Zimmerman Is PROGRESSIVE UNION LEADER PRINTED Re-elected

United Victory Sweeping Elect Negro Dressmaker **Business Agent**

entire United Ticketmanager, executive board, business agents, convention delegates and relief committee-was overwhelmingly swept into office in the elections of Dressmakers Union Local 22, I.L.G.W.U., held on Thursday, March 18. Over seventeen thousand members of the Local, more than had ever taken part on any similar occasion, voted in the elections.

Of the 17,324 votes cast, Chas. S. Zimmerman, candidate for manager, received 14,596, or about 85%. Against him were cast no more than 387 votes or about 2%. There were 2,341 ballots invalid for various reasons, or about 13%. Together with Zimmerman were elected by tremendous majorities all of the candidates on the United Ticket-29 executive board members, 33 business agents, 24 convention delegates and 5 relief committee members.

Of special interest is the fact that, in this election, for the first time in the history of the Union, a colored dressmaker, Edith Ransom, was chosen as a regular paid officer, a business agent. On the new executive board, there will be three colored members and three more in the Local 22 delegation to the I.L.G.W.U. convention. These colored workers, together with the Spanish-speaking members on the executive board and convention delegation, are an evidence of the efforts being made in Local 22 to bring all sections of the membership to responsible positions in Union leadership.

During the elections, the United Campaign Committee, representing the Progressive and Left Wing Groups, made unity the main issue of its campaign and appealed to the dressmakers to cast their votes as a ratification of the steps towards unity already taken and as a mandate for further efforts to consolidate the ranks of the Union. The tre aendously high vote cast, and the big majority received by the candidates of the United Ticket, not only reflect the keen interest of the membership in the issues of the campaign but also constitute an overwhelming vote of confidence in the new administration and its policies. The incoming admistration is deeply conscious of the heavy responsibility placed upon it by such an unmistakable expression of trust and confidence. It is fully aware that it is now faced with the great task of carrying out the mandate it has received from the membership, of realizing in life the program championed by it during the campaign -to cement more firmly the unity of all elements in the organization, to enforce more vigorously conditions in the shops, to make the Union an even more effective force for progressivism in the general labor movement.

N. Y. LABOR COUNCIL HOLDS OFF ON C.I.O.

The New York Central Trades and Labor Council postponed action for the present on William Green's demand for expulsion of all local unions affiliated with the Committee for Industrial Organization.

The meeting, Thursday, March 18, was very crowded in expecta-

LEADER RE-ELECTED

CHARLES S. ZIMMERMAN

Soviet Trade Favorable

Export Of The Industrial Products Marks New Economic Gains

Publication of the trade statistics of the Soviet Union for 1936 reveals the extension of the successful Russian economy and its further stabilization. In 1935 the trend towards decreased imports was most noteworthy as an indication of increased productive capacity of the Soviet factories and farms. This year there is registered a 6% increase in industrial exports over last year, showing that Soviet machinery, coal iron and other minerals are plentiful enough for export. (Industrial exports are 89% of the total).

At the official exchange rate of 5 rubles to a dollar, Soviet imports for 1936 totalled \$270,400,000, and exports \$271,800,000. While in official capitalist parlance these "low favorable figures show a balance of trade," their importance lies in the fact that they reflect the decreased export of consumers goods and food products, items which more and more are being utilized in the inner-economic life of the USSR.

The countries exporting to Russia were, in quantitative order, Germany, United States, and Great Britain. The fact that Germany led the list is solely due to the existence of a large credit of the ter of fact, Germany was last in the list of buyers of Soviet goods, the tendency of the Soviet trade monopoly policy being to decrease commercial relations with the Nazi

tion of action on this issue. However, the unanimous report of the executive committee, read by the secretary, stated that the Green letter did not call for action now. Until such time as "more specic instructions" come from the A.F.L. Executive Council, nothing would be done. it was stated.

Union Threatens General Auto Tie-Up In Detroit

REO STRIKE 100% SOLID; SIT-**DOWN IS SMOOTHLY ORGANIZED**

up to the Reo strike as follows: Mr. Baes, president, requesting a

On February 26 nearly two weeks ago we sent a telegram to Mr. Bates, president, requestin a conference on wages, hours, and working conditions. Mr. Bates did not even answer our wire.

