A SUGGESTION TO AMERICAN IMPERIALISTS FOR THE NEXT WAR

As a means of bolstering up the spiritual morale of "our boys" in the NEXT "war to end al wars" we suggest the attachment of a New Testament to every bayonet. The enemy will then (Courtesy Industrial Solidarity.) have the bible with them when they die.

CURLEE WALKOUT

TAILORS STANDING FIRM

ST. LOUIS, Mo Seventeen workers, picketing the plant of the Curlee Clothing company, against which the Amalgamated Clothing Workers of America is conducting a strike, have been arrested by the police at the behest of the bosses. The arrested include nine women and eight men.

The union is demanding the right to organize protection against unfair discharge of workers, clean and sanitary working conditions, time and a half for overtime, and a wage increase of 25 per cent in the tailor shops and of various amounts in the cutting department. Reinstatement of dismissed workers who favored unlonism is also demanded.

Curlee's, which has successfully resisted union organization for some time past, is now being organized with the aid of the militants in the shops. The plant which employs a large number of young workers of both sexes is having its production crippled daily by the increasing amount of workers who are joining the ranks of the

strikers. The Young Workers League, a number of whose members are involved in the strike, has elected a special Strike Committee to handle the young workers and Communists who are participating in the movement for better trouble is actually a violent conflict

Together with this comrade another was also arrested and on their possession were found leaflets and pamphlets not only in the French language but also printed in Arabic, calling for solidarity between the French worker-soldiers and the oppressed colonial peoples of Morocco,

> Among others was found a pamphlet with the heading: "Help your French Communist Brothers!" which was signed by a revolutionary commitee of soldiers in Morocco. This is an example of the work carried on by Communists to bring an end to the slaughter of workers and peasants in the wars of capitalism.

China Alone Withdraw All U.S. Troops

SHANGHAI, China.—A new world war threatens to find its starting point in the struggle that has been begun in this city. Troops of three or four nations are already landed on Chinese soil without the declaration of war. Demonstrating revolutionary students have been shot down and murdered by imperialist rifles and the efforts of the workers to better their conditions are being brutally suppressed in the interests of Japanese capitalism by the armed might of their international brothers-in-arms.

One hundred and fifty thousand Shanghai workers are out on the streets striking in protest against the vicious action being taken by the imwas the strike of a number of thousand Chinese workers in a Japanese cotton mill. The conditions of the Chinese workers under capitalism are simply indescribable, and all efforts have been made to prevent them from awakening to their class interests. Therefore, when the workers went out fo rlower hours and higher wages they were met by the combined attack of all the foreign capitalists.

Chinese students are quite a bit diferent from American rah-rah boys! American marines were immediately landed upon the hysterical request of Consul General E. S. Cunningham. They violated international law immediately upon their arrival by an armed raid upon the Shanghai university, driving out the students at the end of bayonets and carting away stacks of books, pamphlets and school documents, one pamphlet of which The two United States soldiers the so-called intelligence office said was in English and contained a poem the "crime" of being Communists. with the "seditious" expression: "Foreign bosses are fat and prosperous.

All the banks are barricaded.

Approximately 100 members of the Chinese branch of the Shanghai municipal police force failed to report for duty on the midnight shift while the remaining 1.500 were reported wavering between holding to their duties and joining the ranks of the strikers who have tied up all city activities.

All of the absentees had previously turned in their rifles and ammunition and no disorder attended their de fection. YOUTH CONDITIONS VERY BAD

DETROIT, Mich. - The Young Workers' League of Detroit has be gun a city-wide campaign among the perialists. The origin of the trouble young workers to enlist them in the drive to better the conditions of the working youth and to organize them into a youth political body for the establishment of a working class so

Especial attention is to be paid to the huge automobile plants which employ thousands of young workers who are obliged to labor under the most miserable conditions imaginable. Not only in the ordinary plants but even in the so-called ideal factory of Henry Five Chinese were wounded when Ford, the conditions are so horrible that the workers are responding by which stormed the building. The is now going on to organize them despite the interference of police and the stoolpigeons of the bosses.

