PRICE 5 CENTS

U. S. SOLDIER **GETS 40 YEARS** FOR WAR ON WAR

Severe Sentence Put on Traffic on the Cuba and north coast railroads is almost completely tied up Private Crouch

(Special to Young Worker) HONOLULU, Wawaii. - Private Crouch, U. S. army supply clerk has been sentenced to forty years in prison by a general court martial and three other soldiers have been given "dishonorable discharges" as a result of their Communist activities at the Schofield barracks here.

Charge is Frame-Up

There was no real evidence against Comrade Crouch despite the heavy ganizing a Communist League in Hawaii, answering certain lies in the local paper and writing a letter to the Communist International.

The only evidence against the soldiers was furnished by an army spy who tried to get into the Hawaiian Communist League but was refused

Letters Stolen From Mail

spy. One of these letters bore a printed letterhead giving the names of Privates Walter Trumbull, Walter Nadeau and Crouch as the executive committee of the Hawaiian Communist League. Another stolen letter was one addressed to the Communist International, applying for admission and sending greetings from the class conscious workers and soldiers in

Fear Work Within Army

years with no further charge leveled the New York Rotary Club. against him than that of "preaching Communism." The severe measures the government has taken against revolutionary activities in Hawai shows how important this work is and that it must be intensified.

Raises Rumps in Hawaii The sentence of ComradeCrouch has created a big stir in Hawaii, and especially in the army circles. The Hawaiian Communist League had consisted for the main part of soldiers stationed at the Schofield barracks had for some time known that there was a group of soldiers there who

The Star Bulletin in an editorial says: "an echo of the Crouch case will be heard from Washington to Moscow."

were carrying on anti-militarist acti-

The army authorities are maintaining much secrecy and it is only with the greatest difficulty that it has been possible to obtain what information has appeared in the Young Worker.

Rear Admiral Admits Wars Fought for Profits

NEW YORK.—Rear Admiral William L. Rodgers, debating at Town Hall with Scott Nearing on preparedness, incautiously made the admission that commercial rivalry is the cause of wars and the reason for armies and navies. Said the read admiral:

"We must maintain armed forces to retain freedom in our business relations with rest of the world, without dictation from nations wielding greater force. To keep an unshakable hold on our traffic, independent of rival great manufacturing nations, we need a great merchant fleet. Our riches and our complex industrial organization put us in economic danger from other nations. War is likely to come to us in resisting what we regard as an attempt to take unfair economic advantage of us."

Scott Nearing showed that the only hope of abolishing armies and navies and war was through the abolition of The strength of the progressive minthe caintalist system which gave rise to these evils and he defined prepared- sciousness among the miners is beness as the protection of bankers in ing awakened, and the day of the rule exploiting human and natural re- of Lewis is drawing to a close.

New Orleans Crime Is Traced to Child Labor

NEW ORLEANS. - Statistics sexes under 18 years over 1924. Various reasons have been given by those ture shows a Roman Catholic priest in authority, but the most potent has been ignored. The employment of boys and girls of tender age when they should be in school has increased owing to the fact that wages in general are materially lower.

Ties Up All Railways

alists and their government representatives have been very much worried ever since news reached here of a big strike in Cuba.

as a result of the strike called several

next week and it is expected that all industries on the island as well as the railroads will be tied up.

The fall of the French franc is be ing regarded in a very serious light here, but in governmental circles there is a strong conviction that the financial situtaion in France may force the French to give in on the question of a disarmament conference. There are also reports that one of the sentence. The only acts of which he first steps France will have to take was proven guilt were those of or | will be to float another large loan. This is expected to give the Morgan interests a chance to get an even firmer grip on French finances and even greater influence in Europe.

Silent Cal continues to reward his political supporters. The criminal indictments against the three biggest figures in the great oil scandal have been completely killed by the Part of the evidence consisted of supreme court of the District of Colletter stolen from the mails by this umbia during the week. Albert D Fall, Harry F. Sinclair and Edward L. Doheny are now free to continue their "good work" unmolested.

Negro Campaign Gets A Good

By BARNEY MASS.

In the March 21st issue of the Young Worker, a program for Negro work was published. This program, in addition to pointing out the importance of enilghtening our own membership on the status of the Young Negro worker, concentrated on the calling of a Negro Labor Congress. This congress is being called by the Negro Labor Congress committee of which Lovett-Fort-Whiteman is the chairman.

In order to develop this important work and to interest a large number of young Negro workers in this congress, the National Executive Committee has appointed H. V. Philips, an active young Negro comrade of the Chicago League to specialize in this activity. Comrade Phillips is also a member of the provisional committee of the Negro Labor Congress Committee.

Thru the mentioned arrangement, it

will be possible for the development

of this phase of our activity. We must

mobilize our whole membership to get

behind this work. It is very neces-

PAY LOW WAGES FOR HEAVY WORK

Must Organize to Get to begin establishing contact with the **Better Conditions**

The young workers at the Niagara Radiator and Boiler Co. work 9 hours a day for wages ranging as low as 45c he would rather see civilization de- an hour and seldom going higher than making capitalist system replaced by work piecework and manage to make their necks to do it.

Completely Unorganized.

The place is completely unorganto Get Off Ballot or here have to take what the bosses ized, which means that the workers Be Expelled 99 Years hand them. We work from 7:30 to 5:00 o'clock and when working overtime receive straight pay only.

The ventilation here is so poor that in the afternoon, from 12 to 5, it gets so smoky that you can't see each other 10 feet away. Of course, this is very bad for the lungs of the young workers, but the bosses are too greedy

Speed-up System.

There is a real speed-up system here which keeps us all working at to the Communist movement. Thrubreak-neck speed. The grinders and out the big industrial cities, exist core-makers are on piece work, and many young Negro cultural clubs. The departments. If you slow up at any prevailing among the young Negro time the boss is on your neck and workers to establish some expression saying that you are holding up the for their interests. It must be pointed

Or else the boss says that something ation to the Young Communist Interhas to be sent out right away, but national, will it be possible for them after rushing to finish the work the to carry on an effective struggle workers usually see the material lying against capitalism which keeps the around for hours.

Work Very Heavy.

The work here is very heavy and the youngest workers are often expected to lift the objects. Because the bosses won't spend enough of their profits to get more modern and scientific methods of testing the radiators, the testers have to stand in water all day, summer and winter, which usually results in rheumantism or pneumonia. Must Fight to Improve Conditions.

Those young workers at "Niagara" who are organized into the Niagara nucleus (shop unit) of the Young Workers League are calling upon the other Niagara workers to fight against Join with them in the fight for the following demands which will mean petter conditions at Niagara.

Fight for these Demands. 1. Abolition of the piecework and speed-up systems with no reduction in wages for those at present work

2. A weekly minimum wage for all (Continued on page 2.)

Comrade Philips is to tour in the proximity of Chicago first, to organize ocal Negro Labor Congress commitees. He is to be followed by Comrade Whiteman. While doing this work, Comrade Philips is simultaneously going to organize the young Negro workers in the Young Workers League. He has had considerable experience in organizing among the Negro workers and will prove very valu-

League Supports Demands for a Living Wage masses of young Negro workers.

