325,000 in Steel Union

SWOC Announces Pacts With 90 Firms; May Strike For More

PITTSBURGH (UNS) - A majority of the nation's 540,000 steel workers are now organized, Philip Murray, chairman of the Steel Workers Organizing Committee has announced.

Now enrolled in some 600 lodges are 325,000 steel workers; and S. W. O. C. contracts have been signed with 90 companies, including all of the subsidiaries of the giant U. S. Steel Corporation, and such important independent concerns as Wheeling Steel Corporation, Timken Roller Bearing, Caterpillar Tractor and McKeesport Tin

This sensational showing in an industry of which it was once said that it "can never be unionized" was also marked by the gradual wiping out of the last remnants of company unionism—a particular object of attack by the S. W. O. C. throughout the campaign.

Company Unions Wiped Out

So completely have company unions been killed in U.S. Steel mills that management has withdrawn recognition from elected representatives; has refused to give them a meeting place; refused to pay any more money for their support; refused to have anything to do with elections scheduled for June.

The "death notice" to U.S. Steel company unions came in a stipulation filed with the National Labor Relations Board in the case filed by S. W. O. C. against Carnegie-Illinois Steel Corporation, chief of Big Steel's subsidiaries. The stipulation virtually ends the case.

A letter from B. F. Fairless, president of the corporation, was read to all employe representatives announcing that effective at once the company would:

1. Discontinue any financial contribution to the plans.

2. Furnish no facilities for the election or other activities of the employes or employe representatives under the plans.

3. Furnish no stenographic or other office service or facilities for the activities of the employes or representatives under the plans.

Other Companies Followed

Other steel companies which followed the lead of Big Steel in killing company unions were Jones & Laughlin, Youngstown Sheet & Tube and a score of smaller concerns where the "plans" had ceased to function because of S. W. O. C. strength.

Weirton Steel Company also announced it was withdrawing financial support, but the general impression is that E. T. Weir will see to it that money is slipped to the proposed new "independent" company union.

To complete the slaughter of the

company union racket, the S. W. O. C. filed charges with the Labor Board against Bethlehem Steel Corporation and will take similar action against Republic Steel.

Meanwhile negotiations were under way for contracts with scores of companies. Both Jones & Laughlin and Youngstown Sheet & Tube-two of the so-called Big Five Independents—have contracts before them and are expected to sign within a few weeks.

POWERS HAPGOOD

Chief of the New England CIO Council now jailed for his militant leadership of the shoe workers'

Shoe Strike Still Strong

The strike of the Maine shoe workers in the Lewiston-Auburn area continues strong despite the efforts of the employers and their courts to break thru declaring the strike "illegal" and jailing the CIO leaders heading the strike. Powers Hapgood, W. Mackesy, John Nolan and 3 others were sentenced to six months for defying the injunction. The case will be fought

Constantly surrounded by bayo nets and machine guns of the state troops, the strikers have faced the threat of Judge Mauser to close their food commissary if they held a mass meeting. They held the meeting, and so large was the turnout that the judge was forced to change his mind.

May 19th is the date scheduled for a "consent" election in which the workers will vote as to whether they want to be represented by the CIO. That the employers yielded on this point is considered an indication of their willingness to admit that they will have to recognize the CIO when it wins the elections, a most probable outcome.

Blum Demands Class Peace In Name of "Democracy"

ETTING his cue from the arch-Tory Stanley Baldwin, the socialist premier of people's front France, Leon Blum, called for class peace-in the name of democracy and national unity. Altho the appeals made to the workers by Blum are apparently for the duration of the International Exhibit soon to open in Paris, when coupled with the rest of the labor-curbing policy of the people's front, they clearly become the expression of the latest stage of the people's front in France.

Chicago Election

A sweeping victory of the Rubber Workers Union, affiliated to the CIO, in the largest rubber factory in Chicago, opens the way to complete unionization of the rubber industry in that area in a short space of time.

The Dryden factory was the testing ground for the first election under the NLRB locally. The results were 1042 for the CIO and 500 for the company union, which pretended to be independent.

The bosses made every effort to win this election. While the union tried to have the elections after work, the employers forced it thru on company time, creating the illusion for some workers who were not clear as to the issues involved. that they were indebted to the management, and therefore these probably voted for the company. Eleven thousand dollars remains in the company union treasury (also used as an employer argument). The CIO is demanding that since this represents the workers' dues, it be refunded to them.

It is expected that with this important victory other smaller firms will fall into line ..

In a speech to the Chamber of Rubber Union Wins Deputies, Blum told labor that it now had "responsibility," that is, it must cease its demands for higher wages and social legislation in the face of the rising cost of living and the reactionary attacks of the employers. To the bourgeoisie, Blum pledged that the government of the people's front would not in any way seek to undermine the social regime or curtail liberties, that is the 'recess" in social legislation could be considered permanent and the fascists could provoke the workers, unafraid of governmental reprisal.

