THE GRAND CHARGE.

EUGENE V. DEBS-

To the Comrades of America Forty-five days more! And then the grand charge on the enemy's works!

The field stretches out before us, and it fairly swarms with Hessians of capitalist power. These subsidized soldiers, from the commander-in-chief to the last straggler, are held in position by the magic power of graft. Of such is the kingdom of capitalism.

Corruption precedes the upheaval!

Looking down the field we behold the advancing army of relief-the working class in battle array.

Every class-conscious war-

rior is in line, and all of them move as one. It is truly admirable and inspiring.

The centuries have put this army in motion, and this host will conquer the earth and consecrate it to peace and joy.

What a privilege to fight in such a cause! Who that knows the thrill of manhood would not gladly give it his hand, his heart, his life!

Forty-five days more! Comrades, this is our year! Each day sees us stronger, clearer, more determined.

The Socialist party is one from sea to sea. Courage, confidence and enthusiasm abound.

The working class are compelled to choose between two capitalist parties and a working-class party.

Thousands are flocking to our revolutionary standard. This year the social revolution will register its rising tide and

the sons of toil will shout for joy.

Each comrade is at his post. Not one who is true is idle. Not one will shrink or shirk.

Forty-five days more, comrades of America!

You have weathered the storms of the past and you are tempered for the battle of to-day. Charge the enemy from every quarter, and you will grow

stronger as the battle waxes hotter. Spread socialism far and wide, scatter your literature every-

where, give each day your ability, your energy and tenacity, and when the smoke of battle clears away the comrades will stand forth an honor to the whole movement.

RUSSIA.

The remarkable greeting sent by the Socialists of Japan, which we give below, should serve to make those people who igaorantly parrot the phrases coined by the servants of privileged interests and reactionary thought consider the wisdom of fairly seeking to know the animating spirit, the creed, the ideals and the aspirations of the great economic school, before applying epithets that are as wide of the truth as it would be to term Russia the home of freedom. Incidentally the following message should show the unbiased Christian how much nearer are the Socialists to manifesting the true spirit of the great Nazarene than is conventional churchianity to-day. Here is the address which the Socialists of Japan sent to their brethren in the empire of the

"Dear Cornrades: For many years we have heard of you and thought of you, although up to this time we have not had a chance to shake your hands and hold intercourse with you, as we are separated by thousands of miles. Twenty years have passed since you began to proclaim noble principles of humanity under the Socialists' banner.

"Undaunted by the serious trials of hunger, poverty and transportation to Siberia, you have not become discouraged. Dear comrades, your government and ours have recently plunged into war to carry out their imperialistic tendencies, but for us Socialists there are no boundaries, race, country or nationality. We are comrades, brothers and sisters, and have no reason to fight. Your enemies are not the Japanese people, but our militarism and so-

Patriotism and militarism are our mutual enemies. We are neither nihilists nor terrorists, but Socialists, and fight for peace. We cannot foresee which of the two countries will win, but the result of the war will be the same-general poverty, new and heavy taxes, the undermining of morality, and the extension of militarism. Therefore it is an unimportant question which gov-

It is the spirit manifested in the above address that terrifies the Emperor of Germany and all the empire-builders and peoplecrushing despotisms of the world. Establish the ideal of brotherbood, for which Jesus Christ lived and taught and prayed, in the heart of the people, and militarism, despotism, imperialism and intellectual bondage will disappear.

STATE NEWS

It is safe to assert that no other State in the Union has such a strong and thorough organization as has Illi-We now have about twenty county organizations, which means his work in the State, and has gone two or more locals in a county, with a county central committee. Besides these there are about forty individual locals scattered in almost as many counties. These are all actual working organizations, too, and none of them exist "on paper."

