PARTY

The resolution of the C. E. C. of he Workers (Communist) Party on he unification of all the Communist forces in the Party behind the line of the E. C. C. I. is of great significance. creating a Party composed of a uniform ideology and freed from factionalism. The carrying into effect of this policy will result in the healthy reorientation of the Party towards

The Young Workers (Communist) League foresaw the logical development in the Party and proceeded to completely unify all the League forces behind the line of the Comintern. In its resolution the C. E. C. of the Party welcomed the stand in favor of unity and the progress already made by the League in the liquidaion of factionalism.

After the Party convention there were no longer any political differences between the C. E. C. and the ollowers of Comrade Cannon. A break took place in the former Foser group. The followers of Comrade annon were right in making a struggle and openly combatting the policy of Comrade Foster which objectively was in opposition to the line of the E. C. C. I., and in taking the logical step towards unity.

Based upon this situation the resolution declares that it would be an error to maintain old factional grouphas or to form new ones, as this would weaken the struggle for unity and bolshevization and strenghten the tendencies which are mobilizing to resist it.

YOUNG MILITANT MINER **ELECTED CHECKWEIGHMAN**

By Young Worker Correspondent, SPRINGFIELD, Ill.-Comrade Tumulty, a militant young miner was elected union checkweighman by the miners of L. U. No. 2553, U. M. W. of A. The members of this local union are employed at Peabody Mine No. 6 it is a real step in the direction of and is the largest mine in Springfield district.

Tumulty was elected by a large vote, in spite of the dirty tactics used by Farrington's henchmen in trying to win support for their own candidate. This election was held to fill the unexpired term of Joe Loda, another militant young progressive miner who was framed up and removed from office by the Peabody Coal Co., assisted by the reactionary officialdom of the United Mine Workers' Union of District No. 12. Loda used his fists by delivering a "Firpo punch" to the jaw of the company weighman, when he caught the company weigh-

miners' coal. When Loda was removed the miners of this mine went on strike and Loda's case went through the various courts of the mine workers' organization, but in every case the Farrington machine has taken the side of the operators and against the interests of

man stealing and short-weighing the

RANK, FILE BREAK **LEWIS SILENCE**

Speaks on Anthracite Praises Students; Forgets Breaker Boys

By a Young Coal Miner.

NANTICOKE, Pa.-John L. Lewis, reactionary president of the United Mine Workers addressed a meeting here on November 5th. Nanticoke is a town of about 25,000 population. It is strictly a mining town and was the first battle ground of the miners In their struggles for better conditions, which brought into being District No. 1 of the U. M. W. of A. Some 30 years ago, Nanticoke had an "illegal" organization which later

formed the union. Nanticoke was the stronghold of Cappellini, until he repudiated his half baked progressive program and become the hangman of the honest and real progressives.

Stronghold of Militancy.

This burg is the home town of the progressive candidates of the last elections in District 1. It was the first town to face the fine of the Cappellini machine for trying to make the anthracite strike, a militant strike. It was here that Lewis spoke after staying in his hole for three solid months. He had spoken to practically everyone else except the members of his own organization. The only reason way he spoke now was because the demand was so great that he could not stave it off. The Policy Committee of Nanticoke received continuous requests to bring some one in who could tell us what s going on.

Lewis Stages Act.

The town was all wrapped in flags. liners waited for two hours before the door was thrown open. The place where the meeting was held is the finest theatre in Nanticoke which seats several thousand. Amplifiers were connected up so that miners in two other halls could hear the speeches. Lewis was supposed to start off at 2 o'clock, but it was half past four when he "rolled in" with a beautiful "peace" was secured at Locarno—and contained in the fact that he had to drive thru all the principal streets in Nanticoke in order to show his face

When one hears one of Lewis' speeches, he hears all of his speeches. streets became red with the blood of The speech of Lewis before the busi-

striking coal diggers after the thing month of the strike were all the same. Even the phraseology did not change He started out with "Methinks" and perhaps" and ended with "the hour grows unseemly." He drew quite an applause for this because the

people didn't know what he was talkng about. Lewis is a great performer. He speaks so eloquently that the miners really think he gave them something, What he gave them, however, was

lot of bolony. Slaps Bosses on Wrist.