A leaflet has already been issued to the young workers which calls upon them to unite for the struggle against the slave life they are leading. It states:

"Mr. Hartley, director of education f the National Founders' Associa-Students who demonstrated in front tion, has undertaken to divert the of the foreign settlement were shot stream of young workers from 'white

"The National Founders' Association is perhaps the most notorious open shop aggregation of profithungry employers in this country. Its Detroit section is an influential part of the Employers' Association of Detroit which boasts of the fact that labor unionism as a factor in the lives is absent from the local factories.

"The schools are to be invoked in this bosses' campaign. They propose o change the manner of training in school, to stress the healthfulness of rough work as compared to office work, and to 'make' boys see a future in 'overall' jobs.

"Young Workers! You know how you are called upon to do an adult's work for a lower wage than is received by the adult. You know that you are used to break down living standards. You know how your boss forces the piece work system on you. You know how you are speeded up and driven to increase production to the limit of your endurance. And you know that if you fail to 'hit the bal,' to 'deliver the goods,' 'to step on it, you are kicked off the job. And if you do speed up, you serve merely to work yourself out of a job and then to join the army of unemployed who haunt the employment offices in search of a master.

"The Young Workers' League is conducting a campaign to organize the youth of Detroit so that united they can better resist the oppressive measures instituted against them in the factories. It will not only conduct a defensive campaign, but will inspire the youth of Detroit to go forward aggressively in a fight against the bosses for higher wages and better working conditions. The Y. W. L. holds that this struggle can best be carried on in the unions. It therefore calls upon the young workers to join the union and united with the adult workers to stand as a unit against the oppressive tactics of the boss, and aying of Chinese student demonstrat-at the same time to fight for more of the value that your labor alone makes possible.

GITLOW SERVED TWENTY-SEVEN MONTHS IN SING SING FOR COMMUNISM

(Special to The Daily Worker.) NEW YORK, June 9.-Benjamin Gitlow, who was the candidate of the Workers (Communist) Party for vice-president in the last national

election campaign, will probably be taken to Sing Sing prison after the clerk of the United States supreme court transmits the decision denying the Gitlow appeal to the supreme court, ot the United States marshal at New York.

Benjamin Gitlow was one of the leaders of the left wing in the soialist party. He was manager of the rested on November 8, 1919, charged with violating the New York criminal anarchy law. He was tried in January, 1920, and sentenced to from five to ten years in the penitentiary following his conviction.

After serving 27 months in Sing Sing, Comrade Gitlow was released on appeal on May 1, 1922. In September the sentence was upheld by the state supreme court, and Gitlow was taken back to prison.

In January, 1923, Comrade Gitlow was released on a writ of error, and his appeal was argued in April and again in November, 1923. Comrdae Gitlow's bail was fixed at \$7,500.00 by Supreme Court Justice Howard Taft in April.

TRENTON, N. J. - Revelations of child employment on South Jersey truck farms, its accompanying evils of poor housing and wholesale violations of New Jersey laws by Philadelphia agencies, with even more startling disclosures promised, were contained in a preliminary report submitted today to Dr. Andrew F. Accompanying the report was a list of fourteen agents who were said to have violated the law, either last year or during the present year.

Eldridge began his inspection on May 20, following complaints concerning the utilization of children in carrying on farm activities. During his tour he covered 513 miles, visited 19 farms, nine bogs and four schools. He found that children under 10 years of age were working on the farms and formed 10 per cent of the total.

As to housing conditions he stated that "in many cases the houes provided were inferior to even tenement standards with regard to ventilation. fire safeguarding, water, toilet and cooking facilities, sanitation and hygiene.

As is usual with such investigations no real solution is offered to the probem. Altho it is admitted that the conditions are practically unbearable for the children, we can be sure that absolutely nothing will be done to alleviate their miseries or improve their status. Only the Communists offer a program of struggle against the vicious exploitation of children.