County tickets have been nominated in the following councies: Cook, Williamson, Bureau, Peoria, McLean, Vermillion, Macon, Rock' Island, Jackson, Adams, Will, Stephenson, Fulton, Morgan, Edgar and Winnebago. Besides these, tickets will be nominated in Coles, Christian, Edgar, Henry, Iroquois, Kane, La Salle, McDonough, Madison, Morgan, Pike, Sangamon, Warren and Washington counties.

In addition to this, nominations have been made in almost every Senatorial and Congressional district in the State. What other State can show as good a record?

One of the most encouraging reports ever received from the State comes from Comrade Underhill, of Kewanee, in reference to the work there of Organizer Collins. Following are extracts from his report:

CITY AT MERCY OF ROBBERS. Meanwhile Authorities, Reformers and

"Practical thief catchers and theeetical reformers agree that Chicago s at the mercy of robbers and thugs The long list of recent crimes committed in this city proved startling even to the police authorities hardened to the cold argument of statistical reports on lawlessness.

"As a result of these conditions the problem of protecting life and property assumes grave proportions to the mu nicipal authorities and the anti-crime agencies. Acting Mayor McGann and Chief of Police O'Neill are fully alive to the seriousness of the situation for immediate relief. The former de clares children should be taught respect for the law, and in this the Chief agrees, adding that the abuse of Amercan freedom is one of the causes leadag up to present conditions. He says, lowever, that the outbreak of crime s universal, all of the large cities being terrorized this fall by the depredations of the crimmal class

"William A. Pinkerton advocates the whipping post for thieves and petty crooks. Ministers and leading citizens are making a study of the conditions problem of adequate protection for life and preperty. The main significance of the suggestions and opinions advanced is in showing the real seriousness of the situation."

The above is from the Evening Post of Wednesday, Sept. 21. It was apparently written in all sincerity. The Evening Post is the most class-conscious capitalist paper in Chicago. Its readers, with few exceptions, are parasites pure and simple. They are no doubt sincerely "philosophizing" on the seriousness of the present "property situation." They are in search of a remedy for a contagious disease which threatens their very existence, but they have not diagnosed the case scientifically. Acting Mayor McGann suggests as a remedy "that children should be taught respect for law," and this is the only remedy offered by the capitalist doctors. They admit the plague is not confined to Chicago, but is universal, "all the large cities this entive and enthusiastic, and stayed fall are being terrorized by the depradations of the criminal class."

THE SEQUEL.

Every large city, according to the reports of the same capitalist papers, which publish editorials and news items similar to the one above from the Post, contains hundreds of thousands of working men who have been thrown out of employment who have not been living on cold charity. Here in Chicago 15,000 thugs and Collins. His visit has helped the local strike breakers have been turned out of the packing houses to walk the streets and enjoy their "right to work

under the American constitution." The truth is that capitalism is no studied Socialism is moved by the property against the great hungry stomach of the "submerged tenth" which it has brought into existence. The great unemployed problem is staring them in the face, and they admit they have no remedy to offer. It is a hopeful sign that the workers are not 'applying for charity."

Socalism offers the only remedy for the disease, but to remove the cause of the disease we must abolish capitalism.

In whose interest will the public powers be administered during the coming four years? The trust and the capitalist class, or in the interest of the working class? Up to you, Mr. Workingman. Socialism or capitalism-take your choice. Remember your votes must decide this question,

Those seven thousand men and wom en who are "laid off indefinitely" at Pullman should take a trip to California on one of the palace cars they have built the last few years. They are running between here and the Pacific coast every day. A change of scenery would do them good.

They would come back to their worl after their trip and vacation filled with a greater "incentive" to build paince cars. It is a wonder that the idea has not struck any of them before.

The workingman who votes for Roosevelt will throw his vote away; the workingman who votes for Parker will throw his vote away; the workingman who votes for Debs and Socialism will save his vote, and the record of it will be a lever to overturn all capitelist infamies.

port to Gov. Vardaman Novel Explanation of Alarming Increase of Murders.

Mississippi Circuit Judges Re-

Farmer Juries Will Not Convict Cotton Pickers.