This speech, bristling with bourgeois nationalism, was applauded, according to the N. Y. Times correspondent, by "the whole Left, even the Communists."

NEXT WEEK

Workers Age will carry the following important articles which should interest all our readers:

Jay Lovestone writes on further problems of CIO expansion and consolidation.

George F. Miles deals with the "'Lefts' In the Auto Ondustry."

Saul Held begins a series on "Labor and the Law."

Debate on CIO Opens At ILGW Convention

Cloakmakers Strike Looms In Fight For Thirty-Hour Week; Pro CIO Forces Battle For Position Of Unconditional Support

The International Ladies' Gar-1 the American Federation of Labor, ment Workers Union entered its second and final convention week to deal with the CIO question and industrial and organizational problems. John L. Lewis will speak for the CIO in a report to the assembled garment workers.

Forces within the International are attempting to cover up a basically anti-CIO position by raising the abstract question of unity with

Sea and Transport Workers Join CIO

Seamen Win United Fruit Contract; Strike May Halt Subway Lines

Two groups of workers, the seamen and the transport workers, who have been struggling in one way or another against the craft burocracy of the A. F. of L., have announced their intention of affiliating to the CIO. The seamen who conducted the East Coast maritime strike this winter against the bosses and the extremely reactionary leadership of the ISU, have re-formed themselves into the National Maritime Union. They immediately won a contract with the United Fruit Lines, the first time this big shipping company has signed with the union.

The New York Transport Workers, who have been getting the merry run-around from the cityowned and independent subway and elevated lines, and their former parent organization, the International Association of Machinists voted in two huge mass meetings to affiliate with the CIO and to call strikes if an immediate vote is no forthcoming to determine their right to represent the workers.

Conferences between John L Lewis and the Transport Workers begin this week in Washington The question of chartering it as an international union will be taken up among other things.

An intensive drive is being planned to organize the bus drivers of the Fifth Avenue Coach Company. On the BMT a "referendum" has union has won rights as sole barbeen spoken of vaguely for about gaining agency, undoubtedly due to July 1. Whether the union will the tremendous strength it showed

without first considering the question of Program or of rescinding the suspensions. Fighting for an out and out position of unconditional support of the Committee for Industrial organization are Luigi Antonini, Julius Hochman, and Charles S. Zimmerman.

Matthew Woll, who had been invited to speak as head of the Union Labor Insurance Company, spoke, of course, on the CIO-AFL situation. In answering him, President Dubinsky referred to the expulsion of the CIO unions and the methods of the Executive Council, saying: "We (ILGWU) have the power to expel unions, without convention vote, and we do not use it. You do not have this power, but you used

The Cloakmakers Joint Board has made its fight for a 30 hour week a prime demand in its negotiations with the manufacturers here. A strike of thirty-five thousand workers is threatened for June 1st if this demand is not complied with.

UAWA Sole Agency In Packard

Following hard on the heels of its sweeping election victory of four to one, the United Automobile Workers achieved recognition as sole bargaining agency in the Packard plant in Detroit. The signed agreement was approved by the local and provides for: vacations with pay, the shop steward system, and a wage increase of 3 cents an hour for all hourly wage employees, to begin May 16th. Minimum hourly wage rates of 65 cents for women and 75 cents for men employed for more than 6 months, and an increase of 5 cents an hour for night workers, was also achieved. Time and a half pay for time over an eight hour day, a forty-hour week and seniority rights were agreed upon.

This is the first case in which the wait that long remains to be seen. among Packard's 14,000 workers.

U. S. RULING ON SPANISH AID MENACES RELIEF WORK

soliciting relief funds, clothing, and medical supplies for Spain was declared mandatory by Secretary of State, Cordell Hull, acting under the provisions of the recently passed Neutrality Act. A monthly accounting of funds and immediate registration with the State department is required. Failure to comply with these regulations is punishable by a \$50,000 fine or five years' imprisonment or both.

Existing organizations must re-

Registration of all organizations | ceive this license before continuing their work (especially important for the American Trade Union Committee Red Cross for Spain, and the North American Committee). This license may be revoked by the State Department. These regulations are such as to endanger the relief work for the Spanish workers and peasants, especially in view of the previous record of hostility to the anti-fascist forces of Spain shown by the administration.

THE May Day parade in New York was huge and impressive, an especially good showing being made by the trade unions in the forefront of which was Local 22 of the International Ladies Garment Workers Union.

Bolshevik line there.

