KLAN AND FAKER UNITE TO FIGHT ZEIGLER MINERS

18 Union Members Arrested on Warrants of Official

MEN BACK AT WORK

(Special to Young Worker.)

ZEIGLER, III.—Fighting against the greatest odds, with large numbers of Klansmen joining the company along with the sub-district officials in its warfare on the miners, the men working in Zoller Mine No. 1 have been forced to make a temporary retreat and have returned to work.

However, the fact that the men have returned to work by no means signifies that the fight is over. Local 992 has long been conducting the fight against both the coal company and the Ku Kluxers and labor faker allies. The strike has been successful for more than a week, though the men have had no outside support and had the sub-district officials fighting against the strike all the time declaring it an outlaw strike, and aiding the company as best they could in its effort to break the strike.

All the efforts of the company and the yellow elements which support the operators, had failed, even the arrest of the most militant members of the union on trumped up charges not stopping the men in their fight. It was only when the sub-district officials in co-operation with the Klan officials, recruited hundreds of Klan elements throughout Franklin and Williamson County and brought these scabs to No. 1 mine, most of whom had not worked in a mine for years, that the miners decided to return to work and continue the fight from inside for the time being.

Trouble with Checkweighman.

The immediate cause of the resent ing of coal that came to a head several weeks ago. The company refused to allow the union checkweighman to have an assistant. The cars were run over the scales so rapidly it was impossible for one man to record the weights. The checkweighman reported to the president of the local, Henry Corbishley, that he could not weigh the coal. The President notified the men they had no checkweighman. The men came out of the mine. Union Officials Decide for Company,

The sub-district officials of the union were called in to adjust matters. D. B. Cobb, sub-district vice-president, directed the taking of evidence. After more than 100 men had testified, out of which only four gave evidence for the company, Cobb agreed to en- 30 per cent of these are young workforce the company's demand for the removal of the president, vice-president, pit committee and checkweighman of Local 992.

This caused much ressentment among the miners and they refused to go to work. The sub-district officials then called a special meeting of Local 992 on August 11th. President of the sub-district, Lon Fox, Vice-President Cobb and District Board Member Rarby Babbington came to the meeting. Fight Starts at Meeting.

Fox and Cobb demanded that the miners elect new officers and return to work. The men refused and insisted that the case be re-opened. Cobb answered in the negative a question whether or not he would re-open the deposal case if the company were willing. The meeting adjourned with the men not to return to work until their old officers were recognized and the checkweighman dispute settled.

Miner Murdered in Fray. A miner, by name, Asa Wilson, known to be a Ku Klux Klan supporter, struck an old miner, Bert Farthing, sixty-nine years old, presumably for a remark Farthing had made during the meeting. A general fight ensued between the miners supporting the old officers of the local and those associated with the Klan and supporting the sub-district officials. During the melee, Cobb pulled a blackjack from his pocket. This was taken from him and is now in the custody of the law in Zeigler. Both Cobb and | President Fox along with a number of miners on both sides received injuries during the battle.

One of the miners, Mike Sarovich. who was a strong supporter of the

Bosses and Berry Can't Break Cuneo Walkout

The walkout is still on at Cuneo, and it is now a question of how long the Cuneo bosses can put up with the oig losses they have met since the pressmen and feeders went on strike

and force the men back to work.

Cuneo is a brother of State's At-

Two active members of the union who have bee nbusy in the strike had their homes bombed and one of them vas only narrowly missed by a bullet.

However, since the amalgamation of Locals 3 and 4 of the I. P. P. & A. U. the pressmen are able to put up a stronger fight than ever against the efforts of the bosses to make another big Chicago printing plant an open

skilled young workers in the plant are being used as scabs and some of the inexperienced young workers are being put on the presses as soon as possible an getting a bgi pay increase if the scab on the pressmen. On the other hand many of the packer boys and others have joined the pressmen in their strike and are asking the union to support them in organizing the packer boys and other young

YOUNG WORKERS HIT HARDEST IN **TEXTILE LOCKOUT**

trouble was a dispute over the weight British Bosses Demand Lower Wages

150,000 OUT

There has been a huge lockout in England of all workers in the wool textile trade. More than 150,000 orkers are involved in this stoppage among them a large proportion of young workers. The following article appeared in the British "Young SAILORS MUTINY Worker," and should be of interest to

all American young workers.--Editor. trade affects somewhere about a hundred and fifty thousand workers and

ticularly appeal.

The textile industry is one of the worst of the worst for child labor. Boys and girls leaving school at the age of 14 find a ready demand for their services. These young workers enter the mill full of enthusiasm and pride that they are going to do their share of work to keep the household supplied with the necessary things of life, and building high castles in the air as to the heights they will climb.

Within a few weeks they are disillusioned. Around about them they see old women doing the same work as they are, and are told these women have been spinners and twisters all their lives, and no matter how they try to avoid it the fact is ruthlessly brought home to them, that unless something unusual happens they will be faced with the same drab conditions in after life.

Long Hours and Vile Conditions litions mean more profits for him.

ing areas and other parts where there s a small.. demand.. for.. them.. and placed in these hostels. Low Wages

The average wage of the young wrokers is 25s. per week and those from away have to pay 17s, 6d, per

our weeks ago.

The Cuneo plant is practically owned by Sears-Roebuck, and none of the catalogues have been printed as yet, so the bosses are getting desperate and using all methods to try

torney Crows and has managed to get even more help than the bosses usually get from the police in their fights against the workers. Not only have they done their best to arrest pickets, etc., but the company has been carrying on a campaign of terror against leaders of the union without eing molested.

Y. W. L. CONVENTION

Watch the next issue of the Young Worker for an important announcement concerning the National Convention of the Young Workers

Amalgamation—the Answer to Berryism

The above cartoon, reprinted from the DAILY WORKER, represents the joining of forces in the printing trades in Chicago in the fight against the Cuneo Co. and Berryism.

Locals3 and 4 of the I. P. P. and A. U., the two locals of the pressmen and feeders, have already amalgamated so that they can better carry on their fights. The Young Workers' League and its members who are actively participating in the strike at Cuneo's in Chicago, are urging real amalgamation which will not only mean the uniting of the existing unions in the industry, but which will make it possible to take in and organize the thousands of unorganized young workers employed in the printing plants of Chicago.

At present, not only are the bindery workers very poorly organized, but there are many young workers around the press rooms who are not in a union and are not supposed to come under the jurisdiction of any

So real amalgamation such as the pressmen have set the precedent for, means not only more effective organization to carry on the fight against the bosses and their agents within the unions, like Berry, but it lays the basis for organization of the unorganized young workers, the packer boys, the bindery workers, and the many low-paid unorganized young workers who are such an aid to the bosses in smashing and weakening the unions in the printing industry.

ON FRENCH SHIP

LONDON, England.—In spite of the silence and denials of the boss press, it is above all clear that the meeting of French blue jackets before the arrival of the President of the Republic,

was of a most serious nature. The immediate reason for the outbreak was extraordinarily hard service which the sailors have to endure to make their ships fit for the visit of the "illustrious" gentry." But the real reason is, that they are fed up with the war. They refused service, rejected the bad and scanty food, and there was a serious mutiny on three out of four flagships in the ports of Cherbourg and Brest. Shooting occured and several sailors were killed

SOUTHERN ORGANIZER IN HEART OF DIXIE.

The Southern Organizer of the American Negro Labor Congress is somewhere in the south organizing local in a very fertile field. Though the Negroes in the north suffer many perecutions, the Negroes in the south uffer all of these and many more. It can easily be seen why the Negroes of the south are taking so readgress. They can see, as no others see, that it really marks a new epoch in the life of the American Negro. When the Congress convenes October 25th over 300 delegates are expetced from the south.

Their parents, who have thought going to be lightened, find that they have to send help to them to have a holiday.

Some travel for ten miles to work. getting up at five o'clock to get to their work at seven; when they stop at five they have to walk from mill to the train, and generally don't get hime till two and a half hours later, making their working day 14 hours. nothing left for clothes or their lodg-

British Mine Owners

(Special to Young Worker)

LONDON. England.-The solidarity of the miners and the steps taken by the General Council of the Trades Union Congress to operate an embargo on coal forced the government to step in and save the mineowners. The owners have been given a "dole." They are to receive a subsidy up till next May in order that profits may be maintained and the same rate of

In some sections of the Labor moveous victory. Whilst it is true that the owners have been checked and the miners have won a defensive fight the fact remains that the miserable and semi-starvation conditions of the miners remain unchanged. 300,000 lads are only getting their miserable 15— to 25— per week. They work committees of action. He is working the 7-hour shift at night work. Do not get holidays or proper compensa-

The situation is that the miners who repeatedly declared their intention of bettering these conditions have been drivn into the position of making ily to the American Negro Lawor Con- no struggle against them for the next nine months.