Last week we commented in the olumns of this paper on the theory advanced by a preacher of the gospel which he attempted to preve that the cause of the appalling number of murders in Mississippi was largely due to impure liquor. Now comes a judge of one of the courts with another the ory which sounds rather Marxian in its conclusions.

"New Orleans, La., Sept. 19.—(Special.)-Because negro labor is scarce on the cotton plantations, Mississippi planters will not convict negroes for murder or other crimes. They need them in the fields.

"Such is an explanation made to Gov. Vardaman of the recent increase of crime in the State. The farmers who serve on juries, it was declared, invariably acquit the criminals, with the understanding that the prisoners are to help in harvesting the crop.

"This disclosure was made by judges of the Circuit Courts of the State to whom the authorities had appealed for suggestions. Since last January 500 murders have been committed in Mississippi.

"Gov. Vardaman declared that he has been terrorized by the showing. and that he proposes taking radical steps to suppress the crimes, the majority of which were committed by ne-

There is nothing startling in the above to a well-posted Socialist. The Socialist knows that the men who control political or other power almost invariably use it to advance their own material interests. The Mississippi

farmers are no exception to the rule. They will not convict the laborers because there "is a scarcity of cotton pickers to harvest the crops," even though they are guilty of murder. The capitalists will not abolish child labor, though child labor under present factory conditions is nothing less than the most flendish murder of child mind, child soul and in thousands of cases physical death.

The enlightened worker who has broader knowledge of the dynamic social forces that have shaped the past, controls the present and will dominate the future, sees that if the working class is ever to be anything but the producer of wealth which it is not permitted to use, then the workers will have to act along the line of their enlightened class interests, both in the economic and political field.

As a further comment on the above subject the following from the Chicago Tribune of Sept. 20, commenting on the reopening of the Iroqueis theater, shows how much we are all under the control of our material environments:

"There have been certain objections raised to the reopening of the theater to the public. The Iroquois Memorial Association is reported to have requested every minister of Chicago to raise his voice against the respening; clubs and federations and various associations within the city have been appealed to, and the response has been hearty. Of course, Mr. Workingman, you are going: you ean't afford to miss it, after baving four years of "prosperity."

Capitalism debauches men and wears diamonds, degrades women and riots in luxuries, murders children and smirks at suffering; it corrupts the courts, buys the Legislatures, elects Presidents-and robs the producers of wealth to foot the bills. May it maily "lift up its eyes in hell."

Do you want to see the dawn of an era of real human progress, of oppor-. tunity and adequate compensation to those who do the world's work? Then come niong with us and take one step toward the dawn by voting the Social ist ticket in November. Remember what was aptly said by Debs in 1900; "It is better to vote for freedom and fail, than to vote for slavery and succeed." Let us vote for freedom this year: we may succeed.

In dividing up the game the white man said to the Indian: "You take the State Legislatures, with no other result buzzard and I'll take the turkey, or I'll take the turkey and you take the politicians in the interest of the exbuzzard." In dividing the wealth which labor creates the capitalist says to the workingman: "You do the work and I'll take the profits, or I'll take the profits and you do the work." The Indian's reply to the white man was: 'You no say turkey to me once." And the simple workingman replies to the capitalist: "You no say profits to me

The providential removal of one Marcus Hauna from the field of polities appears to have left the Republican party without an effective campaign cry to catch workingmen's votes. Hanna's idea was that workingmen had no brains, no intellect, no aspirations; that they were just so many stomachs. Hence the cry of "the full known by sad experience. dinner pail." But don't suppose that the capitalists have changed their estimate because Hanna has gone; their idea of the workingman is just the same—"Feed him and fleece him?"