After giving him two days to reply, he was called on the phone to find out what he intended to do about it. He said that the entire matter had been turned over to Ernest Keller, chairman of the management committee selected to deal with the Union. On being asked what authority the committee had been given, Mr. Bates told us that the committee had comp'ete and full authority to negotiate this

A meeting was arranged with the management committee for Tuesday, March 1st. In contradiction to Mr. Bates' statement, the union was told by Keller, that it had authority to negotiate a signed agreement, but only a "gentlemen's agreement."

On March 4th the union committee again met with the manage-

Lansing, Michigan-Events led | ment. The company not only refused to sign a written agreement but turned down proposals for wage increases and sole collective bargaining.

At this time the negotiations with the company appeared to be absolutely futile. The company was not even considering the most important points in our proposals.

In a last attempt at reaching some understanding, Homer Martin called Bates on the phone, this Monday night and negotiations were renewed Tuesday afternoon at three thirty.

The meetings with the manage ment Tuesday were not only fruitless as before but the company reduced wages in the 4800 plant an average of 18 per cent effective Wednesday and fired 15 men who were active in the union.

There was only one thing left to do. On Wednesday at 2 o'clock the 4800 plant sat down. At 3:30 in the middle of our discussions with the company the rest of the men were ordered to sit down and the negotiations abandoned.

A request was made by the company Thursday to remove auto (Continued on Page 6)

Chrysler Men Stand Firm

Martin and Frankensteen Refuse To Serve On Murphy's Board

Police raids on sit-downs in the city of Detroit brought the threat of a general auto strike from Homer Martin, president of the United Automobile Workers. While raids ceased temporarily the day after the threat was made, as we go to press they have been revived again. A huge demonstration is being planned to protest the activities of the city police.

The situation in Chrysler remains tense. Altho the company is armed with the blanket injunction to oust the strikers, the courage and unity of the Flint GM workers remains as a brilliant example for the Chrysler workers in the face of this vicious provocation by the Chrysler Corporation and the company-owned courts. Strikers in the plants sent a letter to Governor Murphy who has organized a citizen's committe for "law and order" expressing their opinion that he could use his "influence to see that our grievances are adjusted, or you can try to use the States troops to try to force us out." This latter course, they said could only lead to bloodshed and more strikes, for it would settle nothing.

Martin and Frankensteen both refused to serve on Murphy's committee, pointing out that the auto workers had had enough of boards, recalling the experience with Wolman's Auto Labor Board.

French Rights Jubilant Over Blum's War Loan

By BERTRAM D. WOLFE (Our special European Correspondent)

Paris, March 10.-Blum's new war loan is the topic of the day here. Rist, who recently publicly attacked the 40 hour week, and Rueff, the drafter of the Lavalle emergency decrees, both returned to the treasury department to put it through. The Right (I mean Haute Finance) is jubilant. Some samples of comment:

L'Echo de Paris: Blum is extending his hand to the right. But we must have guarantees that he won't pull it back again. . . . The reign of Jouhaux must cease.

Le Temps: The measures receive more approval in the ranks of the It is now up to the masses to say whether they will follow the authorities in the new financial paths . . . the worker masses must by their ardor in labor, by their energy in pushing production indispensable for economic recovery and consequently for financial relief, and show clearly that these promises (of Blum) will be kept in deeds, that the confidence which is appealed for will not be deceiv-

Paris Midi: This pact of liberty. order, traditional finance, of class collaboration, of union of the en-

tire nation for defense, symbolical ly united in one, of security and of the franc.

Figaro: We limit ourselves to congratulating the government.

Journee Industrielle: At last the theory of purchasing power is eclipsed completely by more orthodox affirmations and budgetary wisdom and even by a horrifying return to the policy of economies.

Gustave Herve in Victorie: What a blow out, my Emperor! (That for his old friend Blum). That lamentable minister of the People's Front arouses our pity. That isn't a pause any more, it's a surrender.

L'Humanite limits itself to expressions of outraged indignation that the Right is rejoicing, and tried to persuade the right that it Soviets in Germany, a credit which expired with this year. As a mat-majority. That is not surprising— (You're telling me?) Here's a

> "The conspirators think they will be able to take advantage of M. Rist and M. Rueff . . .

> "At this moment when a loan is being floated and ought to succeed to assure the security of the democratic country, one doesn't see the representatives of high finance and social reaction . . . cease their acts of panic and treason. Strange patriotism!"