It is clear that the Coal Kings will use this breathing space for the purpose of organizing a more effective and better prepared attack against the miners. Now that the British miners have been fobbed off we may very well see the attack launched on that their years of struggle were the German, French and Belgian and the international front broken.

The Y. C. L.'s mining campaign has had a big effect in rallying the pit lads and has greatly increased our influence in the coal fields. Eight new branches have been formed and 100 new members enrolled.

We are continuing the work or getting lodges and districts of the M. F. Not an extra penny is allowed for | G. B. to support our demands in orexpenses, and the result is that after der that youth demands will be put paying these from wages they have forward by the E. C. of the union when they present their counter-proposals to the bosses.

MEETING IN CHICAGO

Sunday, Sept. 6th, the Young Workers League, Local Chicago, will celebrate the International Youth Day.

The mass meeting will be held in the Northwest Hall, corner of North and Western avenues. It will begin at 8 p. m. Admission is 25c. Tickets are on sale at all party and league branches. There will be a short musical program. Party speaker, Max Shacham, editor of the YOUNG WORKER, as the principal speaker, Junior speaker and others.

European Conference WORKERS PARTY Joins French League Against Morocco War

The Conference of Communist Youth Leagues of Europe to the Communist Younth of France.

Conference of Communist Youth Leagues of Europe, meeting in Berlin on 21 and 22 of July, 1925, sends fraternal greetings to the youthful communists of France in appreciation of their heroic struggle against imperialist war being carried on by capitalist France against the brave Riff people, and to all the youthful workers, peasants, soldiers, and sailors, who are fighting on the side of Communist Youth against the imperialism responsible for this war.

The French people still tolerate this fresh massacre of their sons in the interests of the French bourgeosie. This shows that the capitalists still have mighty means at their disposal for deceiving the broad masses of the peasantry, the petty citizens, and even the workers into approving of a new and bloody war.

The memory of the 11/2 million dead-who died "that there might be no more war"-is still fresh in the minds of the workers and peasants of France. The wounds of the millions of cripples made by the war, named the "last war" with conscious mendacity by the capitalists and their Social Democratic followers, are not yet healed. Many are the mothers who are still waiting, and still hoping against hope, for return of the sons reported as "missed". All hope has not yet died out of their broken hearts. And already death is again sweeping like a storm wind over working France.

The capitalists have dared to begin this war, and once more it is the Social Democrats who have proved traitors, faithful hounds of big capital. The broad masses are fermenting, but still they tolerate the fresh im-

perialist war. The Communists alone, the Party, the Youth, the revolutionary Trade Unions of the C. G. T. U. and the A. R. A. C. (Ex-Soldiers) have replied to the fresh war by setting up the red flag of revolt.

But the masses are beginning to move. Sharp protests have been raised by even the socialist workers and reformist trade unionists, at the Workers' Congresses at Paris and Our Conference welcomes these helpers, who though they have but recently become co-workers, have always been co-sufferers. Our Conference hopes that they will fight side by side with the communist workers In all imperialist ventures, in every until the end: Until the defeat of the

A mighty work is still to be performed. You are only beginning the

There are two million youthful workers, young men and women, and as many young peasants.

The task set you is to mobilize this enormous army for the fight aaginst the imperialist war today, and for the civil war of tomorrow. The fight Detroit, the Young Workers League against the war in Morocco will dehas enlisted the aid of the Negro, mand an ever increasing expenditure

We are fully convinced that no obstacle will hold you back, and that

Comrades! It is an imperative task to mobilize the broad masses against the front or in France, for an even more energetic struggle against the war, is work absolutely necessary if the victory of the proletariat is to be made possible.

Young Comrades! Workers and peasants, soldiers and sailors, to the work! Increase your energy tenfold, your endurance, your will, and insure the final victory of communism!

The youth of the working people and peasantry all the world over is on Down with the imperialist war in

Morocco! Long live the free Riff republic! Long live the fraternization! Up with the immediate evacuation

of Morocco!

CONVENTION ON: SPLIT AVERTED

Two-Thirds of All The Delegates Support C.E.C. Majority

LAY BASIS FOR PARTY UNITY

Altho the convention of the Wark ers Party has not yet come to an end at this writing it can be definitely stated that the danger of a split has been successfully overcome. The basis for the unity of the Communist forces of the party has been laid by the convention and an urgent appeal represented to the entire membership to join upon the political line laid down in the resolutions of the Parity Commission and the decision on the American question of the Communist International, and for the cessation of the factional struggle within the par-

Most of the speeches on the main task of the party have emphasized absolute necessity of combined action of both main groups, the majority and the minority for the Bolshevization of the party and in particular the struggle against Loreism and the other right wing dangers within the party.

The convention opened with the seating of all contested delegates, which, after the report of the credentials committee, was changed somewhat to seat only as fraternal delegates two minority representatives from the Illinois district since their case was based on very weak claims. Later in the session a number of additional fraternal delegates were seated including Askeli, who was seated so that the convention wiuld have the opportunity of hearing his opportunistic viewpoint and declaring its condemnation of the political platform proposed by him; other comrades seated with voice but no vote

were Pat Toohey, Aronberg, Snyder, Alex Reid and a number of others. The district executive committee of the challenged districts of New York, Boston, Philadelphia and Cleveland were adjusted by the convention in accordance with the recommendations of the credentials committee. This left the minority with the control of the Boston district and the majority with the control of the New York and Cleveland with a seven and seven committee in the Philadelphia com-

The first report was on the Party Press. Comrade William F. Dunne. The report on the anti-imperialist work of the party given by Comrade Gomez, with a minority report by Comrade Wolfe, was the next. After relating the importance of this work to the American Communist Party, and the first beginnings which had already been made, Gomez outlined the tasks of the party in the coming period on this field of work. Wolfe took issue with Gomez but the former's position was not sustained by the convention. The body unanimously adopted the resolution on this question already adopted by the Partity Commission, together with an amendment that a comrade from this country be sent to Mexico to work with

by Harrison George had no minority reporter but it did not fail to arouse some discussion from the floor. The question of the party's taction in the anti - Abramovitch campaign were scrutinized and the criticisms of the minority which were quite vociferously put were also rejected by the con-

the Communist Party there.

One of the most important incidents of the convention were the reports of Comrade James Cannon, for the majority, and Jay Lovestone, for the minority, on the recent sessions of the enlarged executive committee of the Communist International and the decision on the American ques-(Continued on page 2)

INTERNATIONAL

(Special to Young Worker.)

Huge demonstrations are being arranged for International Youth Day thruout the country. This day which is the time when young workers thruout the world come together to show their solidarity of interests and readiness for the fight against the boss class, its exploitations and wars, will be the day for demonstrating against the dangers of a new

imperialist war which is so apparent this year. The meetings which have been arranged by units of the Young Workers' League thruout the country, will be held on Labor Day, August 7. Watch the next issue of the Young Worker for announcements of where these meetings will be held. Send in the date and place of your meeting in time, to be printed in the next Issue. Watch for announcements of the International Youth Day demonstration in your city and be

sure to be present at the meeting. In Detroit and Chicago huge mass meetings will be held on Septem-

How French Nuclei Opposed War Eight Men Killed in

After the Fifth Congress the Com- | tice to all factory nuclei: munist Party of France was more energetic than any section of Comintern in reorganizing the party on the basis of factory nuclei. At the time of the Organizational Conference in March ,the French Delegation was in a position to report that reorganization was completed in the Paris, Lyons and Nord districts and that organization on a residential basis there was being dissolved. Through the organization on a factory nucleus basis, the party secured thousands of new, proletarian members, and thereby increased its influence considerably on the working masses.

It became evident after these first successes in the domain of factory nuclei, that it was now essential to concentrate on politicizing them, i. e. to imbue them in such a way with the daily party work that they really become a basic organization of the party. Opponents to this new form of organization used this difficulty in order to point out that the nuclei were not in a position to develop political life and to request that in addition to them new organizations on a local basis should be formed. Such organizations would have the task of deciding on the political and tactical questions of the party. It is quite clear that the realization of the request would have resulted in killing the nuclei, for the centre of gravity of the party work would thereby have been transferred on to a residential

The Communist Party of France has already succeeded in making great progress in the political work of the factory nuclei, a fact which proves the active participation of the Factory Nuclei in the preparation of the Workers' Congress against the Morocco War, Although at present we are not in possession of all information regarding the activity of the factory nuclei in the preparation of the campaign against the Morocco war, still we may conclude from the available information that the great success of the Paris Workers' Congress July 4-5 is primarily due to the out the factory nuclei it would have been impossible for the C. P. F. to penetrate so deeply into the masses in the factories with its agitation against the Moroccan war nad to mobilize such a large number of workers against this war.