And now Mr. Gompers is of the opin ion that the unions must "go into polities" after all. But the idea of going into working class politics and electing workingmen on a working class platform don't seem to have reached his mind yet. He only wants the workers to ask the politician where they stand on the "Anti-injunction bill," the eight hour law, and the referendum and ini tiative. The workers know from experience that the capitalist politicians will promise anything before election. They want the workers' votes, they vant to perpenuate their power to rob the workers. If Mr. Gompers has any sincerity in advising the unions to use their political power in their own in terest he will advise them to vote the Socialist ticket this fall. A million votes cast for the Socialist ticket and principles will bring more results than all the promises that ever were or ever will be made by capitalist politicians to secure recognition for the laws that workers are interested in

If the sixty thousand men and wom en in Chicago that are "laid off" and on strike will just let the gray matter in their heads work a few bours per tay on the problem of how the workers can buy back ten dollars' worth of their labor's products, with about two dollars, which they receive in wages, they will then be able to understand the unemployed problem and know that it is here to stay until the working class become intelligent enough to look after their own inter ests by electing their own class to power with the avowed purpose of taking possession of the wealth producing plant which their labor has created and keeps in operation,

PRELIMINARY ANNOUNCEMENT.

The party organization in Cook County has in the past undertaken many enterprises on a large scale and carried them through successfully With the growth of the organization and its willening influence, there is no reason why each year should not be marked by a distinct advance in the character of its undertakings outside the field of politics. Heretofore the Entertainment Committee, which has done excellent work in behalf of our chief means of publicity-The Chicago Socialist-has been charged with managing a series of ventures in different seasons of the year, some of them be canvass of the possibilities for rais ing the "sinews of war" for the coming year has, after due consideration brought the entertainment committee to the conclusion that it will during the month of January next excel all other enterprises it has ever conducted. It will be on a scale of magnificence never before attempted, and 'yet at the same time be within the power of the comrades of the county and State, with co-operation and energy, to carry through to a most satisfac tory result.

On its political side the movement here is making giant strides; thousands are drawn to the movement by the irresistible logic of events; the or ganization is growing as never before, and the result will be a large increase of the constituency to which we can legitimately appeal in our January carnival and bazar. The purpose is to transform, with the aid of scenic painters and carpenters, a large hall, conveniently located, into an European village and, under the supervision of duly elected officers who will exercise the functions commonly belonging to such "important" officials, run the village for seven days and seven nights. There will be attractions for everybody-man, woman and child. There will be a stage entertainment for one hour every evening, after which the municipal court will assume the goverument of the village-and the fun will begin. There will be all kinds of stores and every description of goods on sale. There will be music every light and a ball on the closing nigh There will be contests of various kinds and exhibitions by the Turners. There will be trials before the municipal court of persons against whom "seri ous" complaints have been entered, and you will taugh as you never laughed before. But this is only the barest outline of what will be going on for seven days and nights at the January carnival and bazar. The program for each day will evolve as we go along, and the entire great season of enjoy ment will be announced in the "Carnival Clarlon," the first number of which will be published one week in advance of the grand opening and be continued each day thereafter until the close.

Now, the thing to do is to watch for the "Carnival Bulletin" in this paper every week. There will be fresh in formation on all sorts of points that will interest you. In a little while a meeting of Socialist women will be called-watch for that. Then there will be meetings of men-probably every week after we have voted, and every ounce of energy will be put into this great undertaking to provide ample funds for our press during next year and enable the local branches to conduct enterprises of their own for the work in their own localities.

COLLINS GOES TO NEW YORK

John Collins, our State Organizer and Candidate for Governor, has been spending a few days with his family esting up a little after his long and

successful trip throughout the State. On Thursday he started for New York, where he goes to assist the New York comrades in their campaign for three weeks. He will then return to Illinois and keep his "hammer" going until election day.

All who have heard Comrade Collins know that the sound of the trumpet will be a clear one.

If the accuracy of Senator larger ones, Nothing could happen Hanna's figures be dealed, it will not which would hasten the coming of be denied that the workers of all countries are all the time producing largely in excess of all that the workers of the present rate of consolidation, the and the countries are able to buy, over day is not far off when a sufficient and above all that their empyoyers portion of the productive property of can either use or waste.