> As for L'Oeuvre, it's main head yesterday was: "It is asserted that the Morgan Bank is subscribing a

AUTO UNION GAINS

IN NEWARK

In Newark the International Union, United Automobile Workers of America, through its Organizer, Sidney Jonas, announced the arrest of three volunteer organizers at the Ford plant in Edgewater, New Jersey. While this occurred, in Edgewater the Union had entered into successful negotiations with the Titeflex Metal Hose Company in Newark and obtained for the workers in this plant recognition of the Union as the sole collective bargaining wage increase of 10 cents per hour to begin as of March 11th, and time and one half for overtime. He stated that despite the efforts the presence in the government of of Hoffman's special state police force to hinder the organizing work of the United Automobile Workers Union at the Ford plant, the Union is determined to finish its drive to enroll every Automobile worker in New Jersey under its banner and obtain for them the conditions and rights enjoyed in the Michigan Area.

> billion to the Loan for National Defense" (That makes the People's Front broader than ever-in fact, I think it makes it complete. With Morgan one of the French People lined up against the 200 families, nothing can stop the Front Populaire. In fact, you give me Morgan and I'll give you the 200 families, and throw the Rive Gauche into the bargain.)

The a certain number of backward which access is had to the plant. property. In the course of its evolution it has sanctified the rights of private property above all others. Contrary to general impression, the law has been swift, decisive and extraordinarily malleable in the adaptation of its precedents and procedures to the changing property relations of the modern epoch. It has been tardy in the recognition of change and rigid in the application of its formulas only in those cases in which property rights have clashed with human rights. It has fought a determined rear-guard action against the needs and demands of the emerging labor movement.

Labor Defied First Laws Even in its nascent stage, be-

fore it had yet locked arms in combat and emerged triumphant over the feudal order, the rising bourgeois class of the first modern state was able to write into the law its class requirements against labor. In England the plague known as the Black Death created a scarcity of labor and placed the workers in a relatively favorable position. CLICHY

TN the complex of French events, one thing is cer-L tain: There is no limit to the shame that the labor movement will inflict upon itself so long as it tolerates the People's Front government and maintains the People's Front course.

The murder of a half dozen and wounding of several scores of workers in Clichy-by Blum's police and ther Fascist cronies-is but a straw in the hurricane. It has been ages since so much insult and injury have been heaped upon any labor movement. Clichy is a proletarian center; it is part of the "red belt" around Paris. Its central square is called "Sacco-Vanzetti Place." Here Fascism has no toehold. Into this working class territory the Fascist pest of Count de la Rocque was deliberately allowed to come by getting a police permit for a show and gathering. The local authorities, knowing the mood of the workers, fearing the workers' hatred of Fascism, warned against the police granting such permission to de la Rocque's outfit. Labor in Clichy could take it only as a piece of dastardly provocation by the Fascists and their police-protectors controlled directly by Blum's Cabinet,

Bloodshed was inevitable under such circumstances. Time and again Blum's police prevented labor organizations from holding meetings on the ground that they would tend to provoke "disturbance of the public peace." We still haven't forgotten how "Comrade" Blum arranged to have the Communist Party reduce more than 100 of its meetings scheduled in Alsace to about 10-in the interest of "Public Safety." Why didn't Blum's People's Front police apply the same yardstick to the Fascist invasion of proletarian Clichy? How did the French Fascists get that way so as to have the impudence even to toy with the idea of defiling the proletarian soil of Cichy? And where do these armed Fascist groups come from anyhow? Weren't they supposed to have been dissolved long ago? Isn't this "dissolution" alleged to be one of the outstanding achievements of the government led by Blum and blessed by Thorez?

This Croix de Feu invasion of Clichy and the murderous attack of the uniformed and un-uniformed forces of law and order on the workers is the natural and inevitable outcome of the whole People's Front course. The very time when this shooting of Clichy proletarians occurred is itself replete with sinister significance. It came right on the heels of Blum's proclamation of "a pause" in even making a pretense at considering the interests of demands of the great mass of workers, civil servants and lower middle class folk. The bloody invasion of Red Clichy by the black hordes of French Fascism-tolerated, legalized, and protected by the Blum-Daladier-Thorez government-came right after the People's Front government had again betrayed the interests of labor by turning over full control of public finance and currency to such watchdogs of the "200 families" as Prof. Rist, avowed enemy of the 40-hour week, and Mr. Rueff, confidential agent of Laval. The onslaught on Clichy came after the C.P. of France voted in the Chamber of Deputies for the defense loan-war credits.

