that whatever happens he (in America) by which ALL children should be must have an hour in a day (or if it were only taught these arts and so gain an interest in half an hour) to indulge himself in this pleahandicrafts which he thought, and I heartily sure. But then does the average hard-working agree with him, would be a great gain to the man (of any grade) really acquire this capacity art and consequently to the happiness of people by means of the short period of education generally. Mr. Leland said that he had been which he is painfully dragged through? engaged in this work of educating children's doubt it. Though even our mechanical school hands for many years, and he expected success system cannot crush out a natural bent toward; to follow his efforts, a success which would mean, literature (with all the pleasures of thought and if it were worth speaking of, that the interest in imagination which that work means), yet cersound workmanship, combined with beauty, tainly its dull round will hardly implant such man who, whatever he produces, will have all would become general, and that a demand for a taste in anyone's mind; and as for the caput such work would follow and compel the manu- mortuum, the dead mass of mere information facturers to get such work turned out.

But it is clear that the wares so pro- favourable circumstances, how will this treaployment very plentiful. So the chef can say: duced will, if the labour on them is decently sure of knowledge and sympathy accord with 'I will give you 15s. or £1 per week and food." paid, cost so much more than the manufactured his daily life? Will it not make his dull task The worker takes the job. If he has not been wares which they are intended to supplant, that seem duller? Will it not increase the suffering used to this kind of food, he soon begins to only rich people with a whim for art will be of the workshop or factory to him? And if Even here the "class distinction" again oper- would immediately imitate them by machinery it must be so, unless he has joined the ranks of is what he finds. We will take the £1 as his ple for the genuine article still went on, an- railing if he is not a Socialist; and how much worked from Monday till Friday, and gets 2s. nasty! But in all probability the fashion for mine. Even worse cases could be mentioned. Many such articles would be limited and transitory, Then there is the enormous mass of printed the first month. Many find that on pay-day refined handicraft would be that they would and must be exercised, even when it is the me-

But it is not the matter of art that I wish to tempt of Mr. Leland and others (for the kind Out of the miserable wages paid it is the of utility is common enough). It is rather the relation of our capitalistic system to general education. For just as the capitalist would at once capture this education in craftmanship. suck out what little advantage there is in it, and then throw it away, so they do with all other education. A superstition still remains from the times when "education" was a rarity that it is a means for earning a superior livelihood; but as soon as it has ceased to be a rarity, competition takes care that education shall not raise wages, that general education shall be worth nothing, and that special education shall be worth just no more than a tolerable return on the money and time spent in acquiring it; and, mind you, such special education must be very carefully directed towards the one aim of commercial success in the speciality, or it will miss, and be thrown into the mass of general education which earns nothing.

As to the pleasure to be derived from educa-The other day I heard Mr. Charles Leland tion by hard working men, a bookish man which the worker comes away with when his uses to our enemies, the masters of society, is But such success is impossible even supposing "education" is over, he will and must soon

manufacturing" in all the wares of which art - And then suppose the worker to be really edu- is unpaid.

joint product of paper-maker, compositor and sub-editor, confirms my à priori reasoning remarkably, for no adventure in this kind of wares has any chance of success if it has more than the merest suspicion of a flavour of literature or thoughtfulness, as we have often been told when the prospects of the Commonweal have been under discussion. I will not say that the worse a periodical is, the better chance it has of success, but that if it intends to succeed it must appeal to habits that are as much akin to reasonable aims of education as is the twiddling of a bit of ttring by a fidgetty person.

I believe, indeed, it is thought by some that this habit of the consumption of newspapers is the first step in education. Good! The second step, I take it, will be the cessation of that habit. All this betokens that the end towards which our sham society directs the means, "education," is the one end to which all its "social" dealings are directed to the sustaining and easy working of its usurpation of true society. People are educated" to become workmen, or employers of workmen, or the hangers-on of employers, they are not educated to become men. With this aim in view the conditions under which true education can go on are impossible. For the first and most necessary of them are leisure and deliberation; and leisure is a thing which the modern slave-holder will by no means grant to his slave as long as he grants him rations; when the leisure begins the rations end. Constant toil is the only terms on which they are to be had. Capitalism will not allow us the leisure, either for education or the use of ft. Slave labour and true education are irreconcilable foes, for the latter means the continuous and duly balanced development of our faculties, whether in the school, the workshop, or the field, and how can that co-exist with the contaken from him that exceeds a bare subsistence.

In short, our present education outside its -("The Commonweal," June 20th, 1888.)

The suggestion of course is that the British

THE BALDWIN PROPOSALS are as follow: men like Mr. Cammel Laird and "two thirds It is not realised by those who mouth the "To put a tax on manufactured goods, with of the rank and file bankers of the Bankers' phrase "reconstruction in Europe" that it means employment among our people; protests: "To give a substantial preference to our dominions; to put no tax

on wheat or meat, and, as I said at Plymouth, I am having investigated most carefully now the best way in which we can offer help to agriculture to maintain the tillage of the nation.