DEFENSE UNITY FEELING GROWS

Sinclair, Foster, Brown and Haessler for Nat'l Meet

CONFERENCE OPENS JUNE 28

The Labor Defense Council, which is the initiator o fthe conference for workers' defense to be held here June 28th, received the following telegram from Upton Sinclair, noted American novelist, "I sympathize with your purpose and I wish you success in your efforts, but Icannot attend the conference. I have to stick to my own job of writing books, I can do more that way."

The purpose of the conference, as announced in the call issued by the executive committee of the council, is to unite the labor movement for the defense of class-war prioners and to extend material aid to those now confined and their families. Especially does the conference and its aims meet with the enthusiastic approval of former political prisoners. Carl Haessler, managing editor of the Federated Press, writes the Council: "The project of a National Labor Defense Conference Sunday, June 28th, should enlist the interest of every past political and industrial prisoner in America and of every potential prisoners as well, in those two classes. As an alumnus of several of Uncle Sam's compulsory training establishments and as a by no means improbable candidate for more in the future, I am glad to offer my endorsement of the proposed conference." There follows a list of jails, interment camps and military prisons in which Haessler served time during the war for his

Wm. Z. Foster said today, "As one who is threatened with ten years in a Michigan jail for having opinions that don't meet with the approval of the bosses and very likely also by way of revenge for my activity in the Great Steel Strike of 1919, I want to give my unqualified endorsement of the coming defense conference of June 28th Anyone whose heart lays with the struggles of the workers, it seems to me, can very well support this admirable move to unify the forces of the labor movement against the attacks of the tools of organized capital."

E. C. Wentworth, chairman of the Labor Defense Council, said today: "If what McCallister Coleman writes regarding his having been thrown in jail in Fairmon County, West Virginia, with 200 dnion miners for peaceful picketing is true, then I want to say that the conference for Labor Defense is wise and timely indeed.'

The Labor Defense Council announces that the conferenc will be held in Ashland Auditorium at 10 in the mornin gof June 28th. In the evening, an amnesty Mass Meeting will be held at the Plasterers' Temple. Former Bishop William Montgomery Brown of Galion, Ohio, in a letter accompanying a hundred dollar check toward the expenses of the confer. ence, expresses his heartiest wishes for it success and offers, in spite of ill health to make a short address at th mass meeting.

Robert Morss Lovett and others na tionally prominent, have sent word to the Council expressing their ympthy for the objects of the conference. All existing workers' defense organizations, ex-class war prisoners. individuals who have distinguished themselves in work for amnesty and in defense of the persecuted, and all workers, organizations, labor unions and fraternal, are invited to the con-

South African Negroes Vote to Boycott Wales Tour

CAPE TOWN, South Africa.-The recent shooting of harmless Negro natives in Bloomfontein, the center of South African bourgeois nationalism, had its sequel when the African National Congress met at Johannesburg and the following resolution moved by Professor James S. Thaele, a recent arrival from the United States, was carried by a large majority of the

"This congress places on record its protest against the wanton killing of innocent blood of the African race by Europeans, and that it be a mandate to all people of African descent to refrain from making any demonstrations or presenting addresses of welcome to his royal highness, the Prince of Wales,"

Up to the present moment the Negro natives are carying out the terms of the resolution. It is rather noteworthy that Comrade S. P. Bunting, editor of the Communist "International," addressed a large meeting of industrial workers of the native trade union-I, C, U,-a few days before the African National Congress was called, In the course of his remarks to the

delegates assembled he stated: "That your enemy too, is not merely local, South African natives often appeal to Britain as their protector when as a matter of fact, British imperialism, whose representative is about to tour South Africa, is largely responsible for your exploitation, You will only be asking for your bosses to remain bosses forever, if you are so foolish as to turn out in the Prince's horor, instead of boycotting him as they did in India."

"B. & O." Bill Johnston Swipes Election from Rival

WASHINGTON .-- One of the most prazen Tamany Hall robberies has just been pulled off by one of the most infamous gentlemen in the Ame rican labor movement, William H Johnston, by his throwing out wholesale and miscounting the votes of his opponent in the recent elections for president in the International Association of Machinists, Anderson.