PITTSBURGH, Pa., April 5.-Tweny grils employed at the D. L. Clark factory have struck for better wages being unable to make a decent living at the wages they were getting. Some sary that we pay particular attention of the girls were getting \$9.00 to the Negro problem and we must week.

Demand Turned Down

After talking over the proposition at noon hour, the girls then told the assistant superintendent that they demand more money as the present wage made it impossible for them to live decently. The assistant superintendent noticing the solidarity manifested by these girls told them he would have to talk it over with his superiors. He returned about 2 o'clock and informed the girls that the company would not give them the increase they demand. The girls then held another conference and decided on a strike. To date none of the girls have weakened and they will continue to stay out until their demands are

93/4 Hours A Day-Poor Pay The D. L. Clark Company is one of the many shops employing many young workers who help to make Pittsburgh noted for long hours and poor pay. The workers in this plant work 934 hours a day. Any worker heard talking about organizing a union and fighting for better working conditions is called "on the carpet in the superintendents office.

Another condition that makes this plant a hell hole is the extremely poor ventilation. In wrinter it is bad enough but in the summer the heat makes the place a living hell.

Follows League Campaign Sometime ago the Young Workers League conducted a campaign in the shop urging the workers to put a fight for better wages and shorter efforts from the workers. A short time have the immediate task of laying the received a letter which was supposed to be written by one of the slaves in the shop, threatening the league that if it did not stop its campaign for it is said that he wrote this letter after being instructed by the company to do so.

> The Young Workers League is not scared by these threats and pledges to continue to help the worker to figth for better wages and shorter hours. Other Workers Must Support

Demands Those Young D. L. Clark workers (Continued on page 2)

A big Negro labor congress is to held in Chicago this summer, and the Young Workers League will take an active part in seeing that the young Negroes are well represented at this meeting. H. V Philips, an active young Negro comrade in the Chicago League and a member of the provisional committee of the Negro Labor Congress,

The position of the young Negro in American industry is at many times even worse than that of the adult Negro worker, and the young Negroes must play a leading role in the struggle against the slavery and

HELP! HELP! PARASITE GOES TO WORK! JOHN D. SENDS CONGRATULATIONS

(Special to Young Worker).

MILWAUKEE, Wis. - The unusual has happened. One of the sons of he rich has gone to work. His name s Fowler McCormick, and he has started work at the McCormick International Harvester Plant here.

No thorough investigation has been conducted to discover the reasons for such an unusual action. So no one is sure whether it was to gain a new experience or for publicity that Fowler McCormick has started doing man-

ial labor in his father's plant. Fowler is grandson of John D. Rockefeller and he is going t learn the business from the bottom up, but it is predicted here that the bottom part won't last much longer. He has been getting plenty of publicity in the captalist press for his eccentric act of going to work, and this event has even called forth a letter from his oily grandfather.

The letter read:

"My dear Grandson: "I am very much pleased in the manner in which you have chosen to learn the harvester business by starting at the bottom. By doing this, you glean the knowledge first hand that will greatly help you in later years. extend my most hearty approval to

"Your grandfather, John D. Rockefeller.

Greek Bosses Using All Govt. Forces to Break General Strike

(Special to Younk Worker)

ATHENS, Greece, April 5.-The Greek Government has decided to ntroduce troops and unemployed refuges to break a general railway trike that is holding up the country. Sympathetic action has been threated by other unions, including the lockers. The Government officials have their own "war" on with the Government, and have been attacking

the latter bitterly in the Press. The Government has threatened to use all the means and resources at its disposal to cope with the situa-

Reports from Athens on March 14 solid and negotiations with the government had broken down. Few trains are being run-by government organized scabs, troops, etc.

Electric power station workers have now come out, and tramwaymen. The strike is spreading among the postal workers, including telegraphists and telephonists. A revolutionary crisis seems possible unless the government climbs down.

Left Wing Support of Anderson Slate Defeats 'B. & O.' Bill

The first returns in the election now under way in the Machinists' Union life of the race in general and the hours, winning much praise for its for general officers shows the Anderson slate, which is being supported later the Young Workers League by the left-wing, running ahead of the Johnston administration slate. In supporting the Anderson slate, the left-wing points out that they are not at all satisfactory to the militants, are obliged to recognize that much of more money and shorter hours with who accept the fighting program of the the condition of chattel slavery still arrest. It was later found out that this T. U. E. L. But as against "B. & O." supposed worker is a stool-pigeon and Bill Johnston and his class collaboration administration. the Anderson group is preferable and they are urg- the payment of equal wages for equal ing the rank and file to support them.

At the last meeting of the Machinists' Lodge No. 199, the Anderson slate received 72 votes and Johnston 5. At the meeting of local No. 83, Johnston received 2 votes while the Anderson slate received 96. These are the Negro worker. It is the same in first guns fired in Chicago district by who are organized into the D. L. the militants who are determined that work as men, yet receiving much less Young Workers League within the Clark nucleus of the Young Workers Johnston shall be defeated in this industrial city.

START ORGANIZING CONGRESS; YOUNG NEGROES FOR LEAGUE

will be busy organizing young Negroes for this important congress.

discrimination under which they toil in America today.

The Young Workers League will give all possible aid to the work of organizing for a big Negro Labor Congress, which will be a congress of great significance, not only for the young Negro workers in America, but which will be of world-wide significance in the aid and leadership this congress will offer to the world-wide struggle of the darker races in the 'colonies" against imperialism. The following call for the Negro Labor

Congress has been issued: The Call to Action.

Today, during the closing year of the first quarter of the twentieth century, we note with pride the world-wide stirring of the darker races against European imperialism. The Riff people of Morocco, in Northern Africa, have signally defeated the Spanish Army and driven the invaders from their soil. The natives of the Soudan are in armed revolt against England's policy of hypocritically pretending to give Egypt her independence and at the same time retaining the richest part, the Soudan, as an organic part of hte British empire. In South Africa, the Negro is daily asserting himself, and is throwing the full force of his organizational strength against the unjust meas

ures for his oppression. During recent years, France has endeavored to institute in her Congo possessions in Africa the barbarous "Red Rubber system" of King Leopold of Belgium, but each day increases the rising tide of revolt on the part of the native people. The present conflict in China arises from the organized opposition of the Chinese working class to the bold aggressions of the European imperialists. The workers and peasants of India are de termined to drive every vestige of British authority from the soil of

We might go on giving example af ter example of the growing political self-consciousness of the darker races in other parts of the world and their pronounced determination to free themselves from the yoke of their op-

12,000,000 Oppressed Negroes. Yet if we stop to think, there is no

racial group in the world more borne down by handicaps of social restraint than the twelve million Negroes of North America. And yet the American Negro is not helpless for today he holds a large place in the indusstated that the railway strikers were trial life of the country and his chiet weapon is his mass organizational strength. And by virtue of this, the Negro working class alone has the power with which to bring the new emancipation to the race in general More and more we are coming to recognize this fact. But it means that this particular social force latent in the life of the race must first be mobilized, co-ordinated and shaped into a great national medium expressing the social, political and cultural aspira-

tions of the race. The idea of the American Negro Labor Congress is to bring together the most potent elements of the Negro race for deliberation and action upon those mist irritating and oppressive social problems affecting the Negro working class in particular.