AN INDEPENDENT SYRIA IS AIM OF GENERAL REVOLUTIONARY MOVEMENT **GROWING TO SERIOUS PROPORTIONS**

LONDON, August 26.—The revolt of the Druses tribes against the French administration in Syria has assumed very serious proportions according to Central News dispatch from Vienna today.

The Druses leader, Sultan Atrach Pasha, has declared he will reject any ffer of mere autonomy and will fight to the bitter end for complete Syrian

Interviewed at his headquarters in Medjel, Atrach Pasha said, "The rebellion is no longer merely local but it is the beginning of a general revolution in Syria. We shall not be satisfied with autonomy for the Druses tribes. We demand an independent Syria. If France makes further attacks rebellion will blaze-out over the whole of Syria. It is better to die free than to live in bondage."

THE RED SCOUT CAMP

By RUFUS P. HEATH.

As the end of the vacation season draws near, the Chicago Juniors summer camp has gone down into history. Some of the comrades of Chicago did not approve of the idea of having a summer camp for our young Comrades. Through the continued efforts of Comrades Gilbert Greenberg and Rose Cohen and the Young Workers League in general, we had the camp and considering the circumstances under which we had to operate it, it was wonderful success.

We were handicapped for funds, try. space and equipment and quite a bit of outside interference by other campers. We had swimming twice a day, ball games, hikes and other sports We had our Camp Soviet Council meeting nearly every evening and entertainment every Saturday evening. I was the camp cook and I gave them as near a vegetarian diet as possible. Comrade Judd was a great help in preparing meals and other work, she donated a tent and quite a bit of money to the camp fund. At one of our Council meetings I gave the Juniors a talk on Comrade Lenin and camp conditions in general.

The Boy Scouts had their summer camp about a quarter of a mile from our RED SCOUT CAMP, they sang capitalist patriotic songs while we revolutionary working class

We had plenty of talent in our camp, such as plays, shadow movies, recitations, speaking, etc. The Juniors seemed to like the camp and are very enthusiastic over the outcome.

The Young Workers League expects to have a modern camp next summer for both Juniors and adults, something on the order of an army camp. In order to do this we will need lots of money to lease the land and put up the buildings and buy and install the equipment. The drive for funds for next summer's camp will probably start immediately after the Y. W. L. convention. All comrades who are interested in our summer camp and wish to make it a success next summer should get in touch with the Young Workers League as soon as possible

Yours for a successful camp next

Textile and Mine Lockouts Hit Germany

BERLIN.-Mass strikes and lock outs in the Saxon textile industry are affecting 150,000 workers. The agreements between the trade unions and the employers terminated some time ago, and long negotiations having produced no result, thousands of operatives struck. Thereupon the federation of employers of the Saxon textile industry announced that unless the men moderated their demands they would lock out the whole indus-

In Cologne the industrial situation becomes worse from day to day. More mines have closed down, throwing thousands out of employment, and it is estimated that on Oct. 1 only two or three mines will be working full time in the Ruhr.

10,000 DRIVE PROGRESSING

Chicago still holds the lead in the \$10,000 drive of the American Negro Labor Congress. The east is getting started, but is still far behind. The American Negro Labor Congress is a workers' organization and depends up on the workers for its support.

The workers of this country, particularly the Negro workers, cannot hope to look for aid from other than their own class. They must fight their own battles on all fields. No one except the Negro working class is more able to achieve for the Negro race in general and the working class in particular, economic, political and social

Cleveland Jewish Youth, Notice. The Jewish branch of the Cleveland Young Workers' League has changed the date of its regular meetings to every Wednesday at 8 p. m. The branch will hold one business meet ing and three educational meetings during each month at its hall at 5311 Woodland Ave., Room 2. The educational meetings will be partly taken up by a study class for young workers in the A. B. C. of Communism. The local educational department will also provide the branch regularly with speakers on subjects of current importance and interest. All young workers are invited to attend these

(Continued from page 1) local officers was about to leave the hall when he was shot down by Alex Hargis; known to be a Klansman and a former secretary of the local. Several days later, Sarovich died and Hargis is held for his murder.

Cobb Swears Warrants.

The same night, warrants charging rioting were served on Bert Farth ing and his son. The two were immediately released on bail. The miners continued to stay away from the mine save to picket against those who were brought in to work. On August 18th warrants were served on eighteen leasing members of Local 992, among which were President Corbishley and his two brothers. The and Lon Fox and charged that twentysix Zeigler miners with entering into conspiracy to murder D. B. Cobb the night of the meeting on the 11th. More than \$70,000 in bail was raised in a short time and all were set at

Prelude Found in Elections.

In spite of the arrests, the miners have consistently refused to operate the mine until their demands are granted. There is much prejudice against the sub-district officials for heated forms. However, the resoluwhat the Zeigler miners are convinced is an outright betraval.

There is a connection to be made petween the present trouble and what has gone before. The local in Zeigler charged the sub-district officials with seing guilty of fraud in the last general union elections held in December. Henry Corbishley, president of Local 992 ran against Lon Fox for the press goes to the press, will be printed ident of Sub-District 9. There are several appeals now pending before the district board contesting the elections. Leading this fight is Local 992,

Zeigler a Stronghold.

The rank and file of the miners in all parts of the sub-district are in sympathy with the members of Local 992. They look upon this unpreced ented action taken by the sub-district officials-preferring criminal charges on flimsy ground against members of their own union—as cowardly and completely unjustified, in addition to being a betrayal of the mine workers.

Zeigler has always been a solid phalanx against any encroachments of the operators and has been a rally ing center against the Ku Klux Klan which is quite strong in this distric and a constant menace to the miners union. The miners in Zeigler point out that the only supporters the sub district officials have there are followers of the Klan. In the present trial of the eighteen arrested miners, they say it will be a case of a triple alliance against them-the sub-dis trict officials, the operators and the Ku Klux Klan.

Collaboration of League and Party in Nucleus Work

In many party organizations there more enterprises than the Y. C. Works: are people who dispute the necessity Leagues can. of special Y. C. L. factory nuclei. It has been frequently the case in Germany, France and Belgium that Party and also Y. C. L. comrades ask why | Youth movement, we must at the same in one and the same factory. They by means of practical examples and say that the Y. C. L. and the Party experiences from the factories. should have a joint factory nucleus. We are decidedly against such a conception, as it would lead to the liquidation of the youth organization in gen-

tive of the Comintern made it incum- young Berlin worker correspondent tiful." bent on Communist Patries and V C Leagues to win the young generation for Communism. To carry out this important task it is essential to extend and intensify still more mass work, and most of the Y. C. L.s have already made a beginning with this. The reorganization of Parties and of Y. C. L.s' on a factory nucleus basis, which is now the main feature everywhere, makes it possible to get control over young workers on a large scale. Through the establishment of more Y. C. L. suclei an organ is formed around which we can rally the young factory workers. Attention has already been frequently drawn to the their adult fellow workers only work inadequacy of the relative strength 9 hours. between the Y. C. Leagues and the Parties. In Berlin for instance the numerical strength of our Y. C. Leagues is 26 times less than of the Party. In Paris 6 times less, in London 10 times less, etc. How many big enterprises are there where Party comrades are employed and where factory nuclei exist where nevertheless of Gillmann Brothers, Oberstein-Nahe nothing or very little has been done employs 3 improvers and 5 apprento win the young workers over to our side and to form a Y. C. L. nucleus.

Every Party Nucleus!

draw attention to the necessity of As unskilled workers they will have forming Y. C. L. nuclei, but also to a miserable existence, that is to say find out where it is possible to form if they are not left entirely without them and to proceed with their forma- work, for it has already been hinted tion. The influence of the Parties is that when their apprenticeship exmore far-reaching than that of our pires they would be dismissed." Y. C. Leagues. Therefore the Parties

But if we make it incumbent on our

Why is it necessary to have a spe cial Y. C. L. nucleus side by side with the Party Nucleus?

We will answer this question by givwrites as follows:

"The Batterie- and Elemente-Fabrik Krautwurst in Berlin is a 'fine firm' to learn but to be exploited. indeed. Conditions prevailing there beggar description. The 9-hour day is prentice must do the same work as the rule there, but the young workers must grind away for 12 to 15 hours. but he receives for this work only a They are engaged as unskilled young workers, but are kept continuously at worker. pushing the wheel-barrow. A young worker 17 or 18 years old receives 23 pfg. per hour."