The Foreign Market.-By means of he foreign market the attempt is made to dispose of this surplus, by the employers of different countries trying to sell to each other this surplus, which the workers could use, but annot buy, and which the employers extent the foreign market relieves the everstocked market of one country, it nust at the same time increase the other country which was before producing the same goods for the same their profits, the uninvested profits market. If the great manufacturing countries are all of them producing 30 same way that the unsold goods will per cent more than the workers canabove what their employers can use or waste, this surplus cannot be long disposed of by international exchange. staple articles of one country for the to waste, it can in no way add to the purchasing power of the workers.

Losing the Market -- If there are increased sales for any one country, it is because it has captured the trade and closed the shops of some other country. And so the struggle for the foreign market, wherever trade shall finally go, means destruction of industry for the losers in the conflict, and ultimate monopoly and worldmastery for the industrial victors.

Purchasing Power.—But this is not all. Each such victory helps to destroy the purchasing power in the world-market of those countries whose shops are closed, and hence makes smaller, at the same time it monopolizes this market for the victors. Whenever the world-trust shall come into complete control of the worldmarket and continues to produce more than its workers can buy, where, then, will it dispose of this surplus which the capitalist claims, but cannot use, and which the worker has produced and needs, but cannot buy? If the remedy shall be to produce less, then more workers are displaced and there will be still fewer to buy, and hence, a larger surplus than ever. Then capitalism will be able to clear its shelves only by closing down its shops. Hence the world-trust is to end the relief any one country by destroying the industry of some other country.

The world-market is already the one market of the world. The business of supplying that world-market is rapidly becoming the business of a single combination by the process of competition and the necessary consolidation resulting from the combination of some, and the destruction of others, of the competitors.

Commercial Suicide.-Whenever a part of the competitors are in a worldwide combination and have destroyed all other competitors, then the combi nation must proceed to destroy itself or abandon capitalism. For what can the handful of men, who may be in that final combination, do with 30 per cent of all the products of all the earth, products which the employers cannot use; products which the workers cannot buy; and which cannot any onger be sold outside the trust-controlled territory, to the profit of those in the trust, and to the ruin of those not in the trust, because, at last, all the world will be within the grasp of the one international combination and there are no other worlds to con-

The Collapse,-Therefore, the culmination of capitalism will insure its collapse, because production under capitalism now depends on the foreign market to dispose of its surplus; and the foreign market can last only so ong as the international competitors are engaged in the process of destroy ing each other. When that war is over, and foreign relief is no longer ic war has lasted on and on-barba

To whatever to the end of this means of re-investment for the earnings of the trust.

Played to a Finish.-A handful of men cannot consume or waste one overstock or stop the industry of some third of the world's products. When they can neither use nor re-invest must accumulate in the vaults in the accumulate in the store-houses. Hav buy with their wages, and over and ing bought the earth, the end of the buying business, so far as productive Capitalism will have made the earth a for however much this international single great machine for making profexchange of goods, by exchanging the its, and then, because it will have already bought the earth, it will have luxuries of other countries, may add no use for the larger share of the to what the capitalists may be willing profits. So the game of capitalism will cease to be played. simply because it will have been played to a finish and the gamblers, for sheer lack of victims, "will adjourn for the night."