In his talk Lewis charged that the coal operators are working to break the union. He charged that the operators forced the strike in order to sell their cheap grades of coal and refused to put the facts before a commission on the reduction of freight rates. He charged that the hard coal operators have mines in the soft coal fields. He told what part the government played with arbitration in the early days of the organization.

Wonderful charges, true charges, Mr. Lewis! But you have offered no solution to overcome this situation. On the contrary the progressive miners who see these facts, who try 👀 overcome them by militant general action, are arrested and thrown into jail at the request of your heachmen and then face expulsion from the

Praises Students—Forgets Breaker Boys.

Lewis devoted some time in praising the student body of Nanticoke for the reception given him. He did not say a word about the intolerable conditions that the breaker boys face. About their wages and the inhuman treatment they receive from the bosses. He had no solution to offer for the nipper, the scotch boy or any other job that is handled by the young miners at a wage lower, in some instances, than the young workers receive in the factories. The child labor resolution which was adopted at the Tri-district convention in Scranton last summer and for which Comrade Pat Toohey drew fire from Mr. Lewis for defending, was not even mentioned by Mr. Lewis.

Hypocritical Plea of Mr. Lewis.

The hypocritical plea of Lewis for 'every member to stand firm" and 'united we stand, divided we fall" was shown up two hours later when, at my local union meeting, there are peared several of his henchmen to kick me out of the Union for perticipating in the Progressive Miners' meetings. Despite the fact that Lewis himself was in Nanticoke, the case was postponed for the fourth time. AUGUST VALENTINE.

MAKE THE YOUNG WORKER A WEEKLY AGAIN! RUSH FUNDS TO LIQUIDATE THE FINANCIAL CRISIS OF THE LEAGUE!

BOMBAY TEXTILE STRIKERS SUPPORTED BY G. B. UNIONS DISCRIMINATION AGAINST YOUNG

LONDON, England.-The strike of British worker. To help the Bombay the 150,000 textile workers against strikers is for us, therefore, a sound wage cuts in Bombay, India is strongly supported by the British trade unions. The General Council of the Trade Union Congress is soliciting money for a fund for the strikers. The Daily Herald strongly urges

that contributions be sent and comments as follows on the strike:

"The Indian cotton operatives, who are putting up so gallant a battle in Bombay, are, in their resistance to the attempt to lower even their present wretched wages, fighting not only for themselves, but for their fellow workers the world over.

"Sweating is an infectious disease which sweeps from country to country. Wage cuts in Bombay give pretext for wage cuts in Lancashire; the "cheap labor" which swells the dividents of the British investors is a percent cut was really a 20% cut in grim and immediate threat to the wages.

business proposition."

Fighting Wage Cut.

There are some 2,000 children, all supposed to be 12 or over and on half time until 15, and some 30,000 women workers in the textile mills. The wages of Bombay cotton textile workers average from \$2.50 to \$4.50 monthly for women; \$10.50 for men on full time. The child workers receive the most miserable wages of all.

The mill owners were not satisfied with 170% profits which they made They wanted to still further increase their blood stained profits by putting thru a 1112% cut in wages. The Textile Workers' Union affiliated with the All-India Trade Union Congress maintained that the 11 and a half

Textile Barons Cry For Longer Hours

great unemployment in many of the textile centers. The cotton towns have been hit hardest and suffering and destitution prevails in Fall River, fore this, had it not been for the Lowell, Lawrence, the Pawtucket Valley of Rhode Island and Williamantic, Conn. In the last named town, the workers of the American Thread Co. have been on strike for 36 weeks, many were living in tent colonies until the cold snap set in.

The Offensive of the Bosses.