Slave Conditions Still Exist.

The Negro race of America was freed from the bonds of chattel slavery sixty-two years ago. Yet if we examine our present condition, we clings to us.

The American Negro Labor Congress will consider such problems as work, regardless of race or sex. It is a common condition throughout America to find a white worker and a Negro worker employed side by side, and often the white workers receiving fifty per cent more than the respect to women doing the same

The American Labor Congress will

YOUNG NEGROES FIRST TO ANSWER CALL FOR NEGRO LABOR CONGRESS

(Continued from page 1) fight for the abolition of industrial discrimination in factories, mill mines, on the railroads and in all places where labor is employed. This is a condition that is responsible for there being so few avenues of occupation open to the Negro man and woman of America, resulting in a constant and extraordinary element of unemployment in the race.

This condition reflects itself in our moral life, giving rise to prostitution and too often to an imperfect home life among our people.

Will Organize for Action.

The American Negro Labor Congress proposes to stir the working masses to take some organized action against the unjust conditions of residential segregation imposed upon the Negro in our larger cities, which results in our being compelled to pay exorbitantly high rents. Today the matter of paying house rents has become a supreme factor in our daily life, and we note with chagrin an increasing parasitical class within our own race that grows fat on the transfer of apartment houses from whites to Negroes at increased rents.

The white and black workers must be made to see that they have a common cause in the proposal of the American Negro Labor Congress to make plans for the waging of war against the policy of the officialdom of the trade unions which bar Negroes from membership, our aim being to break down this racial discrimination.

To Co-Operate With All.

We shall assume an attitude of help fulness towards the many groups in every part of the country which are at present agitating a nation-wide campaign for shorter hours of the working day for both men and women

In view of the many futile appeals to our national congress to make lynching a federal crime, the Ameri can Negro Labor Congress shall propose that the seat of action be changed to the masses themselves and shall endeavor to stimulate and promote the organization of inter-rac ial committees throughout the nation with the aim of bringing about a bet ter feeling between white and black workers as a remedy against lynching and race riots. Racial antagonisms arise from class exploitation. Racial antagonism is not an inherent thing in the mental make-up of the individual. The child, it may be noted in the most remote sections of the Southern states, does not affect racial arrogance until brought in touch with public institutions—the school, the church, the press, etc.

Racial antagonism springs from the present order of society-a society in which less than ten per cent of the people own and control everything including the agencies of public opin ion, and through these agencies of public opinion they carefully cultivate the spirit of hostility between the workers on the basis of racial and religious differences. By so doing, they make it easier for the rulers to exploit, rob and plunder white and black worker alike. Not only must the Am- energies toward abolishing the social erican Negro and white worker be made to see that they have a common | Negro here. aim, but they must learn that both have a common cause with the work- working class, and it alone has the Chicago.

ing class of the world.

The American Negro Labor Congress shall demand the abolition of Jim Crowism, not only in the Southern states, but throughout the nation. Power Will Get Rirghts.

The American Negro Labor Congress shall bring to bear the full force of its organized strength against any measures on the part of any section of the nation to curtail the right of the ballot of any section of the working class.

We shall demand the right of Negro pupils to attend all schools anywhere within the nation and the right of Negro teachers to teach any school.

We shall endeavor to arouse the agricultural workers, tenant and sharefarmers of the South to the necessity of organizing among themselves, supported by the industrial workers of the cities, for the purpose of uprooting the hated peonage system and landlordism practiced in the backward agricultural district of the South. We shall demand the right of the

Negro to equal accomodations with whites in all theatres, restaurants, hotels, etc., better working conditions for Negro men and women everywhere, and the full abolition of child labor. These, as well as many other social abuses weighing heavily upon the life of the Negro, shall be treated by the American Negro Labor Con-

The American Negro Labor Congress will mark a new epoch in the life of the American Negro and set him upon a new road of thinking. Although this congress will treat primarily the problems attending the life of the American Negro, yet at the same time we as a race must take on omething of an international viewpoint and come to see that the Negro question is a part of a great and important world question.

What Congress Is.

The congress shall be composed of delegates from the various independent Negro labor unions, from mixed unions (white and black), from unorganized factory groups of Negro workers, of representatives of Negro agricultural workers and of individual advocates, both Negro and white, who are well known for their championship of the cause of the Negro work ing class in particular.

It is planned that the Congress shall take place in Chicago some time during the summer, the exact date of its opening to be decided later. Every Negro working class organization. every Negro leader who is genuinely interested in the uplift of the Negro working class, is being asked to cooperate to make this congress not a nere passing affair in our daily life, out a great and historical event that shall ever remain influential and farreaching in the national life of the

American Negro. The American Negro may well look with sympathy upon any plans to free Africa from the grip of French and British imperialism. But we cannot escape from the conditions here at home, and we must devote our best Md. evils that daily affect the life of the American.

U. S. CHILD LABOR TOO MUCH FOR PARLEY AT GENEVA

The Government which is refusing to meet the just demands of these young workers and is striving to smash their strike by every means Tuesday and Wednesday night from possible is the Government of M. 7 P. M. to 8.30, at the Co-operative Herriot. M. Herriot is supported by Centre. We urge all parents to send the French Socialist Party. They their children to this Organization, reaffirmed their policy of supporting as it is the only children Organization him at their congress a few weeks of its kind. We invite all children to ago. We make no comments.

According to Survey CHICAGO LEAGUE AHEAD IN SUB DRIVE New York League ALSO BUSY WITH SHOP NUCLEUS WORK

At the last City Central Committee | at which many contacts with young neeting on Tuesday, March 31, the Negro workers were made. During Weekly Young Worker Sub-Agent, I. Gabin, reported on the subs secured for the Weekly Young Worker. The Chicago League is leading the country in the drive. Since the drive began, the Chicago League has turned in 90 subs and more are coming in daily. However, it is yet far from reaching its quota which is 500 subs by May the 1st. Every branch pledged itself to double and treble its activities in this phase of our work.

In the Branches.

The comrades in all the area branches are urged to sell subs to their fellow workers, visit Party branches and get subscriptions there visit Workmen's Circles branches and other fraternal organizations and also former members of the League who for some reason or other have dropped out. In this way, also some of the comrades are being brought into League activity again.

Sales Increase.

The Literature agent, reported that since the Young Worker comes out weekly, the League branches have been selling more and more copies per week. Most of the Young Workers taken by League branches are being sold at the gates of the factories.