In this light it is easy to understand what the noted Paris correspondent Philip meant when he de-"with sedative words camouflaged by the energy of their delivery." No one can now doubt the impotency of the C.P. of France as a revolutionary organization, as a fighting organization of class-conscious labor. That's what Mr. Philip referred to when he said that the "Blum government has succeeded in keeping the Communists in line as its political 'tail'. But that 'tail' has not got any more, and probably less political importance in consequence."

The protest general strike in Paris, grudgingly permitted and deliberately distorted by the C.P., S.P. and top trade union officialdom, shows the real mood in the ranks of the workers. The International proletariat can rejoice and well be proud of the instinctively healthy response of the great mass of French labor in critical hours.

Clichy! Let it be an alarm, a ghastly warning, and a signal to change the course. Such a change the S.P. as well as the C.P. must make; then the militant united front of labor will be enhanced and a working class victory over Fascism in France will be insured. The call of Clichy is stern but clear. Let us take heed

EUROPE TODAY

Czech Bourgeoisie Flirt With Henlein - Church and Germany

THE government of the Czechoslovakian republic has made several concessions to the Henlein party which receives its instructions from Hitlertempting suggestions towards Germany. The only effect of this action is that the Henlein party intensifies its struggle against the government and that the German campaign against Czechoslovakia goes on as before. It is clearly noticeable, however, that the tendency to comwhole," against labor as a class, face and speak of these situations promise with the Nazis is growing among the Czech bourgeoisie.

By sponsoring a program of partial demands based on the theory of "equal rights" of national emphasized that much of the minorities the C.P. tries to mediate between the future of the American labor Czechs and the Germans. Strict adherence to revolutionary principles in the national struggle would provide the only basis for carrying on a successful fight against Henlein's fascism and the reactionary Czech bourgeoisie. Since the party gave up this revolutionary position, there is great danger that the working class of Czechoslovakia will be ground Above all it is necessary to have to pieces between the millstones of the German

Issue United May Day Call

A call for a united May Day demonstration has just been issued to all trade unions, fraternal organizations and political organizations. The conference, called by a provisional committee of 14 representatives of local trade union organizations, is to be held on Saturday, April 3, at 1 P. M. at Webster Hall, 119 E. 11th. The call is signed by A. Philip Randolph, pres. of the Sleeping Car Porters; Charles J. Hendley, presi dent of the Teachers Union; Frank McGrath, president Boot and Shoe Workers Union; Louis Weinstock secretary, Painters District Council No. 9; Sam Freeman, secretary Painters District Council No. 18 Ben Gold, manager Furriers Joint Council; Frank Dutto Bakers Local 87; Brandon Sexton, chairman Workers Alliance of New York; Charles Blank, Suit Case Bag and Portfolio Workers Union Geythan Lyons, Marine Cooks and Stewards Union; Harry Gewirtzman, International Pocketbook, Ladies Handbag and Novelty Workers Union; Sam Kramberg Cafeteria Employes Local 302: Alexander Hoffman, Journeymen Tailors Union; Max Perlow, Fur niture Woodworking Union. The call follows in full:

The Call

"Labor in New York City is looking forward to celebrate May Day as the great and traditional day of labor solidarity and united working class demonstration against the forces of reaction.

"May Day, the great holiday of labor, born in the struggle of the American workers for the eighthourday, will in 1937 reflect the gigantic upsurge of the trade union movement in America and the mighty battles for unionism and a better life for the millions of unorganized workers. Millions of unemployed have no wage income Other millions almost starve on public works and public relief.

"May Day, 1937, will reflect the great struggles of the unemployed and labor generally to halt the attempts to further impoverish the millions of unemployed in this country. The marching columns of labor this year will raise high the banner of protest against the forces in American life seeking to perpetuate the dead hand of the Supreme Court on labor and pro gressive legislation.

"May Day, 1937, is coming when the mad powers of capitalism throughout the world—Nazi Germany, fascist Italy and militarist Japan-are still threatening to plunge the world into another bloody war. These fascist maniacs have already instigated the slaughter in Spain, whose people are now fighting so heroically to defend their liberty and the liberty of labor throughout the world. On May Day labor will demonstrate for peace and for solidarity with the heroic people of Spain.