The Massachusetts textile manufacturers and cotton manufacturers are now conducting a campaign for the repeal of the 48 hour week law which was adopted in 1919. As part of this campaign the bosses have conjured up the bugaboo of southern competition in order to strike this blow at the toiling men, women and children in the mills. The bosses are fighting for the return of the 10 hour day, the removal of the ban on working women after 6 P. M. and the reinstatement of the double shift. The union officials show up the "southern competition" argument as a fake by quot- flag of the fascisti.

FALL RIVER, Mass.—There is ing from the manufacturers American Woolen and Cotton Reporter which states: "We would have had a fortyfour hour week in Massachusetts beurgent striving of the manufacturers and others for a return to the 54 hour week."

Young Workers Fight Back. The young workers must fight this dastardly attack of the bosses. When the bosses talk about shifting oper ations to the south they are only try ing to scare and fool the workers The young workers must line up with the adult workers to wage an effective struggle against this offensive.

YOUNG PIONEERS FIGHT FASCISTI

BERLIN, Germany .-- At one of the festivities in Carnaperbush a fight took place between the Young Pioneers and the Young Sturms (a fascist children's organization).

To ne-Communist movement in particular glect this to the extent of not even

suffered a defeat. United Front Helps Our Growth.

The experience of the period since the adoption of the United Front tactic has shown that wherever the United Front is applied properly, the Communist movement, and the struggle of the workers against the capitalist class grow. Wherever the United Front was rejected, or incorrectly applied, the Party and the working class movement have suffered. We have had this experience also in this country. During the period when the ped, and the Party work on this field the students voted by an overwhelmslogan of the Labor Party was dropsuspended, the Party lost much headway, and now it is necessary to make a new beginning to regain what the Party has lost.

United Front of Youth Bodies.

In the youth movement, there has been a tendency to neglect the United Front as a basis for broad activity Of one thing there can be no doubt, among the young workers. This has been true of most Communist Youth sentiment against militarism develop-Leagues, including our own. The Executive Committee of the Young Communist International has continually called the attention of the Leagues to this most vital phase of There are hundreds of organizations our activity. In every country there are thousands of young workers in child labor-organizations ranging organizations outside our own, in the from pocifist, humanitarian to trade Social-Democratic youth and other non Communist organizations. These organizations, many of them of a his fight. It is but necessary to coworking class character, would be willing to anne with the Communist gle; to unite all the organizations, to youth Leagues and other organiza- mobilize the workers in a determined tions on programs of struggle for immediate demands.

A united front would thus create the possibility for mobilizing large masses of young workers into a struggle against capitalism and would enable the Communists to demonstrate that they are the only ones who have a program that offers to the young workers a basic for successful struggle against cap talism.

Issues for United Front.

In America, there are many issues struggle "We do not ask you to acon which it is possible to create a United Front. The fact that there not ask you to subordinate your or is a comparatively very weak socialist, youth organization, does not at all mean that the United Front is impossible.

The United Pront is not made merely with socialist organizations, but struggle jointly with all other organwith all working class youth organizations willing to unite on a program of immediate demands. In England, it will be possible to wage a real fight the Young Communist League is against these evils of capitalism,

Since the adoption of the United working for a United Front with the zations, and in the course of the work is building up prestige and in-

ung workers, as well as strenghten-

By Young Worker Correspondent. SPRINGFIELD, Ill.-A desperate

attempt is now being made to expel Joseph Angelo, active militant young Progressive miner, from the United Mine Workers of America, by John Walker, a flunkey of Frank Farrington. Walker was made Sub-District President by Frank Farrington, when Freeman Thompson was illegally removed from office, altho Thompson was elected by the rank and file.

When Freeman Thompson was removed from office and John Walker operators and the betrayal of the was put in his place by the Lewis-Farrington machine, Walker's own local union, of which Joseph Angelo was recording-secretary adopted a resolution repudiating Walker. The resolution went on further and pointed out Walker's disqualifications and his inabilities to perform even the duties imposed on a mine committeeman, was principally the reason for this local union refusing to elect Walker for such a minor office. The resolution was adopted by a unanimous vote of the local union and instructed Joseph Angelo to print the resolution in the local and labor press.