Realizing that if we were to effectively fight for a correct revolutionary position, we could not long remain unaffiliated, we had before us the alternative of joining one of the two working class organizations outside of the Communist Party, either the Socialist Party, or the Communist Party Opposition. After due consideration we eliminated the S.P. In examinheterogeneous caucuses which tocomprise the Socialist Party. Especially repugnant to us was the anti-Soviet phobia, fostered by the Trotskyites, which has so perverted the perspective of the S.P. that it centers the major part of its attention, not on such basic questions as the struggle in Spain and the recent developments in the American labor movement, but on the Moscow trials. The unhistorical position of the S.P. on the labor party question, which is either that of outright hostility or, at best, passive sectarianism, was an added factor in our rejection of member-

In bold contrast to the S. P. we have found the revolutionary realsition, an organization which is based on and carries out Marxist-Leninist principles. In particular its analysis of the C.I.O., and its the C.P.O. Especially appealing to der and villification. The democracy of the C.P.O. has manifested itself to us, for one thing, in the preconvention discussion taking place cles of disagreement have been published.

We, therefore, with a deep sense of revolutionary duty, have decided ing bright banners bearing the to join the only truly communist organization in America today, the Communist Party Opposition. It is place in the ranks of those who are ment, it is the duty and obligation of every loyal adherent to the path talism depends upon such a course. achieve that goal to which we have WILLIAM BUTLER

EVENTS IN BARCELONA

A T this writing we do not yet have sufficient information about the recent events in Barcelona. However, certain phases of the Spanish revolution are clear enough to warrant appropriate repetition and underscoring on this occasion of the conflict between the Catalonian anarchists and the Gen-

One may doubt the wisdom of engaging in armed conflict at this particular moment. Nevertheless, it is certain that the attempt of the Rightward headed bourgeoisie dominating the People's Front government to disarm the workers is a criminal attack on the very forces that have borne the brunt of the Fascist attacks and have made possible the checking of Franco's black legions. The best, really sole, guarantee against Franco's victory and against the emergence of another Franco out of the ranks of bourgeois democracy is a strong armed proletariat. When the official Communists and their friends seek to disarm the Spanish workers-ostensibly because of the need for a unified command—they are merely distorting the issue and playing into the hands of the enemies of the working class. It is tragic indeed that the official communists, who should be in the front ranks of those fighting for the proletariat being armed in the factories as well as at the front, are now doing just the opposite. It is rather unfortunate that this field has been left-except for the POUM-to the anarchists. The latter, despite their fine revolutionary fervor, are still very much confused politically.

Our raucous contemporary, the DAILY WORKER, has seen fit to give a special POUM "angle" to the whole Barcelona struggle. We have important differences with the POUM. But on the question of rejecting the disarming of the proletariat we are in full accord with it. In this connection, it would not be out of place to cite the position of the POUM on the question of "A Revolutionary Army." We are

"These revolutionary organizations, that is to say, the POUM, the FAI and the CNT, while they accept the principle of the creation of a powerful army to vanquish the fascists, are not prepared to agree that this army be given the character of a SO-CALLED NEUTRAL ARMY, which will eventually be in reality THE STRONG-EST POSSIBLE WEAPON IN THE HANDS OF THE CAPITALISTS AND THE REACTIONARY FORCES AGAINST THE WORKERS. . . .

"The POUM states that the present army cannot be a politically neutral army, but must be based on the revolutionary class struggle and in the service of the working and exploited population, an army which must be the guarantee of victory now and the defender tomorrow of the revolutionary conquests of the new revolutionary so-

"The POUM is not opposed to the UNITED COMMAND. It insists, however, upon its being controlled by the workers organizations. . . . The working classes have given sufficient proof during the last seven months of their spirit of initiative, and it is from their ranks that the officer class of the new revolutionary army should and

"A regular army, but at the same time a revolutionary army. The war in Spain is not a war for national independence but a class war. . . . ' (The Spanish Revolution, Vol. II, No. 5.) have gone thru them very care-

We are confident that regardless of the slander campaigns of the Peoples Front Communists and their partners, regardless of the mistakes the revolutionary forces may now and then be making in Spain, regardless of the time it may take for the Spanish working class to realize it, the general soundness of the above approach will soon be recognized by the proletariat and peasantry of Spain. We hope that the settling of this issue, that the arrival at a sound position on this all-important question will be attained without campaigns of vilification and without force and violence being resorted to within the ranks of the working class. The recent events in Catalonia should help in this direction.

ENGLAND AND THE PEOPLE'S FRONT

By JIM CORK

AS I indicated in a previous article, the united campaign of the C.P., Socialist League, and I. L.P. was launched against the background of growing dissatisfaction amongst the rank and file with the class collaboration policies of the leaders of the Labor Party. Here was offered an opportunity for the leaders of the left to transform healthy but often confused moods of the workers, into clearly reasoned attitudes, to generalize the experiences of the workers to a higher political, i.e. revolutionary level Of course this highly desirable end could be achieved only to the excent that the three organizaions could accept and propagate n common a political line which vas revolutionary.