During the last few weeks the League members have participated to a considerable extent in activities such as the two Abramovich's meetings, the demonstration before the Polish Consulate, protesting against the white terror in Poland, the struggle in the Amalgamated, etc.

Nuclei Activity. A new nucleus has been organized

in a shoe factory. A leaflet was given out there and 150 copies of the Young Worker sold already. The nucleus meets regularly. The matter of the Hart, Schaffner and Marx Nucleus which has not been functioning quite as well as it should was referred to the city executive and it will meet enthusiasm. Particularly active are the nuclei in the two mail order houses, Philipsborn's and Bernard Hewitt's. Branch No. 2 is taking charge of these two nuclei and many new members have been taken thru these nuclei. They are now propagating the idea of a shop committee regularly every week, having business educational and social meetings.

Nuclei Members Will Meet. A meeting of all the nuclei leaders and active members will be held shortly so that experiences can be exchanged and a more uniform and systematic plan of work outlined.

A conference of all the young workis contemplated and the Organization Committee of the City Executive has been charged with the task of work-

Membership Meeting.

A membership meeting will soon be called to take up various organizational problems of the League and particularly to discuss with the membership and to mobilize the membership for increased activity in the trade un-

The activities of the League are expanding in every direction. There is more work among the masses of young workers than ever before. More of the younger members are being drawn into work and are given responsible League work. The League is active among the young Negro workers. A very successful affair and mass meeting was held on March 21st,

for Sun. Eve., April 12

The Junior section of the Young Worker's League of Los Angeles, have been very busy for the past two months preparing thmeselves for when they will celebrate is April 12th. The hall where the celebration takes place is Co-operative Centre, The rumours are that this year's

concert will be even better than last year's, and that is saying a lot-for those who were to the First Anniversary concert of the Juniors last April, still remember the wonderful program offered by the Juniors, and will turn out 100% strong this year.

It would take too much space to numerate all things on the program, but a few of the numbers are, "Happy Prince" play in three scenes, "Labor Defense" Operatta in four scenes,

This is the event of the Year-No one is advised to miss it. To be sure that you will secure a seat, get your ticket before hand. Tickets can be getten at the Co-operative Centre any evening from 7 P. M.

The Junior Section of the Young Worker's League of L. A. meet every visit our froup meetings.

the month of March twenty new members were taken in. Most of these

Our League at Work

were taken thru the nuclei Other Activities.

Among all its work the League is not forgetting its social activities and a hike is being arranged for the 19th of April. It will be held at the end of the Grand Avenue car line. dance is being arranged for May 9th. It will be held in the Workers' Lyce-

In the matter of the Junior Work,

the C. E. C. met with the city chil-

dren's committee and the leaders of all the Junior groups in a effort to effect closer co-operation between the Juniors and the Young Workers, to draw some of the older juniors more and more into League work. The C. E. C. also at this meeting very emphatically stated that no more neglect of Junior activity will be tolerated. Reports have come in that some of the comrades have neglected the Junior work to the extent of dropping functioning groups, sometimes a few hours ntice and sometimes no notice at all Any comrade neglecting this activ-

ity from now on will be severely censured. In place of these disinterested comrades new leaders are being recruited and more are needed for this important part of our activity. The League is going forward in all

directions here.

Chicago Branch Leads in Negro Campaign

With an attendance of more than 30 young workers, nearly half of whom were Negroes, Branch No. 3 of the Chicago Young Workers League, held its first meeting last Friday, in its new hall at 3201 S. Wabash Ave.

Comrade Bill Dunne spoke on the role of the Negro workers in the class struggle in America, with particular with that body that all the differences emphasis on the importance of winmay be straightened out and it can ning the Negro youth. Comrade go forward with increased activity and Dunne's speech was listened to attentively and was followed by questions and discussion which served to bring out additional points of interest.

In the future it is planned to ad here to the educational program of the city central committee, but to have as many special lectures as possible. The Negro question in particuin those houses. All the nuclei meet lar will be closely studied, as the branch is located in the heart of the Chicago so-called "black belt," and prospects of organizing large numbers of young Negro workers seem very favorable.

In view of the splendid success of the mass social and get-together held recently in conjunction with the South Side Branch of the Workers ers in the mail order house industry Party it has been decided to give another one on the last Saturday in April. However greater emphasis will be laid on the propaganda and or-

Organizing Shop Nuclei. On the industrial field the branch Pullman car shops and the Chicago Mail Order house. Efforts are being made to connect members of this branch with members of the Pullman | munist! branch who are also employed in the car shops. When this is accomplished a real live nucleus will start functioning in this important plant employing thousands of young industrial work

The campaign at the Chicago Mail Order house is being carried on thru the medium of a semi-weekly mimeographed organ, The C. M. O. C. Workers' Bulletin. This bulletin is received with great favor by the young workers and several of them have come down to branch meetings and expressed a desire to participate in the work which the league is carrying on. The next issue of the bulletin which will be out Friday will be a special organizational one and will carry an all the campaigns of the Party and appeal to the young workers to attend the next meeting of the branch to deal with conditions at the Chicago Mail Order house. A special program of entertainment and speaking has een prepared for the evening in exsectation of a good turnout from the oung mail order house workers.

New York! Attention! Send in All News to the Weekly Y. W.

be more news and articles about the New York District in the Young Workers. We want to make this section to actually reflect the work of the League in New York and the life of the young workers in the shops. We therefore want individual members to send in reports regularly about conditions in their shops, special news we want you to send in reports of your activities, notices about educational programs, affairs, etc.

Beginning with this issue there will

All material must be in at the office of the District not later than Tuesday if it is to be printed the following week. That is if your material is in by Tuesday, April 21, you will receive the Young Worker containing your material on Saturday, May 2nd. Send all material to 108 E. 14th St., New York City or direct to Young Worker, 1113 W. Washington Blvd., Chicago. | get his subscription.

Out for 1000 Subs

Although handicapped by campaigns carried on simultaneously by the Daily Worker, Freiheit, Novy Mir and Elore, in all of which our members participated and raised quite a bit of money, the New York branches have already raised about \$500 for the WEEKLY YOUNG WORKER FUND, and much money is still expected to come in according to reports from the LITERATURE AUD YOUNG WORK-ER AGENTS. Over \$400 has already been forwarded to the National Of-

fice.
With the quota raised, New York is now turning its attention to the raising of 1,000 new subscribers to the WEEKLY so that we may put the Young Worker on a paying basis and thus insure its publication, enabling us to reach the young workers the country over with the message of Communism.

Every branch has a YOUNG WORK-ER AGENT who is charged with raising the quota in his branch, every branch having been assigned a definite quota depending upon its membership. With about 300 subscribers in the New York League it is expected that the 1.000 new subscribers will be made up as follows: 400 subs by members of the Young Workers League and 600 subs secured from workers in the shops thru our shop nuclei and fractions in the shops.