Angelo carried out the instructions of the local union and now Walker

YOUTH STRIKE IN TURONTO

By a Young Worker Correspondent TORONTO, Canada.—I want to tell you about the young workers in the union dopted as evidence against strike of the B. & M. Shoe and Slip. Angelo. A trial before the Sub-District per Company here.

About three weeks ago our department was led out on strike, by our nucleus of the Young Communist League. The issues were a wage reduction, a violation of the agreement with the union in regards to the war es of young apprentices and the not payment of rates for special work.

The young apprentices had been hired by the week inste d of by the hour as the union agreement provides and were working between 49 and 60 hours per week. When we lodged the complaint to the union the bos paid the apprentices by hour, but on ly for 46 hours and not for 49 or 60 The union meeting was called together and the whole shop attended the meeting altho all were not in the

When the boss saw this he imme diately agreed to live up to the agree. ment, but when the others had returned to work he fired the League members of the shop committee. In. mediately we brought this question up to the union, a meeting was call ed, and a decision made to call ou the entire shop, starting with our de partment first.

The strike was so effective all the workers of our department (20 ip all coming out that the boss immediately gave in. The League members and back at work. The boss has agreed to the entire agreement. The shop is to be a closed shop.

This is the first victory of the Boopelling Angelo from the U. M. W. of and Shoe Workers' Union in fifteet cognize the decision and simply ig- years.

Nucleus Organized in Int'l. Harvester Co.

By a Young Worker Correspondent. MILWAUKEE, Wisc.-I work for the International Harvester Co. Here the workers are driven very hard We work nine hours a day with only 30 minutes for lunch.

The trouble with having only 30 minutes is that if some one wants to eat in a lunch room outside the factory, he would have to waste abou-15 minutes walking up and back. This is because the plant is so large that it takes about one half the time of the lunch period to get outside it.

Another miserable thing about the company is that in many department. there are no washing facilities and to many there are not even toilets. Some of the buildings are 30 years old and are decaying.

At present I am working in one of the basements where the conditions are particularly rotten. It is cold and wet here, drafts going in all direct tions as soon as a door is opened. A worker can't last very long in

hole like this. We have already or ganized a nucleus of the Young Work ers (Communist) League with membership of six.

We are striving to get more men: bers and are laying out plans for the carrying on of a fight for better con-

all day.

Working Youth Conferences

DESPITE the fact that young workers form an important part of the workers in each industry, little attention is given to their problems or demands. No organizational measures The bosses are interested in discrimination against the young worker since it means greater profits for prejudices or general apathy make no attempt to unionize the youth or fight grenades in. When the cellar was for their special demands. This is o t' capitalist countries. Only the ers to whom we appeal. Young Communist League in each country fight for the betterment of consciousness. These conferences Young Communist League in each

the young workers' conditions. Importance of Youth Conferences. Our American League must gain on ct with the masses of young workers. This is one of our greatest defects at this time. By initiating of expressin, '..emselves and thus beorne recognised as an important facor in it la or movement.

Aim or Youth Conferences. We must begin systematically to aim in these conferences is:

To gain contacts with the young 1. workers. At the present time we do not yet know the problems which ed by all those interested in advanc-

influence over the young workers, by organization of such youth confer-7 To attract the broadest masses

of young workers on the basis of concrete demands. These conferences them. The unions either thru craft must have a magnetic attraction for the young workers in the shops and factories. This will be best expressed thru its series of concrete demands not peculiar to the United States but affecting the lives of the young work-

must serve the purpose of developing class consciousness among the young workers and of enrolling them in the political struggles of the working class. With this will come an understanding of the necessity of having such militant class organizations like in contacts with the young the Workers Party and Young Work-

4. Organizational forms. Besides the practical demands there must be a discussion and formulation of certain organizational forms in order to gain expression for the young workers (i. e. advocating Assistant Youth encourage the formation of youth Shop Chairman and Youth Represenconferences, either limited to one in- tatives on the shop committees and dustry or of a general nature. Our for the unionization of the young workers).