What workers would be so employed? It has sible. been seen in the preceding chapter that it would be the workers in those countries where raw materials are cheapest, access to the sea most direct and labor most helpless. That would mean that capitalism would last longest, farthest away from the greatest centers of the world's activity, for there raw materials cost most and labor is best organized. When the final trust comes it will collapse. It will | great estates in ancient Rome attemptcollapse first where the workers are best organized and where society is most advanced. It will not need to collapse in all places in order to utterly collapse in most places. And the places of its earliest collapse will be in those countries where, when capitalism cannot any longer employ labor. labor will be best prepared to employ itself. But labor once perfectly equipped and self-employed anywhere will rapidly extend the new order of things everywhere. The Class War .- The evolution of

capitalism, beginning with the creaion of the economic class war, by the earliest form of capitalism, slavery. and the continuance of this class war under serfdom, and its full development and final struggle under modern apitalism, argues the collapse of cap-Italism with equal certainty. > But to-morrow the masters will be few in number. They will largely own the earth, but they cannot use it. They cannot re-invest their earnings. they cannot sell their goods, they cannot employ the workers and they will not have the force to protect the titles which they have secured by force. The economic class war will end because of the evolution of capitalism under the domination of the master class will have created a new class of talism cannot prevent, and whose strength no power on earth will be able to withstand, and whose welfare cannot be secured, unless expitalism shall cease to be. The economic enfranchisement of the working class means the disappearance of all other economic classes, and the collapse of that age-long capitalism based on the appropriation by one class of the products of another class, will be inevitable and final,

> Benevolent Feudalism.-It is sometimes admitted that the trend of things is distinctly as is here indicated, and then it is denied that the final collapse will come. A new feudalism, "a benevolent feudalism," is to prevent all this. Not only has this been contended for, but there seem good reasons to believe that it has been definitely proposed and steps underlaken to realize that result.

It is asked if great capitalists could form a world-wide combination to take charge of the government, as well as the industries of the earth, and could so operate the governments that they could enforce such industrial activities as would provide for the personal comfort of all the workers, and thus, by making "the full dinner pail" always certain, could not, then, such a condition of dependence between the well-fed workers and their acknowledged masters be established that the property is concerned, will be at hand. masters would provide directly for aft who would submit to their paternal care, all that could be carried in a 'dinner pail" and starve or imprison all others, and then use or waste in private gardens, hunting grounds and personal services for the masters all the life values of all the people not required for the comfortable support of have cleared the table of all its the workers themselves. The greatest strength of this suggestion is in the ruined all competitors; will have fact that in the culmination of capitalism the final group of surviving capivately marked all the eards; will have talists will be forced into a single combination. When they have made one either able to bet or willing to the last great bargain and have bargained for the world itself, that will surely include the governmental powers along with the rest. Then, why will not the surviving capitalists choose to use these powers of the state together with the world's resources, which the final trust will control, in order to provide, at least, a comfortable existence for all, rather than consent to the universal collapse

Inner Circle Unable to Keep the Peace, Disguise its Crimes or Defend

First, It would mean that when the final trust comes the capitalist "leopards will change their spots" and cease to lie in wait to destroy each other. There is no reason to hold that it can do is to limit production to the they will not continue their strife which will make the final trust, withcombination can use or waste, and in the final trust, an ever-lessening self-destroying "inner circle" inevita-

> Third. The workers could not be made content with a "full dinner pail." They have contended for that because they did not have it. Give it to them and make its possession secure and they will make a fight for more, and now having full stomachs, will increase the fury of their demand as they are stronger to make demands.

> It should be remembered, when the ed to improve the lot of their slaves so that more slaves could be gotten by birth, when conquest could provide no more, how quickly the effort to improve the slave destroyed slavery.

> It should be remembered, when the English landlords found that too many serfs were taking advantage of their right to go, the landlords attempted to keep their serfs by improving the lot of the serf, how quickly serfdom ceased to exist. When capitalism shall once sincerely try to improve the lot of the workers, that will be the

end of capitalism. If the final trust keeps on its way of capialistic production and exploits tion, it must collapse. If the final trust tries to keep the peace and perpetuate itself by offering the workers half a loaf, they will proceed to demand and to take possession of the whole bakery itself. And, bence, again, the culmination of capitalism will be

Comrade Sievers, of Kankakee, reports much interest manifested there in Socialism, and states that Kankakee will do her share in the general increase of the Socialist vote. Arrangements were being made for the Block meeting on the 22d.