What is there important in this re

port for the adult workers?: 1. The fact that young workers are kept at it for 12 to 15 hours whilst

2. For the same work the young workers are paid only 23 pfg. per hour, which is much less than their adult workers receive.

Other Y. C. L. reports run: "Apprenticeship.

"The fascist firm—the precious stone polishing and cutting workshop pired at Easter, but up to now not one A Y. C. L. Nucleus Side By Side With of the apprentices has had anything to do with stone-cutting, but only with polishing and other subordinate work.

Extract from the report from a

"The Bernsdorf Glass Works is a model enterprise for the the exploita-Party comrades to win young working tion of young workers. Here the men and women for the Communist young workers are paid per shift although piece-time rates are the rule there should be two factory nuclei time show them the necessity for it in glass works. Young workers more than 20 years old receive the princely wage of 15 marks per week, whilst those still younger far still worse; they receive only 9-12 mark for extremely injurious and monotonous work. With present prices these waging here a few reports sent in by es are nothing but starvation wages. The session of the Enlarged Execu- young worker correspondents. A But if money is scarce blows are plen-

These reports show that in capitalist society apprentices are not there

Therefore the third fact is: An apadult workers, and even piece-work

The lessons which adult fellow workers have to draw from these facts are:

1. That young workers and apprentices are used to cut down wages. 2. That employers being able to produce goods much cheaper with apprentices and young workers, endeavor to employ more and more such workers.

Young workers are in a worse position than their adult fellow workers, and their role is that of strikebreakers. Therefore it is essential to organize the young workers of the factory into a Y. C. L. nucleus.

It is the business of the Y. C. L. nucleus to represent the interests of tices. The apprenticeship period ex- the young workers with the employer with the trade unions and with the adult workers who very often have erable conditions of the young work-With the exception of the R. C. P. Blows are a frequent occurrence, and ers. The latter are part of the workthe above slogan has not been acted all this for 7-8 mark. What is to be ers as a whole and they need the supupon by a single Party. In connect the fate of these apprentices whose port of their adult fellow workers if tion with the Factory Nuclei cam- apprenticeship will be over at Easter their demands are to be conceded. paigns the Parties should not only but who have not learned anything? Thus the Y. C. L. nucleus which is under the control of the Party nucleus has to look to the latter for the protection of its interests. Therefore, there should be close contact between the Y. C. L. and the Party nucleus to bring it about. Some important reports sent in by young worker corre-

lows from Cologne in the beginning of February:

"The young workers in the Cologne firm Keller asked for a rise of 10 refused and they went on strike. They appealed to the German Commercial arise without the foreman of the fac-Clerks' Union which got immedately fellow worker Winklhof: The latter insisted on the tariff wage, whereupon Keller said that he fixes the wages himself. Then Winklhof proposed to agree to 45 pfennig. Keller refused. but was willing to reinstate three fellow workers on condition that they should only do piece work. Young workers earn less on piece work than if they worked for a fixed wage. On piece work they have a 63 hour week. For Sunday shifts and overtime they small fraction of the wage of an adult receive the ordinary pay per hour. The strike in this firm is still going they like.' He gave them half an hour on. We think that the adult fellow workers who have not downed tools. and among whom there are also Social Democrats, will soon show their solidarity with the young workers."

This report shows that whilst young workers go on strike their adult colleagues continue to work. This also happened in a strike of young workers in Bernsdorf. A comrade from the Y. C. L. nucleus wrote about this strike as follows:

Y. C. L.), caused great excitement and indignation amongst the young work-

"They approach us every day with the question, if it were possible to go on strike. We said: 'Yes, if all of not the right understanding of the mis- you are united, a strike will be possible.' We knew that the firm had pressing orders. One day the Reichsbanner Hero, Max Gregor, shoved Kurt Goring's hand on purpose into a red-hot should. There was an uproar among the young workers. There were big meetings during the intervals and our comrades carried on their agitation. Together with the non-Party workers we convened a meeting of assistant workers for Sunday but only 25 people turned up. They elected a committee of 2 Y. C. L. are able to form youth nuclei in far young worker of the Bernsdorf Glass spondents show that this is not the members, one Socialist young worker

and two non-Party people. This com- | not be otherwise. Such a correspondent wrote as fol- mittee approached the manager for a rise of 20 per cent and the abolition

of speeding up. "At the next meeting, which was already attended by 60 to 70 young pfennig per hour. Their demand was workers, a resolution was moved to fort to draw them into the strike. carry on any struggle which might tory, Otto Herzog (S. P. G.). This into touch with the firm through our resolution was adopted unanimously. The representatives of the young workers called on Monday and Tuesday at the office, but in vain. The excitement grew.

"The young workers waited for the result of the negotiations in front of the Wanne works. As the rise was not conceded, everyone left the works The workers of the Wanne works went straight to the manager. He received them and said: 'Those who want to work can do so, but those who are not willing to work can do as blacklegs. to think the matter over.

"A meeting was held in the sports

among us a detective who had been mobilize the adult workers against the Youth? bribed by the S. P. G. member Herzog and told us that we were to go back to work as the 20 per cent rise had been conceded. He had spread the same fairy tale already on Sunday. We would not listen to him but in the course of the afternoon 50 to 60 people turned up to work. The tar-"The article on the labor conditions iff of the Union had in the meantime here, which appeared in the 'Jungo | been made known, and the old man Garde' (central organ of the German | had made fairly good concessions under our pressure. support of the adult workers it could | munists.

Sometimes it is the other way about. Adult workers go on strike and apprentices have to go on working and acting as strikebreakers without their live Moscow!' 'Join the Y. C. L.. or older fellow workers making an ef-At the factory Nuclei Conference

held some time ago in the Ruhr basin. a representative of the Hollstein & Kappe, Dortmund factory nucleus made the following report: He as the only Communist formed the factory nucleus. In a very short space of time, the nucleus gained so much influence that the apprentices of the factory who at first feared victimization, if they joined the nucleus, demanded during the strike that our comrade should fetch the adult workers in order that they should make the apprentices leave the factory because they were not willing to be

Even during the great metal strike in South Germany the apprentices had to act as strikebreakers without our grounds. Suddenly there appeared Party nuclei making an attempt to such a thing.

It is high time that Communist Parties and Y. C. Leagues alike having set themselves the task of reorgan ization on a factory nucleus basis should draw the necessary lessons from these examples: Close collab oration with the Party and Y. C. L. nuclei is essential and must receive our fullest attention.

The report of a Y. C. L. nucleus in the Ruhr district shows already signs of improvement. The nucleus makes the following statement:

"Our local group was reorganized on a factory nucleus basis some time ago. I will now endeavor to give a ploiters. In the mine we meet once Although there are Party and Y. C. | more to encourage one another for L. nuclei in both factories, the two our propaganda. Every comrade is nuclei did not get into touch in con- provided with a piece of chalk. We nection with these two young work- have of course to be very careful, for ers' strikes. The result was that the everyone knows how employers and struggle of the young workers was their hirelings are always on the lookpartially successful, for without the out for anything in the nature of Com-

"Bu this does not prevent us doing our bit for the proletarian revolution. From every shaft we hear encouraging remarks as for instance. Long the Party!' 'Fight with the Communist Youth against the one year obligatory labor service!' 'Fight for trade union unity!' In addition to these we have issued the following slogan in honor of the red recruiting month of the Party: 'Read the Aix-La-Chapelle Labor Paper!' 'A Communist paper in every house!' 'Away with the bourgeois newspaper from workingmen's homes!'

"We naturally do not limit ourselves to written propaganda. We continued with the miners in their places of employment."

This report shows that the Y. C. L. nucleus has done clever recruiting work for the Party organ and the Party during the latter's recruiting week. Only it was done without joint preparation and still rather inadequately. But where is the Party nucleus which has done that much

It is just during the epoch of rearded revolution when there is the anger of a certain enstrangement etween parties and Y. C. Leagues that closer and better collaboration of Party and Y. C. L. nuclei is essential. The reorganization of Parties and Y. C. Leagues on a factory nucleus basis does not only enable all members to participate in League and Party work, but ensures also harmonious and close collaboration. Y. C. L. members work in closest proximity to Party comrades, they watch their attitude and their Party work in the factory, they take part in this work and profit by it.

But the nucleus should also organize this collaboration. This necessitates mutual representation in the leading organs and meetings of the nuclei. Apart from the separate functions, at which common tasks and activity are discussed. Y. C. L. nuclei should give their help in Party campaigns, and vice versa. To this more attention should be paid in future. It is only in this manner that Parties can help to educate Y. C. Leaguers into active Party officials.

YOUNG WORKER

An organ of the Milltant Young Workers of America.

Published Weekly by the National Executive Committee of the Young Workers League of America.