This, however, was manifestly mpossible from the very beginning, in view of the differences on undamental political questions ex- the following: "... Socialist Worksting between the three organizaions. The political line of the C.P. s dominated by the reformism of of primeval antiquity awakes to a the Peoples Front line while, strict- new life, a life of socialist fulfillspeaking, the Socialist League ment. . . has had no definite political line at all, exhibiting a hodge podge f red-hot "class-struggle" phrases (of the most general and abstract kind) on the one hand, with typical old line reformism on the tion that the peoples front outther. Official pronouncements in the name of the united front as a whole, inevitably therefore, limit themselves, for the most part, to general agitation for unity, against he National Government, and for nimediate working class demands. An examination of the speeches f Cripps, Maxton, Pollitt, when hey speak from the same platform in the name of the united front bears this out completely.

There is, therefore, for the reasons indicated above, no official political organ of the united front as a whole. This leaves unfulfilled the basic need mentioned above, namely the drawing of revolution ary political lessons for the workers. If this were the end of the story things would be only half bad. (At least nothing positively bad would be offered for consumption). Unfortunately, this is not

If there is no official political or gan, there is a paper called the 'Tribune", which, to all intents and purposes has practically usurped that position. It was born just before the united campaign was officially launched. Its stated purpose was to stimulate that campaign. It speaks in the name of the united front. It is the only paper that appears every week, which is devoted almost exclusively to united front matters. Its editor is a correct political revolutionary Mellor, a leading member of the basis. Socialist League. It reflects the political attitudes of the Socialist League and the C.P. in the main; in other words of those elements in the united front who represent the

"... That united front which has

look dominates.

Unity In The Abstract

A second, and closely connected characteristic is the mythical fetshism of unity in the abstract. Stress is laid on the arithmetical aspect, rather than on the necessary political content and basis. The illusions which are aroused thereby can be seen from the folowing representative quotation:

"The victory of socialism in wes tern civilization depends upon the unity of the working class. That is the history of the post war world. Whether it be Italy or Ger many or Austria or Spain, the evi dence is clear that without such unity capitalism takes the offensive." (Harold Laski-same article mentioned above.)

How many lessons unlearned! How many warnings disregarded! Did "unity" in Spain prevent capitalism from taking the offensive In Austria, you had unity if you ever had it anywhere. Did it prevent Fascism from conquering? What was lacking in Austria was not organizational unity, but correct principles, revolutionary principles. In Russia, the victory was made possible by hewing to a revolutionary line, even tho' it meant at one time going thru an organizational split. Unity, yes!-but on

Or take the following, where the attitude is, perhaps, even more crassly illustrated. Discussing the reasons for the cleavage between the 2nd and 3rd Internationals, the leading editorial "Close the Ranks"

A POUM Editorial

The Crisis in Catalonia

The following is reprinted from La Batalla, organ of the Spanish Workers Party of Marxist Unity (POUM). It was written on the eve of the formation of a new Catalan cabinet in March, so closely related to the present Anarchist uprising as to furnish a splendid background for understanding the events of the past few days in Catalonia. Lambda's authoritative comments on European affairs, usually found in this space, were unfortunately received too late for publication. His column will, however, be resumed next week.-Editor.

WE do not know whether the Generalidad has yet found a formula for the solution of its problems. Whatever formula they hit upon can only be one which will postpone the great problem planted at the moment of the formation of the government. Their problem is to curb, each day more and more the revolutionary action of the working class.

It is to be greatly lamented that this vital question of the future of the proletariat of our country is debated so secretly that it doesn't reach the ears of the workers-so that they might decide who is with them and who is against them. The workers must be alert! Reformism, altho it often seems asleep, continues its devastating work, creating with its sabotage of revolutionary conquests, a psychosis of discontent-which favors the return of that regime which died on the 19th of July.

Many concessions have already been made to Reformism in the name of "necessities of war."

When the POUM abandoned the government of the Generalidad we pointed that out. It was the beginning of the struggle against the revolution. Our elimination was a sina qua non for the reformists. The comrades of the CNT .- (and here we must admit that they fought a desperate battle against our exclusion from the government) understood very clearly the significance of that step. Nevertheless, they thought that their presence in the government would be able to prevent counter-revolutionary manoeuvers. They did not understand that soon these same enemies would turn the guns against them too-and so it came to pass. Reformism in the service of the bourgeois-democracy stops at nothing.

Will it win? This depends more than anything else on the vigilance exercised by the workers on the streets and on the battle front. The separation of the CNT (forced by reformism) from the government would be a defeat for the revolution-and we do not say this because we think that the actual collaboration of the CNT with the government of the Generalid is the best road. Power in Catalonia as in all other parts of Spain must pass into the hands of the working class. The proletariat must come to power, thru reconquering its last positions and thru the conquest of new ones. For that there is no better way than to proceed at once to the formation of the working class organs with democratic expression-based on representations from factories. peasantry and soldiers.

If we proceed to the immediate formation of such instruments of working class power, neither reformism nor counter-revolution can switch the victory from us. They will be powerless to stem the overwhelming tide of the victory of the proletariat.