Comrades Jaynes, of Witt, sends in a request for an organizer to visit there and organize. He thinks a local with twenty-five members can be

Comrade Koos, of Aurora, writes that the comrades there were well pleased with the speech made by S. Goldbarth on the 10th. They want him again. They are delighted with the fact that Collins and Brower, candidates for Governor and Lieutenant Governor, will both be at Aurora on Oct, 15. They have secured the City Hall and will have a big rally.

The Socialists of Edgar County are preparing to form a county organization. Comrade Happurett, of Paris, states that the workers there are beginning to grasp the reality of the class struggle and a big awakening is in evidence. The Block meeting in the Twenty-seventh will be held at the courthouse yard. Comrade Brooks delivered the Labor Day address and made a deep impression.

Comrade Polquin, of Mattoon, reports the workers there as getting their eyes opened and much sentiment is being aroused. They are making arrangements for the Block meeting at Charleston on the 28th, and at Mattoon on the 29th, and for Brower and Collins on Oct. 20. The Mattoon Jourual recently contained the following:

State Secretary. DOTS AND DASHES OF THE CLASS STRUGGLE.

BY HENRYS]. WIEGEL. If you don't believe we are become ing a warlike nation, observe the style of military belinets now worn by the park policemen

Mr Redmond declares that home rule for Ireland is near. We have heard that for a good many years now What the working class of Ireland really wants is the right to use not only the land, but also the tools, machinery, factories and transportation lines without giving up the larger part of the wealth they create to an empleyer, whether he be an English lord or an Irish capitalist.

The Republican and Democratic ward beelers and politicians are grumbling because their usual easy money around election time is not forthcoming. As the trusts and corporations control whoever is elected on the old party tickets, it makes no difference to them what species of welf gets the office; therefore it's useless for them to throw away money.

Mr. Workingman, which are you most Interested in street car franchises and municipal ownership of street cars, or food, clothing and shelter for yourself and family? A few would-be reformers and alleged friends of the working class are working you up into a high state of excitement over municipal ownership, which you won't get after all their sponting. The Socialist party, when in full control, will give you food, clothing, shelter and the right to have employment. The ownership of the streets and the car lines as well as all other necessaries of life. goes with the Socialist program. Then why should you waste any of your time, money or energy in chasing municipal rainbows? Get into the Socialist band-wagon and become a member of the party.

Capitalism makes beasts and say ages out of civilized men. A Russian and a Jap were found dead on a battiefield embracing each other, but not as lovers would. The Jap's teeth were sunk in the Russian's throat, and the latter had his thumbs in the Japs eyes, having tried to gouge them out There is no danger of the Czar or the Mikado getting so close together and testing their personal strength. Why should they, as long as ...ey can get the working cattle to kill themselves for their masters?

The school board don't want aged teachers to receive pensions unless actually unfit for still making their living. Navy and army officers have no such restrictions, but then that is capitalism for you, and under this system school teachers, people engaged in a useful ocupation, are not to be classed with those engaged in the game of slaughtering human beings.

Crime is rampant in Chicago. With 25,000 men thrown out of employment through the closing down of many large plants and the turning loose of the thugs and cutthroats used as strike breakers, with cold weather coming n, what else could be expected? .Un der Socialism there would be no un employed problem, which is now the cause of most of crime committed. Next November you will have a chance to show whether you approve this system. A straight Socialist vote is the proper protest, followed up by joining the ward branch and becoming an ac tive worker in the cause.