Anderson, a center progressive, was running for office together with his group, which had the support of the Communists and the left wingers in the Machinists' Union. He received the actual support of the majority of the membership which is well fed up on the class collaborationist and fake schemes of Johnston and his gang. CHILDREN TAKING PLACE OF ADULTS

Chicago a Close Second; Wages in Southern Mills Low Because of Child Labor

LIVING WAGE IS NOT PAID

Low wages, enabling southern coton mill owners to snatch the bread from families dependent upon the England textile industry, are reflected in a study of the employment of men and women in the industry by Commissioner of Labor Statistics Ethelbert Stewart. His figures show that in 1924 New England cotton mills paid an average of 48.1 cents an hour for labor while southern mills got their labor for an average of 28.6 cents an hour.

Women's Pay Lower.

Women workers in southern milis in 1924 averaged 25 cents an hour. This would give them \$15 for a full 60-hour week and only \$13.50 for six 9-hour days. In New England mills the average woman worker earned 43.2 cents an hour or about \$20.75 for a 48-hour week. Men in southern mills averaged 30.6 cents an hour compared with 50.9 cents in New England mills.

This wage differential has been tempting northern capital to build mills in the unorganized south for a considerable period. The development has been pronounced since 1920.

Children Compete With Adult Workers.

The New England mills show failare to recover from the post-war slump. In 1924 they had 27,037 employes compared with 41,721 in 1914. The southern mills show 30.361 employes in 1914 compared with 25.219 in 1914. The advance of the south has been greater than this indicates as the establishement of new mills is not here reflected.

In New England mills the proportion of women workers was about 60 per cent. Southern mills show a much smaller proportion, approximately a third. Stewart judges from the comparative wages that this is due to the large number of boys employed in southern mills. In the south men face the competition of children as well as women.

Fairy Tales For Workers' Children

DURING THE CAMPAIGN

You can get the new book "Fairy Tales for Workers' Children" just off the press, and a year's subscription to the weekly YOUNG WORKER, all for \$2.00, or a year's sub to the YOUNG COMRADE and the book for

This book of stories by Herminia Zur Mühlen is the first of its kind to ever be published in America. Many have read other stories by this author in the YOUNG COMRADE but this is the first time there was an opportunity to get the best of these stories, beautifully bound and illustrated by Lydia Gibson.

This is not only a book that every workers' child will want to own and read many times over, but older workers get great enjoyment in reading these interesting stories, beautifully told.

A year subscription to the YOUNG WORKER costs \$1.50. The YOUNG COMRADE costs 50 cents a year. The book alone costs 75 cents.

We must recall that the last war was put over before the working class realized it. The next war will be worked in the same way. The workers cannot prevent war, but they can organize to meet it effectively. Let the swinish imperialists know that they are always to be confronted by an iron instrument of struggle, the Communist movement, which will seek every opportunity to transform their war of profit and murder into a war of the workers against the bourgeoisie for the establishment of a society which contains no germ of war or exploitation.

The Chinese conflict may end in war, or it may not. But it is a sign of the road that we are traveling along under capitalism. It shows the inevitability of war under imperialism. It proves the necessity of Communist struggle against militarism and capitalist war.

What Is The Young Men's Christian Association?

THOUGH originating in England the Y. M. C. A. has made its greatest development in the United States. It though the Y. M. C. The annual report of the secretary for 1924 of the Y. M. C. A. of North America shows there are 1.700 local Associations. This means that in 1.700 places spread all over North America and especially United States, the Y. M. C. A. has facilities for reaching large masses of young workers in this country. The membership of the Y. M. C. A. is over 1,000,000. The value of its property is \$1,500,000. They employ 6,000 secretaries and officers at full time.

There are 350,000 men and boys in their gymnasium classes, over 100,-000 men and boys in their educational classes; over 200,000 in the bible

The Y. M. C. A., especially in later years is spreading its organization over industrial teritories and is organizing on an industrial basis.