MAX SHACHTMAN, Editor. JOHN HARVEY, Manager. Send all orders and articles, and re-

mit all funds to THE YOUNG WORKER 1113 W. Washington Blvd., Chicago, Ill.

WHEN THE COAL STRIKE COMES

By the time this issue of the Young tions that have taken place at fashionable Atlantic City between the repand the unions are ended. The hundreds of thousands of miners who see how the consistent drive of the capitalists is forcing them to accept a and sixth lectures are to be: "Prelower standard of living, of going now prepared to put up a finish fight tasks," and "General survey of nuagainst their oppressors.

No one who has had the slightest connections with the miners doubts go organization, which knows now their fighting spirit. The history of exactly where its various members the mine workers is a history of long and bitter struggles in which the best blood of the union has been shed in who work in the same enterprise, has the interests of the workers. But the other side of the medal shows a organizer is needed to make many different picture. It shows us of the of the nuclei efficient organs. Apart sell-outs and comprises that have from the nuclei which are already been made by the re-actionary union properly functioning, there are many officials, which have negotiated all which could be made efficient by givthat was won and fought for so bit- ing them an organizre with a good terly by the rank and file.

What can be achieved by a left courses. wing leadership was illustrated in Briton only a few weeks ago, when the miners forced the Baldwin government to back down. The victory there has put a new spirit into the What will Lewis do here. His past ry on work there. record speaks for itself-it is a history of splitting and betraying and do again. The only safe-guard the miners have is to trust in their own strength-not the diplomacy of Lewis.

The many coal miners who belong to the Young Workers League will be found in the fore-front of the struggle against the mine-owners, and their hirelings, even as they have been leading the fight against the mineowners and capitalist's agent within In this fight the revolutionary youth of the entire country will rally as one man to fight the fight of the coal miners. The Young Workers League pledges its every support to them now, even as has been the case in the

INPRECORR ON CHICAGO NUCLEUS SCHOOL

Inprecorr gives a very favorable account of the organization courses given by the Y. W. L. of Chicago in training nucleus leaders and functionaries.

Such courses to train functionaries how to lead and develop shop nuclei is of the greatest importance. The start which has already been made in Chicago along this line should be taken up by the leagues in other cities. There is no royal road to gain- | ties involved in joining the union will ing units of our organization. Every be so great that the young workers experience and achievement should be made the property of every member. It does not suffice to understand of the union for unorganized young the necessity of league reorganization, workers on strikes and by helping get What is more important is to be in a position to put this reorganization in union we will be able to do much toeffect, and for the most successful and speady accomplishment of that train- young workers. ing courses in nucleus work are es sential. Let the rest of the leagues follow the example set by Chicago. We quote the article

The Chicago organization is now organizing courses for a number of comrades to be trained for responsible nucleus work.

These courses will give practical instruction on factory nucleus work based on correct Communist theory and on the functions and the activity of factory nuclei as the basis of our organization. The superintendence of these courses will be guided by the experiences which the Chicago organization has had in connection with factory nuclei work since reorganization has taken place.

The courses will consist of six lectures. The first three will deal with the following three problems: "How tivity of a factory nucleus," and "How a Factory Nucleus Bulletin should be old.

written."

These first three lectures will be closely connected with the current work of the factory nucleus, and advice and many hints will be given on the strength of the experiences in Chicago.

At the first meeting of the courses all comrades who have as vet no function in any nucleus, will be allotted to existing nuclei or to nuclei which it is proposed to form later on. At the second or third meeting there will be a full discussion of the basis of their present factory nucleus work.

At the third meeting is to deal with the character of the "factory nucleus bulletins," comrades will be Worker has reached its readers, the taught to make up a bulletin, by instrike of the coal miners may be a ducing every member of the courses reality. The long weeks of negotia- to make up a bulletin. These bulletins are to be discussed and criticised at the courses by all comrades, and resentatives of the coal mine owners it is hoped that by such means the Chicago organization will acquire many new editors."

The subjects of the fourth, fifth, paring an agenda and conducting a idle for long periods of time, etc., are meeting," "Nucleus officials and their cleus work."

Since its reorganization the Chicawork and which has been able to unite into one group the members come to the conclusion that only an and clear notion of nucleus work. The The Lewis-Farrington machine is object of the courses is to train such about as corrupt as conceivable. Its organizers, and it may be expected only fighting policy is manifested in that factory nucleus work in Chicago its struggle against the progressive will receive a great impetus as a releft Communist elements within the sult of these courses. About 20 comunion who have fought to wipe out rades who are among the most active this corrupt machine and to give the and responsible comrades of all the U. M. W. of A. a real militant policy. groups were selected for these geoisie.

The Riff

By ANDRE MARTY (Paris) The Painleve government decided under the hypocritical formula: "Respect the treaties and the sovereignty of the Sultan!" (an insignificant puppet of the French government) to carry on war against the Riffs. It could not have been otherwise. When among the most important members of a ministry there are men such as Briand, an upstart adventurer, Caillaux, a typical banker. Schrameck, a born policeman and Steeg, a slaveholder, the hand of capital does not need to pull the wires very firmly with which it controls its marionettes, in order to guide them as

Every bourgeois government of this country feels itself compelled to destroy the Riffs by military means and by the blockade, for the following chief reasons:

it desires; a breath is sufficient.

1. The greed of the banks desires at last to "bestow peace"-as they call it-on Morocco, so that they can exploit it to their heart's content.

2. The free Republic of the Riffs would spur on all the oppressed Arabian peoples of North Africa, Morocco and Tunis to a revolutionary fight for freedom. This however would be a fearful blow to imperialism, especially to the French.

This is why the bouregois government felt compelled at a moment's notice to carry on war to the end. The leaders of the socialist party (including Blum, Renaudel, Bedouce) who really belong to the left wing of the bouregoisie, have joined in.

The attitude of the socialists was dictated by their anxiety to remain a government party. Why? Because since May 11, 1924, the socialist party (S. F. I. O.) has, with almost incredible rapidity, drawn close to the bour

When it became a government party, it attracted a large number of 27th of May): electors of the cartel who took their cards of membership not out of enthusiasm for the socialist party, but to insure for themselves the protection of the mighty ones of the day. In

this development became clear in the

eyes of those who are less informed.

Today it alarms even the old socialists

to such a degree that one of them (on

June 12 in a leastet of the S. F. I. O.)

A dreadful saying, for it takes up again Zinoviev's thesis, about which there was such a hue and cry years ago and according to which socialdemocracy is classified as belonging to the left of the bourgeoisie and not to the right of the proletariat. (A proposal that party comrade of Renaudel may have been accused by Renaudel of having sold himself to Moscow.)

The socialist leaders are in a dillemma from which they see no issue.

The one possibility is for them to continue to support the government: in this case they risk losing their last labor elements which will go over to the Communists. Renaudel does not seem to mind very much, as he showed at the session of the chamber on May 27, when he said to our Comrade Doriot: "Let them go to you."

And Poucet, in order to emphasize his contempt for the working class added (session of the chamber on the

Fight For Freedom war which was trunpeted as aim- ment in China. There is no denying possible until and unless some issue ture.

The only way we can accomplish thank Mr. Mochizuki for the honor this task and keep our youth slogans of his kind invitation to a banquet where I see such a brilliant gathering of distinguished representatives of so many various circles of Peking. It was with profound interest that l listened to our host's admirable address, one that is the more valuable but they will make the union members and interesting as the speaker is an eminent representative and a most influential member of the leading government party in Japan.

In his speech Mr. Mockizuki touched upon a number of all-important problems connected with China, problems that move us all, and consequently I willingly respond to his invitation to me that I say a few words. and I will try as briefly as possible. without taking advantage of your patience, in the same frank and outspoken way to express my views on the present situation in China. I shall do this in the best hope that, in such a distinguished company, my word will not be taken as evil propaganda.

I think Mr. Mockizuki was quite right when, in his searching analysis of the present events in China, he wished to briefly review facts having occurred during the last decade, and it was quite to the point when our esteemed host recalled the world war, the Versailles conference and the seven demands brought up at that conference by the Chinese delegation, then the fourteen points as proclaimconcluded between the Union and China in 1924.

Soviets' Policy of Equality.

Mr. Mockizuki looks upon as the cause of the national liberative movement "Equal Pay for Equal Work," "Or- which is growing and spreading be- to take the place of an equal among fore our eyes in China. And I with | equals. workers," "Lower initiation fee for Mr. Mochizuki believe that the causes young workers," etc., do not seem of the actual events in China are deeplive issues. But if we use these de- ly rooted in those great changes in feelings of the Chinese people are go-

nessed? We had the world war, a on the national revolutionary move-

I am far from the government, which thru a prolonged struggle conquered its right to an existence worthy of it, the Soviet government with its policy of equality the national liberative struggle of the ation of the great nations of the with regard to China just as in regard to other countries, and the renunciation of unequal treaties by the Soviet republics.