How to Proceed. These conferences must be sponsor

effect the every day life of the young ing the interests of the young wor, workers. We do not know of their ers in industry and in politics. The struggles and demands. The lack of Y. W. L. must take its definite part in this work. In those cities and dis our League, can be overcome thru the tricts selected, arrangement committees, who will carry on a deep rooted propaganda and agitation for the popularization of such conference must be set up.

All Y. W. L. members and left winoung workers generally, must conduct a persistent agitation in the shop culminating in the holding of shop meetings of all young worker where the agenda of the conference will be discussed and delegates eleced to the conference.

Discussion at Conferences.

The discussion at the conference must hinge around the reports of the young workers on the conditions is their shops and the practical demandto be adopted. Further discussion must take place on the definite organ izational forms which the demand: must take. Other important point which the youth must give attentio to are the unionization of the youn. workers, world trade union unity. class struggle vs. class collaboratio and the role of the Y. W. L.

Working class youth conference have proven great successes in a countries (e. g. recent French confeence). Our American League. mutake an aggressive step forward helping to organize working clasyouth conferences in this country. John Williamson.

December Trade Union Month

Thruout the world, the Young Communist Leagues are preparing for "Economic Trade Union Month" which has been proclaimed for the month of December. Special campaigns are in preparation in the Euyouth. Closely linked up with this is the youth.

mands, etc.

PARDON US: NOT THE PRINTER'S DEVIL

Most newspapers make it a habit to blame the printer's devil for all typegraphical errors. We refuse to be come part of such discriminatory tactics against youth labor. The badly jumbled type which appeared in the article: The N. E. C. at Work, in the last issue, we accept full responsibility for and proceed to correct same as

United Front Tactics.

We must put to the fore the tactics of the united front. We must attract trade unions, cultural, and other kind of workers' organizations in a series of campaigns on a local and national scale against capitalism, e. g., fight against child labor, for the economic demands of the working youth against interventions in China's national revolutionary movement, against military training in the schools, against preparation of a war against the Soviet Union, etc., certainly on the basis of definite demands.

Agitprop and Education.

Our Agitprop and educational work must have a steady and systematic character. Among the most important tasks of educational work is the creation of a correct attitude towards the Party and League, as proletarian organizations, to fight against group and personal traditions, to create a correct appreciation and understanding of the role of the C. I, and the Y. C. I. to study the experiences of our world revolutionary movement, especially the Russian experiences, to propagate the slogan of a labor party, etc. Sports Work.

We must organize a big sports movement. In such a country like the United States, it will be one of the fundamental means of winning the masses of young workers from the ideological influences of the bourgeoisie and towards class consciousness. We must organize fractions in the workers' sports organizations.

in the Young Communist League.

Every Factory Should Be Our Stronghold.

It is the duty of all members of the League to see to it that young workers, no matter how far they may appear from our organization, are won for us and our League thus built up. They must organize their fellow workers in the shops still more energetically and form nuclei with them.

It is the duty of all comrades in the shops to inform themselves on the general situation of the young workers, upon their numbers and ages. They must distribute the literature The N. E. C. of the Young Work of the League among them and should ers (Communist) League greets the invite them to meetings and socials correct position of the Central Com- of the League. Their personal contact with their comrades in the shops will enable them to do this.

They must develop a permanent and strong propaganda activity, and must utilize all political and economic Young Communist League.

How to Form Nuclei.

Where members of the League work in a shop, they must immediately begin to form a League nucleus, either by a first meeting of the comrades themselves, or if there exists such a possibility, by a meeting of the young workers in the shop. Altho this latter is more effective, usually the formation will have to be done in a smaller circle.