Later on in this article we will take up more in detail the industrial activities of the Y. M. C. A. and co-operation it receives from the capitalists and the boss class generally.

The Y. M. C. A. has 200 railroad Associations with over 100,000 members. It has many associations right in industrial establishments, but the Y. M. C. A. secretary's report does not give the number. tI has particularly organization in the greater majority of the steel plants, in Sears, Roebuck in Chicago and every year sees new additions to the industrial activity of the Y. M. C. A.

A great deal of work is undertaken among students. There are 471 student associations with a membership of over 90,000. The Y. M. C. A. has not neglected the colored workers and has established 140 sections solely for colored men and boys with a membership of around 30,000.

There are 32 Y. M. C. A. within the regular army and navy. The Y. M. C. A. carried on tremendous work during the war. The war work of the Y. M. C. A. will be taken up in a seperate section of the report.

Every year the Y. M. C. A. spends around \$50,000,000 in its activity and the greater portion of this money is obtained from the wealthy capitalists, financiers and manufacturing plant owners.

War Work of the Y. M. C. A. The entire propaganda and education of the 4,000,000 men that were recruited for the U.S. Army was given into the hands of the Y. M. C. A.

The American capitalists subscribed heavily to the work of the Y. M. C. A. giving it \$162,000,000 to carry on war work. This money was gotten mainly from the American capitalists, John D. Rockefeller and his son giving \$8,000,000. Money was obtained for war work by the Y. M. C. A. from far eastern countries. China subscribing \$1,300,000 and Japan \$575,000.

At the close of the war the Y. M. C. A. turned over to the American Legion \$500,000 which was used to nelp establish this fascist organization in the United States.

The Y. M. C. A. employed 25,925 officers within the army in various capacities. They were used mainly for propaganda purposes and to preach religion to the soldiers.

Of the \$162,000,000 that was received by the Y. M. C. A. for war work, close to \$6,000,000 was spent in Russia mainly for counter revolutionary purposes.

(Special to The Young Worker.) WEST BADEN, Ind.—Their bobbed hair standing on end and delicately trembling at the thought, pretty society ladies gathered at the board of directors' meeting of the General Federation of Women's clubs, were told by Mrs. John D. Sherman of Estes Park, Colo., of the terrible work that the Young Workers' League of America is carrying on.

Yuh Can't Fool Her! The Young Workers' League, maintained this new addition to the volumes of Sherlock Holmes that have discovered us, is sponsored by the

"By instilling the germ of communion in the minds of the thousands of young Americans the Soviet government hopes to weaken the American republican form of government, she said.

Then, just as the assembled damsels of uncertain ages were about to swoon at the thought of their little Algernons and Percivals coming in contact with a genuine young Bolshevik, Mrs. Sherman saved the day by advocating the organization of a junior body of the federation to work among children, teaching them Americanism of the highest percentage, and thus build up an antidote to the insidious poison of Sovietism.

But Mrs. Sherman has the solution for it all. She will introduce a resolution warning against the work of the reds which resolution will undoubtedly scare the living Jesus out of them.

To the Phillipsborn Nucleus of the Y. W. L. of America.

Dear Comrades: On behalf of the Anglo-American Youth Section of the Political Immigrant Club, we send you our heartiest

You may naturally be somewhat surprised on receiving a letter purported to be from an Anglo-American youth organization in Moscow, but such is the case, and we hope that this introductory letter will establish a firm revolutionary contact between your nucleus and our Section.

Our Section was organized in April, 1924, and is composed entirely of sons and daughters of political immigrants from English speaking countries.

You may ask what necessity was there for the organizing of this section, the necessity was clearly to be seen for the English speaking immigrant youth not knowing the Russian language, having no social life and segregated from all Russian circles consequently felt outcasts and strangers in Soviet Russia. Some of the more advanced of the youth quickly realized this and, through their efforts and the aid of the Anglo-American Adult Section ,our Youth Section was

At the first meeting of the Section, which was attended by 15 young comrades, its main tasks were discussed and formulated as follows: (1) to acquaint and bring closer, this immigrant youth to Russian life, (2) to cleanse them of all petty-bourgeoisie psychology inbred in them through the teachings of English and American lies and more broken promises and all schools and to educate them in the the workers could do was to quit the Leninist spirit so preparing them for job in disgust. the coming struggles in their respect ve countries.