Disillusionment of Chinese.

All those facts, which every Chinese interestd in the fate of his own country well knows, could not but make a deep impression on the Chinese interested in the fate of his own over its sad condition and try to see if it could and must seek ways to establish relations with all the world on a footing of perfect equality.

There may have been some who believed that the silence which immediately followed the close of the war and the non-materialization of Wilson's beautiful principles mean that the Chinese people were reconciled with its position; this, however, was a mistaken idea; the Chinese people were merely waiting and hoping for the fulfillment of promises it had received. Then, as time went on, The facts which he enumerated China felt deeply disappointed, seeing the wreck of all her hopes and desires to obtain the right that is hers

> It is this disillusionment that plays, no small part in the acute crisis the

Soviets Influential in China.

There is quite a natural interest at-Indeed, what is it that we have wit- tached to the question of our influence

policy of equality and justice to China ty, fraternity, equality! Take, for in- and effects or forget that we won't in words and in deeds a policy which stance, the case of Italy and America;

Now, since China has thus been able to establish equal relations with a great power, this certainly encourages, moves and prompts the Chin- gle, unless all its lost rights and ese people to wish that China's relasame principles as with the Union of slightest intention of instigating any-Soviet Socialist Republics. But, then, this influence of the U.S.S.R. on Chinese people is within the scope of world and is based on an analysis the inevitable historical laws; it is of the moving historical forces as not the result of artificially warmed up feelings. And if our fault is our no other way can one escape from good policy, I take pride in confessing to our being guilty.

Must Abolish Unequal Treaties.

In his speech today, Mr. Mochizuki has recommended to China to act slowly; first he advises China to set her house in order. I regret to say that I cannot agree with the idea, which nowadays is quite a current one, namely: first, set your house in order, and then your national as-

pirations will be satisfied. To set one's house in order is, of course, a good thing and a necessary thing, but how is one to do it if one is not the master of, rather, not the full and only master of one's own house? If China be left to herself, I am sure the Chinese people will establish the necessary order at home be to the liking of all of us, but it will no doubt be such a kind of order as will be to the liking of the Chinese people themselves.

And this, as I believe everyone will agree with me, is the main point. all his attention on the high tempera-Therein lies the essential defect of a widespread estimation of the present situation. First, the order, and then the question of unequal treaties. But the cause he might occasion the pathere cannot be the order such as is tient's death. To fight down the fevlesired as long as there exist the unequal treaties. Nor is any lasting and

China Must Struggle.

Together with Mr. Mockizuki, I am demanded the straining of all the forces.

Before the Chinese people, too, there lies a difficult path of strugprivileges be returned to it willingly, one; my idea is drawn from the examples history gives us of the formthey are developing here in China. In that vicious circle of which I spoke than either thru a protracted struggle for the rights lost or by their free surrender.

"Don't Throw Cold Water."

Mr. Mochizuki further said today to this Chinese friends: Stop those acts of violence, let there be no violence! Well, of course, there must be no acts of violence, but it seems to me that it is reasonable to make this appeal to both sides which are presently at issue.

To conclude my speech, I may venture to draw an example from the medical life. When an alien body, an infection, gets into a live organism. the temperature of that organism rises; this is due only to the reaction of all the sound forces of the organism, its self-defense against infection.

In itself, a rise of temperature, be ing but the result of infection, may in many cases play a useful part. And the physician who would center ture, forgetting all about the causes, would be but a poor physician indeed. By mistaking the effect for r alone, while neglecting the infecion, is to invite a new paroxysm of President of Russian Metal Workers serious improvement in the situation infection with still higher tempera-

Fever naturally exhausts the organism and is a source of anxiety to those concerned. Nevertheless, it would be irrational to seek to bring down the temperature by covering the China are most complex; should not make us mix up the causes help matters by pouring cold water

By L. M. KARAKHAN

Chinese Will Win in Liberation.

I do not know what the issue will be out of the present situation in China and I feel certain that there is no one who does know it at the actusi moment. But I do hope and I am convinced that the aspirations of the Chinese people for national liberation and equality in relationship with all the world are on their way to infallible realization.

Whatever the way, whether it be by following the example of Italy, America or the Union of Soviet Socialist Republics, or again, any new ways to be found by the Chinese people themselves-I am confident that the day is not far off when China will establish really good and friendly relations with all the countries of the world on a basis of true equality and justice. This is my warmest wish.

LETTER OF CHINESE SEAMEN'S UNION **CALLS FOR SUPPORT**

Tell of Outrages by Imperialists

Shanghai, 31st July, 1925 The Young Worker,

Dear Comrades: For nearly two full months we've been striking as a protest against inhuman killing of our fellow workers and students who are always with us, by the Shanghai, Tsingtao, Hankow, gether. The latest outrage done by Canton and Nanking British police foreign capitalism to the laborers in and soldiers as well as military forces the closing of our offices, the imprisspecially landed to crush down with- onment and flogging of our leaders out mercy our efforts to fight against (I have been in jail, prisoner 5 days the yoke of aggressively oppressing and 4 nights) and their efforts to disforeign imperialism and capitalism.

Much news was spread all over the world about recent foreign outrages | British capitalists conspiring hand in here in our country, naturally, the | hand with the American and Japanese greater percentage of what has been told comes from no other sources than intriguing to push and beguile the our enemies—the enemies of the laboring class—the foreign capitalists eral, Chang Tao Ling—and ex-Manwho are exploiting and intriguing in churian-bandit, to overthrow the presthis country for their own benefit, ig- ent national government which has a noring humanity and justice.

ways been plotting to stage disorder in this country by bribery and other foul means, causing successive clashes and internal wars between different factions of Chinese militarists, is no more a secret. Thus they have alworld at large that the time has not yet come to abolish extra-territoriality in China. Who created all the chaos in this country now? Who has caused the unbearable troubles and miseries born and thrown on the shoulder of the poor population? The foreign CAPITALISTS, always ready to plot, to gain what they wanted. Who pays the price of their unnecessary and selfish glory? We, the poor LABORERS, always and forever, unless we put up a united front and over-

throw them. That's what we have been doing for nearly these two full months, fighting against the firm hand of the capitalists. Shall we be defeated? Laborers of all the world, UNITE. Now's the time for us to work and battle together for the great cause-the liberation of our rights as human beings. Our defeat shall be YOUR DE-FEAT, our glory shall be YOUR GLORY, share by all fellow-laborers and comrades. We are fighting an unequal fight, the fight of a David against a Goliath.

You all have been extending help to us which we appreciate deeply in our hearts and such kindness will bear good fruit in the day to come.

More than ever do we need your assistance now. Laborers of the worl, UNITE! Rise or fall we go toorganize and scatter our union. OUR enemies, as well as YOURS-the capitalists—at the present time are most powerful Chinese military gengreat sympathy in our present strug-That the British government influgle to overthrow the yoke of capital enced by the British capitalists has allism to imperialism, and put him as the imperial kaiser of China-not desired by the nation—consequently to serve as puppet protege of the capitalists. This end achieved, our enemies will have a mighty and dangerous weapon in their hands, and what ways been able to vell out to the chance shall we have to do our share in liberating human rights?

Already this puppet general has tried and tried to force us back to work on the point of bayonets. We need your help comrades. We rely upon your intervention at home, to do everything possible to bring this plot of capitalism to failure and defeat their intrigues and what not. Try everything possible to attract the attention of your home government to home affairs, so that they will and shall not have the opportunity to overload their unnecessary interest with our fight against capitalism here. Laborers of the world UNITE! Our fall will be your downfall! Our glory will contribute to the glory of human liberation.

Long live the strikers against struggles to the imperialists and capitalists! Long live the Laborers' class!! Long Live the workers unions' UNITY

> Very sincerely yours, Chinese Seamen's Union, Bruce Chen, General Secretary.

Factory Sport Organizations

By FRITZ REUSSNER.

"If we mean to carry on a sensible labor policy and to have peace with labor, the State and the employers should proceed systematically to establish sports grounds and to support all sport enterprises... This is an investment which will yield high inter-Karl Diem, General Secretary of the German Reich Physical Culture Committee ("Deutsche Allg. Zeit-

The bourgeoisie uses every possible means to bring the proletarian class into complete spiritual and economic subjection. If formerly we said that the best opportunities of the bourgeoisie were the schools, the church and military service, we can today add also sport.

Sport has become an important feature in the general life of the people. Millions of persons take an active part halle and a big sports ground. Berin sports. From the political-economical standpoint too, sport is far from being unimportant. The workers in workers which consist of a sport field particular are taking up gymnastics and sports, namely, physical culture.