To encourage the campaign and create enthusiasm and competition among the comrades the District Executive Committee will grant many prizes to branches as well as to individuals who establish a record in this campaign.

OUR SLOGAN IS. "INSURE THE WEEKLY YOUNG WORKER BY SE-CURING 1.000 SUBS IN THE NEXT TWO MONTHS, WILL WE DO IT? I SHOULD SAY WE WILL."

B-r-r-r! He eats 'em alive! Bolshevik: as represented in the capitalist press. But do you know how a Bolshevik really looks? Come and see "Beauty and the Bolshevik." N. Y. League Nuclei Help Form Party Units

One of the first shop nuclei organized in this city, the "Rosa Luxemberg," organized in a dress factory employing over 300 workers, mostly women, has been responsible for the formation of a Party nucleus in the

The League nucleus in this factory has a membership of eight and is conducting militant work among the young workers in the shop. During the campaign this nucleus did very good work and in general it carries the Y. W. L. into the shop.

During the strike in the Dress Industry the nucleus took a most prominent part. It has its members on the shop committee, and is the recognized leader in the shop.

Now with the Party nucleus formed. we are sure that the work and influence of the Communists in this factory will increase tremendously.

Throughout the city the League takes the lead in the formation of shop nuclei, and is always on the lookout to help the Party forms its shop nuclei wherever a League nucleus is formed. This is the second case where the League shop nucleus has helped in the formation of a Party nucleus, the first one being in one of the largest shoe shops in Long Island. where there exists now a League and Party nucleus.

A shop nucleus of the Young Workers League has also been formed in one of the largest safety razor factories in the city employing about 500 young workers.

The nucleus now has four members. and is entering upon a program of militant activity that will in a short time make it the leader of the young workers employed in the shop.

For obvious reasons the name of the shop is not given here.

Give your shopmate this copy of the YOUNG WORKER—but be sure to see him the next day to

DILING YOUTH

By HARRY GANNES.

(Continued from last issue.)

In the Western Electric Company of Chicago, the wages of young male workers average from \$16.00 to \$20.00 a week, while if some of the fellows are willing to risk their health and limbs in piece work, the wages can be driven up a little higher. In 1924, no one will say that a young fellow 16 to 21 can live like ahumanbeingon\$16 or \$20 a week.

The following letter was received by the Young Worker from Adam Hoffman, a steel worker in Bethlehem, Pa:

"September, 1923. "Several weeks ago, wandering through the different shops (of the Bethlehem Steel Co.), the first one I hit was the Merchant Mills, where steel There I saw nothing but young workers, ranging in age rods are rolled. from 13 to 25. Here in the shop there are about 65 per cent young workers, slaving from 10 to 14 hours a day and 60 to 72 hours a week. They have night shifts, starting from 5 p. m. to 7 a. m. next morning. . . . After killing yourself for that time you may receive . . . wages averaging from \$17.00

The mail order houses, which employ almost exclusively youth labor. are the most notorious low wage payers in the country. Beginners receive from \$14.00 to \$16.00 a week. The department stores pay about the same wages to young workers.

Here is a description of his working conditions, written by an Allentown, Pennsylvania, young worker, a good picture of what the American young factory worker has to put up with:

'My job was to clean rawhide with gasoline and petroleum so that shoes could be made out of them, working among machines so closely lined up on the floor that if you don't walk carefully among them you are liable to be on the shoe mill's injured list.

"The following day I had an opportunity to size up the workers in the There are about 250 adults and young workers, the latter making up about 70 per cent, including young girls and women between the ages of 14 Where any efforts to obtain subs have and 27. They work on the speed drive system from 50 to 55 hours a week, been made, we find good results. paying on an average of \$12 to \$17 a week. The interior of the mill is in such terrible condition from the smell of gasoline, petroleum and rawhide, that any worker is bound to drop to the floor from the exposure to diseases, although the boss drives them with the speed up system.

The six million young workers in industry and on the farms are like a eight around the neck of the American working class. Mostly unorganized, the young workers are paid poor wages and in times of unemployment are used as a means of lowering the wages of the adult workers. Each year hundreds of thousands of young girls and boys from fourteen to sixteen years of age leave school and high school and enter production. Capitalism cannot always absorb the number that are forced to enter employment and many times the older worker is thrown out and the young fellow or girl taken in at much lower wages.

At times of severe unemployment, as in 1920-21, when five million people were out of work, more of the youth are taken out of school because their parents cannot afford to feed them. In this way, the number of unemployed is actually increased, because during crises and hard times the bosses more quickly employ youth labor at lower wages, and let their adult workers go wherever possible.

An unorganized, beaten down working youth is the bane of the working class. The youth, taught in the poison institutions until they are forced to work, do not readily learn working class ideas; and when they go to work they outdo in their zeal to make profits for their boss the older and more experienced worker. Of course, it does not take many years of brutal sweating to make the once young worker realize that he has been trapped; that capitalist society functions against his interests. But then these ideas de not work themselves out clearly in his mind and his time and environment are so arranged that, unless some crisis or strike occurs, it is difficult for him to crystallize his class consciousness.

Los Angeles Hits Hardest Blow of Week: Chicago League Still Leads in Total Subs

The Red Star Sub Drive for ten | ready obtained. thousand subscriptions to the Young Worker has been under way for over continuously and gotten good results. immediately. How They Stand.

The other large units have not been hard at work. Some of the smaller units are in exactly the same position. The present standing of the leading

units in the drive is as follow	vs:	
Chicago10	0 s	ubs.
Los Angeles 2	23	,,
Buffalo, N. Y		,,
Astoria, Oregon	7	"
Kenosha		,,
	6	,,
	6	,,
	5	**
Detroit	5	,,
	4	,,
This table shows that the	Cl	icas

organization, smaller in membership than New York, has already obtained one-fifth of its quota. Los Angeles, smaller than the Detroit organization, has already turned in one-sixth of its quota. Detroit has sent in only three subs: New York only five. Philadelphia, much stronger numerically and organizationally than our Astoria comrades, has not made anywhere near the same showing.

Pittsburgh, almost three times as arge numerically, has not done any better than the Owen League. The Buffalo organization, slightly weaker than our local in Cleveland, has made a much better showing than the Cleveland comrades have thus far.

Must Get Busy.

These facts prove much to us. The exception of Chicago and Los Angeles. with approximately a hundred or a hundred and fifty subscriptions al-

Until this time, no real campaign has been carried on for the Young the faces of the Russians thru all a month. Some of our Leagues, par- Worker. Our membership seems very ticularly the Chicago and Los Angeles lax in pushing this important work. organizations, have been on the job and we must break down this apathy

> The circulation and actual mainte our most important campaigns. The proper sale and distribution of the Young Worker amongst the young workers on the job will be the most fertile means for building up our League,, and making it into the mass organization for which we are struggling. Unless we work hard, how ever, we shall not long have the advantage of a weekly organ with which to carry on our work and spread broadcast the challenge of our young Communist league to the exploiters.