REFORMISM IN THE CI AND OUR GAP THEORY

THERE are two important at-L tempts to explain the crisis in the Communist movement: the Trotskyist theory of Thermidorean reaction in the Soviet Union, and the "gap" theory of the Communist Opposition. The official Communist Parties make no attempt to explain the crisis, they simply deny it. The Trotskyist concept that Socialism cannot be built in one country, the USSR, and the idea that the CPSU led by Stalin represents class forces above and hostile to the proletariat have been smashed by the very development of the Soviet Union. The real course of development in the Soviet Union has been, not "flux between socialism and capitalism," not back to Kerensky, but a rapid advance toward socialism, the socialization of industry and agriculture and the wiping out of the capitalist elements. This development is unquestionable, notwithstanding the fact that the bureaucrats in Moscow occasionally ride in a "luxurious" subway.

If a Thermidorean regime in the Soviet Union is not the source of the crisis, what then is the cause of the split in the Communist movement and the wave of ultraleftism and union splitting follow-

Inverted Mechanical Transference

Those who attempt to reason from the wrong policies of the Comintern in Spain, France and the "gap" theory, the source of the United States to the incorrectness crisis lies not in wrong policies of the policies of the CPSU are of the CPSU., but in the disparity guilty of an inverted Stalinism. The Stalin leadership reasons from the party leading the victorious the correctness and success of revolution in one sixth of the their line in building socialism in earth and the other parties in the the Soviet Union to the infallibilty capitalist countries, in the widen- of their policies in the capitalist ing gap between the advancing countries. Both approaches are revolution in the Soviet Union and false in method and in fact. The the recession of the revolution in rejection of the "gap" theory, a the capitalist countries. In such a theory confirmed and strengthensituation, instead of being a lead- ed by the repeated and continuous er among equals, the CPSU has transference of policies, left and right, from the CPSU to the capin the Comintern. Given such a italist countries, can only lead to a blind, empirical floundering in dissimilarity between the conditions faced by the CPSU and the tends to lead to a hostile attitude Communist Parties in the capital- to the Soviet Union, an attitude displayed in its crudest form by the Trotskyites. The logic of and policies from the Soviet Party transferring bourgeois democratic under way before 9:15. After that had, or to set me upon the proper to all other Communist Parties has and counter-revolutionary errors committed by the Comintern in Spain to the CPSU leads to the The wrong methods employed by analysis that the Stalin leadership the Stalin leadership, the narrow, is not a progressive force, regardbureaucratic regime in the Soviet less of its success in advancing party, the suppression of inner-socialist construction, and then to party democracy, which Stalin is, the idea that it is a Thermidorean and reactionary force which must have aggravated the evil effects of be overthrown by any means.

The Moscow Trials It is because the Trotskyites

have followed relentlessly the political logic of their theories that events. The Moscow Trials do not er. Secure in the knowledge that the basis has been afforded for change our perspective on the our position is correct, we come the Moscow Trials. The claims of Trotskyites to innocence are ab- emphasize more strongly our cri- meetings, listen to reports, pat surd not only in face of the evid- ticism of the crude methods of the ourselves on the back for having ence, but also because their theor- Stalin regime, and confirm our such brainy leaders, and go comies and propaganda are a complete justification for the acts which the defendants confessed to having committed. Why plead so loudly one's innocence of the only steps that could have been taken to follow out a certain line? The speculation that the Trials were fabricated in order to suppress a growing and revolutionary opposition in the USSR to the People's Front policy and the right wing line of the Comintern is without the slightest foundation in fact. Even disregarding the lack of the slightest indication of such evidence in the testimony at the trials, we must point out that the "Terrorist Center" was organized in 1932, in the midst of the ultra-revolutionary period of Comintern policy. The first trial of Zinoviev and such source, but originate in the Kamenev, shortly after the Kirov the People's Front policy was in certainly completely prepared before the fascist insurrection had broken out in Spain. Those who look to the reaction in the Soviet Union to the wrong policies of the Comintern in Spain, for an explanish becoming more and more apparation of the Moscow Trials are ent. The Spanish events have exgain guilty of a mechanical transference of their own correct opthe CI in Spain to oppositions in the USSR founded on Russian questions. They are imagining the type of opposition to Stalin's policies, (that is, on international questions,) they themselves would manifest, and gratuitously credit Kamenev. Zinoviev. Radek and the others with such views.

The Stalin Regime & the Moscow

The essential correctness of the line of the leadership of the CPSU tries are able to throw off the in building socialism in the Soviet yoke of capitalist exploitation and Union has never blinded us to the establish new Soviet regimes, to bureaucratic methods employed by that extent will we hasten the rethat leadership. After the partial, unification of the world revolutionand on the whole unsatisfactory, ary movement on sound revolution self-criticism of Stalin at the last ary lines, and will be successful Plenum of the CPSU concerning in bridging the gap between the bureaucracy and the absence of the victorious proletariat in the Soviet most elementary democratic rights Union and the revolutionary workand procedure in the Russian Par- ing class in the rest of the world.