"To examine and co-ordinate and improve the existing schemes of insurance; adjust those evils that affect the life and health of the people, such We have repeatedly pointed out that the Capias old age and health and unemployment, and tal Levy would fail to make any serious differto develop our own estates, our Empire."

tax wheat but the help to agriculture to main- ing classes. The I.L.P. by this statement contain the tillage of the nation" will probably firms that view. It is interesting to observe amount to something of the same kind, in order the I.L.P. assertion that a large number of to raise wheat prices in this country in the farmers' interest. Otherwise the assistance must take the form of a State subsidy to farmers, which would tend to inflate the currency and consequently to raise prices. Protection itself would of course raise prices, and thus cause a fall in real wages, as well as in doles.

Mr. Baldwin's promise to inquire into the question of insurance is unlikely to have much

Protection, though it seems, to some believers in the present system, to possess an attractive glamour, has hitherto failed in all the countries where it has existed; as fail it must everywhere, under all circumstances, to make life under Capitalism satisfactory to the toiling

Our attitude towards it is not, however, a fear that it may prove less efficacious as a means of promoting commerce than is Free Trade. Our fear is rather lest it might prove more efficacious at this juncture, lest it might promote a flow of business that would put new appearances of life into the existing order and prolong its life beyond what might be its span under present con-

As to the question of principle: a State which owns Dependencies, and Spheres of Influence in the territory of weaker peoples, which recognises the principle of giving monopoly concessions to certain capitalists, and which takes an active part in securing such concessions for its nationals, can hardly claim that it stands by Free Trade on the question of principle. After all, let it be frankly recognised; when it is a question of buying and selling, the only principle which operates with practical force is the principle of getting the best bargain obtainable. It would be folly to prophesy that ruin would follow the introduction of protective tariffs into this country, with the example before us of the Protectionist United States, now British Capitalism's greatest rival. It would also be folly to imagine that the introduction of Protection to this country would wipe out the advantage which the United States undoubtedly possesses at the present time.

We do not believe the Baldwin proposals, if adopted in their entirety, would do more than change some minor details of the general situa-

THE REPRESENTATIVES of the old order of kingship held another costly publicity festival on the occasion of the marriage of the Crown Prince of Sweden. Britain is now the principal refuge of the old order so swiftly passing away. One of those present was the Grand Duke Michael of Russia. When the secret history of our time comes to be written the public of the future will learn with amazement the true purpose of some of those delightful family gatherings to which the capitalist press devotes so, much space.

THE BUSY PUBLICITY OFFICE of the I.L.P. has issued a reply to Lord Pembroke. Keynes and Pigou, and business together."

special regard to those imports that Institute," whilst "The Times" has described merely the reconstruction and stabilising of cause the greatest amount of un- the proposal as feasible. The I.L.P. further Capitalism in Europe. This is clearly what the

> "The transaction is, in fact, similar to that performed by a company when it writes off capital unrepresented by material assets. Payment of the levy would be made, for the most part, in the form of pieces of paper, such as War Loan Script without any injury to busi-

I.L.P. proposals amount to. A Socialist Government, says the L.L.P., would:

"Renounce all claims to reparations, and, subject to a general settlement, would agree to the cancellation of Allied debts.

"It would recognise the Russian Government and give extensive credits for the reopening of European trade.

"It would take the initiative in making positive proposals for immediate universal disarmament by mutual consent.

"It would summon an international conference, not merely on reparations and not subject to the Treaty, but for the express and definite object of restoring and pacifying Europe, regarded as an economic unit.

The Chicago Martyrs were executed on November 11th, 1887, as a result of their activities in Eight-Hour Day agitation. George Engel, Adol phe Fischer, Albert R. Parsons and August Spies were executed. Louis Ludwig killed him self in prison the previous day. Samuel Fielding and Michael Schwab were imprisoned for life and Oscar Neebe was imprisoned for 15 years.

bankers support the capital levy: we have already explained why we believe the financier would benefit from the capital levy rather than the industrial capitalist.