Easy to Get Subs. To obtain subscriptions is one of the easiest and at the same time one of the most important tasks of every young Communist. A canvass of the branches of the Workers Party, Workmen's Circles, language Sick and Death Benefit Societies and other fraternal organizations, will bring in most of the subs allotted to the Leagues in the campaign. A thoro following up of the various league units, ascertaining whether or not every league member subscribes to the Young Worker, and finally a visit to all former members of the league will bring in the balance.

The work is simple. It requires little knowledge and experience on the part of our members. It can be done by every member of the league regardless of age or experience.

Get Your Red Star Stamp. Every member of the league must have his or her RED STAR MERIT comrades in the larger cities, with the STAMP. When the subscription is turned in, see that you get your stamp are not on the job. If they were, we pasted into your membership card. would be able to list at least ten cities If you have not one of these stamps you cannot be considered a member in good standing of our league and a worker for the weekly. This means that you must get your stamp

> When the above instructions have been carried out, and the quota for your league is not yet filled, the following should be taken care of.

Write to the national office, and end along with your letter enough to cover postage, and we will send you a number of back copies of the Young Worker. These should be distributed for two or three weeks within a very restricted working class neighborhood. When this is done, you should have comrades visit each house and try to obtain subs for the Young Worker.

Whenever our comrades go, they must be on the job to get subscriptions. See that your shop mate, neighbor and friends all become subscribers to the Young Worker Solicit subs at every meeting, social affairs, dances, and entertainment at which you are present. Get subs now, and all the time!

An important thing to remember is that getting subs is not only a money proposition. Even if our comrades are not always successful in getting a subscription, the work done in TRYING to get one is real communist work. It places the communist paper before the eyes of the workers. It is one of the means of getting our message into the hands of the young workers in this country. Insure the weekly Young Worker by getting subs for it! Build up our press and with it our league by ex-

Keep the Bell Ringing Loudly!

tending our circulation amongst the

masses of the youth in this country!

What the Winners Will Get: 1. Comrade obtaining most subscriptions will receive a REMING-

TON PORTABLE TYPEWRITER. 2. Branch sending in most subscriptions will be awarded a thirty volume MARX-ENGELS-LENIN LIB-

3. City organization getting most subs will recive a BANNER FROM THE Y. C. I.

4. Each comrade sending in a sub will receive a RED STAR MERIT STAMP, showing that he or she is a member in good standing and a worker for the weekly YOUNG

5. Branches and city organizations will be awarded the above prize on the basis of MEMBERS IN GOOD STANDING thus giving large and small units AN EQUAL CHANCE in every respect.

6. SEE that your league is one of those to head the list.

HIBBEN BOOSTS SOVIET RUSSIA TO BROOKLYN FORUM

Brands Capitalism as "Mad Folly"

NEW YORK, April 6.—"It is a certainty now that it is possible to conceive and to maintain a social order in which the waste, the exploitation, the ruthlessness, the mad folly of the system of selfishness in which we in America live today shall be replaced by something finer," Captain Paxten Hibben told the Brooklyn forum, referring to Soviet Russia.

Hibben recalled to his audience his experience in Russia during the famine year and of the "new faith in the future of mankind" which he saw in the terrible sufferings.

Hibben says that he always stresses the "great fact that for the first time in history great masses of people really do control their own desnance of the Young Worker is one of Itinies, in Russia, and really have gained and kept unscathed the basic human rights for which the Russian revolution was carried thru." He deplored to the forum the presence in Amer ica at this time of impending recognition of Russia of so many anti-Sov iet campaigners.

Oklahoma Miners Will Fight 1917 Wage Scale

(Special to The Daily Worker.) OKMULGEE, Okla., April 6 .- The superintendent of the B. and A. coa mine at Schulter, 10 miles south of here, is raising loud complaint because scabs are not "given protection" from the miners who refuse to go to work under the low wage scale of 1917. The mine has been forced to close down.

Ten days ago a flare up took place in which a scab was beaten and his supposed assailant arrested. Miners surround the workings and jeer the scabs when they quit work. The superintendent complains,

'One of our men was beaten up in Henryetta and threats of violence have been made against all of

MOISSAYE OLGIN TO SPEAK IN RUSSIAN IN CHICAGO, APRIL 17

What promises to be one of the most interesting lectures given in Chicago in the Russian language is the lecture to be given by Comrade Moissaye Olgin, co-editor of the Russian Communist daily, Novy Mir. He will speak at the Workers' Home (formerly the Soviet School), 1902 W. Division St., on Friday, April 17, at 8 p. m., on "What did the Russian Revolution Give to the

Comrade Olgin was in Russia a few times during the revolution as delegate to the Comintern. He is the author of "The Soul of the Russian Revolution," and other works about the revolution. He is an excellent speaker and it is expected that he will draw a big crowd of those who understand the Russian language. Admission is only 25

LESSON No. 7.

The way to the Communist Society is a long and difficult one on which the and dangers. For we do not pass directly from the capitalist society into Communism. Between these systems there lies a more or less prolonged period of struggle between the capitalist class and the working class -a period of national wars and colonial uprisings and of struggle against the rising proletariat and the proletarian states.

For the transition period to begin, the capture of power by the proletariat is essential. No steps toward the Communist society can be taken with this act as a starting point. This is the first and most important task of the workers in suppressing the capitalists and beginning the march lowards Communism.

This capture of power by the workers means the suppressing of the captalist state by the workers' statethe Dictatorship of the Proletariat. This state is in the form of a government of workers' councils of Soviets. This type of state power was developed by the experiences of the Paris Commune and the Russian Revolution.

The Soviet State is "democratic" for the workers only. The workers take part directly in the administrative work. Delegates come from factories, shops, mines, etc., and not from territorial units; they can be recalled by the workers they represent at will. This keeps the great mass of workers and the state always in the closest relation. The privileges of the capitalists are suppressed and his means of keeping power are taken away and given to the workers. Under the dictatorship of the Proleta riat, the capitalist class is disarmed and the workers are armed. The RED GUARD is formed.

The Soviet State uses the power gained to begin the breaking up of the capitalist system and make the transition to Communism. It does this by: (1) taking over all large industries; (2) nationalizing all large estates; (3) nationalizing all banks; (4) nationalizing wholesale trade; (5) annuling national debts; (6) monopolizing foreign trade; (7) take ing over capital newspapers and printing presses.

During the actual struggle against the capitalist class, it may be necessary to control and regulate all industry, all prices, wages, etc. This is the period of "war Communism." When the capitalists are suppressed return is made to competition, with this big difference—that while under the capitalist system every growth of monopoly or large scale preduccapitalist businesses. And just as now the large capitalists drive out the small, so unthe small capitalists.

In order for the proletariat state to succeed the following is necessary. pressed rigidly, although wherever under conditions of nerve strain. possible the organizing ability of many of this class can later be used. 1

The poor farmers must be neutral ized—that is, kept at least, from fighting against the workers. This is done by giving land from the big estates proletariat is met by many obstacles and ranches, and aiding them in forming co-operatives. The poor farmers must be organized against the rich farmers.