As soon as these tasks had been which the Section would concentrate we immediately set down to work. A than Briggs' Mack Ave. Plant. bureau was elected together with other committees and a political class was started in the study of elementary political instruction. Simultaneously sport and musical circles were organ zed. In the summer we had many hikes and numerous excursions to plants, factories, museums, art galleres, etc., which gave us a much clearer structure of the country. During the past winter we settled down with greater intensity to our studies made lighter by many musical evenings organized by our Recreation Committee. Now we are again preparing for our summer activities and accordingly have drawn up a plan of work for this

period. We are greatly interested, comrades in your work as in your struggle Quite often "The Young Worker' brings us news of your activities and the conditions prevailing in Phillipsborn. We are conviced that in your reply you will describe in detail the conditions under which you work in Phillipsborn and the latest activities of your nucleus. We in return shall

'Step On It!''

Dear Comrades:

"Step on it" is the motto at Briggs' Mack Ave. Plant. It is being continuously droned into the ears of the workers by the foremen and strawbosses. The production rate is set at so high a figure that it is implissible for the workkers to maintain the terrific pace. This enables the foreman to cry ... at they are falling behind in production and so to goad the workers into greater efforts to satisfy the ferocious appetites in

The workers also know when he is coming because the foremen and strawbosses go scurrying around ordering them to use the safety tongs and other tools that make it unnecessary for them to place their hands in danger. As soon as the inspector's back is turned the cry goes forth again: "Step on it," "Step on it," 'We are falling behind in production."

Not only are the workers at Briggs subject to low wages and to the mankilling speed-up system, but they are treated like a pack of convicts by being surrounded by spies and stoolpigeons. Also those rats who aspire to become strawbosses and who work like maniacs at the beginning and end of the production line for a miserly five cents more per hour, also can be depended on to report any worker who shows the least sign of resenting the conditions under which he must

Lies and broken promises mark the treatment of the workers by the managers. When Briggs found it necess sary to make a five cent increase in the hourly rate at which they hired new help they did not raise the wages of the old help. When the old work ers demanded the same rate as the new men they were promised that it would be done, but at the end of two weeks, when payday came around, the workers found that they were receiving the same old rate as before. Repeated requests only met with more

It is useless to expect fair treatment from Briggs. Organization is the only remedy. The workers at well discussed and the path along Briggs are eager to strike a blow at their oppressors. Nowhere in this its activities had been mapped out, city can you find a worse hellhole

EASTON, Pa.

Dear Comrades, Here is news of the Dixie cup shop onditions. There are about 225,50 workers employed in this mill and about 100 of them are young girls (the youngest about 16 years of age) and women. Young boys about 15 in num-

After six months' service they get 11.50 per week which shows only \$1.50 increase. Young boys are getting \$15 per week and adult laborers from 30 to 40 cents per hour. Besides, the workers are getting a 'bonus" if they are fortunate enough, but that depends more on your face than your skill.

Skilled mechanics are only getting 60 cents per hour. The machines are guarded as law demands, but some hours for girls—in some cases 60 establish the rule of the workers. hours for men; dinner hour, 45 min-

reduction of 25 per cent and "bonus," which comprises the bulk of the workers' weekly pay. This was a slash at least of from \$3 to \$6 per worker off their weekly pay which was adjusted according to their wages. The management is said to be "very poor."

The feeling among the workers is one of dissatisfaction with all kinds of patriotic collections.

If you want to defend yourselves against your bosses and wage reductions, you must energetically organize a shop committee of all department workers, men women and girls, also, look to no race barriers, whether colored race or foreign, because a unified organization by shop committees will be the only solution to fight your bosses against any more attempts to reduce wages. Better your condition and demand the bosses recognition of your shop committee!