The I.L.P. further sets forth four big steps explaining that its Capital Levy which it declares would be taken by a British proposal is quite a safe measure. Socialist Government, "to pave the way for rehaving been approved by bourgeois construction in Europe," because, says the I.L.P., economists like Messrs. Maynard, "unless Europe is restored we shall all perish

"The task of the international conference would be partly negative and partly positive. It would clear away economic barriers like customs and embargoes, and seek the simultaneous abolition of armaments; and it would stabilise currency, establish international control of raw materials, float a loan to Germany, and replace the Versailles Treaty by a new compact covering all outstanding European problems. The conference would take into

counsel representatives of industry, and particularly of the Trade Union and Co-operative

"One of the objects of this conference would be to consult with the League of Nations, and advocate its reconstruction, so that it might cease to be a cloak for the decisions of the victorious Powers and become a real Association of all Nations, with a revised and democratic constitution. The League would become an international body charged with the duty of world economic organisation, by co-ordinating the supplies, manufac-

In the first place it is not at all clear that the Labour Party would unanimously agree to the first proposition, the renunciation of all claims to reparations; but let that pass.

The proposals are pure and simple capitalist proposals: there is nothing Socialist about them. Note especially that to "give extensive credits for the re-opening of foreign trade." This was initiated by the Lloyd George Government, though doubtless on a lesser scale than that desired by the I.L.P. The proposal is to subsidise certain capitalist groups at the expense of the entire community. "International control of raw materials" is a dangerous proposal: it would simply mean control by the Big Powers, and would increase the difficulties of the smaller nations. The control organisation would be used against any country which might go Red.

In any event such proposed palliatives must fail to establish peace and plenty. In Communism lies our only hope. Communism, remember, entails the abolition of money, banking, and the entire capitalist system of finance and trade. Communism means the abolition of the private property system and production for use, not profit. It means the production of abun- plies. dance to supply the needs of all without payment or rationing.

BRITISH POLITICIANS long had the international reputation of bearing the palm for Happened hypocrisy. The Yankee variety has, Altruistic if anything, out-distanced them in this respect. "The law represents the voice of the people. Behind it and supporting it is a divine sanction," says President Coolidge, and meanwhile a pretty little piece of jobbery has been carried on by the U.S. Government in relation to a loan of six million dollars by American bankers to the Government of unfortunate little San Salvador. When questioned on the subject, the U.S. Government spokesman said: "The United States Government has entered into no commitments whatever concerning the loan, and gave no guarantee of any kind to stand behind it."

Yet the American "Nation," a good Liberal John Monash is chairman, and which is organising paper, has been able to publish a confidential circular disclosing the fact that the U.S. Gov- the "Daily Telegraph" states that "The Military ernment acted as an intermediary in the business and naval authorities are practically in control and that with the concurrence of the U.S. of Melbourne. Armed guards protect banks, Secretary of State the revenues of San Salva- Government offices, post offices, and other public dor are to be administered by a Collector-General buildings with machine guns, and a large reserve nominated by the bankers." Says the circular: "The Government [of San Salvador] at no time readiness in the barracks." receives any of the money pledged for the benefit of the bondholders, but the bondholders collect this money themselves."

The U.S. Government agreed that any disputes revolt. concerning the loan should be adjudicated by the Chief Justice of the U.S. Supreme Court or some other Federal judge. The bankers' circular adds: "It is simply unthinkable that, after a Federal judge has decided any dispute between the bondholders and the Salvador Government, the U.S. Waiting for waited for the masses to rise against W. "Labour and the Prince"

So runs a "Daily Herald" headline, but can you imagine Keir Hardie acting as pall bearer to a Tory premier, side by side with the Prince of Wales, fellow worker?

Keir Hardie was the bogey man in that prince's nursery, years ago, fellow worker, but to-day it is you, fellow worker, who are the real bogey to the grown-up Prince and his parents-necessary as you are to the comfort of the great.

Can you imagine the Poplar Unemployed taking dinner at Buckingham Palace or at Downing Street? We think not, fellow worker, unless it were in the servants' hall.

A general election is expected presently, fellow worker. Then you will be told that your turing facilities, transport, and purchasing chance has come. All the Parliamentary parties will come out promising to save you. Tariff powers of the different nations." reform means work for all" the Tories will say. "Free Trade means cheap food and a big loaf" the Liberals will tell you; whilst the Labour Party will promise work, wages, and houses. The poor little C.P.G.B. will say: "Vote for the Labour Party to prove it is no good." Some others will be heard pleading for your votes, but telling you that they will not be able to do anything for you when they get inside.

> You will vote for whom you please, we know. Some of you will grow excited about the election and spend all your, leisure hours giving out election literature, which you know very well, fellow worker, contains many promises which will never be kept.

> After the stir of the election you will return to your daily round; the wages and doles will still be falling, though coal must be bought in winter, the rent and the gas bill will be harder to meet than before, the winter clothes pawned in the summer will be unredeemed.

> The Prince will still be going his tours through the country, the Members of Parliament you have elected will be making their speeches in Westminster.

On your shoulders will rest the burden of labour and poverty.

Will you leave it still to the black-coated gentlemen to manage your affairs? Or will you form your workers' councils?