In the city, the small business men. store-keepers, etc., should be left alone as much as possible and even helped, in order to keep them from fighting the workers directly. Then finally the workers' organizations must be helped in every way.

Under the Soviet State, education is made general; skilled engineers, etc., are trained from the workers. The cultural level of the workers is raised. Religion is combatted together with the church.

The Workers' State struggles to lib erate all colonial people and join all Soviet states together into federations. It is this Soviet State which is in control of Russia (now the Union of Socialist Soviet Republics) today. Under this state we see the Russian workers freed from the tyranny of the capitalist class, building up their own industries, their own culture, and forms of organization, laying the foundations for the Communist society, the wonderful society of the future.

"A. B. C. of Communism," Bucharin. "Program of the Communist International," published in the International Press Correspondence of Sept. 30, 1924.

Questions.

Do we have the Communist Society 1. Do we have the Communist Society as soon as the Revolution is accomplished?

2. What is the first important step in order that the transition period may begin?

3. What does the "capture of the power of the workers" mean?

4. What are the differences between the Dictatorship of the Proletariat and the Dictatorship of Capitalism?

5. Name some of the steps by which the workers' government makes the transition from Capitalism to Com

6. What is meant by "war-Communism?" How does it differ from other periods of the transition state?

7. What must the attitude towards the poor farmers be during this transition period? Toward small business men?

8. What would be the position of Education and Culture under a workers' government?

N. Y. Working Children Suffer Physical Ills

The Little Red Library

The first two numbers of this little pocket-size library, destined to become the most popular of any working class publications ever issued in this country, are now being sold by all Daily Workers Agents thruout the country.

_ No. 1 -

Trade Unions in America

By Wm. Z. Foster, James P. Cannon and Earl R. Browder

Is, with a brief statement of the American trade union movement, a history of the development of the left wing and an explanation of the structure and program of its guiding spirit-the Trade Union Educational League.

Class Struggle Class Collaboration

By Earl R. Browder

Is a splendid study of the methods of labor bureaucracy to divert the workers from militant struggle thru the B. & O. plan, insurance schemes and workers' education. A most valuable number for the thinking worker.

If you have not as yet seen a copy of this splendid little propaganda giant, and have not enjoyed the valuable reading in each, be sure to ask your local Daily Worker Agent for a copy-or a dozen copies. (They are twelve for \$1.00.)

The Anti-Christian Movement in China

THE Christian press of Europe and America is disturbed. The active anti-christian movement among the Chinese students is developing at a rate hitherto unknown.

have been founded. In Nanking the students have far superior to those of the subject colonial Ne publicly destroyed the bible. In Canton the anti-groes in the educational, political and industrial christian students at Christmas time arranged a fields that he is alone able to furnish the agitation-Carnival and ragged the christian youth. It is al and organizational ability that the situation denatural that the missionaries have been roused by mands. this question and that the majority of them have

missionaries. There are some who perceive the con- imperialism as allies of the world's workingclass nection between the anti-christian and and the anti- is enough to justify all of the time and energy that foreign movement and are endeavoring in their ser- the Workers (Communist) Party must devote to mons to distinguish the cause of the missionaries the mobilization for the revolutionary struggle of from the cause of imperialism, and even to proclaim the Negro workers in American industry. that the fundamental task of the christian mission aries consists in "realizing a higher type of nation-

Even the most simple-minded must see the trap which the catholic priests and the methodist doctors of divinity are laying by endeavoring to identify christianity with the most popular slogan of the nationalist movement in China, which in spite of the machinations of the missionaries bases it self upon the anti-foreign and anti-christian movement.

It is true that in Tientsin some weeks ago some naive missionaries attempted to be "honestly consistent" and to declare that religious propaganda must abandon all those privileges which have been assured to it by the imperialist penetration of China. These naive people however, were literally crushed by the whole of the remaining missionary fraternity. A flood of indignation has broken out among the missionaries regarding such an improper attitude towards the sacredness of the consider himself in good standing until this stamp mailed fist, without which, as the missionaries generally admit, the holy cross cannot be firmly established on Chinese soil.

The anti-christian movement is an organic part of the anti-imperialist movement; in fact, it is more than that. The anti-christian movement goes in advance of anti-imperialism and gives rise to the latter. It has struck deep social roots in China and has behind it a past of over half a century. It is immediately connected with the so-called Taiping movement (1850-1864) which in its nature constituted a mass revolt of the Chinese people against the Manchu dynasty.

It is not to be wondered at that with the growth of the national anti-imperialist movement the antichristian movement also increases among the students. Thus, for example, the students of the university of Tchancha have put forward the following two demands:

1. The registration of the university of the government (that is, its subordination to the program and the control of the Ministry for Public Educa

2. Abolition of obligatory attendance at church

The students have seen through the social nature of the missionaries, of this advance-guard of imperialism. They see how the missionaries, under the cloak of charity, are carrying on a persistent propaganda among the Chinese proletariat against those people who wish to educate this proletariat to self-consciousness and solidarity.

This is shown by a long article in the "North-China Daily News" reporting on the results of the TO boost slaughters and to lead workers to activity of the missionary organizations of Shangslaughter is O. K. and profit making for the hai, and which states, that this organization is not the strike movement.

> What wonder then if the youth, who are buildtest demonstrations.

> The missionaries are carrying on a furious and vell-paid work, aiming at converting China into a factory of slaves." But they will not achieve heir aim. The steadily growing anti-christian movement among the youth and among the masses is a guarantee for that.

The Negro in American Industry

has taken on an important international as Private Trumbull, another active member of the pect. The colonial regions of Africa, where Britploit the masses of Negro workers, are astir. As By this action the government not only hopes in America, the war brought the world to the

The Red Star Merit Stamp

FVERY member get one sub! This was our slogan

when we started out on our sub drive. Where branches made every effort to live up to this task they found it very easy. Those who didn't subscribe themselves as yet, took out a subscrip-

tion as soon as they could raise the money. Other comrades who already subscribed, took a

subscription for a friend. Now the Red Star Merit stamps are out, and every comrade who has obtained a sub for the Weekly, or who manages to get one in the future, will receive a stamp for his membership book.

No comrade can consider himself an active member of the Young Workers League until his card can show one of these stamps. No member should is in his book.

Comrades, let's get busy, and see how many active members we have in the League. Every comrade one sub, means 4,000 new subscribers for the weekly Young Worker.

"I am convinced that the revolutionary youth of Europe and America, which is more highly educated and much more progressed than ours, will in the decisive moment show not less but much more revolutionary energy than the revolutionary youth of Russia."

(Trotzky to the II Congress of the Y. C. I.)