The CPO es- part of the old comrades that is timate of the CPSU and the USSR has stood the repeated test of must be more so to a non-CPOquestion of the Soviet Union. They around to general membership criticism of the anti-Soviet char- fortably home. Talk about secacter of Trotskyism.

The Reform of the Comintern For the very reason that the CPSU, which is a Communist Party building socialism, completely dominates the Comintern, it would be wrong to deny the possibility of restoring the Communist International to revolutionary principles, and doubly wrong, therefore, to compare the possibility of reforming the Comintern to that of the Socialist International. The policies of the Comintern on war, and defence of bourgeois democracy, have been mistakenly adopted with the intent of "defending the Soviet Union." The reformist policies of the Socialist International have no assassination, took place before social democratic bureaucracy and social patriotic viewpoint of the in their ties with the national full swing. The second trial was bourgeoisie of the various countries. The Soviet Union cannot be defended by forsaking the class struggle in the capitalist world, posed the democratic powers, those "bulwarks against fascism," position to the wrong policies of as working over-time for the victory of fascism in Spain. The necessity of an effective defence of generally take so warily. The same socialism in the Soviet Union must compel an eventual return to revolutionary, class struggle policies.

To the extent that the Communthe revolutionary proletariat in Spain and other capitalist coun- order. Our position is a good one;

One joined in November 1936, full of reads, two have a private little high hopes, prepared to set to work | meeting, and the chairman strugwith a group of equally enthusi- gles to preserve order. At my sugof the logic of our stand, build our drew up a plan whereby each memorganization, and eventually ber was to be made responsible achieve the working class unity for leading a discussion on some which is our aim. But what did I | phase of activity with which he is familiar. However, this plan died of about 30 in my unit (Bronx), a quick death when the first person scheduled to lead such a discussion failed to show up. Since November there have been exactly three discussions, one of which was held ticularly bad time; attendance was jointly with the Down Town Unit.

No effort was made to involve ever, as time went on, and no such me, a new member, in any activity, thing happened, I began to under- despite the fact that I volunteered stand why this was so. Meetings for several tasks, sold literature,

In general, activity in our unit is conspicuous by its absence. Few people in the Bronx even know of our existence. Our Forum reached a new low when sixteen neonle including the speaker, turned out to Party "theoreticians" who have hear Jim Cork on the Supreme

As for the organization as a whole, there is a smugness on the most irritating to a newcomer, and tarianism! The group seems to have become a cult of the politically righteous, a veritable mutual admiration : society.

Furthermore, the dearth of literature is inexcusable. For months I have been trying to lay hands on something which will explain the historical background of, and the present outlook for the CPO, surely not an unreasonable desire. vet nothing is available, the comrades tell me. And when some literature finally does appear, what happens? I was present at a combined meeting of two units when the longawaited People's Front pamphlet was distributed. Comrades actually wrangled for a half hour as to whether or not to take more than two pamphlets! If we are so convinced of the correctness of our line, and finally have been given so convenient a weapon to use in work on others, what excuse is there for this timidity, or more properly, laziness? Concretely, on the question of literature, I feel that the group should have a susis printed, comrades should be charged with the distribution of a set minimum, that minimum to be more than the two the comrades method should also be applied to the Workers Age.

Furthermore, how about some publicity for the CPO? Why does ist Opposition can mobilize the no mention of us appear in the workers inside and outside the press? How about debates and Communist Party for a struggle symposia with other organizato return the Comintern to Marx- tions? And now with the summer ist principles, to the degree that months coming on, open-air neighborhood meetings would be in

WORKERS AGE

Revolutionary Greetings

Breziner Arbeiter Verein for its militancy in the American Labor Movement

The Problems Facing the Fur Workers' Convention

By B. BARAZ

The 12th Biennial Convention of the International Fur Workers Union will start its sessions in Chicago on May 17th of this year.

This convention takes place at a time of epoch making events in the labor movement. The organization of the unorganized in the mass production industries such as Auto, Steel, Rubber, etc. goes on with a rapidity surprising even to the greatest optimists. Yet it is a fact that hundreds of thousands of workers have been organized by the CIO and still other thousands are ready and clamoring to be organized.

The AF of L in spite of its many decisions at conventions did not make a single move in that direction. Not only was there no attempt made by the A. F. of L. to carry out these important decisions but it even suspended and threatens formal expulsion of those unions affiliated to the CIO which have successfully led or assisted the organization drives in the basic industries.