The District Committee plays a great part in the formation of a shop nucleus, for it must connect the various members in the shop, who are on the members working in the shops, it must provide speakers and organizers for the meetings where nuclei are to be formed. Everywhere the District Committee must participate personally in this work.

In One Member Shops. When there is only one, or even no member of the League working in a shop, we are first of all confronted with the task of winning two or three young workers inside the shop for our organization, and together with them

proceed to organize a nucleus. For this purpose, the respective commitamongst the young workers in the shop to one or more comrades. the members of the League, but also the outside young workers, because in this way, the formation of the nu-

For a Bolshevick Party With Uniform Ideology broken down the old divisions and the Party. We must make the aim

RESOLUTION ON THE PARTY SITUATION.

The beginning of the process of 1. Bolshevizing our Party has created a very critical situation for the Party. Certain right wing elements are opposing the reorganization of the Party and this attitude finds encouragement in the attack made by Lore and his followers against the C. I. and the party. Elements outside of the party counting on this situation, are encouraging those opposing the Bolshevization to leave the Party and to make a stand against the C. I. The Party for more than a year has been engaged in an inner factional struggle tion of the correct line of policy and leadership of the Party. The remnants of factionalism carried over from the pre-convention period have not yet been liquidated. This factional struggle while an expression of the growth of Communist understanding within the Party, has seriously affected the Party work among the broad masses of industrial work ers and exploited farmers, so that there has been an actual falling off of the effectiveness of the Party in mobilizing these masses for the class struggle against the capitalists. The policy followed by a section of the former majority under the leadership of Comrade Foster objectively leads away from the C. I. and thus provides a rallying point for the right wing of the Party. This policy, if not changed, will do great harm to the Party.

7 That section of the former Major-4. ity which supported the policy of Comrades Cannon, Dunne and others was right in making an energetic and determined struggle against the policles of Comrade Foster. In openly combatting the policy of Comrade Foster they gave a warning to the Party as to the direction in which this policy was leading. The struggle within the former majority group over the question of the relation of the Party, and the Party leaders to the C. I. has resulted in a definite and open split in the former majority group. This process is not, however, completed. Many comrades who at first followed the policy sponsored by Comrade Foster since the convention are beginning to change their course Continuous efforts must be made to clarify the situation in order to assist these comrades to completely adopt the platform of the C. I. and the

THE BASIS OF UNIFIED LEADERSHIP.

3. The former differences on politic-B. The trade union policy of the Party must be fundamentally revised the decisions of the Parity Commis- and our work in this field reorientated sion and the National Convention of according to the line laid down by ger any reason for political groupings ing tactics which oscillate between in the Party on the basis of former opportunism and leftism must be redifferences. The decision of the C. I. placed by sure and confident Leninist Party, the decision of the Party con- with the greatest flexibility to con-

of all those who follow and fight for Party situation requires the unificatheir attacks on the C. L. when the Socialists are gleefully speaking of the "disintegration" of the Communist movement in America, it becomes obligatory to effect the unification of the Party. It would be an error to maintain old factional groupings or to form new ones. This would weaken the struggle for unity and Bolshevization and would objectively strengthen the tendencies which are mobilizing to resist it. Under these conditions the interests of the Party imperatively demand the unification of all members of the Party who are for the C. I., and their united struggle for the Party and the C. I.

THE PARTY'S IMMEDIATE TASKS.

THE basis for the unification of the Party is a common energetic struggle to carry out the following

main tasks of the Party. A. Energetic support of the Bolshe vization of the Party thru (1) carrying thru the reorganization of the Party on the basis of shop nuclei and street nuclei (international branches) in the shortest possible time, (2) the organization and mobilization of the membership for work in the trade unions thru a campaign to have all the members of the Party become members of the trade unions and the systematic organization of active trade union fractions (3) an energetic struggle against the right wing and opportunistic deviations and as part of this struggle, the development of a systematic Marxist-Leninist education to raise the theoretical level of the Party (4) the C. E. C. will subject its policies and actions in all fields to constant review and criticism. This prerequisite to Bolshevization has not bee practiced by the Party up till

THE LABOR PARTY CAMPAIGN.