"Imperialism is capitalism at that stage of development when the domination of monopoly and finance capital has been established, when the export of capital has reached exceptional significance, the partition of the world by international trusts has started and the division of the earth's territory amongst the chief capitalist powers has been completed."—Pavlovitch.

visit to "Our Red Army"

A s all American comrades are aqua-inted, the Young Communist International is the chieftain of the 10th Division of the world famous Budenny cavalry. This regiment was divided by regiments among the most important section of the Y. C. I. and our League assumed the chieftainship of the Horse Artillery Regiment. in October 1st, 1924. The Young Workers League of America therefore assumed certain responsabilities towards our Red Army comrades who have struggled to protect the first Workers and Peasants government and who stand ever ready to assist the world

Our Delegates Visit Regiment T is only during the past few weekshowever, that have been able for the first time to come in personal contact with our regiment." The two delegates of the American League were afforded the opportunity of visiting with the regiment for several days

on the occasion of the 7th anniversary of the Red Army.

In Tamboff, a twelve hour ride from Moscow, where the division is stationed, we had every opportunity of coming in actual contact with the Red Army and witnessed at first hand their life. The average League member in America may just think of the Red Army as being something similar to any other army except that it is fighting for the defense of the proletarian state. This is far from the ruth. The Red Army is an institution of Communist education, of ge neral advancement, of agitation and propoganda, of contact with the peasantry as well as the fighting force of the Russian and world proletariat.

Education Every Day WE found the soldiers devoted two hours every morning to a study of elementary political problems. Here as well as the political and industrial Here was discussed such problems as the national budget, the improvement of farming methods and the necessity of bringing the peasant much closer to the industrial worker. Here was taught the significance of international solidarity amongst the workers of all lands, and the fact the Red Army was ever ready to assist the workers of any land to overthrow

Wiping Out Illiteracy

CINCE the Red Army is composed predominantly of peasants there are still remnants of illiteracy among them when they enter the army. However, in the short time of three months this is entirely eliminated. For this purpose another hour is devoted daily to general education such as reading, writing, spelling and arithmetic. This class is of course graded according to their previous

demonstrated specimens of writing and several gave short speeches. You may be sure that these comrades realized the significance of the Red Army and the Soviet Republic. Those that spoke told of the conditions under

education. We had an interesting ex- the Czar and how they were kept in tworkers and peasants realize that the perience during our stay: a class of ignorance under the old czarist regime 38 Red Army peasant boys who had so that they could be better exploited. been illiterate when they entered the Now, when they are living under the army three months before, were Dictatorship of the Proletariat, where graduating from the class. All of them the workers and peasants are the rulers, they are afforded every opportunity to overcome this past tradition of Czarism.

LEADERS OF THE RED ARMY

MICHAEL FRUNZE.

The Reorganization

S. KAMENEV

1.—The School as the Center of the Struggle of the C. C. G.

BUBNOV

AT the formation of the Communist Children's Movement in the capthe organizations of the Party and the Youth, upon a territorial basis. The daily class struggle which the Communist children carry on in many forms, faces them also with the necessity of an alteration of their organizational form upon the basis of their most important fields of struggle.

Commencing Point is School.

THIS central and commencing point spects has a similar importance for the children as the factory has for the directs in great part against these. adult workers. Here, in the school they meet for the first time, partly concealed and partly also very evid capitalist world. The partially hostile teaching fraternity, and its eternally repeated and tiresome cramming of things and knowledge quite useless to the children, and the whole school ly treated. By united action they can master, the eternal sameness of the tiring work, and the necessity to struggle for daily bread in the factories, is to the adult workers. It is here that the child receives the first deep stamp dedicating it to its existence of slavery. It is here, therefore, that tion, nowhere can the children be the struggle must commence on the more fundamentally organized than in part of the children against the cap- the school, where all the children atitalist methods of education. The tend, and where the best possibilities children must learn the necessity for exist for reaching them and enlightsolidarity, as against the attempts of against the other.

Must Be Accomplished by Children Themselves.

UNSHLICHT

A LL this work must be accomplished by the children themselves: the leader can only assist them from the outside; nevertheless, talist countries, it was built up like the children will often be faced with so energetically and fundamentally questions which it is necessary for them to solve without previously discussing them with the leader. This renders it necessary that the children should be educated to the greatest possible self-reliance, and that the C. C. G. should be really a movement of the children themselves, as that to achieved, so that all old schoolmasters, with and without portfolios, preis the school, which in many re- dict the end of the world (their world); the struggle of the children out?

It is not only that the chief tasks of the Communist Children's Movement lie in the school, but also that all chilent, an enemy world, a part of the dren are brought together and are united and solid in the school, like workers in a factory, and represent a great fighting force. The whole school will act when an individual is unjustmachinery in general, are for the demand the replacement of bad teachchild, the same thing as the sweating ers, and with the support of the adult workers they can strike, and, as has been shown in practice, they can car ry out a real school revolution.

Easier to Organize.

ALSO, in the schools there are the greatest possibilities for agitaening them. For instance, the Commany has very often had the unfor-

dren's demonstrations, etc., are not very successful during the school holidays, because the children are not children into circles will take place sufficiently organized by the territor- for tasks which cannot be carried out ial groups, and they cannot be reached by the whole nucleus together. with our propaganda as they can in

BUDENNY

II. The Re-organization of the C. C. G. Upon the School Nuclei.

TAKING all the above-mentioned experiences into consideration, the a certain extent has already been sity for re-organization. This has the Communist Children's Movement

First of all: What is a school nuschool nucleus must include all the children of a school, without considerations of age, sex, or their division into classes (lessons from the various teachers). Why? The whole school represents a unity. It has a plan of tem. At its head stands a director who leads the work of the school with a larger or smaller staff of assistants. Where class divisions exists, this teacher usually teaches in all classes. It is the same division as in a factory, with various departments. The school classes are the individual departments in the school. They should form groups of the whole nucleus, their task is chiefly inside their classes, which must, however, be carried out always together with the whole nucleus (the children of the whole school). When, for instance, a teach- attack. the teachers to play them off one munist Children's Movement of Ger- er canes a child from one class, not merely this class, but the whole school

territorial groups, a division of the

It is obvious that where there are several schools in a locality, the school nuclei should be organized into a local group

III .-- Objections.

FEW comrades will perhaps bring forward the objection that there C. C. G. is also faced with the neces- are other tasks to be performed by been partly commenced in Germany. which lie outside the school struggle, The question is now: How can the and which are, therefore, liable to be re-organiation be practically carried neglected in a re-organization upon the basis of the school nuclei. That is incorrect. The schools consist in cleus? What extent has it? The general of children from the same locality, so that their organization outside the school is very easily possible. The great advantage is that it is always the same children who come together in the work of the C. C. G., and that the individual child is not education and one "educational" sys- forced to work in one company in his territorial group, and in another in the school, which often led to the child feeling isolated in the school and therefore not being as active in the movement as would otherwise be the case. The objection that the teachers, in league with the whole state power, and all the forces of reaction, will oppose the formation and existence of the nuclei, need not worry us very much. This is only a proof for the correctness of the school nuclei. We must in practice discover how we can defend ourselves against