"Let us, therefore, in Ne City celebrate May Day, 1937, in a manner worthy of its great American traditions. Let all labor organizations without regard to differences that may still divide us, unite in a mighty demonstration in behalf of our common interests, in a demonstration against the system of fascism, war, exploitation, and oppression. Let May Day, 1937 demonstrate the militancy and the new spirit of unified struggle already permeating the entire American labor

movement. "All organizations of labor of whatever character or political tendency they may be, trade unions, political parties and fraternal organizations, are invited to this conference. We appeal to your organization to send delegates to this conference. Every organization is entitled to two

ON THE LABOR FRONT

- the work of the CIO and rejected the expulsion notice of the A. F. of L. executive council. The resolution was signed by J. R. Damron of the Carpenters Union, Buddy Prece of the Fire Fighters and O. H. Booton of the Typographical Workers.
- WORCESTER, MASS. The C. L. U. expelled delegates from CIO unions representing 18,000 members. Locals of the United Textile Workers and International Ladies Garment Workers were affected. The fight for expulsion was led by A. F. of L. state organizer Frank P. Fenton.
- SCRANTON, PA.—The C. L. U. voted to file William Green's unions letter on ousting CIO unions. This rights.

WILLIAMSON, W. VA .- The laction, is significant in that only Central Labor union here endorsed the delegates from the craft unions participated in the voting Delegates from the locals of the United Mine Workers and the I L. G. W. U. had not been affiliated for some time. The C. L. U. voted to ask them to join the central labor body.

> ● BROWNSVILLE, PA.—The Central Labor Union considered Green's letter and adopted a resolution asking the executive council to expel John P. Frey for antilabor acts in negotiating with company unions. The body also voted to send a letter to the executive council asking it to end its disruptive campaign against the CIO unions. The letter calls for the reinstatement of the CIO with full membership unions

Labor's Battle Of The Century

(Continued from Page 4) ploitation and oppression, and for improved economic conditions. This means a fight for more economic independence. This is a fight for genuine unionism, or unionism completely independent of boss control as against dependent of company unionism.

Furthermore, industrial union ism is the only form, the sole way in which unions can secure effec tive legality, can attain such genuine legalization in the mass production industries, can build unions independent of boss owner ship and control. It is one thing to press a pants manufacturer to the wall and get an agreemen out of him; it's quite a differen thing to force a Taylor, a Knudsen, a Fairless, a Teagle to the wall. Craft-unionism with its oxcart tempo and structure suited to smaller scale manufacture could never serve as the vehicle to carry the mighty mass of unskilled and semi-skilled out of the realms of industrial peonage and espionage

Consequently, we cannot under score too often and too heavily the fact that the CIO campaign for industrial unionism is a campaign for organizing the many millions in the still non-unionized heavy industries operating on a mass production basis. The CIO drive for industrial unionism is, therefore, not a war to destroy craft unions in industries where they are established agencies functioning effectively in defense of the work-a-day rights and every-day interests of the working men.

Struggle for Status

In the very nature of such a conflict new methods of struggle are born, old ideas of right and wrong are challenged and discarded and new class moral values are enthroned. Some of the employing class publicists have already stopped whining and have begun to do some thinking about his country-shaking onslaught labor on the citadels of the open shop. For instance, Dorothy Thompson, estimating the campaign to make unions legal in the mass production industries, apparently is the beneficiary of more than one ray of light when she aptly says in the New York Herald Tribune:

"In the great industries of this country the trade union movement is still struggling for mere status. The movement is extremely weak. In the sitdown strike it is using the most effective possible weapon of the weak against the strong ... This is a fight going on. a real fight for the status of something recognized by law but sabotaged by heavy indus-

try in practice...". This was on January 25th. Much has happened since, but the ization and we will give them just essential problem remains with us.

Under the banner of the CIO labor has scored spectacular victories, has marked milestone after milestone on the road towards economic and political independence. But we are still in the thick of the fight for actually legalizing unionism in the mass production industries. Though American labor has covered quite some territory on the road to a victorious conclusion of this battle, there is still many a class enemy position to be stormed and much ground to gain before we can say this battle for militant industrial unionism in the decisive economic sectors of the country has been completely won.