Another appeal to Dixie cup work ers. You must subscribe to the following working class papers, the Daily Worker, \$2 for three months. \$3.50 for sif months and \$6 for one year, or to Young Worker, weekly paper (for Young Workers), one year \$1.50-85 cents for six months. All subscriptions sent to address 1113 W. Washington Blvd., Chicago, Ill.

Starvation Wages in Duluth

Duluth, Minn.

Dear Comrades.

In our city, like in many other towns in the United States, the "Coolidge prosperity" is growing. Not only do we hear about it but we begin to feel it more and more. For the last few months the army of unemployed in Duluth has grown to thousands. Besides men and women there are hundreds of boys and girls walking the Employ 14 Year Olds on streets anxious to sell themselves to some boss. The future of these prosperity victim is as dark a never be fore because jobs are scarce and prices on food are rising from time to time.

I was one of the fortunates to look for work. It was only after more than a year of searching until at last a job was found. Now I work after school in a store, three hours week days and Saturday ten hours. Last Saturday I got first pay. I got four dollars for twenty six hours of work during the week. When I complained about the low wages I got, the boss told me that there are many boys that would be glad to get that much and that I must be satisfied with the amount I am earning. I am still working at the store for the same starvation wages.

The boss won this time, nevertheer with the National Committee a in Soviet Russia, and how the Russian girls are working in damp and smoky less I will keep on helping to orginze rooms, which is strong enough to the Duluth youth of the working class spooled machines. Cordage young workers, to fight for wage increase you must all organize in a shop committee of all departments and you must also appeal to the adult workers to assist you in a united shop committee (as above) to help you fight the bosses for increase in wages, for better conditions (the shop wash room i unsanitary and drinking water is unfit to drink), and recognition of the shop committee.

The company also employs a few women and young girls. One of them got hurt some time in March. She was engaged in the spinning department. Her dress got caught on one of the gear wheels and mangled her leg below the knee requiring 21 sticth es. This shows the company has fail ed to safeguard the workers.

Standing On Line At Ford's Plant

Dear Comrades.

On April 27 I decided to go to the River Rouge plant to get a job. Mr. Ford is known the world over as the times they do make a break. But our man who pays a living wage to his workingmen on the American plan of open shop. In fact Ford does not pay any more than the other factories. That is to say on the amount of production turned out by his men. You will never read about Ford's working conditions. But instead they will shoot all the bunk about the \$5 and \$6 after you work there two months. Through the capitalist press the workers praise Ford's and come from all parts of the world to work for him But they find getting a job at Ford's is not all so rosy as the capitalist press puts it.

It was about seven o'clock in the morning when I reached there. The employment department is on the opposite side of the street from his huge fatcory; so as to give the slaves about five acres of land lying idle for this purpose. There were about 1,500 waiting patiently for their chance to talk to Wilson. So the watchman directed me to the end of the line Knowing very well that I would not be able to get a chance to offer myself for sale to his most honoroble Mr Wilson, I decided to stop there just for the sake of experience.

And this is what I learned. The watchman came up to men and start ed a conversation; after all they are supposed to be human too. So asked him if I had a chance to see Mr. Wilson and he said to me, "It all

He says, "Do you know some of workers at the age of 14 to 20 years these men have been here since 12 to hire. Some people are foolish; they have been coming out here all winter thruogh the zero weather, just to be passed on."

Then I said, "I can hardly believe you."

"I don't blame you a bit. But I shall show you. Come, let's go to the front of the line. I will show you a Negro who has been coming out here all winter."

So we walked up there and the watchman said to him: "Say, Jack, how long have you been coming out here?" He says, "For the last four months. I came out here two and now I don't generally get here until about 4:30 in the morning." Then I says, "How come they don't

hire you?" He says, "I guess the boss don't like my looks. They have hired them in front of me and in back of me, but they never hire me." Then the watchman says, "Let's go. I have to line

those men up back there." So he put me back in the same place again. I was there when there were about 50 men in back of men. When he took me up to the front of the line and came back there were about 100 men. So I says to the watchman, "Are they doing any hiring at all?" "Oh, yes, they hired 5,000 men this winter and they are going to put on 5,000 more now." So the watchman left me.