When the middle classes desired a share in the management of the country and the aristocracy refused them, the middle classes stopped supplies; they refused to pay their money in

The real supplies are not money, but the things money will buy. When you, fellow workers, decide that you have borne the burden of poverty and labour too long you will stop sup-THE SEARCHLIGHT.

The German Workers

What is the matter with the German work-All revolutionary workers of the world ask this question! The German workers are ornised in the greatest unions and political parin the world of labour. They passed through evolution in 1918, and have had several upings since. They had the first successful eral strike in 1920, to force a reactionary e to retire from the Government, although e clique had the strongest armed force in country under its command.

The outside observer does not know that the German worker was not a thinking factor in all ese movements; but only a pawn in the hands of political fakirs, who control all his exements, to ensure their positions in the

Government of the country. Since the invasion of the French in the Ruhr rict, the condition of the worker has changed the worse. Instead of the semi-starvation have endured whilst in regular employment e the war, great numbers of workers are now ployed, and are compelled to live on the tance doled out to them by the Government. assistance is not enough to buy bread at the present high prices! The sudden depreciaof the mark during the last couple of onths is the reason why the buying power of a week's wage is always considerably less at the end of the week than at the beginning. A rise of to to 150 per cent. is a usual occurrence, exng the workers to wild strikes and peaceful emonstrations pleading for help from the porities. The sacking of food-shops is a y occurrence, even in small towns. Indihual and organised looting of fields in the intry, even forcing the farmers to contribute towards the support of the unemployed, is the

Over the emotional conflict resulting from sex there ultimately comes a morbid inhibition against even a consciousness of normal croticism. As the resultant shame and feeling of inferiority increase, the need for denying sex, for masks and compensatory feelings of exulmoral neutralizer of the morbid fear and ber 4th? shame, the ecstasy and phantasy are more enthusiastically ascribed to something superhuman. By thus identifying themselves with Read EIRE The Irish Nation the super-physical, or transcendental, or whatflicted ones exalt themselves above their more healthy minded and sexually more normal- PRICE TWOPENCE living neighbours. The intensity of their zeal and fanaticism is the exact measure of the moral shame and fear which it conceals, and out of which the religious phantasm was created. So comes the need for religion, out of our emotional conflict over sex. While their sexual lives furnish the occasion for self-reproach, the fear and the shame. Thus it also supplies a mask and an emotional neutralizer for these depressions, by creating that mystical (psycho-erotic) experience, and by compelling its intellectualisation in terms of religion or metaphysics.

The author of the pamphlet comments:

"So Theodore Schroeder supplies the medical and psychologic journals with evidence that this 'psychologic erotism' is the true essence of all that properly belongs to the very essence of religion. With such an explanation for the acceptability and valuation of the religion of personal experience, What need is there,' he asks, 'for denying or disproving its metaphysical and theological dogmas?' Will Mr. Schroeder's 'erotogenetic interpretation of religion 'te more illuminating and effective toward helping people to outgrow the emotional need for religion, than the direct attack upon its dogmas? Not until it is popularized. But will it even then? We cannot know until his work is completed and the historian of the future makes up the record."

"DREADNOUGHT" £1,000 FUND.

Brought forward, £115 8s. 4d.; W. Knight for week, £12 10s. Total, £135 18s.-4d.

Multiplied by Thirteen

If every reader of the "Workers' Dreadnought" who takes one copy of the paper weekly would take thirteen copies — we supply thirteen copies for ninepence—either to sell or to give away, we should no longer be obliged to appeal for funds. Our financial anxiety would disappear, and our sphere of usefulness would be vastly increased.

To sell thirteen copies of a paper to one's friends, or to strangers, every week, requires very little effort; yet the propaganda value of that effort may be far greater than the seller can imagine. Who knows what spark of initiative may be ignited by the timely word conveyed by one of those chance sales?

A comrade with a bundle of "Dreadnoughts" discovered one day that she had lost her purse. Between her and her home was an eightpenny 'bus fare. At first she thought she would have to walk, and thereby miss an important engagement; but suddenly remembering her bundle of "Dreadnoughts," she unwrapped her parcel and offered them for sale to the passers-by. In ten minutes she had sold more than enough copies to pay her fare home. One of those to whom she sold the paper subsequently took out an annual subscription for the "Workers' Dreadnought."

The Comrade who thus became a street paper-seller in an emergency now sells a quire of papers in the street every week.

Will you assist us to make the "Dreadnought" self-supporting by increasing its circu-

A comrade writes :-

"When you told me in the office last Monday that if every 'Dreadnought' reader would sell ninepennyworth of papers each week the 'Dreadnought' financial basis would be assured, I made up my mind that I, for one, would do my part. I should not feel I were a genuine supporter of the paper if I did not respond to that suggestion. Please send me half a quire a week."