How shall we continue this campaign to insure final success? What moves should we make next? What obstacles must we hurdle? What pitfalls must we * * *

These questions will be considered in the concluding article of this series

CIO Aids New Jersey Strike

Settlement of New Jersey's first major sit-down strike, involving 1100 out of a total of 1500 cigar and tobacco workers at the plan. of I. Lewis Cigar Co., 165 Morrison Ave., Newark, New Jersey, was achieved with a \$2.00 a week raise for all workers. The strikers who are without a Union will continue their sit-down until the settlement agreement is in writing.

The news of the strike spread rapidly, because of the importance attached to its bearing on the recent ukase of Governor Hoffman that he would, if necessary, drown any and all sit-down strikes in New Jersey in blood. In a short time a large crowd of several hundred sympathizers and friends gathered in front of the factory and the infamous Hoffman police put in its appearance with the intention of cowing the strikers. The Police, however, in the face of the determined strikers, beat a strategic retreat and left the workers in full possession of the plant.

The C.I.O. Northern New Jersey Council in the meantime declared: "We want it understood we did not call this strike. The employees asked us for aid and we are going to give it to them. We are going to raise money for food and help them organize a union.

"These employees will be organized and granted a charter in the Cigar Makers' Union, an affiliate of the American Federation of Labor. These people need organ-

Reo Strike 100% Solid; Sit-Down Is Smoothly Organized

(Continued from Page 1) parts but this was denied by the strike committee.

One significant event in the strike which is in contrast with others is that many of the company police are also members of the UAWA and are with the strik-

Another significant event which sets the strike apart is the practically 100 per cent nature of the strike. The plant is over 90 percent organized and the strike represents the decision of practically all Reo workers.

The biggest difficulty the first two days of the strike has been the organization of the food problem. The first night hurry calls were made to restaurants and meat shops in the south end of Lansing and sandwiches and coffee were served. The Women's Emergency Brigade has taken charge of the food and have taken over Goldies's Cafe opposite the plant completely for food service to the strikers. The food distribution and cooking has smoothed itself out and is working fine. Farmers in the area have begun to supply large quantities of food to the strikers, and support is being gained among the local merchants. Full menus comprise the three regularly served meals each day.

Games, recreation, music, and inging has been organized among the strikers and a fine spirit of solidarity prevails.

Over 1100 strikers are holding the plant and are located in five positions. The Reo plant is spread out over 80 acres, hence the division of workers is necessary. Workers are located at the number 1 and number 2 gates, the motor plant, the 4800 plant, and the bus plant. Because these groups are so far apart an impromptu messenger service has been organized.

No city police have made an appearance about the plant or in the vicinity. So far the situation has been exceedingly peaceful. All plants are on city streets and hence of easy access to those who might want to reach the strikers.

Today publicity was organized so that all reporters must get their news from a central office instead of wandering about the plants and picking up their stuff as they will. They are always accompanied by several strikers. None are permitted to get inside the plant unless they can produce Newspaper Guild

Copies of the Lansing Auto Worker outlining the Reo demands have been distributed to all plants and a special strike edition will be issued this Saturday devoted entirely to the Reo strike.

The strike had not been over 8 hours old before a check for \$50. was received from the Lansing Typographical Union to help the strike fund.

The demands of the Lansing local from Reo are summarized as follows:

- 1. Sole collective bargaining for the UAWA.
- A minimum rate of 70 cents an hour and a 10 cent an hour raise for all rates now over 70 cents.
- Straight seniority.
- 40-hour week and 8 hour day.
- Time and a half for overtime. Reduction of hours to 24 a week before any employee is laid off.

The Reo management is in a position to meet these demands as the UAWA comprises at least 90 per cent of the workers and the Reo is doing a fine business, having over 6,000 unfilled orders on its

Hochman Re-elected General Manager

Julius Hochman, veteran labor leader, has been unanimously reelected General Manager of the powerful Joint Board of the Dressmakers' Union for the term ending March 1939.

Rounding out a decade of service at the helm of the Dressmakers' Union, Mr. Hochman has seen it climb from a membership of 18,000 to 102,000. He conducted the successful strike in 1933 that achieved 100% organization in the industry, large wage increases and the 35-hour week.

Early last year Mr. Hochman conducted the prolonged negotiations that resulted in the signing of an improved agreement with five employer associations in the field. It was the first time that an important agreement had been written without a strike. This agreement provided for settling prices direct with Jobbers thus eliminating the contractors as elements in the fixing of piece rates; and for limitation of contractors. Both have led to greatly increased stabilization in the in-