With its keen instinct the bourgeoisie has long ago felt that here is a field of great possibilities for winning over the masses, and is therefore giving liberal financial support to bouregois gymnastics and sports organizations. It is generally said: "Sport is a neutral factor and has nothing to do with politics and class questions." This is just to lure the workers into the bourgeois organizations. The million figures showing others. W.L. this support it has been the membership of bourgeois gymnastic and sport organizations show that many workers have allowed themselves to be misled by this bourgeois swindle and have joined the organizations of our class enemies.

The capitalists are not satisfied with the fact that the workers are mostly a League to which the technical organized in bourgeois gymnastic and schools of the following firms are tions in the Berlin Gymnastic and sport organizations. They want to affiliated: A. E. G., Reinickendorf, Sports week, shows the extension of salaries. By various favors and privilbring the workers still more under A. E. G., Kabelwerk Oberspree, Bor- the organization in the various entertheir control and to bind them to their respective factories. Capitalists long to control the leisure of the workers. Moreover they are anxious to form in the factory a nucleus of right-minded workers in sympathy with the 'benevolent" employer, in order to estab-lish "class co-operation." Among

tory Sports Clubs. These clubs are mostly formed in the big industrial enterprises. The big industrialists are actuated by purely capitalist considerations. The first and foremost of these considerations is to divert the attention of the workers from political and trade union views an opportunity to go in for life. The second consideration is the sports on a "perfectly neutral basis." recognition that a healthy and physically trained worker is a better producer, and the third consideration is itical and trade union questions.

That their own sport grounds are a bor means bigger profits.

Latest News on Cuneo Strike.

Dear Friends: When a person is on strike he begins to see things in a different light. He sees the true relationship between the police and the bosses. He notices that the police are always ready to take the side of the bosses against the workers. And often he personally comes into direct conflict with the bosses' representatives. And in such periods things that it takes the worker a long time to realize will suddenly dawn in its true light upon him or her. Let me explain:

least be called revolutionary. They permitted to receive all mail sent to are the labor aristocrats, the kind that us. We understand that we will also have their own bungalow and often a car.

The police are very much in evidence during the strike. There has been absolutely no violence at all so far, so there has been no occasion for the police to be there at all.

Four nights ago the pickets were watching the scabs being drawn away. The police squad as usual followed the cabs. Soon the Cadillac police squad came back and perhaps having had a dinner that did not agree with them or being drunker than usual. five of them jumped out one carrying with him a sawed-off shotgun. "Line up to the wall, you bastards," the the legitimacy of their birth, but as the weapon was rather dangerous in such irresponsible hands hastened to good investment of surplus capital obey. They were, however, persuadand "this investment yields high in- ed of the necessity of hurry by the terest." Increased productivity of la- prodding of the rifle in their stomach. Accompanied by much profanity and Factory sport organizations are all many insinuations they were searched first drove us down the street and as we were a block away we heard a shriek.

The next day the pickets were diswas not going to vote for this government but for a workers' government He said, "The man that promises to me that he will not use the government police to break strikes and the courts to issue injunctions that is the man I am going to vote for."

I explained to him that in Russia can be heated, bath rooms with they have a workers' government, that douches for men and women, tennis the laboring man desires, while in courts, several fields for games and America we have a bosses' governa boat house. The grounds of ment. In America I further explained, Schwartzkopf in Wildau consist of: it is a crime almost to strike and a felony to picket. The bosses have great ease in procuring injunctions. hockey ground, a gymnastic hall, and Over in Russia the government is for a swimming bath. There are also the the workers and it is a crime to scab sport grounds of the Werner, Bamag and for a boss to import scabs as they are doing at Cuneo's: it is an offense punishable by a heavy fine or imprisonment. I am sure that if the lesson the strikers are receiving remains fresh or is revived the strikers will Come Ahead Into the

Trumbull Writes From Prison

Fort Shafter Guard House, Honolulu, P. I., Aug. 2, 1925. The Young Workers League, 1113 W. Washington Blvd.,

Chicago, Ill.

Comrades: On Aug. 8th, Comrade Crouch and will leave Honolulu for the Pacific Branch, United States Disciplinary Barracks, Alcatraz, California, on the U. S. A. T. Cambrai. We are told that our mail privileges will be limited to The strikers at Cuneo cannot in the one letter weekly but that we will be

be permitted to see visitors. To our comrades who have fought for our release, we wish to express our appreciation of their valiant work. Our going to prison does not mean that you have lost the fight, comrades. It is merely a matter of time until we, the workers, will be able to dicstanding at ten o'clock in the night tate to the tyrannical owning class. The publicity for Communism gained through our case has itself paid for any time we may have to serve.

Comrades, we must unite. We must demand our rights. Nothing but the whole will do. We must make un ceasing war on the oppressors of the working class. Comrade Crouch and I are doing our part even in prison by hero with the gun shouted. No one preparing for future work for the tried to dispute with the dick about revolution. Ours is a personal fight Each one of us can point out count less deeds of foulness committed by the moneyed men of the world and what is more, the deeds will continue until WE, the class-conscious workers stop them.

We must not hesitate. Our duty is plain. Let us stop dallying and ACT! Revolution is our only hope, therefore

Comrades, the members of the Young Workers League are in the vanguard of revolutionary progress. However, we must intensify our fight against the imperialist monsters of the owning class. It is our sacred duty to devote every possible effort to the cause and to be satisfied with nothing less than victory for Communism. Our leaders have many responcussing the occurrences of the night sibilities and the time is coming, durthe transitional period, when their tasks will be greater. We must help them shoulder the burden. Collective efforts are necessary for victory. Together we can win. Individually we

are as nothing. Comrades, an educated fighter is a necessity to the working class. His value to the class is inestimable. We must study and prepare for the struggle that is inevitable. Knowledge is the greatest weapon, the most effective weapon that the Communist movement can mobilize.

We go to prison, comrades, Crouch and I, but the army czars imprison only our bodies. Our spirits, hopes, ambitions and well wishes are with you. Carry on!

With Comradedy Greetings, Yours for the Revolution, Walter M. Trumbull.

vote for the Labor Party and the Young Workers League

It is obvious that the privileged members of these factory sport clubs and leagues become strike breakers and informers. They will mostly keep at a distance from trade union and political organizations. They will be from various countries. For instance, in fact hostile to the endeavors of the central workers' sports federations, to the Electrical Company in Chicago, workers. Through the sport organizawin the members of factory sports clubs for the trade union and political tions employers will transplant the spirit of class co-operation to the factories. By means of joint banquets nauld works in Paris and other Paris and probably also by active participation in the sports themselves employers will endeavor to demonstrate their brotherly feelings to the workers and will thereby blunt the class-conscious-

W. F. Hall Workers Tells Facts

Dear Frineds:

The last week has proven that all is not well at Hall's.2 Besides working at a breakneck speed all day for low wages the workers at W. F. Hall's open shop have had compulsory overtime pushed on them. Boys and any amount of girls that are willing to work for the small salary that is paid are hired and fired continuously. This is because the workers especially in the bindery where they have all girls. cannot keep up with the speed and regularity of the machines output. This has been proven to the pressmen by one of the workers working at the press fiantin gbecause of the speed and heat combined with the continuous deafening noise of the machines made him dizzy. The boss was fool enough to let him go home in the afternoon fro which he is not getting paid. The next morning he was back at his press again, altho he still looked of us ate beans which we later resick enough to be in bed.

Wages are so low that few packer boys have decided to call a strike in the plant. The boys did not know how to organize and so it was not successful. Two of the boys were fired and they asked the rest of the fellows to go out with them, but the boss was around and the fellows got cold feet. As it was 13 fellows walked out and half the presses had to be stopped in the magazine section. One of the fellows remarked as he was going out, You can't lose much when you lose a job like this, and these two fellows were fired trying to help organize us so why shouldn't we support them?

Another bad thing for the workers in Hall's is the compulsory overtime This means that every body must work veortime when asked to or get out. Even when it happens to be on Sunday or Saturday afternoon, you

The presses stand just where the light can come thru the skylight and shines on your face instead of on your work. This is bad for two reasons. One is that it spoils the eye which is the mos delicate organ of the body. The other reason is that when the sun shines it makes the entire place like a boiler in a ship, it's so hot. But when the sun don't shine, it's so cloudy and dark that you have to strain your eyes. The night shift has it much worse as they have to work under false light altogether, not hav-

ing natural light. The Negroes of which there are quite a few, do the dirtiest work for the bosses and are the most underpaid of all. Altho now we are working our heads off, with sweat rolling down our faces on top of the grease and ink in pailfulls, soon will come the usual layoff for a few months. The bosses forget how we are working 10 hours a day and more besides 7 days a week (also night) for the past couple of months and when it is slow for a few weeks instead of making up for the speed we are undergoing now, they will lay us off. It is up to the workers of W. F. Hall to fight for these demands and fight hard to get them secured.