A test is going to be made of an Illinois statute. The arrest of the presi-02.41 dent of the Goss Printing Co., in order to give the Employers' Association the opportunity of testing the constitution ality of an Illinois law which provides that employers advertising for help shall be compelled to state whether or not a strike is in progress, will result in the law being declared unconstitutional, the same as the anti-injunction and the eight-hour laws throughout the United States. But, after all, what's the use of going to that trouble? It has been virtually a dead letter anyway. Or, perhaps Sammy Gompers might "question" candidates as to whether or not they will vote for its

The winner of the pennant in the National Baseball League plays a se ries of exhibition games with the win ners of the pennant in the American League, and the players "cop the dough." But as the National League is supposed to have more to lose on its reputation by losing the series, it is alleged the officers of that body are buying off the star pitchers in the New York National team to keep them out of the game. Under this system there are few things not reached by the rottenness of capitalism.

SECRETARIES, ATTENTION.

A mistake was made in communica tion sent by the subcommittee of the campaign committee. The words read ing "from now until the close of the campaign" should read "from Oct. 17 to close of the campaign." A. HARRACK, Secy.

You cannot win the esteem of our an through the abuse of another.

ECONOMIC DETERMIN-ISM" DEMONSTRATED.

has been condemned in the most seath ing terms possible. Such condenua tion is probably concurred with by all refined and respectable persons who look upon the matter from a sentimental point of view.

"Sentiment is here in conflict with what the public calls 'sordid greed, but what the managers call busines sagacity.' What the ultimate outcomwill be is a matter of deep concern It is not the function of the psychologist to decide upon the merits of the nise."

"The American is presently practical but secondarily sentimental. Those of us who condemn the managers of this playhouse will do well to consider the question from their point of view What would we do if we had a great sum invested in the building and were salled on to pay thous ads of dollars annually for ground reut?

"The Northerner opposed slavery on sentimental grounds. The Southerner was of as high a type of civilization and yet the sentiment of the case did not appeal to him. The part which inaucial interests play in determining our sentiments is well known, Th public at large has no maneial interest in the playhouse, and for it the question is one of mere sentiment. The nanagers have large financial interests at stake; these are for them sufficient to deaden sentiment."

It may look at times as though more entiment is in control of the affair of men, but on a closer Last more per feet understanding of all the factor. involved it will be found that men acas their material interests dictate, ac cording to their enlightenment. The working class in their struggle for liberly and justice is no exception to the

FEDERATION NOTES.

At last Sunday's meeting of the Chicago Federation of Labor a resolu tion from the Iroquois Memorial As ociation opposing the respening of the Proquois theater was read and refer red to the executive board.

Then some doctor tried to advertise himself through the Federation, but the reading of his letter was stopped. Then came a communication from

President Compers calling upon the Federation to aid the Referendum League in forcing political candidates to promise to do numerous things which, by their political affiliations they are already pledged not to do.

Of course, no more was needed to start the Socialists. Logically, vigorously and plainly

were their objections stated. If those who favored the communication had been able to offer any rea son, except that, like a flock of sheep they must follow the bell wether, the vigorous opposition would have made

their silence impossible. But despite their silence in the discussion, pure and simpledom won by a large majority when it came to a vote, and the communication was referred to the legislative committee.

In commenting on the matter the usually dignified Tribune cavorts in high glee because the Socialists, while occupying the only logical position. could not muster a majority of the votes.

It is well for him who laughs first to laugh soon, or he might not laugh at all.

A JOURNAL OF FORCE.

One of the few well-edited trade union papers that realizes the neces sity of something more than an or ganization of workers for such benefits as can be wrung from capitalists in the economic field, is The International Metal Worker. It is the official paper of the United Metal Workers' International Union, and is creditable to that organization in every way. Published monthly, every number is filled with matter evidencing a serious purpose and broad conceptions of the labor movement. For these reasons The Metal Worker is not often quoted by the less intelligent trade union pa pers, most of which fear to touch the labor question fundamentally and serve up to their readers a lot of chaff from which the wheat has been intentionally or ignorantly separated. The Metal Worker is, therefore, to be congratulated on its distinctive place is the labor press.

The effect of this attitude of the public mind is that this year there is so far actually no campaign for the presidency. What little of a campaign there is may be found in newspapers, especially the Eastern newspapers.