In front of me there was a slave Texas and in back of me one from Oklahoma. At 8 o'clock the line started to move and sure enough Mr. Wilson did not feel very well. He passed on the first 150 or two hundred men. Then he started to hire about one out of every five. As I was ing there with their suitcases direct line moved on rapidly but the fellow branches of the W. P. and Y. W. L. worker next to me said that he thought it's about time for them to chase us off the field. I says. "I don't think so. Look, they're hiring." "Yes," he says, "too damned many. I have been coming out here for a week | member our address, 1844 Pitkin Ave.

Junior Notes

N Chicago was originated during As usual he refused to come to T the last few months an initial plan to thoroly centralize our work in the Junior Groups.

> The city which has about twenty or more groups decided that the only way we can possibly be able to keep in contact with every group at all times is to divide the city into various sections, and leaders or captains at the head of these section. The city was divided into six sections, as follows: North Side, Northwest Side, South Side, Midcity, West Side, and Pullman sections. Every one of these sections has a Junior Director who has the power to act in the name of the City Committee at all times. Every one of these leaders concenrate their efforts upon the sections assigned to them and they are directly responsible for all work in that section.

If a group leader fails to attend Group Leader Meetings, the Section Leader of that locality take the blame, and sees to it that in the future the leader attends. If a group is being neglected this Section Leader gets the blame again, and again it is the duty of this Leader to see that the group is taken care of. In fact, all work that transpires in the domain of a Section Leader, he or she is responsible for. Also these Section Leaders form the City Committee , with the City Junior Director at the head. Thus every two weeks, at the meetings of the Section Leaders, a complete report on every group is handed in, and we are in complete touch with all sections and with all work either Pioneer or old.

Besides centralizing all work on one fulcrum, we are continually training new comrades for executive positions in the League, or as future City Junior Directors. The function of the City Junior Director now, instead of being worried about each individual leader, only has to keep after this committee of six, to ensure good results. Before, the Junior Director was the one who went out and started Pioneer groups, or the one who look ed out for new prospects. Now every section of the city is being closely watched by a capable comrade, and in case of any crisis in schools, the city is always informed and ready to start a campaign there. I am sure that this plan can be tried out by every large city in this country with good results. In fact, I see no other way by plenty room to line up in. There are which a large city can keep tab of all its groups, and all the individual

All Junior Group Leaders are kindly asked to correspond with us, and o write of their experiences in this column of the Young Workers. Address Young Worker, 1113 W. "You know he will hire just as many when that room is crowed up then he'll say that's all for today. No more hiring till tomorrow more ing. That would be a pretty dirty Irish trick to play after these men stood out here all morning. There isn't anything clean about him anyway. The only reason I want to work for him is because it is more steady than any other concern."

So I took him down the line and showed him where Ford had laid off his men in 1921 and also last year his men were working only five days a week, and turning out the same amount of work as in 1923 and more, and only receiving five days' pay. But it was impossible to convince him so I dropped that and asked the man from Texas why he came here. He says that he was reading in some capitalist paper that they were short of men here and he always wanted to work at Ford's but by the looks of it I think that it was all bunk I was reading. three o'clock in the morning. But That moment the line broke up and Iwondered what went wrong. Oklahoma says, "Didn't I tell you they were hiring too damned many men?" So I walked up to the employment department. The office was lacked and they said there would be no more hiring until tomorrow.

So you see, comrades, getting a job with Ford is not so easy. The capitalist press writes these articles so that they can get an unemployed army in Detroit to help the open shop basis. With this unemployed army staring the men in the face the ones who are working are afraid to demand better working conditions. But in spite of all the men are starting to revolt against these conditions and joining their ranks in the union. Forward! and down with the jobseekers'