1. The right to organize. 2. Abolish speed up system (especially in the binderies).

3. Shorter hours and more pay. Abolish compulsory overtime.

Better ventilation. We have only a few more weeks of business rush, so let's go. If you

want more information ask the newsie.

David Essinger. tions must realize these facts and must therefore pay special attention to factory sport organizations The slogan must be to place the factory sports club under the sole control of the workers and to affiliate it to the

movement. In this connection the factory nuclei of the Communist Party and the Young Communist League have still a big task before them. Why Not Become a

their factory sport leagues high qualifications and use this at the same time. Trade unions and political organiza. Worker Correspondent? we were called for formation and told to get our guns, belts, boyonets and Join the League Now!

The Diary of a C. M. T. C. Recruit

A wideawake young worker who has been attending the Citizens' Military Training Camp at Plattsburg, New York, has submitted the following to the Young Workera day-to-day cord of life at the camp where th. "white guards" of tomorrow are being trained. His impressions are vivid and to the point. We hope by young workers, especially those who had the misfortune to be lured to the C. M. T. C.'s will compare their own experience with those of the writer .-Editor.

Monday, August-

While on the train, I noticed three distinct types. The predominant group consisted of students-high school and college. Though pettybourgeois in ideology, many were the sons of workers. They came here because they could not find work or because of the false conception that this was going to be good sport and diversion. The second group consisted also of students but they were all from small towns and villages. A flabby, sissified, backboneless type. No possibility of working there. The third is a very small and unsubstantial element. Barely three pre cent. It is composed mainly of the right gangster element, always out of work and glad of the chance to eat freely for a month's time in return for a small amount of training.

When we arrived, we were immediately corraled off, brought into camp and brought out again into the messhall for supper. And what a supper. Stomachs long hardened to a poor quality of food could not and did not withstand the first meal supplied us by the imperialistic government of the U.S. Frankfurters and sauerkraut at least eighty years old to judge by its taste and hardness. Potatoes boiled over many times and black as charcoal. Bread like cardboard and coffee like mud. Comrades. I am not at least exaggerating. Nothing was eaten at my table, but a piece of pie and cold water. Ah, yes, some gretted. The heavy bombardment that followed kept many awake and knocked the bottom out of the digestive systems of the others. A fine feast was enjoyed by all.

The men were disgruntled with the meal (and are with most meals) and on the basis of that we can expect further developments.

Tuesday, August-

Up bright and early. We were up at a quarter to five although not required to be up until 5:30 a.m. We are given ten minutes to dress which was not so bad because we were still in civilian clothes. Wonder how the hell we will manage to do so with our army uniforms. March down to mess hall. Breakfast already a bit better although I noticed some egg shells in the egg omelet of my neighbor. Of course the egg omelet was not of the best or freshest eggs but that is a small matter. We were then taken for a second physical examination and uniforms. You know we should be in good physecal trim in order to be starved well for cannon fodder. This should be their motto: "Healthy young bodies make fine imperialist slaughter.'

And here the fun began. We were waiting from 7:30 a. m. to 11 a. m. Then the major doctor (or doctormajor) decided that there were too many of us to be taken care of that morning. So we had to march back to camp and then back again to the mess hall for lunch. Like the general who marched the men up the hill then marched them down again. After lunch to the doctor's for the exam and the final touches for our transformation. We undressed-rushed to one doctor to examine our eyes-pushed to another who looked at our throats and teeth-shove d to another for our heart and lungs-and then still to

another for hernia and skin diseases. Then came the rigging us up in uniforms. Measured by one fellowthen shirt. Further along with socks. Hat. Shoes. Then shoved out into street all perspiring and hot and told to dress. Ford factories in Detroit have nothing on the U.S. Gov't. on soldiers. Neither thas Armour & Co. in Chicago who turns out so much pork and ham. We beat them all. About 300 men taken care of in less than 20 minutes.

All this in two days. And much more coming. I will keep in touch with you comrades through the columns of the Young Worker. The worst is yet to come. Training and strict discipline and more rotten food. You can use this article based on first-hand knowledge and experience to disillusion foolish young workers. Thursday, Aug-

We have already fallen into the daily doutine of camp life. Reveille at 5:30 a. m., 1st formation at 5:40, breakfast at 6 a. m., etc., etc. So there isn't much of importance today. Oh, yes, we had our first dress parade. of the C. M. T. C. is to make soldiers And before we were through we thought we were dressed for the grave. Our bodies were fatigued, our zens and at least three hours a day in feet sore, our clothes dripping wet. A fine sight we were. At 4:30 p.m.,

coats. On a hot sultry day we were marched on the main auto road, carrying all that baggage on our backs. Smug bourgeois seated in spacious comfortable cars passed us by and smiled contentedly at "the nation's future defenders" while we were sweating blood. On the field we drilled and drilled. Then we were called to attention and ordered to present arms. At the same moment the band began playing the "Star Spangled Banner," while the flag was being lowered. A mock ceremony, disguised in great solemnity and which produces an intense nationalism in these youths. Another form and very effective one of capitalist propaganda. Well-some day in the very near future that too will be destroyed.

After supper we met some young workers from N. Y. C. They swore off C. M. T. C. and swore at everything in the camp. From the food right down to the drilling and the officers Good revolutionary material which we will try to mould. Saturday, Aug.-

We received our first lessons in citizenship, and what constitutes a good citizen. It is unfortunate that we could not take stenographic notes of what the colonel said. Every word of his address was an open confession of the purpose of the C. M. T. C. Just listen to his definition of a citizen-'A citizen." said the worthy colonel, is always ready to defend his country in time of need." We are therefore being taught to be ready to defend it. "A good citizen," continued our unblishing mentor, "is ready at all times to give up his very life in defense of his country." He also included some remarks about sacrificing our personalities, individualities and characters for the welfare of the nation. So we must also be good yielding robots, ready to be led to slaughter like sheep. To emphasize the colonel's address, the band begs to play the national anthem. And we presented arms. And we took a pledge to defend the old U.S.A. Here it is verbatim! "I most solemnly swear (or affairm) to defend my country, the U. S. of A.; also to carry out the rules and regulations and discipline of and obey the authorities of this

camp to the best of my ability. So

help me God." So with the help of

God and the aid of these training

camps the American imperialists are

preparing the youth of America to die

for their dreams and desires of world

conquest. Friday, Aug.--

Things are getting along hummingy. This mass of raw material is being whipped into shape quickly and effectively. At the end of the month we will be fit and ready to fight the battles of American imperialism. We roose-step along liké a timepiece. All in time. We know our manual of arms and execute the movements well. Squads right and left has become almost a habit and our shoulders are quite hardened to the burden of our rifles. Received instructions on how to act when under fire (part of lectures on "hygiene") and wounded, killed or blown up. The syringes of religous dope are busily at work, jabbing it into the minds of these boys. They are preparing to make a fight for God besides their profits in the next war. We go on the rifle range for the final touches to our becoming soldiers. No we will only shoot at targets of cloth, we are not ready for numan targets, yet.

Gen. "Blackjack" Pershing in a series of articles written for the Associated Press and reprinted in neary every newspaper in the U.S. spoke of the C. M. T. C. "as not being instruments for militarism, but places where we build the bodies of our youth and train them for future citizenship and also how to be better citizens." We are now receiving our training in citizenship. It is to consist of six hours of lectures and questions to answer verbally. Today we had our first. A second lieutenant read it from a printed copy. It was on independence. Besides the second pants thrown at us. On with pants, lieutenant's mispronouncing every third word, it was the greatest bothpotch of historical goulash that was ever concocted. It ran the ocean every second and spanned easily the time from William the Conqueror to speed in turning out soldiers—or half- the Declaration of Independence. And questions such as how William the Conqueror slipped on reaching England, and why he grabbed the soil when he flopped, and whether the farmer was dependent or independent (never mentioned and had nothing to do with talk) and what the famous Declaration was. The answers at times were just as bright as the questions. We learnt for the first time that the Declaration was a document and that Wm. the Conqueror and Richard the Lionhearted (?) were brothers-in-law, or cousins or some-

thing or other. Now we have received one-sixth of our training for citizenship. The rest will be given at a later date.

In spite of Pershing's pious phrases the attitude of the camp authorities is convincing enough that the purpose —and not good citizens. Otherwise. why six hours in all in making citimaking soldiers.