The new strike methods, organization along industrial union lines and the honest and sincere efforts of John L. Lewis and his associates have in the main contributed towards the great accomplishments. It is therefore no wonder that every progressive union in the United States lined up in support of the CIO. The Fur Workers International Union, was always in the forefront as a militant and progressive force in the labor movement. Disregarding the years of inner division, the period of dual unionism, our union stood for industrial unionism and for the organization of the unorganized. The fur workers resisted with great vigor the expulsion policy of some reactionary leaders in our International Union. Yet to our regret it must be painfully recorded that at the last convention our delegates in concert with all reactionaries voted for suspension of the CIO unions at the last AF of L convention. It is true that these delegates voted on their own responsibility, but the impression left on the labor movement was and still is that the furriers became the new allies of reaction in the labor move-

To do away with this impression our delegates to the coming convention will have to make clear their standpoint and once for all blot out the shameful act of our delegates. Our convention will have to decide in unmistakable terms to give full support to the drives of the CIO, to help in the organization of the unorganized along industrial union lines. Our delegates will have to realize that the only way to unity in the labor movement is not through conferences, orders of suspensions or

expulsions, but thru strengthening the CIO by affiliating to it.

Immediate Tasks

We are nearing the expiration of the agreement at the beginning of 1938. In our trade we also face the problem of the discharge of workers at the pleasure of the bosses. Each Friday, for a period of 6 months, the fur worker is in constant fear of losing his job. The convention will have to decide on measures for securing the worker's job. Our next agreement must include a "no discharge" clause thereby limiting the liberty of the boss to discharge workers at his will. The problem of occupational diseases as well as the acute problem of unemployment and closely connected with it, the speed-up system in our trade, are problems calling for solution.

30-hour Week

There is no doubt in anybody's mind that the 35-hour week has greatly reduced unemployment in our trade. To further the solution of the unemployed problem, we must achieve the 30-hour week. Our convention must prepare a plan for making the 30-hour week a reality. The furriers have proven in the past to be among the first ones to secure a 40-hour week and they will surely not be backward in the struggle for the 30-hour

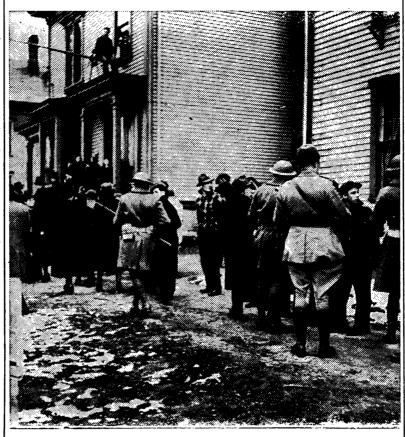

There still exists a craft union tendency amongst certain locals of our International, especially the dressers. The fact that such a tendency exists prevents our International union from organizing a few thousand dressers still outside the ranks of our International union. This convention must definitely conclude that there is no room for craft unionism in our International thereby making possible the organization of the unorganized dressers

Hollander & Son

A special problem for our convention still is the unorganized workers in the dressing and dying plants of Hollander & Son. This firm was and still is the outstand ing open shop fighting the union. During the last 16 years the hired gangsters of Hollander killed four union people, among them Morris Langer, the organizer of the union.

Our union was never as powerful and as united as it is today. There is no reason why the workers in not be organized. There is no reason why Hollander should stay it our full support.

Troopers Called Out Against Maine Shoe Strikers | May Day in

COLONIAL OPPRESSION CONTINUED BY BLUM

ARLY in January, 1937, the this glorious dispensation, we find French Ministry of Colonies announced the promulgation of decrees constituting a labor code for Indo-China. Nominally, the working population has won some concessions: 9-hour day (previously 10), night work for women and work for children under 12 prohibited, one day's rest a week, and the right to paid vacations. But

as a threat to the conditions of the rest of the workers of the dressing and dying trade. Surely our convention will seriously consider organization in the Hollander plants. In this campaign it will have the full support of the entire member-

The question of the future leadership will play an important part in the convention. Our future leadership will have to be imbued with the tasks of our own union as well as the labor movement as a whole. To the extent that the new leadership will express the views and ideas of the new current in the the Hollander plant today should labor movement, as a part of the CIO, to that extent we will render

British Labor and the People's Front

tive anti-working class attitudes to creep in - pacifism, Christian socialism, etc.—chiefly via Lans-bury. For a paper that considers This then is the itself the organ of the left wing of the English working class to allow the following stuff to creep in is incredibly scandalous:

". . . We who profess to be so cialists, because we are Christians .. Only love is the permanent cement of human friendship. Love is stronger than hate..." (Issue is stronger than hate.... No. 1).