C. The struggle for a labor party must be again brought to the forefront of the Party work and for this plete unification of the League. purpose the Party must develop a program for 1926 election which will again mobilize the whole Party for a systematic campaign to achieve this purpose. The campaign for the defense of the Soviet Union against imperialism, among the Negro workers, work among the women, must be connected with the campaign for a labor party and must serve to create the sentiment for aid in the actual esta-

blishment of a labor party. WORK AMONG THE MASSES.

D. The great task before the Workers (Communist) Party at the present time is to unite the Party and mobilize all its forces for work in the class struggle. The energy of the Party members must be thrown into mass work in all fields. Activity among the masses as a prerequisite to Bolshevization must be drilled into the consciousness of every Party member The Party must fight with all its power and with every necessary strategy against the attempt to isolate it and throw its energy back upon itself. The Party must also conduct a resolute struggle against the tendency to construe "Party work" only in the sense of inner party work as well as against the tendency to make an artificial separation between mass work and inner Party work.

UNITE IN SUPPORT OF THIS PROGRAM,

ganization, for finances, for the dis-

The time of the meetings must dapend upon the local conditions. It must be either during the lunch hour, or immediately after work. Of course, if no other possibility exists, then it must be either later in the evening. or on Sunday. The shorter discussion can easily take place during the lunch hour, or right after work. The meetings during lunch hours, or right after work are particularly necessary for those localities where the workers live far from the place of work. If the workers live in the vicinity of the shops, then it is possible to have evening meetings.

Organizational Work of Nuclei. Recruiting-The nucleus must pay events to inform the young workers great attention to the permanent reof the opinions and slogans of the cruiting work. It must be well informed of the status of the young workers in the shop—if they are members of trade unions, of other organizations, etc. Basing itself upon this information, it must do its recruiting work. The winning of certain groups of young workers who may have influence upon others is important. The nucleus members must always be supplied with recruiting material by the committee.

The open nucleus meeting is an excellent method for gaining new members, and special meetings should be organized for this purpose. Personal contact and propaganda is also an imsometimes unknown to each other. It portant aspect of recruiting. Our must give the branches information comrades must make it their business to be the best friends of the young workers in the shops, and be able to influence them.

Collection of Dues.

The members of the nucleus must pay their dues in the shop. Experience has shown that this is the best means of collecting dues. The collectica-of dues can take place at the most favorable time, that is on the day when the young workers get paid.

Finances of Nucleus.

The receipts from dues alone will not be sufficient to pay the expenses of the nucleus. With the growth of tee may give the task of working the nucleus, the expenses will increase and broaden, and it is therefore essential that the treasury be It is better after the necessary pre- managed efficiently. The head of the Military Training Department of N. Y. U. has come to the rescue of the sorely pressed militarists of City College. His defense is that the objectionable features of the manual are only for use of soldiers actually training for war, and are omitted from the R. O. T. C. courses. Every student knows that this is not features may be omitted, but there calumny against the first Workers' are enough left to make every student Republic. disgusted with them.

Does Col. Langdon deny that the officers teach that "every red-blooded American will take to the use of the bayonet;" that they openly boast that during the war, the American soldiers their aim is to arouse the brutal inmake them more accessible to militarist propaganda? Many times, has the sergeant taught the use of the bayonet. He has always advised to "stick the enemy in the throat" as that is the most vulnerable part. He has advised against "sticking him in the guts" because he will collapse and the bayonet will become entangled and thus make it hard to withdraw.

Nevertheless, if it does become entangled, "put your foot on him, and jerk it out." I can also testify from personal experience that the sergeants, in their endeavor to show just how good they are, actually take up practically all the instructions on killing, whether that is part of the