"We ought to be tolerant both of the millionaire who has secured his goal and the worker who is striving might and main to de-

class (!) himself..." (Issue No. 6). Worst of all along this line is the leading article of issue number 13 (p. 8) entitled "What of the Churches," which praises Easter as the greatest International upon calls the church the "potential of the greatest international upon earth . . . ", talks of the " . . . power of the Risen and Living Christ for World-Salvation . . . ", attacks | English working class in the name Karl Marx, and concludes with a of the left wing.

plea for a " . . . Communism led by a Protestant Christianity' (??!!). This in a supposedly left-

This then is the political stuff which is being handed out in the name of the united front, a hodgepodge of peoples frontism, abstract doctrinairism, and positively antiworking class attitudes. It will increase rather than disso we the po litical confusion in the ranks of the English working class, placing a further obstacle in the path of its slow painful struggle toward revolutionary insight.

That element in the united front which is opposed to the political line of the Tribune, the I.L.P., has insufficiently forced to the fore the counterweight of its own more revolutionary position on the questions discussed. Revolutionary elements inside and outside the I.L.P. must work out ways and means to combat the reformist poison that is seeping into the ranks of the

is questionable in intent and misleading in practice, if we judge it in the light of the belated millenium promised by the prophets of the People's Front.

Since the nineties of the last century, and under the tutelage of Sarraut and Varenne after the war, the French government has pursued a merciless campaign toward exploiting the resources and stabilizing the labor market of Indo-China. The versatile scope of its methods has embraced, among others, such variable devices as: military pacification, direct expropriation, forced migration, "contracts" with workers mandatory for at least one year (violation subject to fine and imprisonment), compulsory workers' savings accounts until the expiration of contracts, and compulsory identification cards to prevent desertion (defined as 48 hours absence). In 1930 the whole set-up was solidified with the introduction of compulsory arbitration.

What has the Blum government done to break this slave-owners' strangle-hold?

The January decrees? But those decrees are written in blood! The People's Front had to wait until. late in 1936, 450 striking workers in Indo-China were shot, before it stirred itself sufficiently to scatter a few interest-bearing crumbs. We must point out that capitalists have been much more magnanimus with their crumbs, so long as those crumbs made a trail right back to the chains of exploitation and oppression. Where is the Blum trail leading?

Where can it lead, if the People's Front refuses even to mitigate the fundamental basis of capitalist power? Indo-China is completely and unequivocally under the fist of French imperialism thru the government of the People's Front. The recent decrees do not in any way propose, consider, hint or suggest that workers have a right to organize and act independently. And this from the People's Front-supported by Socialists and Communists.

In effect, then, the recent decrees are simply the normal defense measures undertaken by all capitalists to divert the growing militancy of the working-class for the moment, until it can be more safely and effectively crushed by direct suppression. The thread of

Pittsburgh

The working class celebrated another May Day in Pittsburgh and, as is usual in this city, no real workingclass unity was achievedeven in this year of 1937. The Socialist Party held its May Day meeting in a hall on April 30th, at which there were about 100 present. (Here in Pittsburgh we have the Old Guard still running things pretty much to suit themselves, and their meeting was utterly devoid of any speeches or demonstrations for the workingclass.)

What concerns us most is the meeting sponsored under the leadership of the Communist Party, which was held in West Park, on the North Side of Pittsburgh, and attended by about 350 workers. This was heralded as a "united front" meeting, but one who has had many experiences with the Communist Party in Pittsburgh knows that District 5 of the Party still adheres to the very narrow type of united front.

The United Front apparently was formed with the IWO, the Workers' Alliance, Labor Non-Partisan League, in all of which organizations the CP has a decisive and controlling voice in Pittsburgh. Lest I forget—the League Against War and Fascism was there also. But the unions—AF of L or CIO, where, the CP boasted at this meeting, they are leading in organization work, were conspicuous by their absence.

The CIO was half- heartedly eulogized (except for credit given CP members who are employed as organizers), the AF of L. was not even mentioned, and according to the speakers all credit for organizing the steel workers goes to the

Tasks Of Organization

(Continued from Page 5) let's stop keeping it a secret among ourselves.

Talking about secrets, all around me I hear whispered rumors to the effect that this or that very prominent person is in, or close to, our group. If this is so, why don't these comrades come out openly as CPO members? It doesn't do us any good to have them merely acknowledge that we are correct; we know that. But it might help us in attracting new members to have these people identify themselves publicly with

One more word: up until now our recruiting, and as far as I can see, there has been no emphasis on this phase at all, has come mostly from those already connected with the radical movement in some way. It seems to me that now, when conditions are especially favorable for recruiting, we need a restatement of our political position, couched in such terms as to rally around us neonle who as vet have had no contact with the labor movement. I do not doubt that many of our own comrades would find such clarification helpful as well. Here again a pamphlet would be the thing.

These issues should be raised at our pre-convention discussions, I think, and raised sharply. Precisely to the extent that we can correct these shortcomings in our work, to that extent will we grow and become a greater force in the labor and revolutionary movement.

bourgeois colonial policy from Sarraut and Varenne to Blum is clearly visible; its continuity is unbroken, its integrity unimpeachable. If the workers in Indo-China benefit by the recent decrees, they need not thank Blum.
